PART I A

Orders and Notifications by the Government of India, &c

[Reprinted from the "Gazette of India"]

The following orders, issued by the Government of India in the Home Department, are published for general information

O W BORTON,
Chief Secy to the Govt of Bengal

NOTIFICATIONS

PUBLIC

Simla, the 30th June 1899

No 1403 —In accordance with the provisions of section 18, sub section (1), of the Indian Explosives Act, 1884 (IV of 1884), and with the directions contained in the Notification of the Government of India in the Home Department, No 1964 dated the 2nd September 1887, the Governor General in Council is pleased to publish, for general information, the following draft of a proviso which it is proposed to add to Rule 2—III (e) of the rules to regulate the transport and importation of explosives published with the Notification of the Government of India in the Home Department, No 1393, dated the 8th July 1897

The draft will be taken into consideration after the 15th of August 1899

DRAFT

"Provided that, in the case of detonators, the following further rules shall also be observed, namely

- (a) The detonators and the spaces between the same and between the same and the sides of the inner package shall all be filled, as far as practicable, with fine sawdust or other similar material. A layer of cotton wool or other soft elastic material shall be placed between both ends of all the detonators and the interior of the inner package in which the same are placed in such manner and so secured that both ends of the detonators will rest upon the said cotton wool or other material. Every inner package, if of metal, shall be lined throughout with paper or other soft material
- (b) Where the number of detonators packed for conveyance exceeds in all one thousand (1,000), or such greater number as may from time to time be assigned with the consent of, and under conditions approved by, an Inspector of Explosives, all the inner packages as aforesaid shall be placed inside a substantial case of wood or metal made and closed so as to prevent any of the inner packages escaping therefrom, and the case shall be placed inside such outer package as is required by the above general rule relating to the packing for

conveyance of explosives of the 3rd division of the 6th (ammunition) class, in such manner and so secured as to leave a clear space of not less than three inches between every part of the interior of the said outer package, notwithstanding that such clear space may, if preferred, be filled with sawdust, straw, or other similar material or may contain a light framework or battens of wood to keep the case aforesaid in position in the outer package "

No 1431—In exercise of the power conferred by section 27, clause (b), of the Indian Arms Act 1878 (XI of 1878), the Governor General in Council is pleased to cancel so much of the Notification of the Government of India in the Home Department, No 2356 dated the 31st December 1879, as exempts the Mahal of Angul in the Lower Provinces of Bengal from the operation of the prohibitions and directions contained in sections 13 and 14 of the said Act

Plague

The 28th June 1899

No 2047—The following telegram from Her Britannic Majesty's Ambassador at Constantinople to His Excellency the Viceroy, dated the 22nd June 1899, is published for general information—

Twelve days quarantine on departures from Egyptian ports since June 21st

The 30th June 1899

No 2075—The following notices of the Board of Trade are published for general information

(F & H 8177)

Board of Trade (Fisheries and Harbour Department), London, June 1, 1899

The Board of Trade have received through the Secretary of State for the Colonies, the following Notice respecting quarantine issued by the Governor of Malta, viz

No 154—Government Notice

His Excellency the Governor, having heard the opinion of the Board of Health has been pleased to modify Government Notice No 138 of the 16th May 1899, and to direct that the following regulations be observed viz—

1 Vessels which are not allowed to enter the Harbour, but are allowed to communicate in quarantine with the Islands of Comino and Cominotto under such restrictions as the Collector of Customs may direct

(a) Vessels that have on board, or have had during the voyage cases of cholera, yellow fever or plague, or cases of a disease with symptoms resembling those of cholera yellow fever or plague

(b) Vessels with pilgrims from the East

(c) Vessels arriving from Arabian ports in the Red Sea and the Persian Gulf which have not been admitted to free pratique at Suez and Port Said.

2 Vessels which are allowed to enter the Quarantine Harbour to coal and take in provisions under quarantine restrictions.

(a) Vessels arriving from Egyptian and Indian ports without a clean bill of health which have not been admitted to free pratique in a port in the Adriatic or Mediterranean Sea, or which have not, to the satisfaction of the Chief Government Medical Officer, been thoroughly disinfected before being admitted to free pratique at the said port

(b) Vessels arriving from any port without a clean bill of health, which do not fall under any of the preceding regulations

Vessels without a clean bill of health that carry a doctor may complete a period of ten days quarantine reckoned from date of departure, either at sea or at the anchorage of Comino, before being admitted under the same conditions as arrivals from Bombay

3 Medical Inspection

All vessels arriving at Malta shall undergo strict medical inspection

4 Passengers

- (a) Passengers arriving from Bombay, Karachi, and passengers from Calcutta on board vessels that do not carry a doctor, shall be landed in one of the quarantine establishments where they will be subjected to strict medical inspection until their clothing and all other articles of personal use, likely to retain infection, shall have been thoroughly disinfected.
- (b) Passengers arriving from Calcutta on board vessels that carry a doctor and that have been admitted to free pratique at Suez, shall be permitted to land, but no luggage shall be landed before it is disinfected in one of the quarantine establishments.

5 Goods.

The importation of coffee, beans or ground, coloured with substances injurious to health, is prohibited.

The importation of cotton seed from any port subject to quarantine is forbidden.

The importation of rags is prohibited.

The importation is forbidden, before disinfection, of the following articles, viz wearing apparel, soiled linen and clothing, bedding materials, feathers, bones, and jute goods.

The importation of hides from any port subject to quarantine, or from any place where cattle-disease exists, is prohibited before disinfection.

The importation of vines, vine shoots and fruit packed in vine leaves, is prohibited. The importation of plants or roots from any port of the Mediterranean is prohibited unless the same are accompanied by a satisfactory certificate that Phylloxera is not known to exist at the place of origin.

By command,

G STRICKLAND,

Chief Secretary to Government

Palace Valletta, May 23, 1899

(F & H 8503)

Board of Trade (Fisheries and Harbour Department), London, June 6, 1899

The Board of Trade have received, through the Secretary of State for Foreign Affairs the following copy of a Notice issued by the Bulgarian Government, viz —

Circulaire No 5714

Ministère des Affaires Étrangères et des Cultes

Sofia, le 10 (22) Mai, 1899

Le Ministère des Affaires Étrangères a l'honneur d'informer l'Agence Diplomatique de Sa Majesté Britannique que, sur l'avis du Conseil Médical Supérieur de la Principauté, le Département de l'Intérieur a édicté les mesures quaranténaires suivantes :

1 L'importation en Bulgarie des sacs venant directement des Indes est interdite.

2 Les sacs venant des Indes et qui auraient été transbordés sur un autre navire dans un port européen quelconque, ne peuvent être importés en Bulgarie qu'après avoir subi la désinfection.

3 Les sacs venant des Indes et qui sont accompagnés de certificats prouvant qu'ils ont subi une désinfection par la vapeur dans un port européen quelconque, peuvent être importés sans désinfection.

4 Est interdite l'importation en Bulgarie des vieux habits, chiffons, habits sales, couvertures, vieux sacs ayant servi, vieux papiers sales et journaux ayant servi, et toute sorte de papier imprimé sale destiné à envelopper et autres objets ayant servi, venant des localités contaminées par la peste.

5 Les vieux objets énumérés dans le § précédent et venant des localités non contaminées, ne peuvent être importés dans la Principauté qu'après désinfection.

A l'honorable Agence diplomatique et Consulat Général

de Sa Majesté Britannique, Sofia

NOTE 1.—For previous rules of the Government of Malta see Home Department Notification N 1067 dated the 11th May 1899 (published in Part I of the *Gazette of India* of the 18th of the same month).

NOTE 2.—For previous rules relating to Bulgaria see Home Department Notifications Nos 78111th 26th February 1897 No 932, dated the 12th March 1897, and No 1545 dated the 21st May 1899 (published in the *Gazette of India* Part I of the 27th February 1897 18th March 1897 and 22nd May 1897).

ECCLESIASTICAL

The 30th June 1899

No 275—The following rule is to be substituted for Rule XX, Part I of the rules for the care and use of Government cemeteries, published in Home Department Notification No 178, dated the 21st May 1897—

Rule XX—When a monument needs repairing, the officer in charge of the cemetery should communicate with the friends of the deceased, or when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*, and if it falls into a ruinous condition, and no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order, provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved

Note—(1) This rule does not apply to monuments of historical or archaeological interest. Lists of such tombs should be obtained by Local Governments and Administrations and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department

(2) The cost of the advertisements in the *Gazette* is met by the Government.

(3) A person desiring to erect a monument over a grave is required to pay into the Treasury a sufficient sum of money to be invested in Government securities so that the interest on it will be sufficient to cover the cost of repairs annually. The foregoing rules shall apply *mutatis mutandis* to railings round graves which shall not be constructed until the requisite sum has been paid to cover the cost of repairs

Explanation.—It is optional with a person proposing to erect a simple cross head-stone or slab consisting of a single stone over an adequate foundation to pay the endowment fee for its maintenance and repairs. The optional endowment fee may be paid at any time after the erection of the stone. The State will defray the cost of keeping in repair simple crosses head stones or slabs erected by or over the graves of British soldiers and non commissioned officers

* THE CANTONMENT CODE, 1899

CHAPTER I

PRELIMINARY

Short Title

- 1 These rules and applied enactments may be called the Cantonment Code 1899
- Short title

General Definitions

- 2 (1) In this Code unless there is anything repugnant in the subject or context —
- Definition

- (a) 'Accountant General' means the Civil Accountant General or Comptroller
- (b) 'bazar' means any land in a cantonment which has been set apart for the purposes of trade or the residence of natives or any other purpose and the boundaries of which have been demarcated by pillars or posts and specified by or under the authority of the General Officer of the Command, in Command Orders
- (c) 'Command' means one of the principal portions into which the Army in India is, for the time being divided
- (d) 'dairy' includes every farm, shed, milk store, milk shop or other place from which milk is supplied or in which milk is kept for purposes of sale
- (e) 'dairyman' includes the keeper of a cow, buffalo, goat or other animal the milk of which is offered, or intended to be offered for sale for human consumption, any purveyor of milk and any occupier of a dairy
- (f) 'Executive Engineer' means the Public or Military Works officer of that grade having charge of the military works in the cantonment and includes the officer of whatever grade, in immediate executive engineering charge of a cantonment
- (g) 'General Officer of the Command' means the General Officer Commanding the Forces in the Command
- (h) 'infectious or contagious disorder' includes cholera, leprosy, enteric fever and every infectious or contagious disorder other than a venereal disease
- (i) 'keeper of a sarai' includes the owner of a sarai, any person having the care or management of a sarai and the lessee of any land, whether belonging to the Government or not, occupied by a sarai
- (j) 'lessee' means a person who has been granted permission, whether before or after the commencement of this Code, to occupy for the purposes of a building site, land belonging to the Government in a cantonment, and includes the successors in interest of a lessee
- (k) 'licensed market' means a private market licensed by the cantonment authority
- (l) 'licensed slaughter house' means a private slaughter house licensed by the cantonment authority
- (m) 'market' means a place in a cantonment where persons periodically assemble for purposes of selling meat, fish, fruit, vegetables, milk or any other perishable articles of food for human consumption
- (n) 'notification' means a notification in the local official Gazette
- (o) 'notified' means published by notification
- (p) 'private market' means a market not maintained by the cantonment authority
- (q) 'private slaughter house' means a slaughter house not maintained by the cantonment authority
- (r) 'public market' means a market maintained by the cantonment authority
- (s) 'public slaughter house' means a slaughter house maintained by the cantonment authority
- (t) 'regimental bazar' means a bazar under the management of regimental authorities
- (u) 'Sanitary Officer' means where no Sanitary Officer has been specially appointed the senior executive Medical Officer in military employ on duty in a cantonment
- (v) 'sarai' means a building in a cantonment ordinarily used, whether wholly or in part, for the accommodation of native travellers and not maintained by the cantonment authority
- (w) 'slaughter house' means a place in a cantonment ordinarily used for the slaughter of animals for the purpose of selling the flesh for human consumption
- (x) 'source of public water supply' includes every public well, tank, river, stream, spring, channel, reservoir or other source in a cantonment from which water is or may be made available for public use, whether or not it is used for the purposes of water works, and also every source of water supply situated on private premises to the use of which the public is entitled
- (y) 'street' includes any way, road, lane, square, court, alley, passage or open space in a cantonment, whether a thoroughfare or not and whether built upon or not, over which the public have a right of way, and also the roadway and footway over any bridge or causeway, and

39 (a) "treasury" means the Government treasury or sub treasury, or the bank or place prescribed by or under section 22 of the Cantonments Act, 1889, for the custody of the cantonment fund of a cantonment

(2) Where any question arises as to whether a building is or is not a sarai or a place is or is not a slaughter house, it shall be decided by the cantonment authority and the decision of the cantonment authority thereon shall be final and conclusive

CHAPTER II

CANTONMENT COMMITTEES AND CONTROL

Constitution

3 (1) In every cantonment with respect to which the Local Government has determined that a cantonment committee is to be constituted the cantonment committee shall ordinarily consist of the following members namely

- (a) the Commanding Officer of the cantonment or where he is the Officer Commanding the District, the officer who would succeed to the command of the cantonment during his temporary absence
- (b) any Magistrate of the first class, being also a Justice of the Peace appointed by the District Magistrate to represent him
- (c) such Commanding Officers in the cantonment as may be appointed in Station Orders to be members
- (d) the Cantonment Magistrate
- (e) the Sanitary Officer
- (f) the Executive Engineer and
- (g) the District Superintendent of Police

(2) The Commanding Officer of the cantonment or, where he is the Officer Commanding the District the officer who would succeed to the command of the cantonment during his temporary absence shall be the President and the Cantonment Magistrate shall be the Secretary, of the committee

(3) If the President is absent from any meeting the next senior combatant officer present shall preside on that occasion

4 The General Officer of the Command may, by order in writing appoint any residents of the cantonment, whether officials or non-officials, to be additional members of the cantonment committee for such period as may be stated in the order

5 The cantonment committee (if any) shall discharge the functions of the cantonment authority under this Code

6 (1) The Governor General in Council, after consultation with the Local Government and the General Officer of the Command, may, by notification, direct in respect of any cantonment in which a cantonment committee has not been constituted or has ceased to exist or cannot be convened that any of the functions of the cantonment authority under this Code—

(a) shall be in abeyance or

(b) shall, with such modifications as may be prescribed in the notification be discharged by the Commanding Officer of the cantonment

(2) Subject to any notification for the time being in force under sub section (1) the Commanding Officer of any such cantonment as aforesaid may discharge any of the functions of the cantonment authority under this Code

Meetings of Cantonment Committee

7 (1) The cantonment committee (if any) shall meet for the transaction of business once at least in every month and at such other times as the President may direct

(2) The time and place of each meeting shall be announced in Station Orders, and shall be communicated to each member by a notice in writing issued by the Secretary

(3) Every notice issued under sub section (2) shall—

(a) unless the President in any case otherwise directs, be issued so as to reach each member three clear days before the meeting takes place and

(b) be accompanied by an agenda paper specifying the business to be transacted at the meeting

(4) The President may permit the consideration of any business not specified in the agenda paper as aforesaid unless a majority of the members require its postponement to a later meeting

(5) The President may by order in writing, adjourn any meeting to any date to be fixed by the order

8 No business relating to the imposition, abolition or modification of any tax shall be transacted at a meeting unless at least six clear days notice in writing of the date fixed therefor has been given

9 No business shall be transacted at a meeting unless there are present, in addition to the President,—

(a) three members of the committee, or

(b) half the total number of members,

whichever number is the greater

10 (1) Minutes of the proceedings at each meeting shall be recorded in a book, shall be signed by the President, and shall, at such times and in such place as shall be fixed by the cantonment committee, be open free of charge to the inspection of any inhabitant of the cantonment

(2) A copy of the minutes shall, as soon as possible after each meeting be forwarded for the information of the District Magistrate

11 Every meeting shall be open to the public, unless in any case the President for reasons to be recorded in the minutes otherwise directs

12 (1) All questions coming before a meeting, decided by majority shall be decided by a majority of the votes of the members present and voting

(2) In the case of an equality of votes, the President shall have a second or casting vote

(3) The dissent of any member from any decision of the cantonment committee with an abstract of the grounds therefor, shall, if the member so requests, be entered by the Secretary in the minutes

Control

13 (1) If the President dissents from any decision of the cantonment committee he may, for reasons to be recorded in the minutes, by order in writing direct the suspension of action thereon for any period not exceeding one month and, if he does so, he shall forthwith refer the matter to the Officer Commanding the District

(2) If the District Magistrate considers any decision of the cantonment committee to be prejudicial to the public health, safety or convenience he may, whether on a report made by the Magistrate representing him on the cantonment committee or otherwise, after giving notice in writing of his intention to the President, refer the matter to the Local Government through the Commissioner (if any) of the Division and the President shall on receipt of such notice, direct the suspension of action on the decision pending the disposal of the reference to the Local Government and shall forthwith report the matter to the General Officer of the Command through the Officer Commanding the District

(3) If the Magistrate appointed to represent the District Magistrate on the cantonment committee is present at a meeting and dissents from any decision which he considers prejudicial to the public health, safety or convenience, he may, for reasons to be recorded in the minutes and after giving notice in writing of his intention to the President, refer the matter to the District Magistrate and the President shall on receipt of such notice, direct the suspension of action on the decision for a period sufficient to admit of the District Magistrate being communicated with and taking proceedings as provided by sub section (2)

14 (1) The Officer Commanding the District Controlling powers of may, by order in writing, the Officer Commanding the District

(a) call for any book or document in the possession or under the control of the cantonment authority

(b) require the cantonment authority to furnish such statements accounts, reports and copies of documents relating to its proceedings or duties as he may think fit

(c) require the cantonment authority to furnish plans and estimates for all works to be constructed out of the cantonment fund at a cost exceeding five hundred rupees, and to conform to such directions as he may think fit to give with respect to the superintending authority by whom such works shall be approved and

(d) direct that any matter or any specific proposal other than one which has been referred to the Local Government under section 13, sub section (2) be brought before the cantonment committee

(2) The Officer Commanding the District may, by a like order,—

(e) direct the suspension for such period as may be stated in the order, of action on any decision of the cantonment committee which has not been referred to him under section 13, sub section (1) or

(f) when any decision of the cantonment committee has been referred to him under section 13 sub section (1), either—

(i) cancel the order given by the President directing the suspension of action, or

(ii) extend its duration for such period as may be stated in his order, or

(iii) declare the modifications with which the decision may be carried into effect by the cantonment committee

(3) When the Officer Commanding the District directs the suspension of action on any decision of the cantonment committee or extends the duration of any order of suspension, he shall forthwith refer the matter to the General Officer of the Command

15 The General Officer Controlling powers of General Officer of the Command of the Command may, by order in writing —

(a) exercise any of the powers conferred by section 14, sub section (1) on the Officer Commanding the District

(b) direct the suspension for such period as may be stated in the order, of action on any decision of the cantonment committee which has not been reported to him under section 13, sub section (2), or referred to him under section 14, sub section (3), or

(c) when any decision of the cantonment committee has been referred to him

under section 14, sub section (3), either—

- (i) cancel the order given by the President or the Officer Commanding the District, as the case may be, directing the suspension of action, or
- (ii) extend the duration of the order for such period as may be stated in his order, or
- (iii) declare the modifications with which the decision may be carried into effect by the cantonment committee

16 When any decision of the cantonment committee has been referred to the Local Government under section 13, sub section (3), the Local Government shall consult the General Officer of the Command and may then, by order in writing either—

- (a) cancel the order given by the President directing the suspension of action or
- (b) extend its duration for such period as may be stated in its order or
- (c) direct that no action be taken on the decision or
- (d) declare the modifications with which the decision may be carried into effect by the cantonment committee

CHAPTER III

THE CANTONMENT MAGISTRATE AND CANTONMENT SERVANTS

Cantonment Magistrate

17 (1) The Cantonment Magistrate shall be the executive officer of the cantonment authority, and all orders of the cantonment authority shall be issued through him

(2) The Cantonment Magistrate shall see that all orders of the cantonment authority are duly obeyed

(3) The Cantonment Magistrate shall, as far as practicable, keep a record of every final order issued by him in his official capacity

Cantonment Servants

18 (1) With the previous sanction of the General Officer of the Command and subject to the provisions of sections 30 and 33 and to the control over the cantonment fund which is vested in the Local Government by section 23 of the Cantonments Act, 1889, the cantonment authority shall fix the number and salaries of the servants to be employed by it

(2) Every alteration in the number of such servants or in their salaries shall be subject to the sanction and control aforesaid

Provided that temporary servants may, in cases of emergency and if funds are available, be employed without such sanction for any period not exceeding three months

Explanation—Nothing in this section shall be deemed to apply to the police employed in a cantonment beyond the limits of a Presidency town,

or to affect the provisions relating to the employment and constitution of the police force of—

- (a) the Cantonments Act, 1889, section 12 XIII of 1889.
- (b) Act XXIV of 1859, section 8 V of 1861
- (c) the Police Act, 1861 section 2 Bo Act VII of 1867
- (d) the Bombay District Police Act, 1867 section 3
- (e) Bengal Act VII of 1869 III of 1888
- (f) the Police Act 1888 and Bo Act IV of 1890
- (g) the Bombay District Police Act 1890 section 4

19 The Cantonment Magistrate shall maintain such public register of menial servants of cantonment authority by the cantonment authority as may be instituted by that authority

20 The Cantonment Magistrate shall—

- (a) appoint all servants required by the cantonment authority
- (b) apportion control and superintend the performance of the duties of all such servants,
- (c) disburse the salaries of all such servants and
- (d) deal with applications from such servants for leave of absence

Provided that no person shall be appointed under this section who has been dismissed for misconduct from employment under any other cantonment or local authority or any Department of the Government

21 The Cantonment Magistrate may for reasons to be recorded by him in writing suspend, dismiss or reduce to a lower grade or salary any servant of the cantonment authority

Provided first that no fine so imposed shall exceed one week's salary of the servant fined

Provided, secondly, that the Cantonment Magistrate shall submit to the cantonment authority a monthly list of all such fines, suspensions, dismissals and reductions and

Provided thirdly, that the Cantonment Magistrate shall not dismiss any servant whose salary is not less than twenty five rupees a month without obtaining the previous sanction of the cantonment authority

22 Whoever obstructs or molests any person employed by the cantonment authority (not being a public servant within the meaning of section 21 of the Indian Penal Code) or any person with whom the cantonment authority may have lawfully contracted,

in the performance and execution of his duty or of anything which he is empowered or required to do by virtue or in consequence of any of the provisions of this Code shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees

XLV of 1860

23 (1) In the absence of a written contract to the contrary, every sweeper employed by the cantonment authority shall be entitled to one month's notice before discharge or to one month's wages in lieu thereof, unless he is discharged for misconduct or was engaged for a specified term and discharged at the end of it.

(2) Whoever being a sweeper employed by the cantonment authority in the absence of a written contract authorizing him so to do and without reasonable cause resigns his employment or absents himself from his duties without giving one month's notice to the cantonment authority, or neglects or refuses to perform his duties or any of them shall be punishable with imprisonment for a term which may extend to two months.

(3) The Local Government may by notification direct that on and from a date to be specified in the notification the provisions of this section with respect to sweepers shall apply also to any specified class of servants employed by the cantonment authority whose functions intimately concern the public health or safety.

24 (1) The Cantonment Magistrate shall require every servant of the cantonment authority who is entrusted with the receipt, custody or control of moneys or securities for money to furnish security for the due discharge of his office to such amount as the cantonment authority may determine.

(2) No security shall be accepted other than a deposit of—

- (a) cash or
- (b) Government securities, or
- (c) shares in the Bank of Bengal the Bank of Madras or the Bank of Bombay, or
- (d) debentures or other securities for money issued by or on behalf of a local authority.

25 On or about the first day of January in each year the Cantonment Magistrate shall submit to the cantonment authority a report as to the sufficiency of the security furnished by or on behalf of its servants.

26 The Cantonment Magistrate shall deal in the manner prescribed in the Civil Account Code with all moneys and securities deposited as security by or on behalf of servants of the cantonment authority or persons who have entered into contracts with the cantonment authority.

Provided that no such moneys or securities as aforesaid shall be delivered up,—

- (a) if deposited by or on behalf of a servant of the cantonment authority until after the lapse of such time after the death of, or the vacation of his office by, such servant as the cantonment authority may direct, or,
- (b) if deposited by or on behalf of a contractor, then, in the absence of any

condition in the contract to the contrary, until after the lapse of such time after the completion of the contract to the satisfaction of the cantonment authority as that authority may direct.

CHAPTER IV

CANTONMENT FUND

Credits to Fund

27 There shall be placed to the credit of the cantonment fund the following sums namely

- (a) all sums directed by section 21 sub section (1) of the Cantonments Act 1889, XIII of 1889, or by or under any other enactment for the time being in force to be placed to the credit of that fund and
- (b) all grants in aid and other sums received by the cantonment authority in aid of that fund.

28 (1) The Secretary to the Government of India in the Military Department shall from time to time intimate to the General Officer of the Command the annual sum (if any) which will from time to time be placed at his disposal by the Government of India as a grant in aid to the cantonment funds in his Command.

(2) The General Officer of the Command shall distribute the said sum among the said cantonment funds in such proportions as he may think fit.

Application of Fund

29 (1) The cantonment fund may be applied to the following purposes within the cantonment namely

- (a) the payment of any expenses directed by or under any enactment for the time being in force to be debited to the fund
- (b) the maintenance of the police force employed in the cantonment, including charges of every description required for the efficient discharge of the duties of that force therein
- (c) the provision and maintenance of an office for the cantonment authority
- (d) the payment of the salaries of the cantonment establishment
- (e) the survey of buildings and lands
- (f) the management and improvement of lands and other property placed by the Government under the management of the cantonment authority including—
 - (i) the construction and maintenance of streets (other than those maintained from Imperial or Provincial funds),
 - (ii) the lighting, watering and cleansing of streets, and
 - (iii) the maintenance of public parks and gardens and the planting and tending of trees,
- (g) the provision and maintenance, or the aid, of hospitals, dispensaries and schools,
- (h) the provision and maintenance of public markets and slaughter-houses,

(j) the carrying out of a proper system of conservancy throughout the cantonment for all its inhabitants other than classes of troops for whom conservancy is provided from public revenues other than the cantonment fund including—

- (i) the pay of the public conservancy establishment,
- (ii) the construction of public latrines and other conservancy works and
- (iii) the purchase of all necessary conservancy carts, utensils and other appliances

(k) the carrying out of a proper system of water supply and drainage and of other sanitary measures including public vaccination and the prevention of the spread of infectious or contagious disorders, and generally the maintenance of the cantonment in a thoroughly sanitary condition

(l) the burial, burning or other lawful disposal of the corpses of paupers and unknown persons

(m) the abatement of nuisances

(n) the taking of a census, and

(o) generally the payment of all expenses incurred under this Code or any other rule or law for the time being in force

(2) The cantonment fund may, with the general or special sanction of the Local Government, be applied to any of the purposes referred to in subsection (1), within or without British India, beyond the limits of the cantonment, in cases in which, in the opinion of the Local Government, the application of the fund beyond those limits is for the benefit of the inhabitants of the cantonment or of any military force or detachment ordinarily quartered therein

Estimates and Sanctions

30 No money shall be paid from the cantonment fund unless the

Money not to be paid unless expenditure sanctioned

expenditure is either—

(a) provided for in the sanctioned budget estimate, or by re appropriation under section 33, or

(b) sanctioned by the Local Government after consultation with the General Officer of the Command, and

(c) in the case of expenditure on Public Works unless detailed estimates have been prepared and sanctioned

31 The cantonment authority shall, under the direction of the General Officer of the Command, be responsible for administering the funds provided in the sanctioned budget estimate or sanctioned under section 30, clause (b)

32 (1) On the first day of June in each year, or on such other date as the General Officer of the Command may direct the cantonment authority shall submit to the Officer Commanding the District a budget estimate of the receipts (including any grant in aid) into, and expenditure from, the cantonment fund for the ensuing financial year

(2) The budget estimate shall be framed in accordance with Form 8 in Schedule I, or in such other form as may from time to time be prescribed by the Comptroller General with the previous sanction of the Governor General in Council

(3) The Officer Commanding the District may revise the budget estimate, and shall submit it to the General Officer of the Command

(4) The General Officer of the Command may further revise the budget estimate and shall submit it to the Local Government through the Accountant General by the twentieth day of November in each year

(5) The Local Government may sanction the budget estimate, with or without modification

(6) The sanction of the Local Government to the budget estimate shall be communicated by it to—

(a) the Accountant General and

(b) the General Officer of the Command for intimation to the Officer Commanding the District and the cantonment authority

Re appropriation 33 (1) The cantonment authority may —

(a) with the previous sanction of the General Officer of the Command re appropriate any sum from one major head of the budget estimate to another or

(b) with the previous sanction of the Officer Commanding the District re appropriate any sum from one minor head or sub head of the budget estimate to another minor head or sub head under the same major head

Provided that no allotment to any major head shall, by re appropriation be varied by more than ten per cent of its original amount, except with the previous sanction of the Local Government also

(2) A copy of every order made under subsection (1) shall be sent by the General Officer of the Command or the Officer Commanding the District, as the case may be, to the Accountant General

Payments

34 (1) Every claim for payment from the cantonment fund shall be supported by a voucher, duly receipted and (if necessary) stamped and shall be presented—

(a) to the President of the cantonment committee, or,

(b) if so directed by the General Officer of the Command, to the Secretary to the cantonment committee or,

- (c) where there is no cantonment committee, to the Commanding Officer of the cantonment

() The Resident Secretary or Commanding Officer, as the case may be, shall check and examine every claim presented under sub section (1), and if it is found correct and is supported by a voucher as aforesaid shall sign an order for the payment thereof

(3) If payment is to be made from the imprest the order for payment shall be Pay in cash rupees (in words) and if payment is to be made by cheque the order shall be Pay by cheque No , dated , rupees (in words) the blanks being filled up when the cheque is signed

Payments how to be made 35 Payment shall be made —

- (a) if the sum to be paid does not exceed twenty rupees in cash and
(b) if the sum to be paid exceeds twenty rupees, by cheque

36 (1) Money may be drawn from the cantonment fund only by means of a cheque written in Form 4 in Schedule I

() Every cheque shall be signed as follows

- (a) where there is a cantonment committee,—

(i) if the sum to be paid does not exceed one hundred rupees by the Secretary or

(ii) if the sum to be paid exceeds one hundred rupees, by the President

- (b) where there is no cantonment committee by the Commanding Officer of the cantonment

(3) Cheques drawn in favour of a Government officer shall be made payable to order, and cheque drawn in favour of any other person shall be made payable to bearer

(4) All cheque forms shall be bound in books with counterfoils

(5) Every cheque book shall bear a number and each officer authorized by sub section (2) to sign cheques shall notify to the treasury the number of the cheque book which he from time to time brings into use

(6) On each cheque form there shall be entered the number of the cheque book in which the form is contained, and a consecutive number

(7) There shall be noted on the outside of each cheque book an order for its personal custody under lock and key by the officer who is authorized to use the book for the purpose of signing cheques and when such officer is relieved, he shall take a receipt for the number of cheque forms made over to the relieving officer and shall send to the treasury specimen of the signature of the relieving officer

(8) No cheque shall be current for more than three months from the date on which it was drawn After the expiration of that period payment will be refused at the treasury, and it shall be necessary for the person in whose favour the cheque was drawn, to return it In the

event of a cheque being so returned, no fresh cheque will be issued but the lapsed cheque shall be re dated and the alteration initialled by the officer whose duty it would be, under sub section (2), to sign the cheque, a note of the fact of re dating being entered in the register of payments against the original transaction

37 (1) The cantonment authority shall, where it has not already done so, draw from the treasury a sum not exceeding fifty rupees, to form an imprest for the purpose of meeting petty payments

(2) The amount of petty payments met out of the imprest shall be recouped by cheque on the last day of each month, and if necessary, during the month also, so that the full amount of the imprest, plus any sum received too late for remittance to the treasury on the last day of the month shall always be shown in the monthly accounts as being in the hands of the cantonment authority

38 Overdrafts on the cantonment fund shall be allowed only if sanctioned by the General Officer of the Command and also by the Local Government

Receipts

39 (1) All moneys received for credit to the cantonment fund shall be entered in a register of receipts, to be kept in Form 1 in Schedule I and, with the exception of grants in aid and fines, shall be acknowledged by receipts in Form 2 in the said schedule

(2) All receipts granted by way of acknowledgment under sub section (1) shall bear printed numbers in a consecutive series, and the number of every receipt so granted shall be entered in the second column of the register of receipts

40 The cantonment authority shall be responsible for making such arrangements as will secure—

- (a) that all moneys received for credit to the cantonment fund are duly brought to credit in the accounts

- (b) that all moneys so received, with the exception of grants in aid and fines, are duly acknowledged by receipts in the form prescribed by section 39 and

- (c) that, whenever a receipt is given, the foil and counterfoil are duly filled up

Account of the Imprest

41 An account of the imprest shall be kept in an imprest register in Form 6 in Schedule I, and the expenditure recorded in it shall be entered in a register of payments, to be kept in Form 5 in the said schedule, when a bill for the recoupment of the amount is made out and the amount is drawn from the treasury by cheque

Bills for Expenditure

42 (1) Every item of expenditure shall be entered in a bill of one of the following kinds, namely

- (a) an establishment pay bill—for the pay of members of the cantonment establishment
- (b) a travelling allowance bill—for the travelling allowances of members of the cantonment establishment or
- (c) a contingent bill—for all charges other than the pay and travelling allowances of members of the cantonment establishment

(2) Every establishment pay bill and every travelling allowance bill shall be prepared in the form for the time being prescribed by the Civil Account Code

(3) Every contingent bill shall contain full details of the charges incurred

43 (1) Claims for supplies or services by contractors or tradesmen shall be paid on bills presented by them

(2) Where any such claim as aforesaid is paid by cheque, the payment shall be at once entered in the register of payments and, where it is paid in cash, the payment shall be entered in the imprest register

(3) Where a contractor or tradesman presents his bill in the vernacular a brief abstract shall be indorsed thereon in English, stating the amount the name of the payee and the nature of payment in the terms prescribed by Article 9 (b) of the Civil Account Code

44 (1) All petty charges to be met from the imprest shall be entered in bills prepared in the form for the time prescribed by the Civil Account Code

(2) Such bills as aforesaid shall be supported,—

(a) in the case of a payment for a telegram or of any other sum exceeding ten rupees, by the original voucher on which the payment was actually made and,

(b) in other cases by a certificate that the receipts of the payees have, as far as possible been obtained, and have been so destroyed, defaced or mutilated that they cannot be used again

(3) The certificate referred to in clause (b) of sub section (2) shall be signed by the Secretary to the cantonment committee, or if there is no cantonment committee, by the Commanding Officer of the cantonment

45 (1) All charges incurred by the cantonment authority and paid by cheque shall be entered in bills prepared in the form for the time prescribed by the Civil Account Code

(2) The following certificate shall be recorded at the foot of every such bill and signed by the Secretary to the cantonment committee or, if there is no cantonment committee, by the Commanding Officer of the cantonment name ly —

I certify that the expenditure charged in this bill could not with due regard to the interests of the cantonment be avoided. I have satisfied myself that the charges entered in this bill have really been paid

(3) In the case of expenditure on Public Works the usual completion certificate shall be furnished

Entry of Cheques in Accounts

46 All payments made by cheque shall be entered in the register of payments, the vouchers being numbered in a monthly consecutive series

47 Where a cheque is cancelled, the amount thereof shall be deducted from the expenditure by a minus entry in the appropriate column of the register of payments. The deduction shall then pass into the cash book through the daily total of payments carried into it

Accounts and Returns

48 The cantonment authority shall keep a cash book in Form 7 in Schedule I. The cash book shall be balanced monthly, and the balance shown in it reconciled with that shown in the pass book to be kept in Form 3 in the said schedule, as follows —

Balance as per pass book

Add—

Amount of imprest	
Money received too late for remittance to treasury	

Total	_____

Deduct—Outstanding cheques as per details below—

Balance as per cash book

Cheques outstanding on -		
No	Date	Amount

49 (1) In the registers of receipts and payments the amounts sanctioned in the budget estimate for the year shall be entered at the top of the columns for the heads for which separate estimates are made

(2) Where during the year or in any revised estimate which may be sanctioned for the year, any addition to or alteration in the budget estimate is made such addition or alteration shall be noted in the appropriate register in red ink, with a plus or minus sign, the order therefor being cited

50 (1) At the end of each month the figures in the registers of receipts and payments shall be added up the totals up to the end of the last preceding month being added to those of the month just expired and grand totals being made from the first day of April last preceding

(2) Where the grand total under any head in the register of payments shows that the budget grant is likely to be exceeded application shall at once be made for orders under section 30 clause (b) or section 33 as the circumstances may require, to cover the excess

51 As soon as possible within ten days after the end of each month the cantonment authority shall send to the Accountant General for purposes of audit,—

- (a) extracts from the registers of receipts and payments for the month, prepared in the same detail as those registers and showing the budget estimate, each receipt and payment the monthly totals, the total to the end of the last preceding month and the grand totals
- (b) the foil of all receipts granted during the month
- (c) all paid bills
- (d) any cancelled cheques and
- (e) a statement of the balances, in the following form —

Balance at the end of last month

Receipts during the month as per details below

Total

Expenditure during the month as per accompanying schedule

BALANCE AT THE END OF THE MONTH

Details of balance —

Balance in treasury as per pass book

Cash received to date for remittance to treasury

Imprest in hands of cantonment authority

Deduct—Outstanding cheques as per details below

Net balance as above

Cheques outstanding on—

No	Date	Amount
"		
TOTAL		

"

TOTAL

52 (1) The cantonment authority shall prepare annually a consolidated dated account showing the receipts into, and payments from the cantonment fund classified under the major heads minor heads and sub heads contained in the monthly accounts

(2) The total of the details under each head of receipts and payments, as given in the consolidated account, shall agree exactly with the figures appearing against the entry 'From 1st April to date' under the same heads in the extracts forwarded to the Accountant General for the month of March last preceding

(3) The consolidated account shall be forwarded to the Accountant General, who will compare the figures with his own classified abstract and, if correct forward the account to the General Officer of the Command with the following indorsement namely

Examined and found correct

Signed _____ Accountant General

Classification

53 (1) All receipts into, and expenditure from the cantonment fund shall be classified, in the monthly and annual accounts, in accordance with Form 8 in Schedule I

(2) All expenditure shall be classified in the monthly accounts under the appropriate major heads, minor heads and sub heads with reference to the nature of the charge, whether specific budget provision exists or not and no expenditure which from its nature properly falls under one of the other prescribed heads, shall be classified under the head 'Miscellaneous' on the ground that there is no specific budget provision for the charge

Explanation—Every permanent advance to a cantonment fund receiving a grant in aid under section 28 shall be held outstanding in the military accounts until the fund becomes self supporting and the advance shall then merely be shown as a balance in the hands of the cantonment authority

Remittance to Treasury and Pass Book

54 The cantonment authority shall remit to the treasury all moneys received for credit to the cantonment fund

55 (1) Remittances to the treasury may be made either daily or weekly, as may be most convenient

Procedure for remittances to treasury

Provided that all moneys in hand on the last working day of each month shall be remitted on that day

(2) Every remittance shall be accompanied by a challan or invoice and by the pass book

(3) Where a remittance is made, the officer in charge of the treasury shall forthwith acknowledge its receipt by an entry in the pass book and shall enter on the charge side of the pass book particulars of cheques paid up to date as recorded in his register

(4) The pass book shall be sent to the treasury on the last working day of each month, whether or not there are any moneys to be remitted to the treasury on that day. The officer in charge of the treasury shall then close the pass book for the month, and enter

therein in words the balance in hand, signing the entry

56 (1) The cantonment authority shall from time to time examine the pass book and shall forthwith call the attention of the officer in charge of the treasury to any discrepancy appearing between the credits or debits shown therein and those shown in its registers

(2) The pass book shall be written up only by the officer in charge of the treasury or by some member of his establishment, and no entries or marks shall be made therein by the cantonment authority or by any member of the cantonment establishment

Abstract Statement of Estimated Income and Expenditure

57 The General Officer of the Command shall, on receiving the sanction of the Local Government to the budget estimate for the several cantonment funds in his Command, forward to the Government of India in the Military Department to the Commander-in-Chief in India and to the Local Government for information an abstract statement of the estimated income of, and expenditure from, all such funds

Submission of proposals as to taxation

58 All proposals made by the cantonment authority for the imposition, abolition or modification of any tax shall be submitted to the General Officer of the Command for transmission to the Local Government

CHAPTER V

CONTRACTS

59 Every contract made by the cantonment authority shall be executed on its behalf by the officer authorized by the Governor General in Council so to execute it under section 2 of the East India Contracts Act, 1870

60 No lease or other contract which is to remain in operation for more than twelve months, shall be executed on behalf of the cantonment authority without the previous sanction of the General Officer of the Command

Provided that, where any such lease as aforesaid is a lease of land the sanction of the General Officer of the Command shall not be given without the concurrence of the Local Government

61 No contract for the execution of a work shall be executed on behalf of the cantonment authority unless it has been examined and approved of by the Executive Engineer

Provided that, where a work is estimated to cost not more than five hundred rupees the contract shall not be referred to the Executive Engineer unless the cantonment authority so directs

62 The officer authorized as provided by section 59 shall not execute on behalf of the cantonment authority any contract the value or amount of which exceeds one hundred rupees, without the previous sanction of—

- (a) the cantonment committee or,
- (b) where a cantonment committee has not been constituted or has ceased to exist or cannot be convened the Commanding Officer of the cantonment

Provided that in case of urgency where there is a cantonment committee the officer authorized as aforesaid may with the previous sanction of the President of the cantonment committee, execute on behalf of the cantonment committee any contract the value or amount of which exceeds one hundred rupees but does not exceed two hundred rupees, and shall, in every such case submit to the cantonment committee, at its next meeting a report of his action and of the reasons therefor

63 Every contract executed on behalf of the cantonment authority the value or amount of which exceeds fifty rupees except a contract for the sale of moveable property shall be in writing and, if the contract is for the execution of a work it shall be prepared in the form in use for that purpose in the Public Works Department under the orders of the Local Government

64 (1) The cantonment authority may direct that security be required for the fulfilment of any contract to be executed on its behalf, other than a contract for the execution of a work and that the whole or any part of the security be deposited before the contract is executed

(2) Where any security is required under sub-section (1) it shall be of the nature specified in section 24 sub-section (), and shall be of such amount as the cantonment authority may think fit

(3) Where any security required as aforesaid has been given the contract shall not be executed unless—

- (a) it contains a clause specifying the nature and the amount of the security required and
- (b) any sum directed to be deposited has been lodged with the cantonment authority

65 Nothing in this Chapter shall apply to any lease of land for the purposes of a building site

CHAPTER VI

NUISANCES AND SANITATION

Nuisances

66 Whoever,—

- (a) in any street or public place within the cantonment—
 - (i) is drunk and disorderly, or drunk and incapable of taking care of himself, or

- (u) uses any threatening, abusive or insulting words or behaves in a threatening or insulting manner with intent to provoke a breach of the peace or whereby a breach of the peace is likely to be occasioned or
- (uu) exposes himself or wilfully and indecently exposes his person or
- (iv) begs importunately for alms or
- (v) exposes or exhibits with the object of exciting charity, any deformity or disease or any offensive sore or wound or
- (vi) carries meat exposed to public view or
- (vii) is found gaming or
- (viii) pickets animals or collects carts or
- (ix) being engaged in the removal of night soil or other offensive matter or rubbish neglects to sweep away or otherwise effectually remove any portion thereof that may spill or fall on to such street or public place or,
- (x) without proper authority affixes or causes to be affixed any bill notice or other document upon any building monument, post, wall fence, tree or other thing or,
- (xi) without proper authority defaces or writes upon or otherwise marks any building monument post wall, fence, tree or other thing or,
- (xii) without proper authority removes, destroys defaces or otherwise obliterated any notice or other document put up or exhibited under this Code or,
- (xiii) without proper authority breaks, throws down or damages any direction post lamp lamp post or other thing maintained by the cantonment authority in such street or public place or
- (xiv) carries a corpse or causes the same to be carried without keeping it decently covered or without taking due precaution to prevent risk of infection or injury to the public health, or annoyance to passers by or to persons dwelling in the neighbourhood or
- (b) carries a corpse along a route prohibited by the cantonment authority by public notice or
- (c) deposits or permit his servant to deposit, any offensive matter or rubbish in any place not intended for the purpose on any street or public place or waste or unoccupied land under the management of the cantonment authority or,
- (d) having charge of a corpse fail to bury, burn or otherwise lawfully dispose of the same within twenty four hours after death, or
- (e) makes any grave, or buries or burns any corpse, at an unauthorized place or
- (f) having entered or used a public conveyance under the circumstances or for any of the purposes mentioned respectively
- in section 184 fails to disinfect the same to the satisfaction of the cantonment authority or
- (g) keeps or uses, or knowingly permits to be kept or used, any place as a common gaming house, or assists in conducting the business of any common gaming house or
- (h) wilfully intrudes upon a place set apart for bathing purposes and incommodates persons lawfully using the same or
- (i) at any time or place prohibited by the cantonment authority by general or special notice beats a drum or tom tom, blows a horn or trumpet or beats or sounds any brass or other instrument or utensil or plays any music or,
- (j) by singing screaming or shouting, disturbs the public peace or order or
- (k) fires a gun or does any other act in such manner as to frighten or be likely to frighten animals passing by or to cause or be likely to cause annoyance or danger to persons passing by or dwelling or working in the neighbourhood or
- (l) lets loose any horse or other animal so as to cause or negligently allows any horse or other animal to cause injury danger, alarm or annoyance to any person or
- (m) suffers any ferocious dog to be at large without a muzzle or
- (n) sets on or urges any dog or other animal to attack, worry or put in fear any person or,
- (o) being the occupier of any building or land in or upon which an animal dies, neglects within three hours after the death of the animal or, if the death occurs at night, within three hours after sunrise either—
to report the death to the Cantonment Magistrate or to some officer (if any) appointed by him to receive such reports, with a view to the removal and disposal of the carcass by the public conservancy establishments or
to remove and dispose of the carcass in accordance with any general directions given by the cantonment authority by notice, or any special directions given by the Cantonment Magistrate on receipt of such report as aforesaid or,
- (p) except with the written permission of the cantonment authority, stores or uses night soil, manure, rubbish or any other substance emitting an offensive smell
- shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees
- 67 The cantonment authority may by public notice appoint from time to time certain periods within which any dogs, without collars or other marks distinguishing them as private property found straying in the streets or beyond the enclosures of the houses of the owners of such dogs, may be destroyed, and such dogs may be destroyed,
- Destruction of stray dogs at appointed periods

in accordance with such order, by such person and in such manner as the Cantonment Magistrate may direct

Explanation—In this section the word “house” includes a hut, shop, warehouse or building

Sanitation

68 The following officers shall, for the purpose of response of sanitation have control over, and be responsible for, the sanitary condition of the parts of the cantonment hereinafter indicated, namely

- (a) each Commanding Officer—his regimental lines, including the regimental bazar and all latrines used by the troops and followers under his command or control
- (b) the Executive Engineer—all yards, works, workshops and other places used by establishments under his charge
- (c) the Executive Officer of the Commissariat Department—all transport lines, cattle yards slaughter houses, bakeries and other places used by establishments under his charge
- (d) the head of any other Military Department occupying as such any part of the cantonment—all blocks of buildings, workshops and other places used by establishments under his charge
- (e) the Cantonment Magistrate—the Sadr Bazar all roads and all other parts of the cantonment not under the control of any officer mentioned in clause (a), clause (b) clause (c), or clause (d)

69 (1) Every officer mentioned in section 68 shall forward to the cantonment authority a weekly sanitary report, stating that the parts of the cantonment over which he has control as aforesaid, have been inspected by him and are in his opinion in a sanitary condition or otherwise as the case may be

(2) Where any such officer as aforesaid reports that any part of the cantonment under his control is not, in his opinion in a sanitary condition, he shall specify the defects and may make such suggestions for remedying the same as he may think fit

70 The Sanitary Officer shall exercise a general supervision over the whole cantonment, shall report every insanitary practice and every insanitary condition of things whenever or wherever existing therein, both to the officer responsible under section 68 and to the cantonment authority, and shall attach to his report such recommendations for the remedy of the same as he may think fit

71 The Cantonment Magistrate shall, subject to the other provisions of this Code and the control of the cantonment authority,—

- (a) make, and supervise the carrying out of, all arrangements (including the provision and maintenance of a sufficient

number of animal vehicles, receptacles and implements and of places for keeping the same) necessary for—

- (i) the removal of night soil and other offensive matter and rubbish from latrines urinals, streets and all other places, public and private from which the removal of the same by the public conservancy establishments is directed by the cantonment authority
- (ii) the surface cleansing of all streets and the watering thereof and
- (iii) the maintenance in a sanitary condition of public and private latrines and urinals, of encamping grounds and sarais of public and private markets and slaughter houses of fair grounds, of all sources of public water supply and the lands in the vicinity thereof, of all other places likely to create a nuisance and, generally of every part of the cantonment other than the parts mentioned in clauses (a) to (d) of section 68

(b) make frequent inspections of all parts of the cantonment with a view to ensuring that all orders of the cantonment authority on sanitary matters are duly obeyed and that the public conservancy establishments satisfactorily perform their duties and,

(c) take all necessary steps for remedying any defects in the sanitary condition of the cantonment of which he may become aware and for which funds can be provided

72 (1) So far as the funds at its disposal permit the cantonment authority shall provide and maintain a sufficient number of public latrines and urinals, with all necessary conservancy establishments

(2) Such latrines and urinals shall be placed in proper and convenient situations as near as circumstances admit to the dwelling places or places of resort of the persons for whose use they are intended

Provided that, except with the previous sanction of the General Officer of the Command no latrine or urinal shall be placed within fifty feet, and no trench latrine shall be placed within two hundred feet of any inhabited building

(3) Separate latrines and urinals shall ordinarily be provided for males and females or if any latrine or urinal is provided for the use of both sexes, separate divisions shall be provided for each sex, and each such latrine urinal or division shall be marked as being for the use of men only, or women only, as the case may be

73 (1) In providing public latrines the cantonment authority shall observe the following directions namely

- (a) such number of latrines shall be provided as will admit of there being one com-

partment for the use of every fifteen adults using the latrines

(b) no latrine shall be constructed for the use of more than five hundred adults

(c) every latrine other than a trench latrine shall be provided with proper closed iron receptacles in the proportion of not less than two for every hundred adults using the latrine, and with not less than one iron or glazed earthen pan for each compartment

(d) for every latrine, other than a trench latrine there shall be provided —

(i) for the cleansing thereof, sweepers in the proportion of not less than one for every hundred adults using the latrine and

(ii) for the removal of night soil there from air tight iron filth carts in the proportion of not less than one for every five hundred adults using the latrine or where carts cannot be used sweepers in the proportion of not less than three for every five hundred adults using the latrine and

(e) for every trench latrine there shall be provided digging sweepers in the proportion of not less than one for every two hundred adults using the latrine

Provided that if in any case it is impracticable, owing to want of funds or for any other sufficient reason fully to observe the foregoing directions the General Officer of the Command may declare the extent to which they shall be observed

(2) No public latrine shall be constructed or rebuilt except on a plan approved of by the General Officer of the Command

74 The cantonment authority shall when Receptacle or place for temporary deposit of offensive matter and rubbish ever necessary provide and maintain in proper and convenient positions receptacles or places for the temporary deposit of offensive matter and rubbish

75 The cantonment authority shall appoint Places for disposal of offensive matter and rubbish places for the disposal of night soil carcases and other offensive matter and rubbish

76 The cantonment authority may by notice Cesspools receptacles for filth &c in writing —

(a) require any person having the control, whether as owner lessee or occupier, of any land or building —

(i) to close any offensive cesspool belonging to the land or building, or

(ii) to provide a receptacle (of a pattern, if any, approved of by the cantonment authority) for filth accumulating on or in the land or building, or

(iii) to keep in a cleanly condition (in such manner, if any, as may be prescribed by the notice) any receptacle provided for such filth, or

(iv) to prevent the water of any private latrine urinal, sink or bath room, or any other offensive matter from soaking, draining, flowing or being put from the land or building upon any street or public place or into any water course or into any drain not intended for the purpose or

(b) require the owner or other person having the control of any private latrine or urinal not to put the same to public use or

(c) where any plan for the construction of private latrines or urinals has been approved of by the cantonment authority and copies thereof may be obtained free of charge on application,—

(i) require any person repairing or constructing a private latrine or urinal not to allow the same to be used until it has been inspected by or under the direction of the Cantonment Magistrate and approved of by him as conforming with that plan or

(ii) require any person having the control of a private latrine or urinal to rebuild or alter the same in accordance with that plan

(d) require the owner or other person having the control of any private latrine or urinal which in the opinion of the cantonment authority, creates a nuisance, to remove the latrine or urinal and to substitute fresh earth to such a depth, not exceeding two feet as may be specified in the notice for the earth on which the latrine or urinal stood or

(e) require any person having the control, whether as owner lessee or occupier, of any land or building,—

(i) to have any latrine provided for the same shut out by a sufficient roof and wall or fence from the view of persons passing by or dwelling or working in the neighbourhood, or

(ii) to cleanse with deodorants any latrine or urinal belonging to the land or building or

(f) require any person who has the control, whether as owner, lessee or occupier of any land or building, and has allowed any offensive matter or rubbish to accumulate or remain thereon or therein to collect the same and deposit it, for removal by the public conservancy establishment, at such times and in such receptacles or places, situate at not more than one hundred feet from the nearest boundary of the premises, as may be specified in the notice or

(g) where any land or building is situate within one hundred feet of a public drain or other place set apart for the discharge of drainage and the drains belonging to the land or building are, in the opinion of the cantonment authority, insufficient, require any person having control of the land or building, whether as owner or lessee or, in the case of neighbouring lands or buildings, the several lessees or owners having control of the lands or buildings conjointly to provide sufficient drainage within fifteen days from the service of the notice or

(h) require any person to desist from making or altering any drain leading into a public drain or

(i) require any person who is creating or likely to create a nuisance by—

(1) altering obstructing or encroaching upon a public drain, or

(2) impeding the flow of water owing to the absence of a culvert or the existence of an insufficient culvert under a path leading to his premises,

to desist therefrom or

(j) require any person who is constructing, or laying a drain, to obey any directions which the cantonment authority may on the advice of the Executive Engineer think fit to give in order to ensure the completion of the work to its satisfaction or

(k) require any person being the owner and having the control of any drain to provide and comply with the same within ten days from the service of the notice such covering as may be specified in the notice or

(l) require any person having the control of a drain to remove within a period to be specified in the notice, any obstruction from the same or to cleanse, purify, repair or alter the same or otherwise put it in good order

77 (1) The cantonment authority may, by notice in writing, require the owner or lessee of any building or land, in such manner as may be specified in the notice, to remove or provide any latrine, urinal, cesspool or other receptacle for filth, or to provide any additional latrines, urinals, cesspools or other receptacles as aforesaid which should in its opinion be provided for the building or land

(2) The cantonment authority may by notice in writing, require any person employing more than twenty workmen or labourers to provide such latrines and urinals as it may think fit, and to cause the same to be kept in proper order and to be daily cleansed

78 (1) The cantonment authority may provide for the performance by its agents of the duties usually performed by sweepers in respect of any building or land or of any

latrine, urinal, cesspool or other receptacle for filth pertaining to any building or land with the consent of the occupier of the building or land, or without such consent where the occupier fails to make arrangements to the satisfaction of the cantonment authority for the performance of such duties

(2) Where the cantonment authority has provided for the performance by its agents of the duties referred to in this section all matter removed by such agents in performing such duties shall be at the disposal of that authority

79 The cantonment authority may by notice in writing, require the owner, lessee or occupier of any land to clear away and remove any thick or noxious vegetation or undergrowth which appears to it to be injurious to health or offensive to the neighbourhood

80 Where any tank, marshy ground or waste or stagnant water whether within any private enclosure or not, is in such condition as to create a nuisance, the cantonment authority may by notice in writing require the owner, lessee or occupier of the land within thirty days from the service of the notice to fill up the tank or ground or to drain off or remove the water as the case may be

Provided that if in the opinion of the cantonment authority, it is unreasonable to throw the whole expense on the owner, lessee or occupier it may with the previous sanction of the General Officer of the Command require him to pay only a proportion of the expense

81 (1) Where it appears to the cantonment authority that any block of buildings is by reason of the manner in which the buildings are crowded together in an unhealthy condition, it may cause the block to be inspected by a special committee consisting of—

(a) the Sanitary Officer

(b) the Civil Surgeon of the district or if his services are not available some other medical officer of the Government and

(c) the Executive Engineer or some person deputed by the Executive Engineer in this behalf

(2) The special committee shall make a report in writing to the cantonment authority on the sanitary condition of the block and if it considers that the overcrowded condition thereof is likely to cause risk of disease to the inhabitants of the buildings or of the neighbourhood or to endanger the public health it shall clearly indicate on a plan verified by the Executive Engineer or by the person deputed by him to serve on it, the buildings which should wholly or in part be removed in order to abate the unhealthy condition of the block

(3) If upon receipt of such report, the cantonment authority is of opinion that all or any of the buildings indicated should be removed it may by notice in writing require the owners thereof to remove them

Provided first that the cantonment authority shall make compensation to such owners for any buildings which may have been erected under proper authority and

Provided secondly that the cantonment authority may if it appears to it to be equitable under the circumstances to do so pay to such owners such sum as it may think fit as compensation for any buildings which may not have been erected under proper authority

(4) The sum payable as compensation under the first proviso to sub section (3) may be settled by mutual agreement between the cantonment authority and such owners as aforesaid or in default of agreement by a committee of arbitration constituted as provided in Chapter XX

Explanation—In this section the word buildings includes enclosure walls or fences connected with buildings

82 Where it appears to the cantonment authority that any building used as a dwelling is so overcrowded as to endanger the health of the inmates thereof it may after such inquiry as it thinks fit by notice in writing require the owner or occupier within a time to be specified in the notice to abate the overcrowding of the building by reducing the number of lodger tenants or other inmates

83 (1) Where any building is so ill constructed or dilapidated as to be, in the opinion of the cantonment authority in an insanitary state, the cantonment authority may by notice in writing require the owner, within a time to be specified in the notice to execute such repairs, or to make such alterations, as it may think necessary in order to remove such defects

(2) A copy of every notice issued under sub section (1) shall be conspicuously posted on the building to which the notice relates

Explanation—A notice issued under sub section (1) shall be deemed to have been complied with if the owner of the building to which it relates has instead of executing the repairs or making the alterations directed by the notice, removed the building

84 The cantonment authority may, by notice in writing, require the owner, lessee or occupier of any building or land which appears to it to be in a filthy or unwholesome state, within twenty four hours to cleanse the same or otherwise put it in a proper state in such manner as may be specified in the notice

85 Whoever fails to comply with a notice issued under any of the provisions of sections 76 to 84, shall be punishable with fine which may extend to fifty

rupees, and, in the case of a continuing failure, with an additional fine not exceeding five rupees for every day after the first in regard to which he is convicted of having persisted in the failure

CHAPTER VII

CONTROL OVER STREETS, BUILDINGS, LANDS, TREES, ETC

Streets and Buildings

86 The cantonment authority may attach to the outside of any building brackets for lamps in such manner as not to occasion any injury thereto or inconvenience

87 (1) The cantonment authority may cause a name to be given to any street and to be affixed on any building in such place as it may think fit and may also cause a number to be affixed to any building and may from time to time cause such names and numbers to be altered

(2) Whoever destroys, pulls down or defaces any such name or number, or puts up any name or number differing from that put up by order of the cantonment authority shall be punishable with fine which may extend to twenty rupees

88 The cantonment authority may by public notice direct that within certain limits, to be fixed by the notice the roof and external walls of huts or other buildings shall not without its permission in writing be made or renewed of grass mats, leaves or other highly inflammable materials and may, by notice in writing, require any person who has disobeyed any such direction as aforesaid, to remove or alter the roof or walls so made or renewed as it may think fit

89 (1) Whoever except in such a case as is provided for by Chapter XXI, intends to erect or re-erect any building shall give notice in writing, in the manner hereinafter prescribed of his intention to the cantonment authority, and the cantonment authority may within six weeks after the receipt of the notice, refuse to sanction the building or may sanction it either absolutely or subject to such directions as it may think fit to issue in writing in respect of all or any of the following matters, namely

- (a) the free passage or way to be left in front of the building
- (b) the space to be left about the building to secure free circulation of air and facilitate scavenging and the prevention of fire
- (c) the ventilation of the building
- (d) the provision and position of latrines, urinals, cesspools or other receptacles for filth
- (e) the level and width of the foundation, the level of the lowest floor and the stability of the structure, and

(f) the line of frontage with neighbouring buildings, if the building abuts on a street

and the person erecting or re erecting the building shall obey all such written directions

Provided that the cantonment authority shall make full compensation to the owner for any damage which he may sustain in consequence of its prohibition of the re erection of any building, or of its requiring any land belonging to him to be added to the street

(2) Whoever gives notice to the cantonment authority under sub section (1) shall along with the notice forward a plan and specification of the building which he intends to erect or re erect, together with a site plan of the land of such character and with such details as the cantonment authority may require and no such notice shall be valid until such plans and specification have been supplied

(3) Where any building is begun or erected without the giving of the notice and the submission of the plans and specification required by this section, or in contravention of any order of the cantonment authority issued within six weeks of the receipt of a valid notice thereunder the cantonment authority may by notice in writing, to be delivered within a reasonable time require the building to be altered or demolished, as it may think necessary

(4) Where the cantonment authority neglects or omits for six weeks after the receipt of a valid notice under this section to make and deliver to the person who has given the notice any order in respect thereof it shall be deemed to have sanctioned the proposed building absolutely

(5) Every sanction for the erection or re erection of a building given or deemed to have been given by the cantonment authority as aforesaid shall be available for one year from the date on which the notice became valid and complete and no longer and if the building so sanctioned is not begun by the person who has obtained the sanction, or some one lawfully claiming under him within that period it shall not thereafter be begun without fresh sanction but such person as aforesaid may at any subsequent time give fresh notice to the cantonment authority in the manner hereinbefore prescribed, and thereupon the provisions hereinbefore contained shall apply to the fresh notice

Explanation—In this section the expression 'erect or re erect any building' includes—

- (a) any material alteration or enlargement of any building
- (b) the conversion into a place for human habitation of any building not originally constructed for human habitation
- (c) the conversion into more than one place for human habitation of a building originally constructed as one such place
- (d) the conversion of two or more places of human habitation into a greater number of such places
- (e) such alterations of the internal arrangement of a building as affect an alteration of its drainage or sanitary arrangements, or affect its security and

(f) the addition of any rooms buildings out houses or other structures to any building

90 (1) The owner or occupier of a building shall not without the permission in writing of the cantonment authority, add to or place against or in front of the building, any projection or structure overhanging projecting into, or encroaching on any street or into or on any drain sewer or aqueduct therein

(2) The cantonment authority may, by notice in writing, require the owner or occupier of any building to alter or remove any such projection or encroachment as aforesaid

Provided that in the case of any projection or encroachment lawfully in existence at the commencement of this Code the cantonment authority shall make reasonable compensation for any damage caused by the removal or alteration

(3) The cantonment authority may, by order in writing give permission to the owners or occupiers of buildings in any particular street to put up open verandahs balconies or rooms projecting from any upper storey thereof to an extent beyond the line of the plinth or basement wall, and at a height from the level of the ground or street to be specified in the order

91 The cantonment authority may by notice in writing require the owner or occupier of any building or land in any street to put up and keep in good condition a set of open troughs and pipes for receiving and carrying the water from the building or land and for discharging the same so as not to inconvenience persons passing along the street

92 The cantonment authority may by notice in writing require any person who has without its permission in writing newly erected or re erected any building over any public sewer drain culvert, water course or water pipe to pull down or otherwise deal with the same as it may think fit

93 Where any building wall tank or other structure is in a ruinous state or in any way dangerous the cantonment authority may by notice in writing require the owner or occupier thereof to repair, protect or enclose the same and if there is in the opinion of the cantonment authority imminent danger it shall forthwith take such steps to avert the danger as it may think necessary

94 Where any building wall or structure is in a ruinous state or in any way dangerous the cantonment authority may by notice in writing require the owner or occupier thereof forthwith either to remove the same or to cause such repairs to be made as it may think necessary for the public safety, and,

if there is, in the opinion of the cantonment authority imminent danger it shall forthwith take such steps to avert the danger as it may think necessary

95 The cantonment authority may, by notice in writing require the owner or part owner, or person claiming to be the owner or part owner of any building or land, or the lessee or person claiming to be the lessee of any land, which, by reason of abandonment or disputed ownership or other cause, has remained untenanted and become a resort of idle and disorderly persons or otherwise a nuisance to secure or enclose the same within a time to be specified in the notice

Boundaries Trees, etc

96 (1) The cantonment authority may by public notice, prohibit the construction of boundary wall hedges or other fences of any material or description which is in its opinion unsuitable, unsightly or otherwise objectionable

() The cantonment authority may by notice in writing require the owner or lessee of any land—

- (a) to remove from the land any boundary wall hedge or other fence which is, in its opinion unsuitable unsightly or otherwise objectionable
- (b) to construct on the land sufficient boundary walls hedges or other fences of such material description and dimensions as may be specified in the notice
- (c) to maintain the boundary walls hedges or other fences on the land in good order

Explanation—In this section the expression 'boundary walls hedges or other fences' includes all necessary gates and the posts or pillars thereof

97 The cantonment authority may by notice in writing, require the owner lessee or occupier of any land within three days to cut or trim any hedges on the land in such manner as may be specified in the notice

98 No general felling of trees and no general lopping or trimming of trees in a manner likely to cause permanent injury thereto, shall be ordered by the cantonment authority without the previous sanction of the General Officer of the Command

99 (1) No tree of mature growth, whether standing in any private enclosure or not, shall be felled without the previous sanction of the cantonment authority

(2) Where in the opinion of the cantonment authority the felling of any tree of mature growth standing in a private enclosure is necessary for sanitary reasons, the cantonment authority may by notice in writing, require the

owner lessee or occupier of the land to fell the tree within a time to be specified in the notice

Power to require lopping or trimming of trees **100** The cantonment authority may—

- (a) cause to be lopped or trimmed any trees standing on land belonging to the Government, or,
- (b) by public notice, require all owners, lessees or occupiers of land or, by notice in writing require the owner, lessee or occupier of any land, to lop or trim, in such manner as may be specified in the notice, all or any trees standing on such land

101 (1) Where, in the opinion of the cantonment authority, the cultivation of any description of crop, or the use of any kind of manure, or the irrigation of land in any specified manner is for any reason undesirable, the cantonment authority may by public notice, prohibit such cultivation, use or irrigation after a certain date to be specified in the notice

Provided that, if, when a notice is issued under this section any land to which it relates has been lawfully prepared for cultivation or any crop is sown therein or is standing thereon, the cantonment authority—

- (a) may subject to such conditions as it may think fit to impose postpone the date from which the notice is to take effect or
- (b) may if it appears to it to be equitable under the circumstances to do so and whether or not it postpones the date from which the notice is to take effect pay to any person interested in the land or crop such sum as it may think fit as compensation for any loss incurred by reason only of his having complied with the notice and
- (c) shall, if it directs that the notice is to take effect without delay, make compensation to all persons interested in the land or crop for any loss incurred by reason only of their having complied with the notice

(2) The sum payable as compensation under clause (c) of the proviso to sub section (1) may be settled by mutual agreement between the cantonment authority and such person or persons as aforesaid, or, in default of agreement, by a committee of arbitration constituted as provided in Chapter XX

102 The cantonment authority may, by notice in writing, require the owner, lessee or occupier of any land to abstain from the improper use of the same, whether by quarrying, or by removing earth, sand, stone or gravel, or by digging a tank, well or pit

103 Whoever, without the permission in writing of the cantonment authority, digs up the surface of any public grass land, shall be punishable with fine which may extend to twenty rupees

Penalties

104 Whoever fails to comply with any notice issued under this Chapter, shall be punishable with fine which may extend to fifty rupees, and in the case of a continuing failure with an additional fine not exceeding five rupees for every day after the first in regard to which he is convicted of having persisted in the failure

CHAPTER VIII

CONTROL OVER SARAI, ENCAMPING GROUNDS, TRAFFIC, ETC

Sarais

Duties of keepers of sarais **105 (1)** Every keeper of a sarai shall be bound—

- (a) if to his knowledge any person in the sarai is ill of any infectious or contagious disorder, or has died of any such disorder, to make an immediate report of the fact to the officer in charge of the police station within the jurisdiction of which the sarai is situated
- (b) to maintain a sufficient supply of pure water for the use of persons frequenting the sarai,
- (c) to keep all parts of the sarai in a clean and sanitary condition and
- (d) to give any information which the Cantonment Magistrate may by notice in writing, require regarding—
 - (i) the boundaries of the sarai, and
 - (ii) any matters affecting its management and condition

() Whoever fails to give the Cantonment Magistrate any information required under this section or wilfully gives him false information, shall be punishable with fine which may extend to twenty rupees, and, in the case of a continuing failure, with an additional fine not exceeding five rupees for every day after the first in regard to which he is convicted of having persisted in the failure

106 (1) The Cantonment Magistrate may, by Power to require report as to persons using sarai notice in writing, require any keeper of a sarai to report to him, or to any person whom he may appoint in this behalf either orally or in writing as may be directed in the notice, the name and description, or the names and descriptions, of any person or persons who resorted to the sarai during any period, to be specified in the notice

(2) Where a written report is required the form in which the same is to be furnished may be specified in the notice

(3) Whoever fails to comply with any notice issued under this section or wilfully makes a false report thereunder, shall be punishable with fine which may extend to twenty rupees, and in the case of a continuing failure with an additional fine not exceeding five rupees for every day after the first in regard to which he is convicted of having persisted in the failure

107 (1) Where the keeper of a sarai commits a breach of any of the provisions of sections 105 and 106, the cantonment authority may, in addition to any punishment which may be inflicted thereunder, by notice in writing, require that the sarai be closed to the use of the public

(2) A notice issued under sub section (1) shall be cancelled and cease to have effect, if the keeper of the sarai satisfies the cantonment authority that no such breach as aforesaid would be likely to occur in the event of the sarai being re opened to the use of the public

108 The provisions of sections 105, 106 and 107 shall not apply to any cantonment to which the Saving of Sarais Act 1867 Sarais Act, 1867, for the XXII of 18 time being extends

Encamping grounds, etc

109 (1) No place in the cantonment shall be used as an encamping ground or for the pitching of tents without the permission in writing of the cantonment authority

(2) Such permission as aforesaid may be granted subject to any conditions which the cantonment authority may think fit to impose with respect to sanitary arrangements and other matters affecting the public health, safety or convenience

Markets and Slaughter houses

110 No person shall in any market sell, or expose for sale any article of food or drink for human consumption which is unfit for human consumption

111 (1) The cantonment authority may, by public notice, limit the hours during which any market may be kept open for public use

() A copy of every notice issued under sub section (1) shall be conspicuously posted in each market to which the notice relates

112 The Sanitary Officer and the Cantonment Magistrate shall frequently inspect—
Sanitary Officer and Cantonment Magistrate to inspect markets

- (a) articles of food and drink for human consumption kept for sale in markets,
- (b) the water supply of markets
- (c) the arrangements for the removal and disposal of offensive matter and rubbish from markets, and
- (d) all other arrangements for maintaining markets in a proper sanitary condition

113 The cantonment authority may, by public notice prohibit the sale, or exposure for sale, of any animal or article or class of animals or articles in any public market

114 Where the owner or the person in charge of a private market applies for a license therefor, such license shall be granted free of charge by the Cantonment Magistrate on his being satisfied—

- (a) that convenient passages have been provided between the shops, stalls, sheds or standings in the market
- (b) that a sufficient supply of pure water is provided for the market,
- (c) that in the case of a large market, one or more public latrines, at a distance of not less than fifty yards from the market, and one or more public urinals according to requirements are provided for the use of persons frequenting the market and
- (d) that suitable arrangements are made for—
 - (i) keeping the market in a clean and sanitary condition and removing offensive matter and rubbish therefrom,
 - (ii) the proper ventilation of the buildings and structures in the market, and
 - (iii) the proper maintenance of the public latrines and urinals (if any) provided for the use of persons frequenting the market

115 No private market shall after the commencement of this Code be opened to public use until it has been licensed

116 (1) The cantonment authority may require —

- (a) by notice in writing the owner or the person in charge of any private market in existence at the commencement of this Code or,
- (b) by public notice the owners or the persons in charge of any class of such markets,

to furnish, within a time to be specified in the notice any information which may be needed for the purpose of determining whether a license should be required for any such market

(2) On the expiration of such time as afore said, the cantonment authority shall determine, in respect of each market to which the notice relates, whether or not it is necessary to require a license

(3) Where the cantonment authority determines that a license shall be required for any such market and a license therefor either is not applied for or is refused the cantonment authority may by notice in writing, require the owner or the person in charge of the market to close the same until a license has been obtained

117 The owner or the person in charge of a licensed market shall be

- (a) to maintain convenient passages between the shops stalls, sheds or standings in the market

(b) to maintain a sufficient supply of pure water for the market

(c) to keep the market in a cleanly and sanitary condition and to remove all offensive matter and rubbish therefrom and

(d) to maintain in good order any public latrines or urinals which may have been provided for the use of persons frequenting the market

118 () Where the owner or the person in charge of a licensed market commits a breach of any of the provisions of sections

Power to suspend or withdraw licenses for markets

111 and 117 the cantonment authority may in addition to any punishment which may be inflicted under this Code, by order in writing, suspend the license for any period to be specified in the order or withdraw the license

(2) No market for which a license has been granted under this Chapter, shall be kept open for public use while the license therefor is suspended or after the same has been withdrawn

(3) A copy of every order made under sub section (1) shall be conspicuously posted in the market to which the order relates

119 The Cantonment Magistrate shall maintain a register of all private markets which have been licensed under this Chapter, showing—

- (a) the date on which the license was issued, and,
- (b) where the license has been suspended the date and period of the suspension, or,
- (c) where the license has been withdrawn the date of the withdrawal

120 Whoever, knowing that a license granted for a private market is for the time being suspended or withdrawn or has been withdrawn sells or exposes for sale therein any meat fish, milk, fruit, vegetables or other perishable articles of food for human consumption, shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees

121 Where the cantonment authority has made or approved of any slaughter houses generally

- (a) passing and marking animals in a slaughter house as being suitable for slaughter or
- (b) regulating the admission into a slaughter house of persons carrying on business or trade or working for gain therein or regulating the conduct of such persons therein

the owner or the person in charge of the slaughter house shall not slaughter, or permit to be slaughtered, any animal therein unless those arrangements are duly observed

122 (1) The cantonment authority may, by public notice limit the hours during which any slaughter house may be kept open during which the slaughter of animals may be permitted therein

Hours during which slaughter house may be kept open

(2) A copy of every notice issued under sub-section (1) shall be conspicuously posted in each slaughter house to which the notice relates

123 (1) Where it is in the opinion of the Cantonment authority necessary on sanitary grounds to do so, the Cantonment authority may by public notice, prohibit for any period not exceeding one month to be specified in the notice, or for such further period, not exceeding one month as it may from time to time by a like notice specify the use of any slaughter house or the slaughter therein of any animal of a description specified in the notice

(2) A copy of every notice issued under sub-section (1) shall be conspicuously posted in the slaughter house to which the notice relates

124 Where the owner or the person in charge of a private slaughter house applies for a license therefor such license shall be granted free of charge by the Cantonment Magistrate on his being satisfied—

- (a) that convenient passages have been provided between any pens standing or yards in the slaughter house
- (b) that a sufficient supply of pure water has been provided for the slaughter house
- (c) that sufficient drains have been provided
- (d) that the premises are so enclosed as to prevent the interior being visible by passers by and
- (e) that suitable arrangements have been made for—
 - (i) keeping the slaughter house in a clean and sanitary condition in removing offensive matter and rubbish therefrom
 - (ii) the proper ventilation of the buildings and structures in the slaughter house
 - (iii) the proper maintenance of the drains and of any public latrines and urinals that may be required for the use of persons frequenting the slaughter house
 - (iv) the treatment of animals in the slaughter house
 - (v) the slaughter of animals in a humane manner within an enclosure so constructed that animals placed therein shall be out of sight of animals kept outside,
 - (vi) the removal of animals to such enclosure as aforesaid
 - (vii) the disposal or destruction of animals which are offered for slaughter and are from disease or any other cause unfit for human consumption and
 - (viii) the destruction of carcasses which from disease or any other cause are found after slaughter to be unfit for human consumption

Provided that no license shall be granted for a slaughter house opened after the commencement of this Code if the slaughter house is

situate at any place which the Cantonment authority thinks especially with regard to any neighbouring drains or water courses to be objectionable

125 No private slaughter house shall after the commencement of this Code be opened to public use until it has been licensed

126 (1) The Cantonment authority may by notice in writing, require the owner or the person in charge of any private slaughter house in existence at the commencement of this Code to furnish within a time to be specified in the notice any information which may be needed for the purpose of determining whether a license should be required therefor

(2) On the expiration of such time as aforesaid the Cantonment authority shall determine whether or not it is necessary to require a license

(3) Where the Cantonment authority determines that a license shall be required for the slaughter house and a license therefor either is not applied for or is refused the Cantonment authority may by notice in writing, require the owner or the person in charge of the slaughter house to close the same until a license has been obtained

127 The owner or the person in charge of a licensed slaughter house shall be bound—

- (a) to maintain convenient passages between any pens standing or yards in the slaughter house
- (b) to maintain a sufficient supply of pure water for the slaughter house
- (c) to keep the slaughter house in a clean and sanitary condition to provide and maintain receptacles for refuse and to remove all offensive matter and rubbish from the slaughter house
- (d) to maintain in good order the drains of the slaughter house and any public latrines or urinals which may have been provided for the use of persons frequenting it
- (e) to maintain suitable arrangements for the purposes mentioned in section 124 clause (e), sub-clauses (iv) to (viii) and
- (f) to prevent the keeping of animals at the slaughter house for more than twenty-four hours

128 (1) Where the owner or the person in charge of a licensed slaughter house commits a breach of any of the provisions of sections 123 and 127, the Cantonment authority may in addition to any punishment which may be inflicted under this Code by order in writing suspend the license for any period to be specified in the order, or withdraw the license

(2) No slaughter house for which a license has been granted under this Chapter, shall be

kept open to public use and no animal shall be slaughtered therein while the license therefor is suspended or after the same has been withdrawn.

(3) A copy of every order made under sub-section (2) shall be conspicuously posted in the slaughter house to which the order relates.

129 The Cantonment Magistrate shall maintain a register of private slaughter houses and slaughter houses which have been licensed under this Chapter showing—

(a) the date on which the license was granted and

(b) where the license has been suspended the date and period of the suspension or,

(c) where the license has been withdrawn the date of the withdrawal.

130 Whoever knowingly contravenes any provision of this Chapter shall be liable to a fine not exceeding ten rupees or imprisonment for a term which may extend to six months or with fine which may extend to fifty rupees.

131 (1) The Cantonment Magistrate may—

(a) check for the occupation or use of any stall for slaughtering and for the use of any public slaughter house and for the night exposure of goods for sale in public market and for within and outside of the Cantonment and for the right to slaughter animals in any public slaughter house shall be subject to the approval of the Officer Commanding the District, in this behalf or,

(b) with the approval of the Officer Commanding the District furnish the stallages and other facilities as aforesaid for any period not exceeding one year at a time.

(2) A copy of the rules made under this Chapter shall be printed in the English language and the Cantonment authority may direct that a copy of the same shall be placed in the market or slaughter house in which case may be.

132 (1) No person shall without the permission of the Cantonment authority bring into the Cantonment any cattle, sheep or swine intended for sale or slaughter or the slaughter of any such animal slaughtered outside the Cantonment.

(2) Any animal or flesh brought into the Cantonment in contravention of sub-section (1) shall be seized by the Cantonment Magistrate or

by any servant of the Cantonment authority and sold or otherwise disposed of as the Cantonment authority may direct, the sale proceeds being credited to the Cantonment fund.

(3) Whoever commits a breach of the provision of this section shall be punishable with fine which may extend to fifty rupees.

Explanation—Nothing in this section shall be deemed to apply to cured or preserved meat.

Traffic

133 The Cantonment authority shall not permanently close any street or open any new street without the previous sanction of the General Officer of the Command.

134 Whoever is driving a vehicle along a street shall except in case of actual necessity keep to the left when passing a vehicle coming from the opposite direction and to the right when passing a vehicle going in the same direction.

135 No animal shall be ridden or driven and no vehicle shall be driven on any street in a rash or negligent manner.

136 No animal shall be ridden or driven and no vehicle shall be driven on any street at a time or in a manner prohibited by public notice issued by the Cantonment authority or by the District Superintendent of Police.

137 No vehicle shall be driven, led or kept standing on any street between nightfall and dawn without a suitable lamp unless there is sufficient moonlight to render a lamp unnecessary.

138 Whoever is driving any elephant or camel on a street, shall remove the same to a safe distance on the approach of a horse or of bullocks drawing a vehicle.

139 No vehicle or animal shall be left on a street without proper control.

140 No animal shall be trained, broken in or led for exercise on any street at a time or place prohibited by public notice issued by the Cantonment authority.

141 No person shall—

(a) cause any vehicle with or without an animal harnessed thereto to remain or stand on any street longer than may be necessary for loading or unloading or for taking up or setting down passengers or

(b) leave or fasten any vehicle or animal so as to cause obstruction in any street, or

(c) expose any article for sale, whether upon a stall or booth or in any other manner,

so as to cause obstruction in any street or

- (d) in any other manner wilfully obstruct or cause obstruction to the free passage of any street

Burial and Burning Grounds

142 The cantonment authority may by notice Power to call for in writing, require the formation regarding owner or keeper of any burial and burning burial or burning ground to supply such information as may be specified in the notice concerning the condition, management or position of such ground

143 (1) No place not previously used as a burial or burning ground shall after the commencement of this Code be so used without the permission in writing of the cantonment authority

(2) Such permission as aforesaid may be granted subject to any condition which the cantonment authority may think fit to impose for the purpose of preventing annoyance to or danger to the health of, persons living in the neighbourhood

144 (1) Where the cantonment authority is of opinion after making or causing to be made local inquiry that any burial or burning ground has become offensive to or dangerous to the health of persons living in the neighbourhood it may with the previous sanction of the Local Government by notice in writing, require the owner or keeper of such ground to close the same from a date to be specified in the notice

(2) Where the Local Government sanctions the issue of any notice under sub-section (1), it shall declare the conditions on which the burial or burning ground may be reopened and a copy of the declaration shall be annexed to the notice

(3) Where the Local Government sanctions the issue of any such notice as aforesaid it shall require a new burial or burning ground to be provided at the expense of the cantonment fund or if the community concerned is willing to provide a new burial or burning ground a grant to be made from the cantonment fund towards the cost of the same

145 No corpse shall be buried or burnt in any burial or burning ground in respect of which a notice is issued under section 144, sub-section (1) is for the time being in force

146 No grave shall be made in any burial ground at a less distance between graves than three feet from the margin of the nearest grave

147 No corpse shall, without the permission in writing of the cantonment authority be buried in any burial ground in a grave of less depth than—

- (a) four feet where the grave is made of masonry or

- (b) six feet, where the grave is not made of masonry

148 Every corpse brought to a burial or burning ground shall be buried or burnt as the case may be within six hours after it has been so brought

149 Every corpse brought to a burning ground shall be completely reduced to ashes

150 Where a corpse has been buried or burnt or otherwise disposed of in contravention of any of the provisions of sections 143, 145, 146, 147, 148 and 149 the cantonment authority may if it thinks fit take such order therewith or with the remission thereof as shall ensure the proper disposal of the same in accordance with this Code

151 The provisions of sections 142 to 150 shall not apply to any burial ground which is for the time being managed under rules published in the Public Works Department Code

CHAPTER IX

WATER SUPPLY

152 All sources of public water supply (except such as are used for the purposes of water works and are for the time being under the control of the Public or Military Works Department) shall be under the control of the cantonment authority

153 Where there are no water works the cantonment authority shall take all necessary measures for maintaining a supply of pure water for guarding from pollution water which is used for human consumption and for preventing polluted water from being so used

154 (1) Where in the opinion of the cantonment authority the water in any source of public water supply is likely if used by any human being or by any milch animal for drinking purposes to endanger or cause the spread of any disorder the cantonment authority may by public notice prohibit the use or removal of the same for all or any of the following purposes, namely

- the drink of human beings or admixture with any article of human consumption
- the drink of milch animals or admixture with any article of food or drink for milch animals
- the washing of vegetables or of cooling utensils
- any other purpose which is likely to cause its introduction into any article of human consumption

(2) A copy of every notice issued under sub-section (1) shall be conspicuously posted

near the source of water supply to which the notice relates

155 The cantonment authority may, by notice

Power to require proper maintenance or closing to public use of private source of public drinking water supply in writing require the owner or any person having control of any source of public water supply which is used for drinking purposes —

- (a) to keep the same in good order, and to clear it from time to time of silt, refuse or decaying vegetation or
- (b) if the water therein is proved to the satisfaction of the cantonment authority to be unfit for drinking purposes to take such measures as may be specified in the notice to prevent the public from having access to or using such water

Provided that in the case of a well such person as aforesaid may, instead of complying with the notice signify in writing his desire to be relieved of all responsibility for the proper maintenance of the well and his readiness to place it under the control and supervision of the cantonment authority for the use of the public, and the cantonment authority shall thereupon undertake the control and supervision of the same

Polluting source of public drinking water supply

156 (1) Whoever—

- (a) bathes in any source of public water supply which is used for drinking purposes or
- (b) washes, throws or causes or permits to enter therein any dog or other animal, or
- (c) washes or cleanses therein any clothes, wool cloth, leather, skin utensil or other thing or
- (d) throws or allows to flow thereinto any offensive matter or rubbish or

- (f) does any other act whereby the water thereof is polluted or is likely to be polluted,

shall be punishable with imprisonment for a term which may extend to eight days or with fine which may extend to fifty rupees

(2) For the purposes of this section the cantonment authority may by public notice, declare what sources of public water supply are used for drinking purposes

(3) A copy of every notice issued under sub-section (2) shall be conspicuously posted near the source of water supply to which the notice relates

157 The cantonment authority may by public notice, prohibit any act

Impairing quality or diminishing quantity of water in source of public drinking water supply or impairing usefulness of water works specified in the notice which would, in its opinion —

- (a) impair the quality or diminish the quantity of the water in any source of public water supply which is set apart for public use and is used for drinking purposes, or
- (b) injure or impair the usefulness of any of the pipes, locks, cocks or other fittings of water works

158 (1) The cantonment authority may by

Prohibiting trespass on water works public notice prohibit trespasses upon land occupied by water works

(2) A copy of every notice issued under sub-section (1) shall be conspicuously posted on the land to which the notice relates

159 (1) No person shall, without the permis-

Altering, obstructing or encroaching upon public water channel sion in writing of the cantonment authority alter, obstruct, or encroach upon, any public water channel

(2) The cantonment authority may by notice in writing, require any person who has made any such alteration, obstruction or encroachment as aforesaid, to remove, or desist from, the same

160 (1) The cantonment authority may, by

Power to prohibit polluting of source of public water supply by fishing, boating or gathering flowers or plants public notice prohibit fishing, boating or the gathering of flowers or plants generally or by any particular method specified in the notice in any source of public water supply where it considers that any such act is likely to cause danger to the public health

(2) A copy of every notice issued under sub-section (1) shall be conspicuously posted near the source of water supply to which the notice relates

161 No person shall throw a corpse into any

Throwing of corpse into source of public water supply source of public water supply

162 The cantonment authority may by notice

Power to prohibit pollution of source of public water supply by carrying on offensive trade in writing require the owner, lessee or occupier of any place in which is carried on any offensive trade or manufacture whereby the water in any source of public water supply is polluted, to take steps to abate such pollution

163 No person shall without the permission

Placing latrine etc or depositing offensive matter or rubbish near source of public water supply in writing of the cantonment authority,—

- (a) place any latrine, urinal, cesspool or drain, or
- (b) use for the deposit of offensive matter or rubbish any place,

within fifty feet of any source of public water supply

164 The cantonment authority may by notice

Removal of latrine etc near any source of public water supply in writing require any owner or occupier on whose land any latrine, urinal, cesspool, drain or other receptacle for

offensive matter exists within fifty feet of any source of public water supply, to remove or close the same within one week from the service of the notice

Bathing or washing at public well or spring

165 Whoever—

- (a) bathes, or
- (b) washes any animal, or any clothes, wool, cloth leather, skin, utensil or other thing,

by the side of any public well or spring so as to pollute the water thereof, shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees

166 (1) The cantonment authority may by public notice, prohibit—

Regulation of public bathing and washing

- (a) bathing, or
- (b) the washing of animals or of clothes, wool, cloth, leather skins utensils or other things, or of any class of such things,

by the public or any class thereof at any public place specified in the notice

(a) The cantonment authority may, by public notice,—

(a) appoint places for—

- (i) bathing, or
- (ii) the washing of animals or of clothes, wool cloth, leather skins, utensils or other things, or any class of such things and

(b) fix the hours at which alone bathing, or washing may be carried on at any place so appointed

(c) In any notice issued under sub section (1), separate places may be appointed for bathing and washing respectively, and separate places may be appointed for bathing by men and women, respectively

(d) A copy of every such notice as aforesaid shall be conspicuously posted on or near the place or places to which the notice relates

Explanation—In this section, the expression "washing an animal" includes driving or throwing an animal or permitting it to go, into water

CHAPTER X

TRADES, CALLINGS AND OCCUPATIONS

167 No person of any of the following

Licenses required for carrying on of certain occupations

- (a) butchers, and sellers of poultry, game or fish

(a) to be fed upon refuse or any filthy or deleterious substance, or

(b) to graze in any place in which grazing has for sanitary reasons been prohibited by public notice issued by the cantonment authority

171 No dairyman holding a license under Adulteration of milk section 167 shall mix water with, or otherwise adulterate, any milk intended for sale

172 No butterman holding a license under Adulteration of butter section 167 shall adulterate any butter intended for sale

173 No person holding a license under section 167 shall sell any Selling food or drink unfit for human consumption article of food or drink for human consumption which is unfit for that purpose

174 (1) The cantonment authority may, by Power to remove brothels and prostitutes notice in writing, prohibit—

(a) the keeping of a brothel or

(b) the residence of a public prostitute,

in the cantonment or in any specified part thereof

(2) Whoever fails to comply with a notice issued under sub section (1), shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees and in the case of a continuing failure, with an additional fine not exceeding five rupees for every day after the first in regard to which he is convicted of having persisted in the failure

175 No public prostitute shall be permitted Exclusion of public prostitutes from regimental bazaar to reside within the limits of any regimental bazaar situate in the cantonment

176 (1) Where any person holding a license under section 167 or section 169 commits a breach of any of the provisions of sections 168 170, 171 172 and 173 the cantonment authority may, in addition to any punishment which may be inflicted under this Code by order in writing, suspend the license for any reasonable time to be specified in the order, or withdraw the same Power to suspend or withdraw license

(2) No person who has obtained a license under this Chapter for carrying on a trade calling or occupation in any part of the cantonment shall carry on such trade, calling, or occupation in that part while such license is suspended or after the same has been withdrawn

CHAPTER XI

PREVENTION AND TREATMENT OF DISEASE

Infectious or Contagious Disorders

Information to be given of existence of infectious or contagious disorder **177** Whoever,—

(a) being a medical practitioner and in the course of practice becoming cognizant

XIV of 1879

Ben Act II of 1891
Mad Act III of 1879

of the existence of any infectious or contagious disorder in any dwelling, other than a public hospital or dispensary in the cantonment or its neighbourhood or,

- (b) in default of such medical practitioner, being the owner or occupier of such dwelling and being cognizant of the existence of any infectious or contagious disorder therein or,
- (c) in default of such owner or occupier, being the person in charge of, or in attendance on, any person suffering from any infectious or contagious disorder in such dwelling and being cognizant of the existence of the disorder therein

fails to give information or gives false information to the cantonment authority respecting the existence of such disorder, shall be punishable with fine which may extend to fifty rupees

Provided that a person not required by this section to give information in the first instance but only in default of some other person, shall not be punishable if it is shown that he had reasonable cause to suppose that the information had been or would be duly given

Provided, also that this section shall not apply to venereal disease where the person suffering therefrom is under specific and adequate medical treatment and by reason of habits, conditions of life and residence is unlikely to spread the disease

Explanation—In this section, the expression "infectious or contagious disorder" includes venereal disease

178 (1) In the event of the cantonment being at any time visited or threatened by an outbreak of any infectious or contagious disorder among the inhabitants thereof or of any epidemic disease among the cattle, sheep or goats therein the General Officer of the Command if he thinks that the provisions of this Code or of any law at the time in force are insufficient for the purpose may with the previous sanction of the Local Government,—

- (a) take such special measures, and
- (b) by public notice prescribe such temporary regulations to be observed by the public or by any person or class of persons
- as he thinks necessary to prevent the outbreak of the disorder or disease or the spread thereof

(2) Whoever commits a breach of any temporary regulation prescribed under subsection (1) shall be deemed to have committed an offence punishable under section 186 of the Indian Penal Code

1860

179 Where it is certified to the Cantonment Magistrate by a medical practitioner that the outbreak or spread of any infectious or contagious disorder is, in the opinion of such medical practitioner attributable to the milk supplied by any dairyman the Cantonment Magistrate may by notice in writing, require the dairyman, within a

time to be specified in the notice, to furnish him with a full and complete list of the names and addresses of all his customers within the cantonment, or to give him such information as will enable him to trace the persons to whom the dairyman has sold milk

180 Where it is certified to the Cantonment Magistrate by the Sanitary Officer that it is desirable with a view to prevent the spread of any infectious or contagious disorder, that the Sanitary Officer should be furnished with a list of the customers of any washerman, the Cantonment Magistrate may, by notice in writing, require the washerman, within a time to be specified in the notice to furnish the Sanitary Officer with a full and complete list of the names and addresses of all owners within the cantonment of clothes and other articles for whom the washerman washes or has washed during the six weeks immediately preceding the date of the notice

181 Where, after inspection, the Sanitary Officer is of opinion that any infectious or contagious disorder is caused, or is likely to arise, from the consumption of the milk supplied from a dairy, or from the washing of soiled clothes or other articles in any place, or from any process employed by a washerman he shall report the matter to the Cantonment Magistrate

182 Upon receipt of a report submitted under section 181, the Cantonment Magistrate may, by notice in writing,—

- (a) prohibit the person in charge of the dairy from supplying milk therefrom until the notice has been withdrawn or, as the case may be,
- (b) prohibit the washerman from washing soiled clothes or other articles in any such place or by any such process as aforesaid until the notice has been withdrawn or unless he uses such place in such manner or washes by such process as the Cantonment Magistrate may direct in the notice

183 The Sanitary Officer, or any Medical Officer of the Government appointed by him in this behalf, may take possession of any milk, clothes or other articles which are or have recently been in the possession of any dairyman or washerman on whom a notice under section 179 or section 180 has been served and may subject the same or cause the same to be subjected to such chemical or other process as he may think necessary and the cantonment authority shall pay from the cantonment fund all the costs of the process, and shall also pay to the owner of the milk, clothes or other articles such sum as compensation for any loss occasioned by such process as may in the circumstances appear to it to be reasonable

184 Whoever—

- (a) enters a public conveyance while suffering from an infectious or contagious

Power to require names of dairyman's customers

Power to require names of washerman's customers

Report after inspection of dairy or washerman place of business

Action on report submitted under section 181

Examination of milk or washed clothes

Contamination of public conveyances

disorder which would be likely to be communicated to other persons using the conveyance or

(b) uses a public conveyance for the carriage of a person who is suffering from any such disorder or

(c) uses a public conveyance for the carriage of the corpse of a person who has died from any such disorder

shall be bound to notify the fact to the driver and to report to the Cantonment Magistrate the number of the conveyance and the name of the driver

185 Where any person suffering or the corpse of any person who has died, from an infectious or contagious disorder, has been carried in a public conveyance, the driver shall forthwith report the fact to the officer in charge of the nearest police station in the cantonment, and that officer shall forthwith cause the conveyance to be disinfected, if that has not already been done

186 Where the Cantonment Magistrate is, upon the advice of the Sanitary Officer of opinion that the cleansing or disinfecting of any building or part of a building, or of any articles therein likely to retain infection, or the renewal of the flooring of any building or part of a building, would tend to prevent or check the spread of any infectious or contagious disorder, he may, by notice in writing, require the owner or occupier to cleanse and disinfect the said building part or articles, or to renew the said flooring, within a time to be specified in the notice

Provided that, where, in the opinion of the Cantonment Magistrate the owner or occupier is from poverty or any other cause, unable effectually to carry out any such requisition, the Cantonment Magistrate may at the expense of the cantonment fund, cleanse or disinfect the building or part, or any articles therein likely to retain infection, or renew the said flooring

187 Where the destruction of any hut or shed is, in the opinion of the cantonment authority, necessary to prevent the spread of any infectious or contagious disorder, the cantonment authority may, by notice in writing, require the owner within a time to be specified in the notice to destroy the hut or shed and the materials thereof

Provided that the cantonment authority shall pay to the owner such sum as may in the circumstances appear to it to be equitable for any loss incurred by reason of the destruction of such hut, shed or material

188. The cantonment authority shall provide free of charge temporary shelter or house accommodation for the members of any family in which an infectious or contagious disorder has appeared, who have been compelled to leave their dwellings, by reason of any proceedings taken under section 186 or section 187

and desire such shelter or accommodation as aforesaid to be provided for them

189 Whoever lets a building or part of a building in which any person has, within the six weeks immediately preceding, been suffering from an infectious or contagious disorder, shall before letting the building or part disinfect the same, in such manner as the cantonment authority may, by public or special notice direct together with all articles therein liable to retain infection

Explanation—For the purposes of this section the keeper of a sarai shall be deemed to let part of a building to any person who is admitted as a guest into the sarai

190 No person shall without previous disinfection of the same give, lend, sell transmit or otherwise dispose of to another person any article or thing which he has reason to know has been exposed to contamination by any infectious or contagious disorder

191 The cantonment authority shall by public notice prescribe the manner in which infectious excreta and other matter is to be dealt with or disposed of

192 Whoever while suffering from an infectious or contagious disorder—

(a) makes or offers for sale any article of food or drink for human consumption or any medicine or drug or

(b) takes any part in the business of washing or carrying soiled clothes

shall be punishable with imprisonment for a term which may extend to eight days or with fine which may extend to fifty rupees

193 The cantonment authority may by notice in writing prohibit any person while suffering from, or likely to spread any infectious or contagious disorder from making carrying or offering for sale, or from taking any part in the business of making carrying or offering for sale any article of clothing or bedding, or anything for use in the making of clothing, or bedding, or any other article for personal wear or use which may be specified in the notice

194 When any cantonment is visited or threatened by an outbreak of any infectious or contagious disorder the cantonment authority may on the advice of the District Magistrate and the Sanitary Officer by public notice restrict in such manner, or prohibit for such period, as may be specified in the notice the sale or preparation of any article of food or drink for human

consumption specified in the notice or the sale of the flesh of any description of animal specified in the notice

195 Where any person has died from any infectious or contagious disorder, the Cantonment Magistrate may, by notice in writing—

(a) require any person having charge of the corpse—

(i) to bury burn or otherwise dispose of the same according to the custom of the class to which the deceased belonged forthwith or within any period, not being less than twenty-four hours after death to be specified in the notice or

(ii) to convey the same to a mortuary thereafter to be disposed of in accordance with law or

(b) prohibit the removal of the corpse from the place where death occurred except for the purpose of being buried burnt or otherwise disposed of as aforesaid or of being conveyed to a mortuary

Hospitals and Dispensaries

196 (r) So far as the funds at its disposal permit the Cantonment Magistrate shall cause every hospital or dispensary maintained or aided under section 196 to be provided with—

(a) provide and maintain either within or without the Cantonment, as many hospitals or dispensaries as may be necessary or

(b) make, upon such terms as it thinks fit to impose a grant in aid to any hospital or dispensary whether within or without the Cantonment, not maintained by it.

(2) Every hospital or dispensary maintained or aided under subsection (r) shall have attached to it a ward or wards for the treatment of persons suffering from infectious or contagious disorders

Explanation—In this section the expression 'infectious or contagious disorder' includes venereal disease

197 A Medical Officer to be appointed in such manner as the Local Government may direct, shall be in charge of every hospital or dispensary maintained or aided under section 196

198 Subject to the control over the Cantonment Subordinate establishments which is vested in the Local Government by section 23 of the Cantonments Act 1889, there shall be appointed, for every hospital or dispensary maintained or aided under section 196 such subordinate establishment as may be necessary

199 So far as the funds at its disposal permit the Cantonment authority shall cause every hospital or dispensary maintained or aided under section 196 to be provided with—

(a) all requisite drugs instruments, apparatus, furniture and appliances

(b) sufficient cots, bedding and clothing for in patients and

(c) such further requisites as may be necessary

200 Every hospital or dispensary maintained or aided under section 196, shall be maintained in accordance with the rules made generally or specially by the Governor General in Council or the Local Government for the conduct of hospitals and dispensaries, or in accordance with the said rules modified in such manner as the Governor General in Council or the Local Government may think fit

201 At every hospital or dispensary maintained or aided under section 196 the sick poor of the Cantonment, persons in the Cantonment suffering from infectious or contagious disorders, and, with the sanction of the Cantonment authority, any other sick persons may receive medical treatment free of cost and if treated as inpatients shall be either dieted gratuitously or, should the Medical Officer in charge so direct granted subsistence allowance on a scale to be determined by the Cantonment authority

Provided that the subsistence allowance granted as aforesaid shall not be less than the lowest allowance for the time being fixed for the subsistence of judgment debtors by the Local Government under section 338 of the Code of Civil Procedure

Explanation—In this section the expression 'infectious or contagious disorder' includes venereal disease

202 Any sick person who is ineligible under section 201 to receive medical treatment free of cost in any hospital or dispensary maintained or aided under section 196, may, upon such terms as the Cantonment authority think fit to impose, be admitted to treatment in such hospital or dispensary

203 If the Medical Officer in charge of a hospital or dispensary maintained or aided under section 196 has *prima facie* grounds for believing that any person living in the Cantonment is suffering from an infectious or contagious disorder he may, by notice in writing in the form set forth in Schedule II or in any similar form, call upon such person to attend at the hospital or dispensary at a time to be specified in the notice and not to quit it without the permission of the Medical Officer in charge unless and until such Medical Officer is satisfied, by examination (if

necessary) that such person is not in fact suffering, or is no longer suffering from such disorder

Provided that, if having regard to the nature of the disorder, or the condition of the person suffering therefrom or the general environment and circumstances of such person the Medical Officer considers the attendance of such person at the hospital or dispensary inexpedient he may dispense with such attendance and take such measures or give such directions as he may think fit and proper

Explanation—In this section the expression 'infectious or contagious disorder' includes venereal disease

204 (1) If the Medical Officer in charge of a hospital or dispensary maintained or aided under section 196 reports in writing to the Commanding Officer of the cantonment that any person having received notice is provided by section 203, has refused or omitted to attend at the hospital or dispensary or that such person having attended at the hospital or dispensary has quitted it without the permission of such Medical Officer, the Commanding Officer of the cantonment may if he thinks fit, by order in writing direct such person to remove from the cantonment within twenty four hours and prohibit him from remaining longer in or re entering, it without his permission in writing

(2) Whoever having been prohibited under sub section (1) from remaining in or re entering the cantonment fails to remove from or re enters it without the permission in writing of the Commanding Officer of the cantonment, shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees, and, in the case of a continuing failure, with an additional fine not exceeding five rupees for every day after the first in regard to which he is convicted of having persisted in the failure

205 No spirituous or fermented liquor or intoxicating drug or preparation shall be introduced into a hospital or dispensary maintained or aided under section 196 without the permission of the Medical Officer in charge

206 (1) No land in the cantonment shall be selected for use as a cholera hospital or cholera camp without giving the Cantonment Magistrate and the Sanitary Officer an opportunity of stating their opinions upon the proposed selection

(2) Where any land in the cantonment is used as aforesaid it shall be ploughed up as soon as practicable after it has ceased to be so used

Pilgrims

207 (1) The cantonment authority may provide or prescribe suitable routes for the use of persons passing through the cantonment—

- (a) on the way to or from fairs or places of pilgrimage or other places of public resort or
- (b) during times when an infectious or contagious disorder is prevalent

and may by public notice require such persons as aforesaid to use such routes and no others

(2) All routes provided or prescribed under sub section (1) shall be clearly and sufficiently indicated by the cantonment authority

CHAPTER XII

SUPPRESSION OF MENDICANCY AND LOITERING AND REMOVAL OF DISORDERLY PERSONS

Mendicancy

208 No mendicant shall in any street or public place in the cantonment, loiter or beg for alms

Loitering and Importuning

209 Whoever in any street or public place in the cantonment loiters for the purpose of prostitution or importunes any person to the commission of sexual immorality shall be punishable with imprisonment for a term which may extend to eight days or with fine which may extend to fifty rupees

Provided that no person shall be charged with a breach of the provisions of this section except on the complaint of the person importuned or of an officer as defined in the Cantonments Act 1889 in whose presence the breach was committed or of a member of the British military police force employed in the cantonment and specially authorized in this behalf by the Commanding Officer of the cantonment in whose presence the breach was committed

Removal of Disorderly Persons

210 (1) The Cantonment Magistrate may on receiving information that any person who has been convicted of any offence under Chapter XVII of the Indian Penal Code, or who is a disorderly person or etc. is frequenting the cantonment,—

- (a) is a disorderly person keeping or frequenting a common gaming house or a disorderly drinking shop or a disorderly house of any other description or
- (b) has been convicted more than once either within the cantonment or elsewhere, of an offence punishable under Chapter XVII of the Indian Penal Code, or

(c) has been convicted, either within the cantonment or elsewhere of any offence punishable under section 156 of the Army Act, or

(d) has been ordered, under Chapter VIII of the Code of Criminal Procedure, 1898 either within the cantonment or elsewhere, to execute a bond for his good behaviour,

may make an order in writing, setting forth the substance of the information received and issue a summons requiring the person to show cause why he should not be required to remove from the cantonment and be prohibited from re entering it

(2) Every summons issued under sub section (1) shall be accompanied by a copy of such order as aforesaid and the copy shall be delivered by the officer serving the summons to the person served with the same

(3) The Cantonment Magistrate shall when the person so summoned appears before him proceed to inquire into the truth of the information received and take such further evidence as he thinks fit and if upon such inquiry, it appears to him to be necessary for the maintenance of good order that the person should be required to remove from the cantonment and be prohibited from re entering it, the Cantonment Magistrate shall report the matter to the Commanding Officer of the cantonment and, if the Commanding Officer of the Cantonment so directs shall issue a notice in writing requiring the person to remove from the cantonment within a time to be specified in the notice and prohibiting him from re entering it without the permission in writing of the Commanding Officer of the cantonment

211 (1) The Commanding Officer of the cantonment, if he thinks expedient to exclude any person from the cantonment, whether with or without assigning any reason therefor, shall send to the Cantonment Magistrate an order in writing to that effect, and the Cantonment Magistrate shall cause a copy of the order to be served on the person together with a notice in writing requiring him to remove from the cantonment within a time to be specified in the notice and prohibiting him from re entering it without the permission in writing of the Commanding Officer of the cantonment

Provided that no such order as aforesaid shall be made—

(a) where the only reason for making it is that the person—

(i) is disorderly or

(ii) has been convicted of an offence punishable under Chapter XVII of the Indian Penal Code or section 56 of the Army Act, or

(iii) has been ordered under Chapter VIII of the Code of Criminal Procedure, 1898, to execute a bond for his good behaviour, or

(b) unless the Commanding Officer of the cantonment thinks that the presence of the person in the cantonment is dangerous to good order or military discipline

(2) A copy of every order made under sub section (1) shall forthwith be sent by the Commanding Officer of the cantonment to the General Officer of the Command

212 Whoever, knowing that any person has, under section 210 or section 211 been required to remove from the cantonment and has not obtained the requisite permission to re enter it, harbours or conceals such person in the cantonment shall be punishable with imprisonment for a term which may extend to eight days or with fine which may extend to fifty rupees

CHAPTER XIII

CARE OF ANIMALS

Prevention of Cruelty

213 Whoever ill uses, tortures or cruelly beats any animal in the cantonment, shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees

214 (1) Unless the General Officer of the Command concurs with the cantonment authority in thinking that there is some special reason to the contrary, the cantonment authority shall apply to the Local Government to extend the Prevention of Cruelty to Animals Act, 1890, to the cantonment

(2) In making an application under sub section (1) the cantonment authority shall, unless there is some special reason to the contrary, suggest that the place appointed to be an infirmary under section 6, sub section (2) of the said Act shall be the pound (if any) established for the cantonment under the Cattle trespass Act, 1871

(3) Where the Prevention of Cruelty to Animals Act, 1890, has been extended to any cantonment, the provisions of section 213 of this Code shall cease to have effect therein

Grazing

215 Every owner or the person in charge, of an animal grazing on any land belonging to the Government in the cantonment shall be bound to keep it under proper care and control

216 (1) Where any animal is found grazing on land belonging to the Government in the cantonment without being under proper care or control, it

may be seized by any servant of the cantonment authority and sent within twenty four hours to the nearest pound established under section 4 of the Cattle trespass Act, 1871

(2) Every animal so sent to the pound shall be dealt with as if it had been impounded under the provisions of the said Act, and the provisions of the said Act shall apply thereto

(3) Every member of the police force employed in the cantonment shall when required, aid in preventing resistance to any such seizure as aforesaid and rescues from persons making such seizures

217 (1) Whoever takes delivery of any animal impounded from the pound keeper (if any) appointed under section 6 of the Cattle trespass Act, 1871 shall inform the pound keeper of the name of the owner of the animal and the name of the person who had charge of the same at the time of its seizure

(2) Whoever refuses to give the pound keeper the information required by this rule or willfully gives him false information shall be punishable with fine which may extend to fifty rupees

CHAPTER XIV

PREVENTION OF FIRE

218 (1) No person shall in any place in the cantonment within one hundred yards of a public building or building having a thatched roof or in any other place in which the collection or placing of highly inflammable materials may be prohibited by public notice issued by the cantonment authority,—

(a) stack or collect dry grass straw or any other highly inflammable material, or

(b) build a matted structure or a cooking place

(2) The cantonment authority may, by notice in writing require any person who has stacked or collected any grass, straw or other highly inflammable material, or has built a matted structure or a cooking place in contravention of the provisions of sub section (1), to remove such stack, collection or structure as aforesaid within a time to be specified in the notice

219 No person shall, without the general or special permission of the cantonment authority, let off rockets or fire works of any description, send up a fire balloon or light a bonfire

220 No person shall set a naked light on or near any building in any street or public place in such manner as to cause danger of fire

Provided that this prohibition shall not extend to the use of lights, with the permission in writing of the cantonment authority, for purposes of illumination on the occasion of a festival or public or private entertainment

CHAPTER XV

REGISTRATION OF BIRTHS AND DEATHS

221 (1) The Cantonment Magistrate shall cause registers of births and deaths to be maintained in such forms as may be prescribed by the Local Government, of all births and deaths occurring in the cantonment

(2) No charge shall be made for the registration of any birth or death under this Chapter

222 The head for the time being of every house or family in which any birth occurs shall within eight days after the event, report the same to the Cantonment Magistrate together with the following particulars, namely —

(a) the date of the birth, and the sex and name (if any) of the child

(b) the name, place of residence and occupation and the caste or religion (if any) of the father if the person making the report is willing to furnish these particulars and

(c) the name and place of residence of the person making the report

223 The head for the time being of every house or family in which any death occurs, shall within twenty four hours after the event report the same to the Cantonment Magistrate together with the following particulars, namely —

(a) the date of the death, the name, age and occupation, and the caste or religion (if any) of the deceased, the cause of death, and the place of residence of the deceased at the time of death

(b) the name of the father, or if the deceased was a married woman, the name of her husband, if the person making the report is willing to furnish the particulars and

(c) the name and place of residence of the person making the report

224 It shall be the duty of every Medical Officer of the cantonment to report to the Cantonment Magistrate all births and deaths occurring in the cantonment of which he may become cognizant in the exercise of his profession

225 Whoever fails to comply with the provisions of section 222 or section 223 shall be punishable with fine which may extend to five rupees

CHAPTER XVI

APPOINTMENT OF AGENTS BY ABSENTEE OWNERS

226 (1) Whoever, being the owner of any Duty of absentee building or land in the owner to appoint agent cantonment, is absent there from shall appoint some person residing in or near the cantonment to act as his agent for all the purposes of the Cantonments Act 1889, and of this Code, and shall notify such appointment to the Cantonment Magistrate

(2) Whoever fails to appoint an agent as required by sub section (1) shall be punishable with fine which may extend to twenty rupees, and, in the case of a continuing failure, with an additional fine not exceeding five rupees for every day after the first in regard to which he is convicted of having persisted in the failure

227 (1) Where any person, by reason of his Relief to agents and receiving the rent of im trustees moveable property as agent or trustee or of his being as agent or trustee the person who would receive the rent if the property were let to a tenant, would, under any of the provisions of this Code be bound to discharge any obligation imposed on the owner of the property for the discharge of which money is required he shall not be bound to discharge the obligation unless he has or but for his own improper act or default might have had, in his hands funds sufficient for the purpose belonging to the owner

(2) The burden of proof of the facts entitling an agent or trustee to relief under sub section (1) shall lie on him

(3) Where any agent or trustee has claimed and established his right to relief under this section, the cantonment authority may by notice in writing, require him to apply to the discharge of such obligation as aforesaid the first moneys which shall come to his hands on behalf, or for the use of the owner and, on failure to comply with the notice he shall be deemed to be personally liable to discharge the obligation

CHAPTER XVII

INSPECTION, ENTRY, SEARCH AND ARREST

Inspection Entry and Search

228 The General Officer of the Command, the Officer Commanding the District or the District Magistrate may enter into or on, and inspect any building or land, if it appears to him to be necessary to do so in order to the exercise of any power conferred upon him by this Code

229 The cantonment authority, by itself or by any person generally or specially authorized by it in this behalf, may—

- (a) enter into, or on, any building or land for the purpose of—
- (i) removing any buildings or materials, or altering any building, in pursuance of a notice issued by the

cantonment authority in accordance with the conditions of a lease executed under section 259 or

- (ii) resuming any land in pursuance of a notice issued by the Local Government in accordance with the conditions of a lease executed as aforesaid or
- (iii) performing any act authorized by any of the provisions of sections 93, 94 and 285 sub section (1) or
- (iv) making any inspection authorized by the provisions of section 81, sub-section (1) or
- (b) enter into and inspect any place which is, or may recently have been, used as a burial or burning ground, if it appears to the cantonment authority to be desirable to do so in order to the carrying out of any of the provisions of this Code or
- (c) enter into, or on, and inspect, any building or land in, on or with respect to which the cantonment authority has reason to believe—
- (i) that a breach of any of the provisions of this Code has been committed, or
- (ii) that any notice issued under this Code has not been duly complied with or
- (iii) that any conditions imposed under this Code have not been duly observed or
- (iv) that any notice should be issued under this Code or
- (v) that any conditions should be imposed under the provisions of section 109, sub section (2), section 143, sub section (2), or section 168

230 The Sanitary Officer by himself or by Entry inspection and search by or by the authority of the Sanitary Officer any Medical Officer of the Government specially deputed by him by an order in writing in this behalf, may—

- (a) enter into or on any building or land for the purpose of inspecting any receptacles or places provided under section 74 for the temporary deposit of offensive matter and rubbish or
- (b) enter into and inspect, any dairy, or any place at which a washman washes or keeps clothes or other articles in the course of his business, if it appears to the Sanitary Officer to be necessary to do so in order to the prevention of the spread of any infectious or contagious disorder or
- (c) enter into or on, and inspect any building or land in or on which the Sanitary Officer has reason to believe that there is, or has recently been, any person suffering, or the corpse of any person who has died, from any infectious or contagious disorder, and search for infected persons, corpses or articles therein or thereon, or
- (d) enter into or on any building or land in or on which the Sanitary Officer has reason to believe that there is any public

- conveyance which has been used for the carriage of a person suffering, or the corpse of a person who has died, from any infectious or contagious disorder, and which has not been disinfected or
- (e) enter into or on, and inspect, any building or land in, on or with respect to which the Sanitary Officer has reason to believe—
- (i) that any such nuisance as is described in section 66, clause (d), clause (e), clause (o) or clause (p), has been committed, or
 - (ii) that a breach of any of the provisions of sections 105, 121, 127, 145 to 149, 156, 170 to 173 and 192 has been committed, or
 - (iii) that any notice issued under section 186 section 191 or section 193 has not been duly complied with, or
 - (iv) that any conditions imposed under section 143, sub section (2) or section 168 and affecting sanitation or hygiene have not been duly observed, or
 - (v) that the cantonment authority should be moved to issue a notice under section 76, 79 80, 82 83 84, 99, 101, 102, 154, 155 157 160 162, 164, 187 or 194, or to take any action under section 81, sub section (1) or
- (f) enter into and inspect any private slaughter house, or any structure therein, for the purpose of assisting the Cantonment Magistrate in determining whether a license should be issued under section 124, or
- (g) enter on and inspect any land which it is proposed to use as a burial or burning ground, for the purpose of ascertaining whether any such permission as is referred to in section 143, sub section (1), should be given, or
- (h) enter into or on, and inspect, any building or land for the purpose or advising the cantonment authority as to the conditions which should be imposed under section 168 in any license which it is proposed to grant under section 167, or
- (i) enter into or on, and inspect, any building or land in or on which the Sanitary Officer has reason to believe that there is any animal or flesh which has been brought into the cantonment in contravention of section 132, and search for such animal or flesh or
- (j) enter into or on, and inspect, any building or land, for the purpose of—
- (i) ascertaining whether the General Officer of the Command should be moved to take any action under section 178, sub-section (1), or
 - (ii) advising the cantonment authority whether any, and, if so what, directions should be issued under section 89, sub-section (1), clause (b), clause (c) or clause (d) or
- (k) enter into or on, and inspect, any building or land with respect to which the

Sanitary Officer has reason to believe that the Cantonment Authority should be moved to issue a notice under section 77, section 83, section 84 or section 95

231 The Cantonment Magistrate, by himself or Entry inspection and search by or by the authority of the Cantonment Magistrate by any person generally or specially authorized by him in this behalf, may—

- (a) enter into or on, and inspect, any building or land for the purpose of—
- (i) inquiring into occupation, ownership, agency, rights or any other matter required to be entered in any of the registers maintained under sections 266, 267 and 268, or
 - (ii) performing the duties imposed on the Cantonment Magistrate by section 17, sub section (2), section 68, section 71, or section 76, clause (c), sub clause (1), or
 - (iii) determining whether a license should be issued under section 114 or section 124, or
 - (iv) ascertaining whether a notice should be issued under section 182 or section 186, or
 - (v) cleansing or disinfecting a building or any articles therein, or renewing flooring in pursuance of the proviso to section 186, or
- (b) enter into or on, and inspect any building or land in or on which the Cantonment Magistrate has reason to believe that there is the corpse of any person who has died from an infectious or contagious disorder, and search for such corpse or
- (c) enter into and inspect any building which is being used or is intended to be used, as a theatre or place of public entertainment or resort or any structure therein for the purpose of enquiring into and testing the safety of such building or structure or
- (d) enter into or on, and inspect, any building or land in or on which the Cantonment Magistrate has reason to believe that there is any animal or flesh which has been brought into the cantonment in contravention of section 132 and search for such animal or flesh or
- (e) enter any building in order to enforce its surrender in pursuance of the conditions of a lease executed under section 259

232 The Cantonment Magistrate or the Sanitary Officer may enter into any market or any structure therein and inspect the same or any article therein, in the performance of the duty imposed upon him by section 112

233 Where the cantonment authority has, under section 78, sub section (1), provided for the performance by its agents of the duties usually performed by sweepers in respect of any building or land or of any privy, drain, cesspool or other receptacle for offen

sive matter pertaining to any building or land, the persons employed by it to perform such duties may enter into or on the building or land for the purpose of performing their duties

234 (1) Every entry made under any of the foregoing sections 228 to 232 shall be made between sunrise and sunset

Provided that, if in any such case the authority empowered by any of the said sections to make or authorize an entry thinks it necessary, in the interests of the public health or safety, that entry should be made at any other time, he or it may for reasons to be recorded in writing make such entry or authorize it to be made, at any reasonable time between sunset and sunrise

(2) Any entry made under section 233 may be made at any reasonable time

235 When any building used as a human dwelling is entered under this Chapter, due regard shall be paid to the social and religious sentiments of the occupiers, and no apartment in the actual occupancy of a woman shall be entered under this Chapter until she has been informed that she is at liberty to withdraw and every reasonable facility has been afforded to her for withdrawing

236 Every entry and inspection made under section 229 clause (b) shall be made under such arrangements as shall ensure due regard for the religious feelings of the community concerned

Arrest without Warrant

237 Any member of the police force employed in the cantonment may without a warrant, arrest any person committing in his view a breach of any of the provisions of this Code specified in the first column of Schedule III

Provided, first, that in the case of the breach of any such provision as is specified in Part B of the said schedule, no person shall be so arrested whose name and address are known to either the complainant or the arresting officer

Provided, secondly, that no person shall be so arrested who consents to give his name and address unless there is reasonable ground for doubting the accuracy of the name or address so given, the burden of proof of which shall lie on the arresting officer

Provided, thirdly, that no person so arrested shall be detained after his name and address have been ascertained

Provided, fourthly, that no person so arrested shall, except under the order of a Magistrate, be detained longer than may be necessary for bringing him before a Magistrate and

Provided, fifthly, that no person shall be so arrested for a breach of the provisions of section 209, except—

(a) at the request of the person importuned or of an officer as defined in the Cantonments Act, 1889 in whose presence the breach was committed or

(b) by or at the request of, a member of the British military police force employed in the cantonment and specially authorized in this behalf by the Commanding Officer of the cantonment, in whose presence the breach was committed

CHAPTER XVIII

SERVICE OF SUMMONSES, NOTICES, ETC

238 (1) Unless it is in this Code in any case otherwise expressly provided, any summons, notice, requisition or other document issued thereunder may be served by being delivered to the person to whom it is addressed, or by being left at his usual place of abode or business with some adult male member or servant of his family, or, if it cannot be so served, may be affixed on some conspicuous part of his usual place of abode or business

(2) Where the usual place of abode or business of the person to whom the summons, notice, requisition or document is addressed is not in the cantonment it may be served by posting it in a registered cover addressed to his usual place of abode or business

(3) Where the usual place of abode or business of the owner of any property is not known any such summons, notice, requisition or document addressed to him as such owner may be served on the occupier

(4) Where the usual place of abode or business of the occupier of any property is not known, any such summons, notice, requisition or document addressed to him as such occupier may be served by affixing it on some conspicuous part of the property

239 The service of a summons, notice, requisition or other document as aforesaid on any agent appointed by an absentee owner shall be deemed to be service on the owner

CHAPTER XIX

APPEAL AND REVISION

240 (1) Any person aggrieved by any of the executive orders described in the second column of Schedule IV may appeal to the authority specified in that behalf in the third column of the said schedule

(2) No such appeal shall be admitted unless made within the period specified in that behalf in the fourth column of the said schedule

(3) The period specified as aforesaid as the time allowed for making an appeal shall be computed in accordance with the provisions of the Indian Limitation Act, 1877, with respect to the computation of the period of limitation thereunder

241. (1) Every appeal under this Code shall be made by petition in writing, accompanied by a copy of the order appealed against.

(2) Any such petition as aforesaid may be presented to the authority which made the order

appealed against; and that authority shall be bound to forward it to the appellate authority, and may attach thereto any report which it may desire to make by way of explanation

(3) Where any such petition as aforesaid is presented direct to the appellate authority and an immediate order thereon is not necessary, the appellate authority may refer the petition for report to the authority which made the order appealed against

242 On the admission of an appeal from any order other than an order contained in a notice issued under—

(a) section 76, clause (d), clause (e) or clause (g),

(b) section 77,

(c) section 83,

(d) section 93,

(e) section 155,

(f) section 157, clause (a),

(g) section 204, sub section (1),

(h) section 210, sub section (3), or

(i) section 211

all proceedings to enforce the order and all prosecutions for any breach thereof shall be held in abeyance pending the decision of the appeal and, if the order is set aside on appeal, disobedience thereto shall not be deemed to be an offence

243 (1) Where an appeal from an order made by the Cantonment

Review

Magistrate dismissing,

under section 21, a servant of the cantonment authority whose salary is not less than one hundred rupees a month, has been disposed of by the General Officer of the Command, the servant so dismissed, if he is dissatisfied with the decision of the General Officer of the Command, may, within thirty days from the date thereof apply to the Governor General in Council for a review of that decision

(2) Where an appeal from an order made by the cantonment authority has been disposed of by the District Magistrate, the cantonment authority if it is dissatisfied with the decision of the District Magistrate, may, within thirty days from the date thereof apply, through the General Officer of the Command, to the Local Government or to such authority as the Local Government may appoint in this behalf, for a review of that decision

(3) The provisions of this Chapter with respect to appeals shall apply so far as may be to applications for review made under this section

244 Save as otherwise provided in section 243 the order of the appellate authority confirming setting aside or modifying an order appealed against shall be final

Provided that no order shall be confirmed, set aside or modified on appeal unless and until the appellant has had a reasonable opportunity of being heard.

CHAPTER XX

COMMITTEES OF ARBITRATION

245 On a requisition being made to him under

Obligation of Commanding Officer of cantonment to convene a committee of arbitration to decide question as to rent or repairs.

Condition XVIII or Condition XIX set forth in a lease executed under section 259 in Form B in Schedule V, within the period mentioned in such Condition, the Com-

manding Officer of the cantonment shall forthwith proceed to convene a committee of arbitration—

(a) to determine the amount of monthly rent to be paid or

(b) to determine whether any and if so what, repairs are necessary, and the extent to which they are necessary

246 (1) On an application being made to him Discretion of Commanding Officer of cantonment to convene a committee of arbitration to decide question as to condition of house or as to rent or repairs under Condition XX or Condition XXI set forth in a lease executed under section 259 in Form B in Schedule V the Commanding Officer of the cantonment may, after such inquiry as he may think fit to make proceed to convene a committee of arbitration—

(a) to determine whether the house has become unfit for occupation or

(b) to determine the amount of monthly rent to be paid, or

(c) to determine whether any, and, if so, what, repairs are necessary, and the extent to which they are necessary, or

(d) otherwise to determine the question in dispute

(2) In the exercise of the discretion vested in him by this section, the Commanding Officer of the cantonment may refuse to convene a committee of arbitration on the ground that the application therefor is groundless or frivolous, or for any other sufficient reason

247 Where the cantonment authority and the

Obligation of Commanding Officer of cantonment to convene a committee of arbitration to determine amount of compensation payable

person or persons concerned are unable to agree as to the amount of any compensation payable under the first proviso to section 81, sub section (3) or under proviso (c) to section 101,

sub section (1), the Commanding Officer of the cantonment shall proceed to convene a committee of arbitration to determine the amount payable

248 (1) Where a committee of arbitration is to be convened, the Commanding Officer of the cantonment shall cause an order to be published in Station Orders stating the matter to be determined by the committee of arbitration

(2) The Cantonment Magistrate shall send a copy of the order published under sub section (1) to the District Magistrate and to the parties concerned, and shall, by notice in writing require the parties to nominate members of the committee of arbitration as hereinafter provided

249 Every committee of arbitration convened

Composition of committee of arbitration convened under section 245 or 246

under section 245 or 246 shall consist of—

(a) the District Magistrate or, if it is inconvenient for him to act, some Magistrate,

being a Justice of the Peace, appointed by him to act in his stead,

(b) a member to be nominated by the officer concerned and

(c) a member to be nominated by the lessee

Provided that if such officer or lessee as afore said fails to nominate a member within seven clear days from the date on which he is called upon to do so or if any member who has been nominated neglects or refuses to act and such officer or lessee, as the case may be, fails to nominate within seven clear days from the date on which he is called upon to do so, another member who is willing to act the Commanding Officer of the cantonment shall forthwith appoint a member in the place of such nominee

250 Every committee of arbitration convened

Composition of committee of arbitration convened under section 247 shall under section 247 consist of—

(a) the District Magistrate or, if it is inconvenient for him to act, some Magistrate being a Justice of the Peace, appointed by him to act in his stead

(b) a member to be nominated by the person or persons concerned and

(c) a member to be nominated by the cantonment authority

Provided that, if such person or persons concerned as aforesaid fails or fail to nominate a member within seven clear days from the date on which he or they is or are called upon to do so, or if any member who has been nominated by such person or persons neglects or refuses to act and such person or persons fails or fail to nominate within seven clear days from the date on which he or they is or are called upon to do so, another member who is willing to act the Commanding Officer of the cantonment shall forthwith appoint a member in the place of such nominee

251 No person shall be nominated or appointed a member of a committee

Members of committee of arbitration to be persons who are not personally interested and whose services are immediately available

of arbitration unless he is personally disinterested in the matter under reference and his services are immediately available for the purposes of the arbitration and the nomination of any person who is in the opinion of the Commanding Officer of the cantonment personally interested in the matter under reference, or whose services are not immediately available as aforesaid shall be deemed to constitute a failure to make a nomination within the meaning of the foregoing provisions

252 When a committee of arbitration has been

Assembly of committee of arbitration

duly constituted, the Cantonment Magistrate shall, by notice in writing, inform each of the members of the fact and the committee of arbitration shall assemble within seven clear days from the service of the notice

253 The District Magistrate or the Magistrate

Chairman of committee of arbitration

appointed by him to act in his stead shall be the chairman of every committee of arbitration

254 For the purpose of determining the

Calculation of rent amount of monthly rent to be paid for a house, every committee of arbitration shall estimate, as nearly as may be the market-value of all buildings and authorized additions, and the amount of rent determined upon shall be such percentage on such market value as the committee of arbitration may think reasonable with reference to the circumstances of the neighbourhood and the period of time and season for which the house is likely to be occupied during the year, and shall include the taxes (if any) levied upon the land or such proportion thereof as the committee of arbitration may find to be customarily paid for the time being in the neighbourhood by tenants

255 (1) The decision of every committee of arbitration shall be determined by the majority of the votes taken at a meeting at which all the members are present

(2) The decision of every committee of arbitration shall be final

CHAPTER XXI

APPLICATIONS FOR BUILDING SITES ON GOVERNMENT LAND IN CANTONMENTS

256 Every application for permission to occupy, for the purposes of a building site, land belonging to the Government in a cantonment shall be submitted to the Cantonment Magistrate in writing, and shall contain the following particulars, namely—

Applications for permission to occupy Government land for building sites

(a) the situation, area and boundaries of the land

(b) the materials to be used in the intended buildings,

(c) the period after the date of occupation within which the intended buildings are to be completed and

(d) the purposes for which the land and the intended buildings are to be used

257 Every application made under section 256 shall be accompanied by—

Documents to accompany applications

(a) a plan, on a scale of fifty feet to the inch, showing—

(i) the boundaries of the land,

(ii) the roads or lands adjoining, and

(iii) all buildings intended to be erected on the land,

(b) a ground plan and elevation of the principal building intended to be erected, showing the dimensions of the same

(c) a statement of the buildings intended to be erected,

(d) an approximate statement of the intended outlay on the buildings and of the rent which it is proposed to charge for the same, if let to a tenant, and

(e) a declaration that the applicant has read the appropriate form of lease referred to in section 259 and undertakes, in the event of his application being sanctioned, to execute a lease in that form

258 (1) Every application made under section 256 shall if the procedure prescribed by that section and section 257 has been duly observed, be referred by the Cantonment Magistrate to the Executive Engineer—

(a) for verification of the plan referred to in section 257, clause (a) and

(b) for report as to whether the land is in the vicinity of a fortified place, whether the land is in the opinion of the Executive Engineer likely to be required for any public purpose, and whether there is any departmental objection to the application being sanctioned

(2) On receipt of such verification and report as aforesaid, the application shall be submitted to the Commanding Officer of the cantonment

(3) Where the land is not situate in a bazar, if the Commanding Officer of the cantonment considers that its occupation in the manner proposed would not be objectionable, either as regards the health or comfort of the troops or in any other respect he shall attach to the application a certificate to that effect, and shall forward the application to the General Officer of the Command

Provided that, where the Commanding Officer of the cantonment is not the Officer Commanding the District, the application shall be forwarded to the Officer Commanding the District, who shall, unless he considers that the occupation of the land in the manner proposed would be objectionable as aforesaid, forward the application to the General Officer of the Command

(4) Where the land is situate in a bazar and there is a cantonment committee, if the Commanding Officer of the cantonment considers that the occupation of the land in the manner proposed would not be objectionable as aforesaid, he shall attach to the application a certificate to that effect, and shall forward the application to the cantonment committee

(5) The General Officer of the Command, the Commanding Officer of the cantonment or the cantonment committee, as the case may be, may sanction or reject the application, according as he or it may think fit

Provided, first, that, if the land is in the vicinity of a fortified place or is applied for by a railway company, the application shall not be sanctioned without the express orders of the Governor General in Council, obtained

through such channel as the Governor General in Council may direct and

Provided, secondly, that if the land is applied for for the purpose of erecting a hospital school or other public building or if it is intended to set apart for occupation by civil officers the house to be erected on the land, the application shall not be sanctioned without the concurrence of the Local Government

259 (1) When an application under this Chapter is sanctioned, the applicant, before using or occupying the land or erecting any building thereon, shall duly execute a lease in one of the forms indicated in Schedule V and subject to the conditions set forth in the annexure to such form, or in such other form as the Governor General in Council may by notification prescribe, and shall register the lease under the law for the time being in force relating to the registration of documents

Explanation—Form A in Schedule V shall be applicable to leases of land applied for by a railway company or for the purpose of erecting a hospital school or other public building, and to leases of land situate in a bazar. Form B shall be applicable to all other leases of land under this Chapter

(2) There shall be appended to the lease a site plan of the land on a scale of fifty feet to the inch, showing—

(a) the boundaries of the land

(b) the roads or lands adjoining, and

(c) all buildings authorized to be erected on the land

(3) The site plan shall be verified by the Executive Engineer, and shall be signed,—

(a) if the land is situate in a bazar, by the Cantonment Magistrate

(b) if the land is not situate in a bazar, by the Officer Commanding the District or his principal staff officer,

and shall be indorsed with the date of its preparation, the name of the lessee and a note specifying the period within which the buildings to be erected on the land are to be completed

(4) Two copies of the site plan, prepared at the cost of the lessee and verified by the Executive Engineer, shall be delivered by the lessee to the Cantonment Magistrate

260 (1) The Cantonment Magistrate shall cause to be prepared and shall authenticate with his signature, two copies of every lease executed under this Chapter

(2) The Cantonment Magistrate shall—

(a) record in his office one of the said copies of every such lease as aforesaid and one of the copies of every site plan delivered to him by the lessee under the terms thereof, and

- (d) forward the other copies of every such lease and site plan as aforesaid to the head quarters of the Command for record

CHAPTER XXII

REGISTRATION OF IMMOVEABLE PROPERTY IN CANTONMENTS

261 The cantonment authority shall prepare General plan and maintain a general plan of the cantonment, on a scale of twenty four inches to the mile, showing all necessary details and distinguishing in particular—

- (a) all houses (if any) which have been set apart, in accordance with the conditions of leases executed under section 259, for occupation by civil officers and
- (b) all land (if any) which does not belong to the Government, and all houses (if any) situate thereon

262 The cantonment authority shall also prepare Bazar plan and maintain a bazar plan on a scale of fifty feet to the inch, of every bazar in the cantonment

263 (1) Every site shall be shown under Sites and streets to be distinguished a distinguishing number on the plans prepared under this Chapter, and the numbers for each bazar shall form a separate series

(2) Every street shall be shown on such plans as aforesaid by its name or under an alphabetical letter or number

264 (1) Every plan prepared under this Chapter shall, on completion, be Dating and authentication of plans. dated and authenticated by the signature of the Executive Engineer

(2) Whenever a general plan prepared under section 261 is altered the alteration shall be explained on the plan in a memorandum dated and signed by the Executive Engineer

265 No plan which relates to land in a cantonment and is in the custody of the cantonment authority or of any public officer, other than a plan submitted with an application under Chapter XXI shall be destroyed without the previous sanction of the Governor General in Council

266 The Cantonment Magistrate shall maintain a register showing, Register of Government land held by lessees outside bazars in regard to all Government land held by lessees and not situate in a bazar (whether the sites were occupied by the lessees before or after the commencement of this Code) and the buildings situate thereon, the following particulars, so far as they can be ascertained, namely —

- (a) the name of the cantonment, and the number and date of any orders declaring it to be a cantonment or defining its limits
- (b) a reference to any similar register kept before the commencement of this Code ,

- (c) the date of registry of the site ,
- (d) the number of the site, as shown on the general plan maintained under section 261 ,
- (e) the dimensions of the site ,
- (f) the boundaries of the site ,
- (g) in the case of a site occupied before the commencement of this Code, the date of the permission to occupy the site, and in the case of a site occupied after the commencement of this Code, the date of the lease executed by the lessee under section 259 ,
- (h) the name and description of the lessee at the date of registry ,
- (i) the name and description of the lessee's agent (if any) at the date of registry
- (j) the nature of the lessee's right under this Code, or under any other provision of law, including the particulars of any special right of occupancy ,
- (k) the estimated value of buildings on the site at the date of registry
- (l) the dates of authorities to add to buildings , and
- (m) all changes occurring from time to time, whether by transfer, by alterations or additions, by decisions of committees of arbitration, in dimensions, in value, or in agency

Explanation — In this section, the expression "date of registry" means the date of entry in the register maintained hereunder

267 The Cantonment Magistrate shall maintain a register showing, Register of Government land held by lessees in bazars in regard to all Government land held by lessees and situate in a bazar (whether the sites were occupied by the lessees before or after the commencement of this Code) and the buildings situate thereon, the following particulars, so far as they can be ascertained, namely —

- (a) the name of the bazar ,
- (b) a reference to any similar register kept before the commencement of this Code
- (c) the date of registry of the site ,
- (d) the number of the site as shown on the bazar plan maintained under section 262 ,
- (e) the dimensions of the site ,
- (f) the boundaries of the site ,
- (g) in the case of a site occupied before the commencement of this Code, the date of the permission to occupy the site, and, in the case of a site occupied after the commencement of this Code, the date of the lease executed by the lessee under section 259 ,
- (h) the name and description of the lessee at the date of registry ,
- (i) the name and description of the lessee's agent (if any) at the date of registry
- (j) the estimated value of buildings on the site at the date of registry , and
- (k) all changes occurring from time to time, whether by transfer, by alterations

or additions, in dimensions, in value, or in agency

Explanation—In this section, the expression "date of registry" means the date of entry in the register maintained hereunder

268 The Cantonment Magistrate shall maintain a register showing, in regard to all land (if any) which is private property and the buildings situated thereon, the following particulars, so far as they can be ascertained, namely—

- (a) the name of the cantonment and the number and date of any orders declaring it to be a cantonment or defining its limits
- (b) a reference to any similar register kept before the commencement of this Code,
- (c) the date of registry of the site,
- (d) the number of the site as shown on the general plan,
- (e) the dimensions of the site,
- (f) the boundaries of the site,
- (g) the name and description of the owner at the date of registry
- (h) the name and description of the owner's agent (if any) at the date of registry,
- (i) the particulars of the owner's right by reference to any acknowledgment by the Government, or any other proof,
- (j) the estimated value of buildings on the site at the date of registry, and
- (k) all changes occurring from time to time, whether by transfer, by alterations or additions, in dimensions, in value or in agency

Explanation—In this section the expression "date of registry" means the date of entry in the register maintained hereunder

269 (1) The Cantonment Magistrate shall maintain a register of transfers, in which he shall from time to time enter references to all transfers of immoveable property—

- (a) registered in his own office where he is himself Registrar or Sub-Registrar of the cantonment under the Indian Registration Act, 1877, or

III of 1877

- (b) appearing in the copies forwarded to him by the Registrar of the district under section 32, sub section (2), of the Cantonments Act, 1889,

XIII of 1889.

as the case may be

(2) The register of transfers shall contain the following particulars, namely—

- (a) a serial number for each transfer,
- (b) the date of registry,
- (c) the distinguishing number of the site, as recorded in the register maintained under section 266, 267 or 268, as the case may be,
- (d) the name of the transferor;

- (e) the name of the transferee,

- (f) the nature of the transfer, that is to say, whether by sale, mortgage, gift, exchange or bequest,

- (g) the date of the transfer and,

- (h) where the cantonment has been constituted a district or sub district for the purposes of the Indian Registration Act 1877, references to the indexes Nos. I, II and III kept in the cantonment under sections 54 and 55 of that Act.

III of 1

Explanation—In this section the expression "date of registry" means the date of entry in the register maintained hereunder

270 Reference, when possible to the serial number in the register of transfers shall be sufficient record, in the registers maintained under sections 266, 267 and 268 respectively, of changes occurring by transfer

271 (1) The cantonment authority shall in the month of July in each year make an inspection of the registers maintained under sections 266, 267 and 268, respectively and shall ascertain—

- (a) whether all the changes referred to in section 266, clause (m), or in section 268, clause (k), which have taken place during the last preceding twelve months have been duly noted in the appropriate register, and

- (b) whether any of the said registers are in such a condition as to require renewal

(2) The cantonment authority may give such directions as it thinks fit after making an inspection under sub-section (1), and shall send a brief report to the Officer Commanding the District of any action taken by it under this section

CHAPTER XXIII

SUPPLEMENTAL.

Bye laws

272 The cantonment committee (if any) of a cantonment wholly or in part situated in a hilly tract may at a meeting of which at least six clear days notice shall have been given, make bye laws for regulating or prohibiting the cutting or destroying of trees or shrubs or the making of excavations or removal of soil or quarrying, where such regulation or prohibition appears to the cantonment committee to be necessary for the maintenance of a water supply the preservation of the soil, the prevention of land slips or of the formation of ravines or torrents or the protection of land against erosion or the deposit thereon of sand, gravel or stones.

273 (1) In making a bye law under section 272, the cantonment committee may direct that a breach of it shall be punishable with fine which may extend to fifty rupees, and,

in the case of a continuing breach, with a further fine not exceeding five rupees for every day after the first in regard to which the offender is convicted of having persisted in the breach

(2) In lieu of or in addition to such fine as aforesaid, the Magistrate may require the offender to remedy the mischief so far as it lies within his power to do so

274 (1) No bye law made under section 169 or section 272 shall come into force until it has been confirmed by the Local Government and published for such time and in such manner as the Local Government may prescribe in this behalf

(2) The Local Government may cancel its confirmation of any such bye-law and thereupon the same shall cease to have effect

275 (1) The cantonment committee shall before making any bye laws under section 169 or section 272, publish, in such manner as may in its opinion, be sufficient for giving information to persons interested, a draft of the proposed bye laws, with a notice specifying a date on or after which the draft will be taken into consideration and shall before making such bye laws consider any objection or any suggestion which may be received from any person with respect to the draft before the date so specified

(2) If on such consideration of the draft any modification is made the Local Government shall determine whether or not the draft shall be republished for further criticism under this section

(3) Every bye law made by the cantonment committee shall be notified in English and in such other language or languages as the Local Government may direct, and such notification shall be conclusive proof that such bye law has been duly made in accordance with the requirements of this section

Delegation of Functions

276 (1) With the previous sanction of the Governor General in Council, the Local Government may, by order published in the local official Gazette authorize any person mentioned in such order to discharge any of the functions imposed by this Code on the Cantonment Magistrate except those imposed by Chapter XXI

Provided first that a person so authorized shall discharge such of the said functions only as the Cantonment Magistrate may, by order in writing, assign to him, and

Provided secondly that the Cantonment Magistrate may, by a like order, resume any functions which he may have so assigned

(2) In the discharge of any functions so assigned to him such person as aforesaid shall, under the control of the Cantonment Magistrate,

have the same powers and responsibilities as the Cantonment Magistrate

277 With the previous sanction of the Governor General in Council, the General Officer of the Command may, by notification in Command Orders, delegate any of his functions under this Code to any officer named in such notification and may, in like manner, vary or rescind any notification so made

278 (1) The cantonment committee may by order in writing delegate any of its functions to a sub-committee consisting of any two or more of the members of the cantonment committee.

(2) Every order passed by a sub-committee appointed under sub section (1) shall have the same effect as an order of the cantonment committee

Provided that the cantonment committee may, in any particular case, require that any order so passed be submitted to it for confirmation before issue

Notices

279 Where any notice issued under any section of this Code requires an act to be done for which no time is fixed by such section the notice shall specify a reasonable time for doing the same and it shall rest with the Court to determine whether the time so specified was a reasonable time within the meaning of this section

280 Where it is provided by this Code that a notice may be given to the owner, lessee or occupier of any land or building and the owner or lessee and the occupier are different persons, the notice shall be given to the one of them primarily liable to comply with such notice, and, in case of doubt, to both of them

Provided that where there is no owner or lessee resident in the cantonment the delivery of the notice to the occupier shall be sufficient

281 Every notice issued by the cantonment authority under this Code shall be signed—

(a) by the President or Secretary of the cantonment committee (if any), or

(b) by the members of any sub-committee specially authorized by the cantonment committee (if any) in this behalf, or,

(c) if a cantonment committee has not been constituted or has ceased to exist or cannot be convened by the Commanding Officer of the cantonment

282 (1) Unless it is in this Code in any case otherwise expressly provided every public notice issued thereunder shall be published by proclamation or in such other manner as the Local Government may direct

(a) Such proclamation as aforesaid shall be made by such method as the authority issuing the notice or the Cantonment Magistrate, may deem to be the customary method

Penalties and Prosecutions

283 (1) Whoever, in any case in which a penalty is not expressly provided elsewhere in this Code, fails to comply with any notice thereunder or otherwise commits a breach of any of the provisions thereof shall be punishable with imprisonment for a term which may extend to eight days, or with fine which may extend to fifty rupees, and, in the case of a continuing breach, with an additional fine not exceeding five rupee for every day after the first in regard to which he is convicted of having persisted in the breach.

(a) In lieu of or in addition to any fine imposed under this Code, the Court may require the offender to remedy so far as it lies within his power to do so, any mischief in respect of which the fine is imposed

284 No person shall be liable to punishment for a breach of any of the provisions of this Code unless complaint of the breach is made within three months after the commission thereof before a Magistrate having jurisdiction to entertain the complaint

Miscellaneous

285 (1) Where any person fails to perform any act which he has, by a notice issued under this Code, been required to perform, the cantonment authority may cause the act to be performed and may recover the cost from him

(a) Any moneys recoverable by the cantonment authority under sub-section (1) may be recovered either by suit or, on application to a Magistrate having jurisdiction in the cantonment, by distress or sale of the moveable property of the person from whom the money is recoverable and, if recoverable from the owner of property, shall, until it is paid, be a charge on the property

286 (1) The cantonment authority shall maintain such standards as it thinks fit for the purpose of verifying weights and measures, and shall provide proper means—

(a) for verifying weights and measures in use in the cantonment by comparison with such standards as aforesaid, and

(b) for stamping weights and measures so verified

(a) The cantonment authority may, by public notice, fix the times and places at which a servant of the cantonment authority shall attend for the purpose of such verification as aforesaid

287 (1) The cantonment authority may, in any case not otherwise provided for make compensation out of the cantonment fund to any person sustaining any damage by reason of the exercise of any of the powers vested in the cantonment authority, its officers and servants, by this Code, and shall make such compensation where the person sustaining the damage was not himself in default in the matter in respect of which the power was exercised

(a) Where any dispute arises touching the amount of any compensation which the cantonment authority is required as aforesaid to pay for injury to any building or land, the matter shall be referred to and decided by, a committee of arbitration constituted under Chapter XX

288 Every power conferred by this Code on the General Officer of the Command, the Officer Commanding the District, the cantonment authority the Sanitary Officer or the Cantonment Magistrate may be exercised from time to time as occasion requires

289 Where a notification under the Cantonments Act, 1889 or under this Code has been published at length in the official Gazette or in Station or Command Orders, it shall be sufficient in any subsequent notification to the same effect in such Gazette or Orders as aforesaid, to refer to the number, date and subject of the previous notification

290 No notice, order, requisition, license, permission in writing or other such document issued under this Code shall be invalid merely by reason of any defect of form

291 No act done, or proceeding taken, under this Code shall be questioned merely by reason of the existence of any vacancy in the cantonment committee or in any sub-committee, or on account of any defect or irregularity not affecting the merits of the case

292. (1) A copy of this Code and of any bye laws made under section 169 or section 272 shall be kept at the office of the cantonment authority and shall be open during office hours to the inspection, free of charge, of any inhabitant of the cantonment

(a) Copies of this Code, including any such bye-laws as aforesaid, shall be kept at the office of the cantonment authority for sale to the public

Signed, sealed and delivered by the above named _____, _____ in the presence of _____

NOTE: Copies of this form with the Annexure will be obtainable gratis on application to the Cantonment Magistrate

ANNEXURE TO FORM A

CONDITIONS

CONDITION I—The buildings to be erected on the land in accordance with the site plan appended to the lease shall be commenced within six months from the execution of the lease and shall be completed within the period specified in the note indorsed on such plan or within such further period (if any) as the authority which sanctioned the application under Chapter XXI of the Cantonment Code, 1899, may, by order in writing, allow

CONDITION II—(1) Buildings may be erected on the land only in accordance with the site plan appended to the lease or, where a proposed building alteration or addition is not in accordance with such plan, with the written permission of the authority which sanctioned the application under Chapter XXI of the Cantonment Code, 1899

(2) Any such permission may be made subject to any conditions which may be agreed upon between such authority and the Lessee

CONDITION III—The land shall not be used for any purposes other than those specified in the Lessee's application under section 256 clause (d), of the Cantonment Code, 1899 nor shall the buildings erected on the land be permitted to fall into such a state of ruin as absolutely to prevent their being used for the purposes so specified

Provided, always that it shall be obligatory on the Lessee to commence rebuilding the same, if destroyed or injured by earthquake, fire, cyclone or other act of God, within six months of such destruction or injury and to reinstate the same fit for use for the purposes so specified as aforesaid within such period not exceeding two years after the same shall have been so destroyed or injured, as aforesaid, as to

shall seem fit provided nevertheless that in no such case shall the Lessee be required to reinstate the same fit for use as aforesaid within a shorter period than twelve calendar months from the date of such destruction or injury

Insert as the case may be the General Officer of the

Command or if the land is situate in a bazar the authority of _____

† This condition to be omitted if the land is rent free

CONDITION III A†—The Lessee shall pay the said yearly rent of rupees _____ by equal monthly instalments of rupees _____ and the said instalments shall be paid on the fifteenth day of every month during the continuance of this demise for the month immediately preceding

CONDITION IV—(1) Whenever the Lessee intends to transfer, by sale, gift mortgage or exchange, his interest in the land, or in the buildings erected on the land, or in any part of the land or buildings he or the intended transferee shall give the Cantonment Magistrate one month's notice in writing before the transfer is completed

(2) The General Officer of the Command shall have power, within the said period of one

Seal

Seal

month and with the concurrence of the Local Government, to impose by order in writing, his veto on any such transfer, and if in any case the cantonment authority considers it desirable that the said power of veto should be exercised, it shall report the case to such General Officer without delay

(3) If notice of any such transfer is not given as aforesaid, or if any such transfer is made after the same has been vetoed, the transfer shall be void

CONDITION V—Every person on whom the Report of devolution Lessee's interest in the of Lessee's interest land, or in the buildings erected on the land may devolve by transfer, by succession or by operation of law, shall send to the cantonment authority, within one month from the date of such devolution, a report in writing of the fact, together with such particulars as may be required by the cantonment authority for entry in the register maintained under section 266 or 267 as the case may be, of the Cantonment Code, 1899

CONDITION VI—(1) If the Lessee does not Procedure on breach commence or complete, as of Condition I or Condition II required by Condition I, the buildings to be erected on the land the cantonment authority may, by notice in writing require him to remove all or any buildings or materials which he may have erected or collected thereon and, if he fails to comply with such notice, the cantonment authority may after giving him six hours further notice in writing cause such removal to be effected and recover the cost from him, and may also cancel the lease

(2) If the Lessee erects any building or makes any alteration or addition otherwise than as allowed by or under Condition II the cantonment authority may by notice in writing require him to remove the building or to alter the same to its satisfaction and if he fails to comply with such notice the cantonment authority may, after giving him six hours further notice in writing cause such removal or alteration to be effected and recover the cost from him

CONDITION VII—(1) So long as the Lessee, Forfeiture for breach his heirs executors admin- of any other condition istrators, representatives or assigns, shall duly [* pay the aid rent of rupees and] observe the conditions hereinbefore specified, and on his part to be observed, he or they may, subject to Condition IX hold the land for ever without interruption by the Secretary of State, his successors in office and assigns

(2) If the Lessee, his heirs, executors, administrators, representatives or assigns, shall [† fail to pay the said rent of rupees for twenty one days after the same shall have become due or shall] in the event of the said buildings being destroyed or injured by earthquake, fire, cyclone or other act of God, fail to commence rebuilding the same as provided in Condition III hereof within six months of such destruction or injury and to reinstate the same fit for use as provided in the said Condition III hereof and within such period as therein provided, or shall break any of the remaining conditions hereinbefore specified, other than

Condition I or Condition II, and on his or their part to be observed, the Local Government may, after giving one month's notice in writing resume the land or any portion thereof, and may on such resumption, declare all or any part of the right and interest of the Lessee, his heirs, executors, administrators, representatives or assigns, in the buildings erected on the land to be forfeited

CONDITION VIII—The Lessee his heirs, Claims to compensation executors, administrators, representatives or assigns, shall not be entitled to compensation for any loss incurred by reason of anything done in pursuance of Condition VI or Condition VII, clause (2)

CONDITION IX—The Local Government may Right of the Govern resume the land or any ment to resume the land portion thereof at any time on payment of compensation for buildings after giving one month's notice in writing, and on payment of compensation for such buildings standing on the land or portion thereof as shall have been erected under proper authority If there shall be any dispute as to the amount of such compensation, the same shall be referred to a committee of arbitration which shall be constituted as provided in Chapter XX of the Cantonment Code 1899, and the Lessee, his heirs executors administrators, representatives and assigns, shall be bound by the decision of the committee of arbitration

FORM B

FORM OF LEASE TO BE EXECUTED IN ALL CASES OTHER THAN THOSE FOR WHICH FORM A ABOVE IS PRESCRIBED

THIS INDENTURE made the _____ day of _____, BETWEEN THE SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called the Secretary of State) of the one part, and _____, son of _____, of _____ (hereinafter called the Lessee) of the other part

WHEREAS the Lessee has applied for permission to occupy, for the purposes of a building site the land belonging to the Government in the _____ Cantonment which is delineated in the site plan hereto appended, and has submitted with his application the particulars and documents required by sections 256 and 257 of the Cantonment Code, 1899

AND WHEREAS the said application has received the sanction of the General Officer of the _____ Command

NOW THIS INDENTURE WITNESSETH as follows

1 The Secretary of State doth hereby grant unto the Lessee his heirs, executors, administrators, representatives and assigns liberty and license to enter into and upon the piece or parcel of land delineated in the site plan hereto appended and to occupy the same as a site for the erection of buildings, and henceforth to hold and enjoy the same and any buildings erected by him thereon,* subject to the conditions set forth in the annexure hereto

ANNEXURE TO FORM B

CONDITIONS

In these Conditions—

- (a) "house" means the house erected on the land occupied by the Lessee and includes the land and buildings appurtenant to the house and if any question arises whether any land or building is appurtenant to the house, it shall be decided by the Cantonment Magistrate, whose decision thereon shall be subject to revision by the District Magistrate, be final
- (b) the expression "repairs" to a house shall be deemed to include such repairs as are usually made in the neighbourhood to buildings of the same class as that to which the house belongs but does not include additions, improvements or alterations except in so far as they are necessary to carry out such repairs as aforesaid or have been made with the Lessee's consent
- (c) "military officer" means a commissioned or warrant officer of the army on military duty in the cantonment and includes a chaplain, a Cantonment Magistrate and any person in Army departmental employment whom the General Officer of the Command may, for the purposes of these Conditions place on the same footing as a military officer and
- (d) "civil officer" means a gazetted civil officer of the Government, and includes any other person in the service of the Government, not being a military officer, whom the Local Government may for the purposes of these Conditions place on the same footing as a civil officer

CONDITION I—The buildings to be erected on the land in accordance with the site plan appended to the lease shall be commenced within six months from the execution of the lease, and shall be completed within the period specified in the note indorsed on such plan, or within such further period (if any) as the authority which sanctioned the application under Chapter XXI of the Cantonment Code, 1899, may, by order in writing, allow

CONDITION II—(1) Buildings may be erected on the land only in accordance with the site plan appended to the lease or, where a proposed building, alteration or addition is not in accordance with such plan with the written permission of the authority which sanctioned the application under Chapter XXI of the Cantonment Code, 1899

(2) Any such permission may be given subject to any conditions which may be agreed upon between such Authority and the Lessee

CONDITION III—The land shall not be used for any purpose other than those specified in the Lessee's application under section 256, clause (d), of the Cantonment Code, 1899 nor shall the buildings erected on the land be permitted to fall into such a state of ruin as absolutely to prevent their being used for the purposes so specified

Provided, always, that it shall be obligatory on the Lessee to commence rebuilding the same, if destroyed or injured by earthquake, fire, cyclone or other act of God within six months of such destruction or injury, and to reinstate the same fit for use for the purposes so specified or aforesaid within such period, not exceeding two years after the same shall have been so destroyed or injured as aforesaid, as to the General Officer of the Command shall seem fit provided, nevertheless, that in no such case shall the Lessee be required to reinstate the same fit for use as aforesaid within a shorter period than twelve months from date of such destruction or injury

CONDITION III A*—The Lessee shall pay the said yearly rent of rupees by equal monthly instalments of rupees, and the said instalments shall be paid on the fifteenth day of every month during the continuance of this demise for the month immediately preceding

* This condition to be omitted if the land is rent-free.

CONDITION IV—(1) Whenever the Lessee intends to transfer by sale, gift, mortgage or exchange, his interest in the land, or in the buildings erected on the land, or in any part of the land or buildings, he or the intended transferee shall give the Cantonment Magistrate one month's notice in writing before the transfer is completed

(2) The General Officer of the Command shall have power, within the said period of one month and with the concurrence of the Local Government, to impose by order in writing, his veto on any such transfer and, if in any case the cantonment authority considers it desirable that the said power of veto should be exercised, it shall report the case to such General Officer without delay

(3) If notice of any such transfer is not given as aforesaid, or if any such transfer is made after the same has been vetoed, the transfer shall be void

CONDITION V—Every person on whom the Report of devolution of Lessee's interest in the land, or in the buildings erected on the land, may devolve by transfer, by succession or by operation of law, shall send to the cantonment authority, within one month from the date of such devolution, a report in writing of the fact together with such particulars as may be required by the cantonment authority for entry in the register maintained under section 266 or section 267, as the case may be, of the Cantonment Code, 1899

CONDITION VI—The Government reserves a right, subject to the Conditions hereinafter contained, to appropriate the house at any time for occupation by any military officer or civil officer

CONDITION VII—If the Lessee lets the house to any person other than a military officer or (if the house has been set apart in accordance with Condition X for occupation by civil officers) a civil officer, possession of the house shall not be given—

(a) such person has executed a stamped agreement undertaking to vacate the house whenever required so to do in pursuance of a notice issued under Condition VIII or Condition X without claiming any compensation, and has registered such agreement under the law for the time being in force relating to the registration of documents, and

(b) the Lessee has forwarded an attested copy of such agreement to the cantonment authority

CONDITION VIII—Whenever the cantonment authority considers that the right reserved by Condition VI should be exercised in behalf of any military officer it may, if the house is not already occupied by a military officer, and if it has not been set apart in accordance with Condition X for occupation by civil officers, by notice in writing—

(a) require the Lessee to let the house to the military officer named in the notice, and

(b) require the existing tenant (if any) to vacate the same

CONDITION IX—If the house is occupied by a departmental military officer and the cantonment authority considers that the right reserved by Condition VI should be exercised in behalf of a regimental officer, or *vice versa*, it may, by notice in writing, require the officer in occupation to vacate the house,

and may, if necessary, by further notice in writing, require the Lessee to accept the change of tenancy

CONDITION X—(1) The cantonment authority may, at any time, with the previous sanction of the General Officer of the Command given with the concurrence of the Local Government, set apart the house for occupation by civil officers

(2) If the house has been so set apart, the arrangement shall not be revoked without the concurrence of the Local Government

(3) If, while the house is so set apart the cantonment authority at any time considers that the right reserved by Condition VI should be exercised in behalf of any civil officer it may, if the house is not already occupied by a civil officer, by notice in writing,—

(a) require the Lessee to let the house to the civil officer named in the notice, and

(b) require the existing tenant (if any) to vacate the same

CONDITION XI—(1) Whenever a military officer or a civil officer considers that a notice should be issued in his behalf under Condition VIII or Condition IX or Condition X, he may request (in the case of a regimental officer) the Commanding Officer of his regiment, or (in the case of a departmental military officer) the local head of his Department, or (in the case of a civil officer) the District Magistrate to make an application to that effect to the cantonment authority

(2) On receipt of any such application the cantonment authority shall inquire into the case and it shall not issue the notice unless it is satisfied—

(a) that the officer ought to reside in the cantonment, and

(b) that the circumstances are such as to require its intervention, and

(c) that the rent offered by the officer for the house is reasonable and

(d) if the house is vacant, that it is suitable for the residence of the officer, and,

(e) if the house is occupied that it is suitable for the residence of the officer, and that there is no vacant house in the cantonment which is suitable for his residence

Explanation—In considering whether a house is suitable for the residence of an officer, regard shall be had to (i) the locality in which his duties chiefly lie and (ii) his rank

CONDITION XII—(1) The house shall not be occupied for the purposes of a bank, hotel, shop or school, or by a railway company, without the previous sanction in writing of the General Officer of the Command, given with the concurrence of the Local Government

(2) Before application is made for such sanction, the Commanding Officer of the cantonment shall certify whether or not in his opinion the number of houses in the cantonment, as compared with the strength of the existing or prob-

able garrison, renders it likely that such occupation as aforesaid would—

- (a) cause any difficulty in obtaining accommodation in the cantonment, or in the part of the cantonment in which the house is situate, for military officers or civil officers, or
- (b) necessitate the acquisition of land at some future time for the extension of the cantonment

House not to be appropriated for military or civil officer if it is occupied with sanction as a bank hotel shop or school or by a railway company or is otherwise appropriated by the Government

CONDITION XIII—No notice shall be issued under Condition VIII or Condition X if the house—

- (a) is occupied with the sanction required by Condition XII, as a bank, hotel, shop or school and has been so occupied continuously during the three years immediately preceding the time when the occasion for issuing the notice arises, or
- (b) is occupied, with the sanction aforesaid, by a railway company, or
- (c) is appropriated by the Local Government, with the concurrence of the General Officer of the Command or by the Governor General in Council for use as a public office or for any other purpose

CONDITION XIV—Every notice to the Lessee issued under Condition VIII, Condition IX or Condition X, shall state the amount of monthly rent which the proposed tenant offers to pay for the house

CONDITION XV—(1) If the house is unoccupied, any notice issued under Condition VIII or Condition X may require the Lessee to give possession of the same to the proposed tenant within four days from the service of the notice

(2) If the house is occupied, no such notice as aforesaid shall require its vacation in less than thirty days from the service of the notice

CONDITION XVI—(1) Subject to the terms of any agreement in writing between the Lessee and a military officer or a civil officer and to the terms of this condition every lease of the house to such an officer shall be deemed to be a lease from month to month, terminable—

(a) without notice in the case of the departure of the officer from the cantonment on duty or under medical certificate, or in the case of a committee of arbitration deciding that the house has become unfit for occupation, or

(b) by one month's notice in writing to the Lessee in any other case

(2) A notice under clause (1) of this condition must be signed by or on behalf of the officer concerned and the Cantonment Magistrate shall, if the officer so desires, cause it to be served on the Lessee free of charge

(3) When a military officer or a civil officer has in pursuance of clause (1) of this condition, given up his occupation of the house without notice, and has occupied the house during a portion only of the calendar month in which his occupation ceased, he shall be liable to pay as rent for that portion a sum bearing the same proportion to the monthly rent as the said portion bears to the whole month

Provided that the sum shall not, in any case, be less than one fourth of the monthly rent.

CONDITION XVII—If any tenant of the house, being a military officer or a civil officer, sub lets the same without the consent of the Lessee, the sub lease shall be voidable at the option of the Lessee

CONDITION XVIII—(1) If the Lessee considers that any rent offered by a proposed tenant and stated in notice in accordance with Condition XIV is insufficient he may, within a period of fifteen days from the service of such notice, require that the matter be referred by the Commanding Officer of the cantonment to a committee of arbitration

(2) If the Lessee does not make such a requisition within the said period, he shall be deemed to have accepted the rent so offered

(3) After such acceptance or the decision of a committee of arbitration, the amount of such rent shall not be called in question by either party except in the circumstances mentioned in clause (2) of Condition XXI

CONDITION XIX—(1) If the Lessee fails to execute any repairs to the house which any tenant, being a military or civil officer, may consider necessary, the cantonment authority may, at the request of the tenant, and if it is satisfied that such repairs or any of them are necessary, by notice in writing, require the Lessee to execute such repairs or such of them as it may consider necessary, within a period, not less than fifteen days, to be specified in the notice.

(2) If the Lessee objects to comply with any notice issued under clause (1) of this condition, he may, within fifteen days from the service of the notice, require that the matter be referred by the Commanding Officer of the cantonment to a committee of arbitration.

CONDITION XX—If any tenant of the house being a military or civil officer, considers that his lease should be terminable without notice in consequence of the house having become unfit for occu-

pation, he may apply to the Commanding Officer of the cantonment to refer the matter to a committee of arbitration

CONDITION XXI—If the Lessee and any tenant of the house, being a military or civil officer, disagree—
Power of either Lessee or tenant to apply for reference to arbitration on other questions.

(a) as to any change in the rent of the house which is proposed in consequence of dilapidations or additions to buildings or for any other similar reason, or

(b) on any matter relating to rent or repairs, other than a matter referred to in clause (a) of this condition or in Condition XVIII, Condition XIX or Condition XX,

either the lessee or the tenant may apply to the Commanding Officer of the cantonment to refer the matter to a committee of arbitration

CONDITION XXII—Whenever any matter is referred to a committee of arbitration in pursuance of Condition XVIII, Condition XIX, Condition XX or Condition XXI, the Committee shall be constituted as provided in Chapter XX of the Cantonment Code 1899 and the Lessee and his tenant shall be bound by the decision of the committee
Constitution of committee of arbitration its decision to be binding on Lessee and his tenant

CONDITION XXIII—If the Lessee fails to comply with any notice issued under clause (1) of Condition XIX and has not, within fifteen days from the service of such notice, required that the matter be referred to a committee of arbitration, or,
Right of tenant to execute repairs and deduct cost from rent

if any committee of arbitration constituted under Chapter XX of the Cantonment Code, 1899, decides that repairs are necessary and the extent to which they are necessary, and the Lessee fails to execute such repairs within a period to be specified in a notice issued by the cantonment authority in that behalf,

the tenant of the house may himself cause the repairs specified in the notice to be executed at rates not exceeding those paid in the cantonment by the Military Works Department or the Public Works Department, and may deduct the cost thereof from the rent, or otherwise recover it from the Lessee

CONDITION XXIV—(1) If the Lessee does not commence or complete as required by Condition I the buildings to be erected on the land the cantonment authority may, by notice in writing, require him to remove all or any buildings or materials which he may have erected or collected thereon and, if he fails to comply with such notice, the cantonment authority may, after giving him six hours' further notice in writing, cause such removal to be effected and recover the cost from him, and may also cancel the lease
Procedure on breach of Condition I or Condition II

(2) If the Lessee erects any building or makes any alteration or addition otherwise than as allowed by or under Condition II the cantonment authority may, by notice in writing, require him to remove the building or to alter the same to its satisfaction and if he fails to comply with such notice, the cantonment authority may, after giving him six hours further notice in writing, cause such removal or alteration to be effected and recover the cost from him

CONDITION XXV—(1) So long as the Lessee Forfeiture for breach his heirs, executors, administrators or assigns, shall [duly pay the said rent of rupees and]* observe the conditions hereinbefore specified and on his or their part to be observed he or they may subject to Condition XXVII, hold the land for ever without interruption by the Secretary of State, his successors and assigns
The words in brackets to be omitted if the land is rent free

(2) If the Lessee, his heirs, executors, administrators, representatives or assigns, shall [fail to pay the said rent of rupees, for twenty one days after the same shall have become due or shall],† in the event of the said buildings being destroyed or injured by earthquake fire, cyclone or other act of God, fail to commence rebuilding the same as provided in Condition III hereof within six months of such destruction or injury and to reinstate the same fit for use as provided in the said Condition III hereof, and within such period as therein provided, or shall break any of the remaining conditions hereinbefore specified other than Condition I or Condition II and on his or their part to be observed the Local Government may, after giving one month's notice in writing resume the land or any portion thereof, and may, on such resumption declare all or any part of the right and interest of the Lessee, his heirs, executors administrators, representatives or assigns, in the buildings erected on the land to be forfeited
† The words in brackets to be omitted if the land is rent free.

CONDITION XXVI—The Lessee his heirs, executors, administrators, representatives and assigns, shall not be entitled to compensation for any loss incurred by reason of anything done in pursuance of Condition XXIV or Condition XXV, clause (2)
Claims to compensation barred

CONDITION XXVII—The Local Government may resume the land or any portion thereof at any time after giving one month's notice in writing, and on payment of compensation for such buildings standing on the land or portion thereof as shall have been erected under proper authority If there shall be any dispute as to the amount of such compensation, the same shall be referred to a committee of arbitration, which shall be constituted as provided in Chapter XX of the Cantonment Code, 1899 and the Lessee, his heirs, executors, administrators, representatives and assigns, shall be bound by the decision of the committee of arbitration
Right of the Government to resume the land on payment of compensation for buildings

P J MAITLAND, Major General

Secretary to the Government of India.

DECLARATION

No 3489M—The 29th June 1899—Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken up by Government at the expense of the Rampur Boalia Municipality for a public purpose, viz, for the extension of the Ganakpara Road, in the village of Boalia, mahalla Ganakpara, pargana Lashkerpur zilla Rajshahi, it is hereby declared that for the above purpose a piece of land measuring, more or less 12 chitaks of standard measurement, is required. The land is bounded on the north by Municipal subsidiary drain south of Babua Ram's building, on the south by Somra Behara's house on Gossai's land, on the east by Kerachipatti road, and on the west by drain No II.

A plan of the land may be inspected in the office of the Collector of Rajshahi.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

E W COLLIN,
Offg Secy to the Govt of Bengal

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estate situate in the district of Bankura in the subdivision of Vishnupur will be put up to sale by the Subdivisional Officer on the spot at Muidara *alias* Brundabanpur on 24th July 1899 corresponding with 9th Shrahan 1906 B S

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale

- 1st—The estate to be sold to the highest bidder above the upset price which will be fixed by the Sub divisional Officer at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd—If the amount of purchase money do not exceed Rs 100 the whole amount to be paid down at once.
- 4th—If the amount of purchase money exceed Rs 100 one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT
CINCHONA PLANTATION

From 1st April 1898 the price of this quinine will be as follows —

1 Pound tin Rs 17	or post free Rs 17 12
$\frac{1}{2}$ " " 8 8	" " 9
$\frac{1}{4}$ " " 4 4	" " 4 12

Analysis shows this quinine to be of the purest manufacture and it is guaranteed to be free from wilful mixture with the inferior alkaloids cinchonine and cinchonidine. It is for sale only to Government officers and only for cash and may be had from the Superintendent Botanic Garden Sibpur near Calcutta.

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে
প্রস্তুত বিশুদ্ধ সলফেট অফ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রিল হইতে এই কুইনাইনের
নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাক মাণ্ডল সমেত ১৭৬০
১ আধ " " ৮৮০, " " " ৯
১ শিকি " " ৪৪০, " " " ৪৬০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন
অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা
যে সিনকোনাইন ও সিনকোনোডাইন নামক অপকৃত্ত
কারের সহিত ইচ্ছাপূর্বক মিশান হয় নাই তাহার
গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে
কেবল গবর্ণমেন্টের কর্মচারিগণের নিকট বিক্রয়
করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের
কোম্পানির বাগানের সুপারিন্টেন্ডেন্টের নিকট
পাওয়া যাইতে পারিবে।

The Indian Law Reports

Published under Authority

THE Indian Law Reports, published under the authority of the Governor General in Council appear in monthly parts published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot and the Madras Bombay and Allahabad Series are distributed direct from Madras Bombay and Allahabad respectively.

In supersession of the previous advertisements on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876—

Terms of subscription payable annually in advance

For the complete series including postage (Inland rate) Rs 22 8
Ditto ditto (Overland rate) Rs 23

	Without postage	With postage

A DICTIONARY OF THE ECONOMIC
PRODUCTS OF INDIA

By DR GHO WATT CIE

Reporter on Economic Products

The first five volumes and Vol VI Parts I II III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied on subscription or by separate purchase of the price for the complete set which is Rs 45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made); packing and postage in India 8 annas per volume for England Rs 1 per volume for Ceylon and in half calf or half morocco Rs 6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names habitat or occurrence history properties and uses (both chemical and industrial); trade statistics markets and the work is arranged alphabetically according to scientific nomenclature but commercial and important general names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that the information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have however furnished the result of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has a prominent abridgement of the most recent invention and discoveries.

Volume I contains the letters A and B and consists of 559 royal 8vo pages. Volume II contains the letter C in 689 pages. Volume III contains the letters D E F and half of G. Volume IV contains the letters G to middle of L and Vol V contains the letters L to end of O. Vol VI (which contains the letters P to Z) is not yet published. The whole work is in 11 volumes (including Parts I to IV of Vol VI) but a tenth volume has been issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index is practically a complete list of the vernacular and European names of the plants animals and minerals of India and is a work of reference which it is hoped will prove of considerable value.

Index to ditto ditto 8vo Rs 2 (4s)
The above is out of stock

EASTERN ARCHIPELAGO—SUMATRA, NORTH EAST COAST

Sembilan channel—Light and light buoy established

THE British Admiralty has given notice (No 309 of 1899) that a light and a light buoy have been established for facilitating the navigation of Sembilan channel as follows —

- 1 A *white fixed* light of the 6th order, elevated about 38 feet above high water and visible, in clear weather, from a distance of 10 miles, is exhibited on the north side of the channel

It is shown from an iron framework structure, painted white situated on the edge of the bank which dries off the eastern side of Sembilan (pulo Tampalis) island.

Approximate position, lat 4° 8' 0" N, long 98° 15' 30" E

- 2 A light buoy painted black, and exhibiting a *red fixed* light, visible about 2 miles, has been moored in a depth of 13 feet, low water springs, on the south side of the channel

Approximate position, lat $4^{\circ} 7' 40''$ N, long $98^{\circ} 16' 0''$ E

This Notice affects the following Admiralty Charts — Acheh head to Tyngkok bay No 2100 Malacca strait No 1355 Diamond point to pulo Berhala, No 1353 Also List of Lights part VI 1899, page 62 China Sea Directory, vol I, 1896, pages 76 77

NOTICE TO MARINERS—No 133

[First Publication]

INDIA, SOUTH—CEYLON COAST

Extension of the Stone rubble of the N W Breakwater

THE Master Attendant, Colombo, has given notice dated the 3rd instant that the stone rubble of the N W Breakwater now extends to a distance of about 400 yards from the Green Light on the N E head of the breakwater along a line $S 39^{\circ} W$ from the green light and that there is a patch on the rubble bank having a depth of water over it of 25 ft 10 in

A Boat showing a red light will be moored on the end of the rubble bank on or about July 15th next, and vessels will have to pass between it and the red light on the end of the S W Breakwater but in the meantime vessels are cautioned not to come in shore of a line with the Red Light on end of S W Breakwater bearing south until the Pilot gets on board

NOTICE TO MARINERS—No 123

[Third Publication]

CHINA SEA—FORMOSA

Boudrouet rocks—Non existence of—

THE British Admiralty has given notice (No 271 of 1899) that the Master of the S S *Taukishin a Maru* reports having passed close to the assigned position of Boudrouet rocks off the east coast of Formosa without seeing any indication of their existence, though a careful look out at the masthead was kept for them

These rocks were originally reported in December 1864 by M Boudrouet, of the French ship *Robur*, who described them as a group of rocks about 20 metres high, perpendicular on all sides and distant about 4 or 5 miles they do not appear to have been seen since

In 1898, the Captain of H I M Austrian ship *Frunderberg* reported that his vessel (approaching from the south westward) passed at about 5 miles from the reputed position of these rocks without seeing them, but at the same time he saw, dipping on the horizon, Kurmi island, which appeared like a scattered group of small rocks It is probable that M Boudrouet saw Kurmi island a long way off appearing like rocks, that a rain squall hid it for a time whilst he was sailing towards it, and that when he next saw Kurmi island he recognised it

The above reports are considered sufficient to justify the belief that Boudrouet rocks do not exist they have therefore been erased from the Charts

Approximate position, lat $24^{\circ} 9\frac{1}{2}'$ N, long $122^{\circ} 34'$ E

This Notice affects the following Admiralty Charts — China sea, No 1263 Hongkong to Liantung gulf, No 1262 Amoy to Nagasaki, No 2412 Formosa island and strait, No 1268 Also, China Sea Directory, vol IV, 1894, page 212

[Third Publication]

EASTERN ARCHIPELAGO—BORNEO

Bruni bay—Particulars of Abana rock

With reference to Notice to Mariners No 46, dated 28th February last, issued by this office, the British Admiralty has given further notice (No 273 of 1899) respecting the rock on which the ship *Abana* struck in 1898 at the entrance to Bruni bay

Abana rock is a coral patch with a depth of 4 fathoms on it, from which the largest of the Pelong rocks bears S 25° W, distant 2½ miles, and the east extreme of Great Rusukan (in line with west extreme of Burong) N 42° E, and Polompong point S 28° E

Approximate position lat 5° 6' 55" N, long 115° 3' 40" E

It is connected with Pelong rocks by foul ground, on which several soundings of 9 fathoms were obtained the bottom being very uneven. As it is possible shoaler heads may exist, no vessel should attempt to pass between *Abana* and Pelong rocks

(Variation 5° Easterly in 1899)

Tungsha light vessel—Alteration in character of light

WITH reference to Notice to Mariners No 25, dated 30th January last, issued by this office the British Admiralty has given further notice (No 294 of 1899) that the Tungsha light vessel (*Neuchuang*) has been replaced by a light vessel exhibiting a light and a fog signal of the following description—

Tungsha light vessel exhibits a *white group flashing light*, showing groups of *three flashes* in quick succession every *forty five seconds* elevated 38 feet above the sea and visible in clear weather from a distance of 11 miles A white riding light is also shown from the forestay

During thick or foggy weather a siren will give *two blasts* first a *low note*, secondly, a *high note*, every *ninety seconds* If the siren is disabled, a gong will be sounded at the same interval

The hull is painted red with *Tungsha* in white letters on each side, and has one mast surmounted by a black ball

When out of position the light will not be exhibited, but a *red fixed light* will be shown at the bow and stern, and a red flag hoisted above the ball until the latter is struck

Approximate position, lat $31^{\circ} 8' 30''$ N, long $122^{\circ} 0' 30''$ E

PART VI

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 23

GOVERNMENT OF INDIA LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd June, 1899

NO 4 OF 1899

A Bill further to amend the Whipping Act, 1864

WHEREAS it is expedient further to amend the Whipping Act 1864 It is hereby enacted as follows

Short title, extent and commencement 1 (1) This Act may be called the Whipping Act 1899

(2) It extends to the whole of British India, inclusive of British Baluchistan and the Santal Parganas, and

(3) It shall come into force at once

2 To section 2 of the Whipping Act, 1864 as amended by section 5 of the Indian Criminal Law Amendment Act, 1895 the following shall be added, namely

'Group E

'(11) rioting armed with a deadly weapon, as defined in section 148 of the said Code'

3 For section 5 of the Whipping Act 1864 VI of 1864 as amended by section 6 of the Indian Criminal Law Amendment Act, 1895 the following shall be substituted, namely

tuted, namely

5 Any juvenile offender who commits or attempts to commit—
Juvenile offenders when punishable with whipping *

(a) any offence which is punishable under the Indian Penal Code otherwise than with death, or XLV 1860

(b) any offence which is punishable under any special or local law with imprisonment,

may be punished with whipping in lieu of any other punishment to which he may for such offence or attempt be liable

Provided that the Governor General in Council may, by order in writing, direct that the punishment of whipping shall not be inflicted in respect of such offences falling under clause (b) as he may think fit to specify in this behalf

Explanation—In this section the expression "juvenile offender" means an offender who is, in the opinion of the Court (which shall be final and conclusive on the point), under sixteen years of age

4 The words 'under the provisions of the Indian Penal Code' in the preamble to the Whipping Act, 1864 and section 6 of the Indian Criminal Law Amendment Act, 1895, are hereby repealed VI of 1864. III of 1895.

STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is to extend the punishment of whipping in two directions

2 Clause 2 proposes to make an addition to section 2 of the Whipping Act, 1864 (VI of 1864) which will have the effect of rendering the offence of rioting armed with a deadly weapon punishable with whipping in lieu of any other punishment already provided therefor by section 148 of the Indian Penal Code. The offence is one for which the infliction of corporal punishment seems to be very suitable.

3 Under section 5 of the Act of 1864 as it now stands, a juvenile offender cannot, the Government of India are advised, be whipped except on conviction for an offence under the Indian Penal Code, nor can he be so punished for an attempt to commit an offence. There are undoubtedly many offences against special or local laws which are punishable with imprisonment and for which a youthful offender might with advantage, be whipped rather than sent to jail, and it is thought that, if the attempt to commit an offence punishable with whipping is not similarly punishable, it ought to be made so. Clause 3 is, therefore, intended to amend the law on the subject by substituting a revised section for section 5 of the present Act.

4 The repeals proposed by clause 4 of the Bill are purely consequential.

The 28th April 1899

C M RIVA7

J M MACPHERSON,
Secretary to the Government of India

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd June, 1899

NO 7 OF 1899

A Bill to authorise certain Companies registered under the Indian Companies Act 1882, to keep branch registers of their members in the United Kingdom

WHEREAS it is expedient to authorize certain Companies registered under the Indian Companies Act, 1882 to keep branch registers of their members in the United Kingdom It is hereby enacted as follows

1 (1) This Act may be called the Indian Short title extent Companies (Branch Registers) Act 1899 and commencement

(2) It extends to the whole of British India and

(3) It shall come into force at once

2 In this Act unless there is anything repugnant in the subject or Definitions context,—

(a) the expression 'Company' means a Company registered under the Indian Companies Act, 1882, which complies with the following conditions

(i) that its capital is divided into shares

(ii) that its paid up capital in money is not less than twenty lakhs of rupees, and

(iii) that it has *bond fide* carried on business for not less than three years and

(b) the expression 'shares' includes stock

3 (1) Any Company may, if authorized so to do by its regulations as registers in the United Kingdom originally framed or as altered by special resolution, cause to be kept in the United Kingdom a branch register or registers of members [resident in the United Kingdom]

(2) The Company shall give to the Registrar of Joint Stock Companies notice of the situation of the office where any such branch register (hereinafter called a 'British register') is kept and any change therein, and of the discontinuance of any such office in the event of the same being discontinued

(3) A British register shall, as regards the particulars entered therein, be deemed to be a part of the Company's register of members kept under the Indian Companies Act 1882, and shall be *prima facie* evidence of all particulars entered therein. Every such branch register shall be kept in the manner provided by section 47 of the said Act with this qualification, that if such register is ordered to be rectified by any competent Court in the United Kingdom such rectification shall be made and shall be binding on the Company in India.

(4) The Company shall transmit to its registered office in India a copy of every entry in its British register or registers as soon as may be after such entry is made, and shall cause to be kept at such office, duly entered up from time to time a duplicate or duplicates of its British register or registers. The provisions of section 55 of the Indian Companies Act 1882, shall apply to every such duplicate and every such duplicate shall, for the purposes of the said Act, be deemed to be part of the register of members of the Company

(5) Subject to the provisions of this Act with respect to the duplicate register the shares registered in a British register shall be distinguished from the shares registered in the Indian register and no transaction with respect to any shares registered in a British register shall,

during the continuance of the registration of such shares in such British register, be registered in any other register

(6) The Company may discontinue any British register, and thereupon all entries in that register shall be transferred to some other British register kept by the Company in the United Kingdom or to the register of members kept at the registered office of the Company in India

4 The Governor General in Council may, by notification in the Gazette of India, make rules and prescribe forms for the purpose of carrying into effect the provisions of this Act

5 This Act shall, so far as is consistent with the tenor thereof, be construed as one with the Indian Companies Act, 1882

VI of 1882

STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is to encourage if possible the investment of English capital in rupee companies having an Indian domicile. When in 1897 the attention of the Government of India was drawn to the matter, it was represented that it would be a great convenience to investors in companies formed with rupee capital in this country if they were permitted by law to open registers of shares in Great Britain as well as in India and also that investors in England would more readily subscribe to rupee capital for the construction of, for example, Indian railways if quotations could be had on the London Stock Exchange

2 The Bill has been drawn on the model of the Companies (Colonial Registers) Act, 1883 (46 & 47 Vict., c. 30), which authorizes any company registered in the United Kingdom for purposes comprising the transaction of business in a colony to open and maintain a branch register of share holders in that colony. Owing to the limited powers of the Indian legislature the legislation here proposed falls far short of what is compassed by the English Statute. But the Government of India have consulted the various Chambers of Commerce, with the result that the opinion of the mercantile community in India appears to be in favour of the measure, and its introduction has, therefore, been decided upon. The Bill if it is passed into law, will not relieve the holders of shares registered in branch registers opened in England from the burdens imposed by the English revenue laws and, while the Government of India will be prepared to notify such exemption from liability to Indian stamp duties as may be necessary, the measure will not secure for share holders the same benefits as they would have if the scheme had the sanction of an Act of Parliament. The enactment will, however be of a purely permissive character and it will be for the investing public to avail themselves of its provisions if they find that it will afford them any advantage to do so

The 17th June, 1899

C E DAWKINS

J M MACPHERSON,
Secretary to the Government of India

**GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT**

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd June, 1899

NO 8 OF 1899

A Bill further to amend the Indian Registration Act, 1877

77 WHEREAS it is expedient further to amend the Indian Registration Act, 1877 It is hereby enacted as follows

1 (1) This Act may be called the Indian
Short title and com Registration Amendment
mencement Act, 1899 and

(2) It shall come into force at once

2 Section 22 of the Indian Registration Act, 1877, is hereby repealed, II
Repeal of section 22 and the following section
Act III 1877 and sub is substituted therefor
stitution of new section namely

“**22** (1) Where it is in the opinion of the
Description of houses Local Government practic
and land by reference to able to describe houses,
Government maps or not being houses in towns
surveys and lands by reference to
a Government map or survey, the Local Gov
ernment may, by rule, require that such houses
and lands as aforesaid shall for the purposes
of section 21, be so described

“(2) Save as otherwise provided by any rule
made under sub section (1), failure to comply
with the provisions of section 21 clause (b)
shall not disentitle a document to be registered
if the description of the property to which it
relates, is sufficient to identify that property

STATEMENT OF OBJECTS AND REASONS

UNDER section 21, clause (b), of the Indian Registration Act, 1877 (III of 1877), houses outside towns and lands must, for the purposes of registration, be, whenever it is practicable, described in documents by reference to a Government map or survey but section 22 provides that failure to comply with this requirement shall not disentitle a document to be registered if the actual description given is sufficient to identify the property

2 It seems to the Government of India that the parties concerned may without objection be required to make use of an easy and certain method of identification where it exists, and that a change in the law obliging them to do so will not only tend to secure the best means of identification, but will be a step towards the substitution of a single for a double system of registration

3 The object of this Bill is to amend section 22 of the Act of 1877 so as to give effect to this view

The 20th May, 1899

C M RIVAZ

J M MACPHERSON,
Secretary to the Government of India

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd June, 1899

NO 9 OF 1899

A Bill to amend the Land Improvement Loans Act, 1883

WHEREAS it is expedient to amend the Land Improvement Loans Act, 1883 It is hereby enacted as follows

1 (1) This Act may be called the Land Improvement Loans Amendment Act, 1899 and

(2) It shall come into force at once

2 In section 6, sub section (1), of the Land Improvement Loans Act, Amendment with retrospective effect of 1883, for the words "from section 6 Act XIX the date of the actual advance of the last instalment", the words "from the date of the advance of the last instalment actually paid shall be substituted and shall be deemed to have been substituted with effect from the commencement of the said Act

STATEMENT OF OBJECTS AND REASONS

SECTION 6 of the Land Improvement Loans Act 1883 (XIX of 1883), provides that a loan granted thereunder shall be repayable within such period from the date of the actual advance of the loan, or, when the loan is advanced in instalments from the date of the actual advance of the last instalment, as may, from time to time be fixed by rule. The law officers in Bengal have advised that the effect of this section is to make no part of a loan, where the agreement is to advance it by instalments, repayable till after the last instalment has been advanced, the consequence being that, in the event of such last instalment not being accepted the right of the Government to recover the amount of the earlier instalments actually advanced does not accrue. The object of this Bill is to remove this defect in the language of the section with retrospective effect from the commencement of the Act.

RESOLUTION ON THE ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN CALCUTTA, FOR THE YEAR 1898-99

FINANCIAL DEPARTMENT—MISCELLANEOUS

Darjeeling, the 1st July 1899

RESOLUTION—No 3864-Mis

READ—

The Report of the Royal Botanic Garden, Calcutta, for the year 1898-99

Read again—

The Report of the Royal Botanic Garden, Calcutta, for the year 1897-98, with the Resolution recorded thereon

THE weather during the year was more normal than that of the preceding two years. The show of orchids regained its old standard of excellence, though, owing to the reduction in the stock caused by the unfavourable weather of several successive seasons of drought, and the increasing difficulty in replacing losses from forests which have lately been too thoroughly exploited, the actual number of plants in the conservatories was considerably smaller than in past years. During the year the gardens were improved by extensive repairs to the river bank and repairs to the Roxburgh Avenue were also taken in hand.

2 Especial attention was, as usual, given to the cultivation and distribution of plants of economic value. In connection with the question of rubber and guttapercha, it has been ascertained, after examination of the milky juice of species of *Sideroxylon* belonging to the natural family Sapotaceæ, that, though these species do not yield a true rubber, the material obtained from them might prove capable of being utilized for the various purposes for which guttapercha or India rubber is now employed. An interesting introduction to India

during the year was *Polygala butyracea*, an African species, which yields an excellent vegetable oil. The cultivation and the identification of living plants yielding Indian products of hitherto doubtful origin, to which subject a reference was made in the last year's Resolution, were continued during the year with good results.

3 The collection in the Herbarium was increased by 10,672 specimens, the chief donors being Sir W. Thiselton Dyer, Director of the Royal Gardens, Kew, the Director, Rijk's Herbarium, Leiden, Mr. Heer Buysmann, of Middleburg, Holland, Mr. Medley Wood, Natal, Professor Schinz, of Zurich, and Mr. Herr Schlechter, Berlin. Collections of Australian and Swiss plants were received respectively from the Government Botanist, Melbourne, and the Director of the Cantonal Museum, Fribourg, while collections of plants from the Eastern and Southern United States and from Mexico were acquired by purchase. A very fine collection of Chinese plants was contributed by Dr. A. Henry and another fine collection of specimens from the Malay Peninsula and Borneo was forwarded by the Director of the Botanical Gardens, Singapore. From India, valuable contributions were made by Dr. A. G. Bourne, Madras, Mr. T. F. Bourdillon, Travancore, Mr. G. M. Woodrow, Poona, Captain C. J. Milne, Ali Masjid, Mr. Duthie, Director of the Botanical Department, Northern India, and Mr. J. S. Gamble, Director of the Imperial Forest School, Dehra Dun. Mr. R. Pantling contributed to the Herbarium a large collection of Sikkim orchids, and a very valuable collection of mosses from Coorg was obtained from Dr. T. L. Walker, of the Geological Survey. Interesting collections were made by native collectors in Assam, Burma, the Andamans and the Nicobars, while collections were also made during the year in Western Bengal by Lieutenant Gage, and in the Andamans and the Nilgiris by Major Prain. The number of named specimens distributed to other Herbaria was 7,18.

4 The decrease in the number of plants distributed is due to the large demand of two years ago for rhea plants having now been satisfied, and the satisfactory increase in the number of seeds distributed is due to the fact that it has lately become possible to obtain collections from Sikkim of seeds of Alpine species which were till recently unobtainable.

5 The Lloyd Botanic Garden at Darjeeling, which was in charge of Mr. W. A. Kennedy, suffered greatly from the heavy snowfall which took place in the latter part of January 1899. Considerable damage was done to many of the exotic trees, but the actual deaths were fortunately very few. A portion of the ground which was formerly known as the Municipal vegetable garden, was transferred to the Eden Sanitarium, and has been included in the grounds of the Lloyd Botanic Garden.

6 The thanks of the Lieutenant Governor are due to Major Prain for the constant and zealous care he has given to the Gardens.

By order of the Lieutenant Governor of Bengal,

E. W. COLLIN,

Offg. Secy to the Govt of Bengal

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN CALCUTTA FOR
THE YEAR 1898-99

No 203, dated Royal Botanic Garden, Sibpur, the 25th May 1899

From—MAJOR D. PRAIN, M.B., F.R.S.E., F.L.S., I.M.S., Superintendent, Royal Botanic Garden, Calcutta,

To—The Secretary to the Government of Bengal, Financial Department

I HAVE the honour to submit herewith the 112th Annual Report of the Royal Botanic Garden, Calcutta, for the year 1898-99

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN CALCUTTA FOR THE
YEAR 1898 99

THE weather of the past year has been more nearly normal than that of the two preceding seasons, and the bad effects of scanty rainfall detailed in three successive reports do not on this occasion have to be recorded. The show of orchids this season regained its old standard of excellence, although the actual number of plants in the conservatories was considerably smaller than in years gone by. This was due to the reduction in the stock of plants caused by the unfavourable weather of several successive seasons of drought. At the same time, it is becoming year by year more difficult to replace by fresh collections those plants that succumb, owing to the reckless way in which the forests of Sikkim, Assam and Burma have been denuded of their orchids by unintelligent collectors, and it is found that a depleted stock is now only to be made up with great difficulty and at a considerable outlay. The chief improvements effected during the year consisted of rather extensive repairs to the river bank from the pumping engine station westwards. Towards the end of the year the Roxburgh Avenue, which was urgently in need of thorough repair, was taken in hand, and it was found possible before the close of the official year to practically complete the necessary earthwork. The want of the requisite funds made it impossible to metal the road within the year under review, this will be done during the ensuing rainy season.

2 *Economic plants*—Especial attention was as usual given to plants of economic importance, numbers of rhea, rubber and other useful plants being freely distributed. In connection with the question of rubber and gutta percha samples of the milky juice of species of *Sauroxylon* belonging to the natural family *Sapotaceæ* were sent for examination to Professor Dunstan of the Imperial Institute, London. It is possible that, though these species do not yield a true rubber, the material obtained from them, which more closely resembles gutta percha than India rubber, may prove capable of being utilized for various purposes for which it is at present necessary to employ gutta percha or India rubber. An interesting introduction to India during the year was *Polygala butyracea*, an African species which yields an excellent vegetable oil. For the gift of a supply of its seed thanks are due to Professor E. Heckel of the Colonial Museum, Marseilles, who has made a careful study of the plant and its product. The cultivation and, on their coming into flower and fruit, the identification of living plants yielding Indian products of hitherto doubtful origin, on behalf of the Reporter on Economic Products with the Government of India and on behalf of the Central Indigenous Drugs Committee, have been continued with good results throughout the year. During the year samples of sugarcane affected by disease were submitted for examination from various parts of the Madras Presidency and from almost every district in the Lower Provinces. The reports on these various samples are in the hands of the officers in charge of the Agricultural Departments of these provinces.

3 *Herbarium*—The work of this Department was carried on as usual during the year, the number of named specimens distributed to other Herbaria was 7,185. The work of distribution was considerably interfered with, owing to my having to labour single handed till 20th June 1898, when Lieutenant Gage took over charge of the post and duties of Curator of the Herbarium, and again owing to my absence on deputation from 6th January 1899 till 20th February 1899. The number of specimens contributed reached 10,672, many of the collections received being of special interest and value. From Sir W. Thiselton Dyer, Director of the Royal Gardens, Kew, the Director, Ryk's Herbarium, Leiden and Heer Buysmann of Middleburg, Holland, interesting general collections were received. A collection of Australian plants was sent by the Government Botanist, Melbourne. Three American collections, from the Eastern and Southern United States respectively and from Mexico, were acquired by purchase, while small collections of North American plants were presented by the United States National Museum, Washington, and by Professor Fowler of Kingston, Ontario. Mr. Medley Wood of Durban, Professor Schinz of Zurich, and Herr Schlechter of Berlin, formerly of Cape Town, presented three interesting sets of South African plants. A very fine collection of Swiss plants was presented by the Director of the Cantonal Museum, Fribourg. The chief Asiatic acqui-

tions were a large and very fine collection of Chinese plants made by Dr A Henry, Ssumao, and a smaller one from the same country sent by Captain Pottinger, R A, a fine collection of specimens from the Malay Peninsula and Borneo was also forwarded by the Director of the Botanical Gardens, Singapore.

The principal Indian contributions were a large collection of Sikkim orchids received from Mr R Pantling in order to complete the authentic sets of Sikkim orchids distributed last year, also a very valuable collection of mosses from Coorg made by Dr T L Walker of the Geological Survey. This latter collection forms the subject of a special report by Dr V F Brotherus of Helsingfors which is now being published in the *Records of the Botanical Survey of India*. Valuable contributions to the Herbarium were also made by Dr A G Bourne and Mr F F Bourdillon from the Pulney Hills and Travancore, by Mr G M Woodrow from Poona, by Captain C J Milne from Ali Masjid, by Mr J F Duthie Director of the Botanical Department, Northern India, and Mr J S Gamble, Director of the Imperial Forest School, Dehra Dun, from the N W Himalaya, by Mr G A Gammie, from Sikkim. Interesting collections were made by native collectors in Assam, Burma, the Andamans and the Nicobars, while collections were also made during the year in Western Bengal by Lieutenant Gage, and in the Andamans and the Nilgiris by myself. Thanks are due to J F Severin, Esq, of Tingali Bam, who has kindly supervised the work of a native collector in the Jaboka Naga Hills, to Lieutenant Cruddas, s c, who gave great assistance in the early part of the year to a native collector working in the Kachin Hills, and to L H Man, Esq, c i e, who kindly directs the work of a native collector in the Andamans and Nicobars. Captain A R S Anderson, i m s, of Her Majesty's Indian Marine S S *Investigator*, has also kindly helped the Garden by taking a native collector with him during the time that the *Investigator* was engaged in a survey of the coasts of North Andaman.

4 *Botanical Publications*—The chief publications of the year have been *Descriptions of Some New Plants from the North Eastern Frontiers of India*, by Sir G King and myself, published in the *Journal of the Asiatic Society of Bengal*. A *Note on the Botany of the Kachin Hills North East of Myitkyina*, by Captain Pottinger, R A, and myself, published in the *Records of the Botanical Survey of India*, *On three new genera from the Kachin Hills*, by myself, published in *Scientific Memoirs by Medical Officers of the Army of India*, and *An account of Corydalis Persica*, by myself, published in the *Bulletin de l'herbier Boissier*.

5 *Library*—The usual periodicals were added, and a number of books obtained, partly by purchase, partly in exchange for the *Annals of the Garden*. The library is steadily increasing in size, and it will be necessary to add considerably to the number of cabinets in which the books are placed.

6 *Interchange of plants and seeds*—The details of the receipts and issues of plants and seeds during the year are fully given in Appendices I—IV. The further fall in the number of plants distributed as compared with 1897-98 (31,867 in place of 36,885) is due to the same cause as the fall noticed last year—a smaller demand for plants of rhca, less because of the renewed interest in this plant, which was noted in the report for 1896-97, having again died out, than because those who wish to grow the crop are now provided with a sufficiency of plants.

The number of packets of seeds received during the year was 1,161, practically the same as last year. The number distributed was, however, considerably increased (5,794 in place of 2,177). This satisfactory result is largely due to its having become possible to induce native collectors to again visit the higher valleys of independent Sikkim in search of seeds of Alpine species, which are highly valued in Europe and America, but which it has been impossible to obtain since the time of the Sikkim Expedition.

7 *Lloyd Botanic Garden*—The proposal to transfer a portion of the ground formerly known as the municipal vegetable garden to the Eden Sanitarium, mentioned in the last annual report, has been carried into effect, and the amended boundary line between this patch and the Eden Sanitarium grounds has been duly indicated by boundary pillars. Fencing for the patch has been provided and to a large extent erected, and the laying out of the ground, so as to bring it into conformity with the Lloyd Garden

proper, is being actively proceeded with. The heavy snowfall which took place in the latter part of January 1899 did a considerable amount of damage to many of the exotic trees, their branches being broken by the weight of the snow. Fortunately, however, there are fewer actual deaths to record, as the result of the bitter weather, than might have been anticipated.

8 The budget allotments of money both for the Royal Botanic Garden and for the Lloyd Botanic Garden have been fully spent. The proceeds of sales of surplus plants and books, amounting to Rs 805 10 6 for the Calcutta Garden and to Rs 954 2 for the Lloyd Garden, were as usual paid into the Howrah and the Darjeeling treasuries respectively.

9 The post of Curator of the Herbarium, which was vacant at the commencement of the official year, was filled on 20th June by Lieutenant A. T. Gage, I.M.S., who on that date took over charge. Mr Gage is an enthusiastic botanist, who has been excellently trained and has discharged the duties of his post efficiently. Mr H. J. Davies, Assistant Curator of the Royal Botanic Garden, who was acting as Curator of the Garden at the commencement of the year was transferred to Allahabad on 6th August 1898, and his place as Acting Curator was taken by Mr A. C. Hartless, third assistant, Government Cinchona Plantation, from that date till 9th November 1898, when Mr G. T. Lane, who had been on furlough to Europe for eight months, resumed charge of the post. On the transfer of Mr Davies to the North West Provinces the vacant post of Assistant Curator was filled by the appointment thereto of Mr G. H. Cave, fourth assistant, Government Cinchona Plantation. This transfer called for the immediate posting of the new probationer gardener, Mr O. T. Hemsley, who reported his arrival on 13th October 1898 to the Government Cinchona Plantation as fourth assistant and necessitated the engagement of another probationer gardener in his place. The new probationer gardener, Mr A. E. P. Griessen, reported his arrival on 11th January 1899. Besides Mr Lane, who was, as above indicated, absent on furlough from the commencement of the official year till 9th November 1898, Mr Cave availed himself of privilege leave from 10th March 1899 till 23rd March 1899, and I was myself absent on dotation from 6th January till 20th February. Mr W. A. Kennedy has been in charge of the Lloyd Botanic Garden throughout the year. The office of the Botanic Garden has been under the charge of Babu G. C. Dutta.

10 The usual tabular statements (six in number) are appended

RESOLUTION ON THE BUDGET ESTIMATES OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1899 1900

No 1042Marine

GOVERNMENT OF BENGAL MARINE DEPARTMENT

Dated Calcutta, the 3rd June 1899

RESOLUTION

READ—

Letter No 3025, dated the 23th March 1899, from the Vice Chairman of the Commissioners of the Port of Calcutta submitting, for sanction, the budget estimates of the Commissioners for the year 1899 1900

SINCE last year the Commissioners are including in their estimates the receipts and charges on Capital Account in addition to the usual provisions in connection with Revenue Account

REVENUE ACCOUNT

2 A general summary of the estimates submitted by the Commissioners is subjoined

RECEIPTS		Estimate for 1899 1900	Estimate for 1898 99
1		2	3
Part I —Jetties		Rs 16,04 750	Rs 16,39,750
" II —Inland Vessels Wharves		5,11 000	5 16,000
" III —Strand Bank lands		1 66 994	1 66 994
" IV —Port or Harbour Master s Department		5,76,700	5 13,700
" VI —Railway		4 20,000	4,00 000
" VII —Port Approaches		4,92,875	4 61,125
	Total	37 72 819	36,87,569
Part VIII —Kidderpore Docks		18 71,500	13 31,500
	Total	56,43,819	50 19,069
Special Toll		9 00,000	10,00,000
	GRAND TOTAL	65,43,819	60 19,069
EXPENDIURE			
Part I —Jetties		12 65 941	11,71,481
" II —Inland Vessels Wharves		4 79,614	4,39 728
" III —Strand Bank lands		1,15 931	1,36,214
" IV —Port or Harbour Master's Department		6,96 398	6,77,753
" VI —Railway		3 80,216	3,73,065
" VII —Port Approaches		5,72,324	5,64,314
	Total	35,10,424	33,62,555
Part VIII —Kidderpore Docks		29,11,232	26 59,941
	Total	64,21,656	60,22,496
Special Toll		21,263	20 907
	Total	64,42,919	60,43 403
Pensions and Compassionate Allowances		50,000	50,000
	GRAND TOTAL	64,92,919	60,93,403

	Rs
Estimated balance on 1st April 1899	7 41,591
Add—Estimated receipts as above	65,43,819
	<hr/>
	72,85,410
Deduct—Estimated expenditure as above	64,92,919
	<hr/>
Estimated probable balance on 31st March 1900	7,92,491
	<hr/>

RECEIPTS

2 *Part I—Jetties*—The receipts are estimated at Rs 35,000 less than those of 1898 99 The decrease is based on actuals

3 *Part II—Inland Vessels Wharves*—The receipts are taken at Rs 0,000 less than those of last year's estimate The decrease is based on actuals

4 *Part III—Strand Bank Lands*—The earnings are estimated at Rs 1,66,994, the same as last year's

5 *Part IV—Port or Harbour Master's Department*—The receipts are estimated at Rs 63,000 more than those of the previous year The increase is mainly under the heads "Receipts from mooring hire" and "Receipts from Harbour Master's earnings," and is based on the actuals of last year

6 *Part VI—Railway*—The earnings are estimated at Rs 20,000 more than those of the previous year The increase is under the head "Shalimar Branch Line," and is based on actuals

7 *Part VII—Port Approaches*—The receipts are estimated at Rs 41,750 more than those of the previous year The increase is based on actuals

8 *Part VIII—Kidderpore Docks*—The receipts are estimated as follows —

	Rs
Receipts from graving dock	1 50 000
Landing charges on imports	60 000
Shipping charges on exports	16 30,000
Rent and miscellaneous	30,000
Proportion of receipts for towing vessels by hopper barges	1,500
	<hr/>
Total	18 71 500
	<hr/>

There is an increase of Rs 6,30,000 based on the shipping charges on exports, and a decrease of Rs 1,00,000 on the landing charges on imports There is a net increase of Rs 5,40,000 This is due to the closure of the jetties to exports

9 *Special Tolls*—The receipts for the nine months from April to December 1898 amounted to Rs 6,68,144, and it was anticipated that those for the next three months would be one third of this amount viz Rs 2,22,715 This gives a total of Rs 8,90,859 for the whole year The estimate for 1899 1900 has consequently been taken at Rs 9,00,000

EXPENDITURE

10 *Part I—Jetties*—The estimated expenditure amounts to Rs 12,65,941 against Rs 11,71,481 of the previous year The increase is mainly under the head "Working Expenses," and is based on actuals

11 *Part II—Inland Vessels Wharves*—Under this head there is an increase of Rs 39,886 as compared with the estimate of last year The principal increase is under the head "Renewals and improvements" A provision of Rs 5,800 has been made for pitching the river bank at Bagbazar and Bocooltollah, of Rs 1,700 for metalling a new road at Chitpur, of Rs 12,500 for constructing a pontoon for the police stage at Ahiritollah, and of Rs 11,500 for filling a tank at Chaulgollah

12 *Part III—Strand Bank Lands*—There is a decrease of Rs 20,283 under this head as compared with last year's estimate The principal decreases are under the heads "Repairs" and "Renewals and improvements"

13 *Part IV—Harbour Master's Department*—Under this head there is an increase of Rs 18,645 as compared with the estimate of last year "Repairs to boats, vessels, &c," shows an increase of Rs 3,000, due mainly

to provision having been made for repairing the tugs *Hetty* and *Rescue* Under "Salaries" there is an increase of Rs 4,864, due principally to a provision for increased establishment for the *Rescue*, which has been rendered necessary in consequence of the increased work which the vessel has now to perform Under "Establishment, repairs, &c, for Moyapore magazine," an additional sum of Rs 4,500 has been entered to meet the cost of extensive repairs to be done to the Moyapore magazine

14 *Part VI—Railway.*—Under this head there is an increase of Rs 7,151 "Proportion of interest and Sinking Fund on loans" shows an increase of Rs 2,342 on account of the necessary provision for interest and Sinking Fund on the debenture loans to be raised during the year under review Under "Proportion of salaries of Traffic Department" there is an increase of Rs 1,326, due to the strengthening of the establishment with a view to cope with increased work Under "Working expenses" there is an increase of Rs 5 000 due to the necessary provision for the renewal of a large number of sleepers

15 *Part VII—Port Approaches* —There is an increase of Rs 8,010 due mainly to increased provisions having been considered necessary under heads "Salaries of officers and crew" and "Working expenses"

16 *Part VIII—Kidderpore Docks* —The expenditure is estimated at Rs 29,11,232 against Rs 26,59,941 of last year "Proportion of interest and Sinking Fund on Loans" shows an increase of Rs 90,134 for the reason stated in paragraph 14 There is an increase of Rs 1,14,335 in the "Salaries of Traffic Establishment" on account of increased provision having to be made for additional establishment Under "Working expenses" there is an increase of Rs 1,07,949 on account of the necessary arrangements made for coping with the increased work at the Docks

CAPITAL ACCOUNT

17 As stated in the opening paragraph, the estimates now before the Government take into account the receipts and charges under Capital The receipts are estimated at Rs 50,00,000, made up as follows —

	Rs	T tal Rs
Contributions from Revenue	1,20 110	
Stock charged to works	5,00,000	
	<u>6 20,110</u>	6,20,110
Sale of land at Shalimar for the use of the Bengal Nagpur Railway	10,10,500	
Less amount received during 1898 99	5,00,000	
	<u>5 10,500</u>	5 10,500
Debenture loan	13 37 160	
Ditto or advanced by the Government	25,32,230	
	<u>38,69,390</u>	38,69,390
		<u>50,00,000</u>

18 In the estimate of expenditure the following works are stated to be "sanctioned and in progress," but which have not yet been formally approved by the Government —

Works.	Estimated cost Rs
(1) Sidings, bunker coal depot	66,800
(2) New boat entrance at Docks	1,21,157
(3) One additional salt gola to hold 12,000 tons, with boat wharves stages, cranes and sidings	1,30,000
(4) Sheds at Docks for wheat, seed and tea consigned to the Docks without shipping order	2,75,960
(5) Improvement to Port Trust Railway	2,46 883
(6) Shalimar coal yard	11,50,000

The sanction of the Lieutenant Governor to the first three items has been communicated in this Department's No 65T —Marine, dated 26th May 1899. The estimates for the remaining works are now before the Government of India, and the sanction of that Government will be communicated when received. Pending the sanction of that Government, it would be more correct to enter these works under the list of "proposed" works.

19 Subject to the above remarks, the Lieutenant Governor, in pursuance of the powers vested in him by section 71 of Act III of 1890, approves of the estimate of income and expenditure of the Commissioners for the year 1899 1900.

By order of the Lieutenant Governor of Bengal,

A D McARTHUR, *Colonel, R E,*

Secy to the Govt of Bengal

SYSTEM OF VERNACULAR EDUCATION IN BENGAL

GENERAL DEPARTMENT—EDUCATION

Dated the 1st July 1899

A short report on the system of vernacular education in the Central Provinces by Alexander Pedler Esq, M.A., received with the Director of Public Instruction's letter No 477, dated 16th January 1899
 The final report of the Commission on Manual and Practical Instruction in Primary Schools under the Board of National Education in Ireland, dated the 25th of June 1898

The question of remodelling the lines on which vernacular education in the Indian Empire has hitherto been based, has for a considerable time been exercising the most anxious consideration of both the Imperial and Local Governments, and it was more particularly in its relation to agriculture that this question engaged the attention of the fifth meeting of the Agricultural Conference held in the Department of Revenue and Agriculture at Simla on the 6th of October 1897. After considering the recommendations made by Dr Voelcker in paragraphs 527 and 528 of his Report on the Improvement of Indian Agriculture, the following Resolutions were passed—

Resolution I—That in considering the question of agricultural education and progress the Conference desire to express the opinion that it is most desirable to extend primary education among the agricultural classes

Resolution II—That as a general rule, instruction in agriculture should be combined with the existing course of education and not depend exclusively on separate special institutions

Resolution III—That it is most desirable that the Universities should recognize the Science of Agriculture as an optional subject in the course for a degree

Resolution IX—That, in the opinion of the Conference, education in the lower schools should be of such a practical character as to fit the pupils for technical pursuits including agriculture as well as for literary and commercial pursuits

Resolution X—That the text-books used in schools should be written in the simplest language ordinarily understood by the people and should be descriptive of subjects with which they are familiar also that the use of pictorial lesson charts, illustrating familiar objects should be encouraged

Resolution XI—That the system of training in normal schools should be adapted to qualify school teachers to give instruction of the character indicated in Resolution VIII

Resolution XII—That in each Province a Committee in which agricultural officers should be included, should be convened at an early date for the consideration of the questions raised in the preceding resolutions

The Governor General in Council, after considering the recommendations of the Conference, and after correspondence with the Secretary of State,

determined, before enunciating finally the principles or policy to be adopted, to give Local Governments the opportunity of fully examining the various subjects dealt with by the Conference, and with a view to affording them every facility in their investigation, deputed Sir Edward Buck to attend a series of Provincial Conferences and explain the various issues under discussion and the different methods proposed or adopted in other provinces. It was explained that the Government of India believed that "greater success was to be expected from making instruction in the rudiments of agriculture part and parcel of the primary system of instruction in the country than from teaching it as a subject apart from the general educational programme, and that such general enlightenment and intellectual expansion of the agricultural classes, as would enable them to perceive for themselves the small reforms which are within their means and opportunities would be more likely to produce substantial results than special instruction in particular agricultural processes." It followed therefore that the educational question which was given to each Province to answer was not merely how to adapt education to the training of agriculturists, but how the plan of instruction should be so fashioned as to promote in the pupils taught the power of assimilating easily any kind of technical instruction.

2 This phase of the question was discussed at the meeting of the Bengal Provincial Conference held on the 6th of January 1896, and it was suggested that the course of science in primary and middle schools should be reconsidered and so graduated as to include at different stages branches of the elements of agriculture, care being taken to exclude words and ideas of which the pupils could have no understanding. Effect was to be given to this resolution by arranging for the introduction of a compulsory course of Elementary, Physical and Natural Science, including Zoology, illustrated as far as practicable by object lessons, and the Director of Public Instruction was asked to report how he proposed to give effect to these suggestions. This he did in August 1897, and in March 1898 an impetus to the establishment of Agricultural education was given by the opening of the Agricultural classes at the Sibpur Engineering College. This was, however, only a scheme for a "Higher Agricultural Education" and still left the pupils of the vernacular schools unprovided for, and in August 1898 the Lieutenant Governor called for proposals of a wider nature with a view to the introduction of a system of vernacular education designed more to develop the minds of the boys than to practice and strengthen their memories, and after indicating the points for

consideration, referred the matter for careful discussion and report to a small Committee of Educational experts whose names are given in the margin. Their report—a record of singularly careful and thorough research—has now been received,

and in it the Committee have shown how it is possible to adapt the principles accepted by the experience of Europe to the conditions of Indian vernacular education.

The changes recommended are changes which are of the most vital importance to the interests of education in Bengal, and before taking any action on the proposals made by the Committee, the Lieutenant Governor considers it to be advisable to publish their report for general information, and invites any who may desire to do so to submit to Government on or before the 1st of October 1899, any criticisms he has to make on the proposals now before Government.

The view that the general principles on which the Committee base their recommendations to Government are such as will stimulate the intelligence of the scholars and lead to the material progress of the people of this Province, finds support from the success which has attended the introduction of modern methods and subjects of education in the Central Provinces. It would appear from Mr Pedler's report that the first beginning was made in 1880, and though the progress made has been gradual, Drill, Drawing, Agricultural teaching, Physical science, Kindergarten, and Object lesson teaching are all now recognised

features of the education given in vernacular schools in the Central Provinces. The increased interest with which the pupils accept the training provided for them has been manifest, and the result has been most beneficial both in the higher development of the intelligence of the pupils and in their discipline in school. Manual training was also introduced, and before it was omitted from the course of instruction (for reasons which Mr. Pedler believes to have been somewhat prematurely accepted), it had been sufficiently clearly demonstrated that its introduction in vernacular schools was not only possible, but suitable. Such statistics as are available on the subject go to corroborate the conclusion drawn by the Director from the numerous careful enquiries he made that the modern system can be introduced at no increase of cost to the State, and it is not an unsatisfactory feature of the Committee's proposals that the books the scholars would have to buy are cheaper than those of the present curriculum.

Since the report of the Committee was received, the Lieutenant Governor has had brought to his notice the Final Report of the Commissioners* appointed to consider Manual and Practical Instruction in Primary Schools under the Board of National Education in Ireland. Part I of this work, which represents the continuous labour of two years and is based upon the evidence of the leading authorities in Great Britain, Sweden, Denmark, Germany, France, Switzerland, and Hol-

land, is printed as an Appendix to this Resolution, and there could scarcely be a higher tribute to the thoroughness and ability which the Bengal Committee have brought to bear on the work entrusted to their charge than the close correspondence between their conclusions and those of the Irish Commission.

REPORT OF THE COMMITTEE APPOINTED TO REVISE THE SUBJECTS AND TEXT BOOKS USED IN VERNACULAR EDUCATION IN BENGAL

IN obedience to the orders contained in the Government of Bengal's letter "Agriculture No. 2679 dated Calcutta, 12th August 1898, from M. Finucane, Esq., C.S.I. Secretary in the General Department, to A. Pedler, Esq., F.R.S., Officiating Director of Public Instruction Bengal, the members of the Committee therein named have the honour to submit the following report:—

The Committee consider that the orders in the Government letter have required them to submit proposals for remodelling practically the whole scheme of vernacular education in Bengal, especially with regard to the subjects which are taught in various classes of vernacular schools and the manner in which instruction is given.

It is, indeed, pointed out in paragraph 6 of that letter that the introduction of the study of such branches as Agriculture, Natural History, Sanitation and Physics as compulsory subjects into vernacular schools, which is one of the principal orders in the letter, will itself involve the question of the methods by which such instruction should be given. It is also an instruction to the Committee (paragraph 5) that the aim in making alterations in the present system of education should be 'more to develop the minds of the boys than to strengthen their memories. The object in view is the training of the powers of observation and the development of the powers of hand and eye.' And again in paragraph 6 it is stated "The Lieutenant Governor is further of opinion that elementary drawing should form a subject of instruction in all primary schools."

The Committee have therefore, in their proposals made suggestions for revising on modern lines the General curriculum of the vernacular schools of all grades from the infant stage up to and including the middle vernacular stage.

2. Working on the principle that the development of the educational structure is very considerably dependent on the nature of its foundations, the Committee first earnestly considered whether the instruction

which is now given in lower primary schools is of the type which is desired, and whether such education is not easily capable of being improved. The first stage of the present instruction in a *patshala* is for the children to be made to sit as still as they can, anything like activity being sternly repressed, while they have to repeat hour after hour ordinary multiplication and other tables for the purpose of committing them to memory. A more unnatural method of commencing the training of a child can hardly be imagined. Speaking generally, the lowest class of a lower primary school now works for about seven hours a day, of which one hour is given to learning the letters of the alphabet, etc., and one hour to

instruction in writing, while the remaining hours (5 hours a day) are devoted entirely to the repetition of arithmetical tables and the revision of old lessons. In the next higher class the length of time devoted to reading and writing remains the same, but rather less time is devoted to repetition of tables and revision of old lessons, while European and Native Arithmetic and Mensuration (after the Native system) are here commenced. In the next higher, or the lower primary class most of the subjects remain as before, except that the repetition of multiplication tables is dropped, while the reading of manuscript and a little Sanitation are taught.

3 Looking at this programme of work it can be seen how little the present system of education conforms to the principles formulated in the Government letter, which lays down in precise terms that the education required is intended "more to develop the minds of the boys than to strengthen their memories, and to train the powers of observation and develop the power of the hand and eye."

Hence it is clear that the orders of Government can only be carried out by making a drastic change in both methods and subjects, even from the very lowest or the infant stage of education.

Report of the Committee of Council on Education for England and Wales 1897-98 page 630.

4 The two leading principles which appear to be accepted in Europe as a sound basis for the education of early childhood are as follows* —

- (1) The recognition of the child's spontaneous activity and the stimulation of this activity in certain well-defined directions by the teachers
- (2) The harmonious and complete development of the whole of the child's faculties. The teachers should pay special regard to the love of movement which can alone secure healthy physical conditions, to the observant use of the organs of sense specially those of sight and touch and to that eager desire of questioning which intelligent children exhibit. All these should be encouraged, under due limitations, and should be developed simultaneously, so that each stage of development may be complete in itself.

5 The principles which are here enunciated can, in the opinion of the Committee, only be fulfilled by the introduction of the methods originally put forward by Froebel, which are now known under the name of Kindergarten training. The principles which underlie this system are well known. By Kindergarten children are trained and not taught, in the ordinary acceptation of the word. They are trained so as to arouse a desire to *be* something, to *do* something, and to *know* something. The children are encouraged to feel that each one possesses a certain amount of innate power and capacity, the gradual development of which depends on the individual's own activity. They are led to see that eyes, ears, and hands all help in the acquiring of knowledge, and these are the channels through which all *first* knowledge is acquired. The teaching also develops all the sides of a child's nature. The games, marching and singing, of the Kindergarten system secure the healthy physical exercise and development so necessary to a growing child. The stories told to the children and the nature-teaching are so arranged as to develop the moral side of the child, and the habits which are formed of attention, of accurate observation and of thought, and the power to express thought concretely in form and in language, are most valuable intellectual and mental training. Another principle in Kindergarten training is the recognition of the desire of almost every child to work, invent, or originate on its own account, and hence stress is always laid on the teaching of such subjects as drawing, modelling in clay, etc., which gives scope for such desires.

It is of course true that Kindergarten training may be made an expensive and elaborate kind of education, but it is submitted that there is nothing in the above principles which necessitates any real expense, and that if the form of Kindergarten adopted is made suitable to the circumstances and local conditions of the pupils, little or no expenditure will be necessary. In India primary schools work at an expenditure of about a rupee per pupil per annum, and hence expensive or even moderately priced gifts of Froebel cannot be provided in the primary schools of Bengal. The principles above enunciated must therefore be worked out on more or less new lines, and only the use of objects now found in almost every primary school will be necessary to carry out such teaching in the proposals made by the Committee.

6 Closely allied with the methods of Kindergarten teaching is the so called object lesson teaching, indeed, the latter may almost be called a part of or possibly an extension of the former, as it is dependent on the same principles.

* Object-lessons cannot be dispensed with in teaching, if habits of observation are to be duly fostered, and they should always be treated as a means for mental exercise and not merely as a method of imparting miscellaneous and even valuable information. To fulfil this purpose, however, objects must always be present and in sufficient numbers, and the chief aim should be to call into activity observation and the construction of clear mental pictures, so that the intelligence of pupils may be exercised and developed.

See Circular No. 332, page 633 of the English Education Department for 1897-98.

7 The principle of teaching by object-lessons appears capable of far greater extension than is frequently considered to be the case. Usually Teaching of Geography and History object lessons are confined to the exhibition of a few natural substances, such as minerals, plants, etc., or to the pictures of a few animals, but the method can easily be extended. Thus, if a Geography lesson is taught by visible illustrations, and by actual modelling in sand and clay for the production of miniature rivers, hills, plains, mountains, etc., it really becomes an object lesson. Tales from History, if graphically told and well illustrated by striking pictures, are almost equally object lessons, while the facts of elementary science obviously form excellent subjects from this point of view.

8 In order to carry out the principles laid down in the Government letter, which are those fully accepted by modern educationists, the Committee propose that the first years of a child's school life should be devoted almost entirely to training the senses and the powers of observation. To effect this the Committee wish to introduce Kindergarten methods at the very commencement of education. These methods will be supplemented by object lessons and drawing, with possibly a certain amount of action songs in the infant stages. Having commenced the development of the senses and powers of observation in the lowest stage, it is then proposed to strengthen and develop the memory and reasoning powers, and to continue the training of the hand and eye, etc. It was also considered that training on Kindergarten principles should extend throughout the whole of the infant stage of education that is during the period when children are from about 5 to 7 years old. The Committee are of opinion that object lessons should be a prominent part of the teaching of all classes up to and including the lower primary stage and that the various subjects taught up to the upper primary stage should be treated as far as possible as object-lessons.

In the middle standard of education the necessity of teaching by the object lesson method is perhaps not quite so pronounced as proper habits of working will probably have been well established by the instruction up to the upper primary stage.

The training of the hand and eye by such work as Drawing has been considered to be essential throughout all stages of vernacular education, and in the case of the education of boys the Committee think this teaching should be supplemented at about the age of 8 by a little manual work in the form of leaf manipulation, etc. In the case of girls this subject would be replaced by needlework. At ages above this the Committee consider the manual training should be broadened and extended up to certainly the middle vernacular standard.

9 The Committee have carefully examined the list of elementary sciences which the Government have proposed to introduce into the curriculum of the schools, and they have accepted as feasible the Government proposals almost as they stand. They wish it, however, to be very distinctly understood that there is no intention of teaching or attempting to teach such subjects as Chemistry, Physics, Natural History, etc., as *sciences* to the children who attend the vernacular schools but they wish to point out and make it quite clear that all that can be done is to present in a homely way some of the simpler and more important facts and truths of such sciences. These facts must be suited to the intelligence of children and taught in a more or less practical way so that the facts may be assimilated and give food for observation, thought and inference and thus be a help to the children in their everyday lives later on. Really it would be more correct to designate the facts which are intended to be taught under the headings of Chemistry, Physics, Natural History, etc., as the "*Science of everyday life*."

10 The Committee have also considered that if children are made, while at school, to work solely at their books or studies, only one part of what may be called a complete education is given. They believe that a true system of education should try to develop not only the powers of observation, the mental faculties, and the power of the hand and eye, but that no system can be called complete unless at the same time the physical powers are fostered and strengthened to the utmost possible extent.

It is specially the case with young children that, if they are kept for any length of time consecutively at book work, they become listless and tired and make little real progress. On the other hand, if book lessons are alternated with lessons which require action and movement, then the children return to their books with renewed interest and vigour. For this reason the Committee consider it to be essential to introduce action songs into the infant stage of teaching, elementary drill into the next higher stages, and drill and gymnastics for boys, or drill and calisthenics for girls into the remaining stages of vernacular education.

In the Central Provinces, for instance, an extremely complete system of drill and gymnastics has been introduced into the vernacular schools, and has been in force for several years. The pupils take very great interest in such exercises and they become most expert. They are smartly obedient to short words of command, and exhibit not only great skill in the exercises, but the excellent discipline which is now shown in these schools both in and out of class is an eloquent testimony to the mental discipline which a good system of drill enforces.

11 There appears to the Committee to be no necessity for them to defend in detail the introduction of any of the above subjects into vernacular education in Bengal. In

the case of Kindergarten training object-lesson teaching drawing (hand and eye training) needlework for girls, manual work and drill, they are fully convinced of the necessity for their study, and they consider that there are no insuperable difficulties in the way of their introduction. The success which has attended the systems of education in Europe since the introduction of these subjects is in itself sufficient to prove their suitability. In the case of the science subjects, or what may be called the "Science of everyday life" it is proposed to introduce the facts required into the ordinary class readers, and hence these can scarcely be said to be new subjects, but rather an attempt to direct the reading work of the pupils to subjects which are of interest and importance to them in their everyday lives instead of requiring them to read books which rarely contain any useful information and are frequently of a very uninteresting nature.

12 As appendices to this report (Appendices A and B) two syllabuses are given. The first is the detailed statement of the subjects and the extent to which it is proposed to teach them in all the classes of the vernacular schools, while the second syllabus gives a condensed view of the detailed syllabus.

The detailed scheme as recommended by the Committee

It will be convenient to note here some of the leading points of the syllabus. Free hand drawing is introduced at the earliest stage and runs through the whole course. Manual training for boys, in the form of leaf manipulation, paper cutting and folding begins in the A class of the lower primary as needlework for girls it begins in the third year of the infant class or class B of the lower primary. Drill for boys and girls runs through the whole course. Under the head of Reading beginning with the A class of the lower primary there is a list of science subjects which without the explanation given in the next paragraph and in paragraph 9, may seem to impose too great a burden on the students, but on examination it will resolve itself into a simple reading course arranged as follows.—For boys in town schools, some elementary notions of the simplest facts and principles of Botany, Natural History, Hygiene, Physical Science and Chemistry. For boys in country schools a similar course only with Agriculture substituted for Physical Science and Chemistry. For girls in both town and country a similar course of Botany, Natural History and Domestic Economy only. The reader itself will be written in the most simple and comprehensible language, devoid of technicalities and, to minimise the danger of the reading exercise degenerating into learning by rote, the different subjects up to Standard IV are to be illustrated and explained as far as possible by means of object lessons.

The advantages of a course of Agriculture for village schools in Bengal need not be entered upon. Naturally this subject becomes of a more technical character than the other Science subjects, but at the same time it will be treated in a manner suitable for the age and understanding of schoolboys. In Standards V and VI practical work in a school garden is introduced. The syllabus for Standard IV of the subject "Writing" may be noticed in this connection as a part of it has indirect reference to Agriculture. It was brought to the notice of the Committee that in very many cases raiyats unwittingly placed themselves in the power of money lenders through absolute ignorance of the meaning of the documents to which they subscribed. The Committee, therefore, were of opinion, considering that they were providing a course of education mainly for the agricultural classes that it would not be out of place to introduce as an exercise in Writing the forms of simple documents which are commonly used by raiyats. Mensuration will include a course of simple practical Geometry. In the two highest standards Euclid is introduced as an alternative subject only. In the present course it is compulsory. The subject of moral training will be considered in the selection of pieces for the literature book and in subject IX (Poetry).

13, As it may be objected that several new subjects are proposed to be introduced in the curriculum, it is well to state that the increase of the course is only nominal, for most of the new subjects are only in substitution for others which are now taught.

Thus, for instance, in the lower primary course, there are subjects in the present curriculum which partly or wholly go out in the new proposals.

Taking the case of the B and A standards of a lower primary class, corresponding to the two stages of infant training, the children will be practically relieved of the work in reading and also in learning multiplication tables by rote. In their place the children will have to take up Kindergarten occupation and object lessons. In the lower primary class the time at present spent in reading and in working at the *Sarir Palan* (Science of Sanitation) will be devoted to studying the new primer for Standard I in what has been called the "Science of everyday life." The same remark which has just been made with reference to the lower primary class will almost hold good for all the classes above it, as it is proposed that the Science Readers which are to be prepared should be substituted for the ordinary reading books now used in the schools.

14 Again, writing is usually taught to the children in all the classes of vernacular schools at least an hour a day, it is proposed that a portion of this time say two hours a week, should be devoted to Drawing. Arithmetic, multiplication tables, etc., are now taught at least 2 to 2½ hours a day and in some classes for a much longer time. Under the new scheme the tedium of the children's work in the infant stages will be lightened, for the idea of numbers will be introduced during the Kindergarten and object lesson work, when dealing with the leaves of trees, the fingers of the hand, etc., so that in the two lowest classes the Arithmetic will be more like systematised play than a serious study. It is also thought

that the learning of multiplication tables should certainly be postponed to the second period or year of study of the infant stage. In the same way it is thought that the children should not learn the letters of the alphabet till the second year of tuition, while they will only commence their full course of reading and writing in the third year of study.

15 Again it may be remarked that in the present upper primary course the following subjects are taught — Literature, Science, and Grammar, which may be considered to be replaced by the Science Reader. Writing is to be partly replaced in the new scheme by Drawing. The dry facts of History and Geography now taught in the upper primary schools are to be replaced by interesting Historical and Geographical Readers, which will also include stories with a moral tendency. Euclid, now taught in the two classes of the upper primary school will be replaced by Geometrical Drawing and so on. Practically the only additional subjects in the proposed new courses will be Drill and Manual Training. These lessons must be really looked upon as a relaxation, and it is believed that, as is found to be the case in England, the introduction of these additional subjects will enable the other work of the school to be carried out more efficiently and expeditiously.

Hence it will be seen that the new scheme proposes to relieve the children of a considerable amount of tedious routine work, and to substitute for it lessons which will be at the same time more instructive and more interesting.

16 The statements appended to this report (Appendices E to G) are time tables giving the number of hours to be spent every week in each of the prescribed subjects in the different standards, for the lower primary, the upper primary, and the middle schools. With a view to diminish the pressure on the pupils at the infant stage, care has been taken to restrict school work to 18 hours a week for the first stage, 24 hours for the second, and 25 hours for the third stage, while 27 hours have been assigned to both the first and second Standards. From the third to the sixth Standard the number of school hours has been fixed at 30, including four hours for drill and manual work which, according to the experience gained elsewhere, afford marked relaxation from purely intellectual labour.

17 The Committee consider that though the syllabus of studies now put forward is based mainly on the existing capabilities of schools of different grades, it will be some time before it can be effectively taught in those institutions. They are of opinion that a period of two and a half years should be allowed to elapse, from the date of publication of the syllabus, for schools to adapt themselves to their altered requirements and that the first examination for scholarships under the revised standards should be held in 1902. The Committee do not consider it expedient to recommend the partial introduction of these standards, either in particular localities or in particular grades of schools, at an earlier date, as the present system of scholarships embraces both urban and rural areas, which cannot be educationally severed from one another without the creation of practical difficulties. They therefore venture to recommend that all classes of vernacular schools be given notice at an early date that the examination for scholarships will be held under the new system from the year 1902. This recommendation is made on the assumption that the middle and upper primary examinations will continue to be held before the Durga Puja holidays, and the lower primary examination in November or December as at present.

18 The necessary preliminaries to the introduction of the new scheme will be three. First, the immediate introduction of teaching the new subjects into training schools, so as to enable them to turn out rapidly teachers qualified to take up school work under the new system. Second, the training of Inspecting Pandits, Sub Inspectors, and Deputy Inspectors of Schools, who will have to be familiarised with the methods of teaching now proposed to be adopted. They may be invited to see actual work under the syllabus in the training schools for a week or ten days, and with the help of the knowledge thus gained, they can be expected to aid the teachers in introducing the system. Third, the preparation of manuals for the teachers and text books for the students.

19 Appendix C gives a statement of the books and manuals required under the proposed new scheme. They consist of two Teachers Manuals, one Drill Book and the Drawing Books for the use of the teachers, and the following text-books to be purchased by students —

For the Lower Primary

One Reader and one Arithmetic Book.

For the Upper Primary

One Science Primer

One Historical, Geographical and Moral Reader

One Arithmetic Book.

For the Middle Vernacular

One Science Primer

One Literature Book and Moral Reader

One Historical and Geographical Reader

One Arithmetic Book

Euclid (alternative)

20 Referring first to the Manuals for Teachers, the Committee are of opinion that the necessity for them is sufficiently shown by the inefficiency which is to be found in the work of many teachers in primary and other schools in Bengal

The *gurus* in many primary schools have never seen what good or proper teaching is like, and they have never received any instruction as to the best methods by which such teaching should be given. The Teachers Manuals, which the Committee consider should be prepared at once, will deal with the work required to be done by a school master, and indicate the nature of the subjects to be taught and the precise method by which the instruction should be given

21 The vernacular education which is being dealt with in this report may really be divided into four stages—the Infant stage, the Lower and Upper Primary and the Middle stages. In the Infant stage practically everything depends upon the teacher. It is therefore necessary to supply each of the lower primary *gurus* with a manual giving very full instructions as to how the teacher should conduct the training of the senses and how he should proceed with object lessons, etc., which are detailed in the syllabus. This Manual, called the Junior Teachers' Manual, would also indicate more briefly how the remaining subjects up to the lower primary standard (i.e. Standards I and II of the syllabus) are to be taught

The second Manual for the senior teachers would go rather more fully into the methods of managing the classes of a school, into the methods of maintaining discipline, the methods of keeping school registers and accounts, the requirements as to cleanliness and sanitation in school rooms and school houses and other matters of the same kind and in addition it would explain in detail the principles upon which the teaching of the classes of an upper primary school should be conducted

A few additional chapters dealing with the new subjects taught in the middle schools and on a few other matters, would be sufficient to make this second book suitable for the use of teachers in middle schools, as well as for those in upper primary schools

The subjects which are to be treated in the two Teachers Manuals are given in detail in Appendix D

22 The want of drawing examples for Indian schools has been supplied by a series of four books lately prepared under the supervision of the Superintendent of the Calcutta School of Art, by order of the Government of India. To make them more complete some additional examples are now being prepared, and it will only be necessary to arrange for a cheap edition of the whole series to make it suitable for use in primary and other schools in Bengal

An excellent Drill book, published in Hindi, embodying the native form of gymnastic exercises, has been introduced into the Central Provinces schools with marked success. The Committee consider that the Drill book for schools in Bengal should be framed on similar lines

23 The scope and method of the text books required for the students are sufficiently indicated in the detailed syllabus. The number of pages to be allotted to each subject in the different standards and the selling prices of the books are given in Appendix C

Method of procuring the text-books 24 It remains now to consider the best method of procuring the class of text-books and manuals required

Two alternatives were considered by the Committee—

1st. To rely on private enterprise

2nd. To depute official or non official experts to prepare them on suitable terms as to remuneration and adoption of the books by Government

After much deliberation the Committee decided that the first course was preferable, as it would discountenance the opposition and ill feeling which was sure to be aroused among authors and publishers by the unavoidable interference with their vested interest in existing text-books, involved in the reorganisation of the present curriculum. Any attempt on the part of Government to create a monopoly in the preparation of the new books might easily give rise to a strong reaction against the whole scheme. Another advantage of throwing open to competition the work of preparing all the books required would be to relieve Government of the difficult and somewhat invidious task of nominating experts. It is clear that no single author could be an expert in all the subjects which are dealt with in the Science Readers. It would therefore allow that some one author must act as an editor of a book or series employing competent persons to write sections of the work which he would incorporate in a Reader. Hence there would be a further and grave difficulty if it were decided that Government should undertake the preparation of the Science and other Readers

The Committee therefore considered that the best course to follow would be to notify publicly the number and text books required for the different classes of schools, the subjects which the books are to be drawn up being clearly specified and to invite authors and publishers to submit works for the approval of a Committee to be hereafter nominated by Government. The books might be written in any vernacular used in Bengal, but a very brief summary of the contents in English should be submitted with each book. Lists of authors or publishers, as the case might be, of the works selected would be

allowed to retain the copyright, but they would be required to undertake the printing and publishing on their own account. The maximum selling price is indicated in Appendix C. With regard to the text books for students and the Teachers Manuals the Committee consider that the copyright of works selected, being a property of considerable value, would offer a sufficient inducement for authors and publishers to compete without any honoraria being given, but probably Government would have to give a guarantee that no changes would be made in the books for a certain time, perhaps for five years.

25 The financial effect of the scheme can as yet be estimated only approximately. The Committee are of opinion that the new standards of education can without difficulty be taught in the schools by the present masters. Hence no additional expenditure will be thrown on public funds from this cause. The Committee do not expect that at the outset the teaching in some of the new subjects will be very satisfactory, but, as suggested in paragraph 18 steps will be taken to gradually raise the standard of teaching. The Committee are convinced that the teaching of the new system cannot possibly be less satisfactory than the teaching at present carried on. With regard to other items of the cost of the new scheme, the Committee have come to the conclusion that the preparation of the text books for the pupils as well as the two manuals for teachers should be left to private enterprise. If this recommendation be carried out the cost to Government of the introduction of the scheme will be practically nothing except what is incurred in the publication of the Drawing books and the Drill book. District Boards and other local authorities will have to provide the lower and upper primary schools with copies of the Teachers Manuals and the Drawing books and the Drill book. The total cost for each lower primary school will thus be about 10 annas and for each upper primary school about 12 annas. The number of lower primary schools in these provinces being 43,483, and of upper primary schools 4,113, the local authorities will have to incur an expenditure of about Rs 32,000 for supplying these books to the schools. As most of the lessons suggested in the syllabus deal with common objects, the Committee trust that the articles required will be secured by each school locally without any extra cost. A sum of 4 annas a year may, however, be put down as covering the entire cost of these articles for a lower primary school. In that case about Rs 12,000 will have to be provided either by the school *gurus* or the villagers. In upper primary schools the annual cost may probably be a rupee, and in middle schools the expenditure may vary with the ability of the school to bear it.

26 It remains to be seen how the changes about to be introduced are likely to affect the students of the different grades of vernacular schools for whose benefit the Committee have endeavoured to revise the entire curriculum of studies. The number of pages of text-books gone through by a candidate for a middle scholarship under existing arrangements is about 1,400 and the cost of the books is about Rs 6, while under the scheme here set forth the number of pages will be five to six hundred and the cost one rupee to one rupee eight annas. In addition to this drawing appliances, costing about 8 annas to each pupil and one rupee to the school, will have to be provided. In respect of the Upper Primary scholarship class the pages at present come up to 1,050 and their cost to about Rs 2 13, while the new scheme reduces the pages to three hundred or three hundred and fifty, and their cost to eight to twelve annas or to perhaps a rupee, including drawing instruments. In the same way the Lower Primary scholarship class now has to go through 230 pages, the books costing about 10 annas while the new scheme gives 140 pages, costing 6 annas. These figures give some idea of the relief which would be afforded to students of vernacular schools of different classes in respect of the burden of text books and their cost to the pupils.

27 The Committee are of opinion that it will be time to discuss the question of assigning different values or marks to the separate subjects for the purposes of the different scholarship examinations when the Government have intimated their decision on the scheme embodied in the present report. The Committee, therefore, consider it premature to make any detailed proposals in respect of marking for the present.

APPENDIX A

THE DETAILED SYLLABUS

NOTE—It is of the utmost importance that all objects which are used to illustrate the courses of instruction in vernacular schools should be selected from materials or things that are commonly found in every school or which can be obtained in every village without difficulty and without cost. This rule applies to objects which are to be used for the training of the senses in the infant classes and for object lessons etc. and also as far as possible to those used in the teaching of the science of every day life.

INFANT CLASS

THE following "Kindergarten" and "Object lesson" subjects shall be prescribed for the first stage of instruction before the children are allowed to begin to learn their letters or to learn to read, &c. —

FIRST PERIOD OF INFANT CLASS—ONE YEAR'S COURSE

Age about 5 years

A — Kindergarten and Object lessons for training children by observation or impressions obtained through the senses—

1 Through the eye—

(a) Lessons on form

Curved lines
Lines, straight and crooked
Ball shaped bodies

(b) Lessons on colour—

Black and white substances
Yellow and red ditto
Blue and green ditto

2 Through the hand—

Things, hard and soft
" rough and smooth
" heavy and light
" brittle and tough

3 Through sense of taste—

Things, sweet and sour
" pungent or hot, sour, salt and bitter

B — Object lessons on things of every day life, such as, a flat board or a piece of wood, a box, a stool or chair, a table or school desk also very simple object lessons about plants, growing and flowering, indicating the root the stem, the leaves, the flowers, etc., and their simple uses, and showing that a plant must be watered for it to continue to live

Very simple lessons about the human body—

Parts of the body—the head, arms, legs, hands and feet
What the body is made of (bones and flesh)

C — Training of hand and eye—

Drawing of curved, straight and crooked lines
Drawing of squares and oblongs, circles and figures like circles bounded by curved lines

D — Very simple lessons as to different kinds of animals—

Some animals walk only

Ditto have 2, 4, and more legs
Ditto crawl
Ditto fly
Ditto swim
Ditto walk and fly
Ditto ditto and swim

Necessity of kindness to domestic animals
Kindness of children to one another

E—From the object lessons on the leaves of trees and on the hands and feet etc the idea of numbers can be readily introduced, and from numbers to addition, subtraction, and simple mental arithmetic

F—The children are to be allowed to learn to write the numerals about this stage

G—The children must be trained daily in simple physical exercises and in action songs

H—Kindergarten occupations such as stick-laying, etc

SECOND PERIOD OF INFANT CLASS—ONE YEAR'S COURSE

Age about 6 years

A—Training through the senses—

1 Through the eye—

(a) Lessons on form—

Extension of lessons given in first period

Also lessons on angles and on triangles of various shapes

Also lessons on cube and brick shaped bodies

(b) Lessons on colour—

Extension of lessons given in first period

Grey, orange, purple, brown

Through the hand—

Extension of lessons given in first period, showing various degrees of the properties then tested

3 Through sense of taste—

Extension of lessons given in first period

4 Through the ear—

Sounds, loud and soft

„ distant and near

pleasant and unpleasant

Different animals give different sounds.

Sounds of pain sounds of pleasure

Sounds give spoken language

5 Through the organs of smell—

Pure air has no smell

Air which has smell is not pure

Sweet or pleasant smells of flowers

Unpleasant smell of rotting or decaying vegetation

Unpleasant smell of rotting or decaying animal matter

Air with bad smell is unhealthy to breathe

6 Lessons on size and measurement—

Length, breadth, and thickness

Measures of length, both vernacular measures, and the yard, foot, and inch

B—The following object lessons on common things —

1 On a stool or chair

2 „ a slate and pencil

3 „ a book

4 „ a tree and its fruit

5 „ a mango and plantain

6 „ seeds

7 „ grass

8 „ a plant yielding fibres which the children can extract

9 „ the parts of the human body in greater detail than in the first period

10 „ a cat

C—The hand and eye should be again trained by simple drawing exercises of the same character as those in the first period, but rather more advanced, with the drawing of triangles, rectangles, pentagons, etc, in addition

Tracing outlines of leaves of plants of various shapes and of other flat bodies on slates. Leaves of plants may be pressed between sheets of paper (old newspaper) to make them be quite flat

After tracing a leaf or other flat object on the slate, the pupil should be required to make a freehand copy of his own diagram by the side of it, and compare it and correct it by placing the original object over it. This would help to train the eye and would fix the form of the object more clearly in the memory than simple tracing would

D—At this period the children are to begin to learn their letters, etc., and to write the letters of the alphabet and to form short words

E—Additional arithmetical exercises, multiplication tables, etc., should be learned. Slates may be used for the simple arithmetic

F—Short pieces of poetry should be committed to memory. Some of these should teach morality and the duties of children

G—Simple physical exercises and action songs

H—Kindergarten occupations such as stick laying, seed work, etc

THIRD PERIOD OF INFANT CLASS—ONE YEAR'S COURSE (EQUAL TO STANDARD B OF PRESENT PRIMARY COURSE)

• *Age about 7 years*

A—Training through the senses—

1 Through the eye—

(a) Lessons on form should include the notions of perpendicular, horizontal, oblique, parallel lines, the circle, sphere, cylinder, prisms, pyramid, and cone

(b) Lessons on colour should deal with dark and light colours, and with the varying shades of such colours as red, blue, green, yellow, etc

Primary and secondary colours, browns, greys, etc

(c) Lessons on the four cardinal points

2 Determination of weights with the use of bazaar scales

3 Elementary notions about time should be given (indigenous and European), to include the year, month, week, day, hour, and minute, also division of the year into seasons

B—Object lessons—

3 Further lessons about plants—

Seeds to be sown and grown to form plants.

Object-lessons on plants, such as pumpkin, and on vegetables, such as brinjal, beans, etc., for food

4 Further lessons about the human body—

The blood, the brain, the skin

5 Object-lessons about birds (pigeon, duck)

Simple lessons about the cow

6 Object-lessons on vessels—

An earthen pot

A water glass or a bottle.

A brass *lotah* or a brass plate (*thala*)

7. Object-lessons on common metals.

” coins, copper and silver

” nails, screws

” a knife

” a key for a lock

- 8 Object-lessons about plants yielding fibres, more advanced than in the previous stage
The use of various fibres in the manufacture of cloth for clothing

C—Drawing (Hand and Eye-training)—

Drawing on slates, of rather more advanced character than in the two previous stages

Drawing outlines of leaves, etc., from memory must be practised

D—The study of reading and arithmetic to be continued, and before passing on to the next stage the children should be able to read very simple language, written and printed, and should be able to write slowly, very simple words from dictation

E—Verses on the duties of children should be committed to memory and recited

F—School Drill also to be included

G—Needle work (*for girls only*)—Hemming

H—Kindergarten occupations such as stick laying, seed work, paper folding, etc

STANDARD I—ONE YEAR'S COURSE (CORRESPONDING TO THE
'A' CLASS OF A LOWER PRIMARY SCHOOL)

Age about 8 years

Class subjects—Reading Writing* Arithmetic,* Object lessons and a Primer with Drawing (Hand and—Eye-training), Manual work, Needlework for girls, and School Drill

Object lessons (2 pages)—

THE SKY

Sunrise, noon, sunset—The children are to note with reference to the school house or village the object over which the sun rises or sets from month to month and to note also the sun's position at noon, and its varying height above the horizon

Shadow—The pupils are to notice by aid of an upright stick on a flat piece of ground the varying length of the shadow month by month

Moon—Note its changes The pupils should draw the shape of the illuminated portion week by week

Day and night—Varying length of day and night at different seasons to be noted, and connected with the varying position of the sun as determined at rising and setting and at noon

The Primer for this class will contain—

A—Botany (5 pages) —

1 A broad sketch of the plant in reference to its three principal parts—the root the stem and the leaf

2 Talk about a seedling

3 Distinction between root and stem—Observe the germination of seed One part grows upwards—the stem and the other downwards—the root If a growing plant be placed in an inverted position for some time observe that the stem will bend and grow upwards and the root in the contrary direction (A germinating pea placed upside down will show this)

B—Natural History (10 pages) —Habits and general description of the following domestic animals with anecdotes the cow, the cat and the dog, incidentally illustrating what is meant by herbivorous and carnivorous animals, their offensive and defensive weapons

C—Agriculture (10 pages) for Country schools, for boys only—Alternative with Physics and Chemistry

Necessaries of Life Variety desirable as a protection against failure of crops *Objects required*—specimens of cereals pulses oil seeds vegetables sugar salt milk, fibres straw, bamboos timber spices

* As at present.

D—Physics (5 pages) for town schools, for boys only—

The following lesson is to be in the form of conversation —

Solid substances and some of their properties—Take a solid and show that it has a definite shape. This shape cannot be easily altered.

Some solids may be converted into liquids by heating *e.g.* wax.

Porous bodies—Take a piece of charcoal and show the pores. Examine also a piece of unglazed pottery. Water percolates through the pores. Examine blotting paper.

Liquids and some of their properties—As example take water. It has no shape of its own. It takes the shape of the vessel in which it is poured. It breaks into drops. It flows down. Fill a bottle full of water. Try to cork it. The water is difficult to compress.

Solids are converted into liquids by heating. Liquids are converted into solids by cooling. Observe how coconut oil becomes solidified in winter.

E—Chemistry (4 pages) for town schools, for boys only—

Lesson on solubility —

Take a pinch of common salt, sugar and finely powdered chalk respectively in a tumbler and add the same volume of water to each and stir with a rod. Observe the appearance of the liquids. The water with the salt and sugar is perfectly clear, that containing the chalk is milky. Now pass the liquids through filter papers. Observe that the milkiness in the last has now disappeared. Taste them one by one. The water containing the salt has a brackish taste, that which was poured over the sugar has a sweetish taste, whilst that which was treated with chalk has no taste whatever. Evaporate the liquids in succession in earthenware or enamelled cups. The water evaporates off slowly and at last we have a residue of salt and sugar, but the water which was similarly treated with chalk leaves nothing behind.

F—Hygiene (8 pages), for boys only—

Food—Its necessity. Evils of under feeding and over feeding. Ordinary articles of food including meat, eggs, milk, fruits.

Drink—Pure water, how obtained. Causes of impurities in water.

Air—Necessity of pure air. Causes of its impurities. How to purify the air of dwelling houses.

Sunlight—Its necessity in dwelling houses.

F(a)—Domestic Economy (8 pages), for girls only—

Bathing—Anointing the body before bathing. Bathing as a means of cleaning the body. Bathing of little children.

Dress—Dress capable of improvement. Clothes to be washed and kept clean. Children's clothes to be changed frequently.

The kitchen—Should be kept clean. Removal of refuse. Scrubbing the floor and cleaning walls and the ceiling. Admission of light and air into the kitchen.

G—Drawing (Hand and Eye training)—Half the first part (of the four parts) of the Indian Drawing Books prepared in the School of Art —

A set of Indian drawing copies has recently been supplied by a drawing book in four parts prepared by order of the Government of India. With some additional examples and a carefully prepared set of instructions for teachers the first book would be suitable for use in lower primary schools. The examples would have to be enlarged, mounted on pasteboard and varnished. These enlarged examples would be hung in front of the class and copied by the students on their slates, so that one set would be sufficient for each school. The only expense would be the cost of one book for the teacher and one set of examples for each school. The examples would be of so simple a character that any intelligent teacher by the help of the printed instructions would be able to direct the class in the correct method of drawing them.

One page of directions regarding Drawing is to be included in the Science Primer.

H—Manual Training, for boys only—Leaf and Paper work

Leaves (palm, &c.)—Making fans of different kinds, whistles, ornamental designs, baskets.

Paper—Paper folding, paper-modelling such as caps, boats, and other toys, inkpots, pen cases etc. flying kites, flowers, garlands, slings, lanterns, etc. etc., envelopes.

Two pages of the Reader to contain directions about Manual Training.

Ha)—*Needlework (for girls)*—Top sewing or seaming

I—Verses teaching the duties of children

(Two pages at the end of the Primer)

STANDARD II (CORRESPONDING TO PRESENT LOWER
PRIMARY STANDARD)

Age about 9 years

Class subjects—Reading, Writing,* Arithmetic,* Object lessons and a Primer, with Drawing (Hand and Eye-training), Manual work, Needlework for girls, and School Drill †

Object lessons (2 pages)—

THE AIR

Winds—The pupils should record the varying directions of the winds from season to season, or day to day, also note that some winds are warm, some cold, that some bring rain and some dry weather

Air—Contains moisture or water vapour shown by two classes of facts—(a) clothes left out in open air at night become damp and wet, salt becomes damp and wet during rainy season, i.e., vapour from air is turned into water, and (b) pools of water and tanks dry up in wind and sun, wet cloth becomes dry when hung in wind and sun, i.e., the water in them turns into vapour Human breath contains vapour, and thus turns to water when a cold slate is breathed upon, or on a cold morning breath becomes visible owing to water being formed from the vapour in it

Surface of lands—The meaning of the terms plains, valleys hills, etc., must be explained, and the teacher should make models in clay, sand, etc., to illustrate the meaning of such terms

The Reader for this class will contain—

A—Botany (5 pages)—

Root of a plant—Function of the root (1) to hold the plant (2) to supply food Examine different kinds of roots

Distinguish between the main roots and rootlets—

Fibrous roots—grass
Fleshy roots—radish beet
Adventitious roots—banyan.

B—Natural History (10 pages)—

General description of the members of the cat family with anecdotes

Mammals—The cat, chosen as a type—external configuration—round face—arrangement and disposition of the hair—habits.

Examination of the paw (a) under surface the fleshy pad—the retractile claws—when excited the claws are drawn out of the protecting sheath and the hair stands on end—mode of seizing prey

The pupil of the cat's eye almost a vertical line in broad daylight—in the dark it expands.

The cat its maternal instincts—attitude of the male cat towards the offspring

The tiger only a big cat

C—Agriculture (8 pages), alternative with Physics and Chemistry for village schools, for boys only—

A lesson on rice and a lesson on oilseeds †

As at present.

† Book containing instructions in Drill to be prepared.

D — Physics—(5 pages), for boys only —

Gases and some of their properties—Blow into water through a tube, you see something bubbling up Blow against your hand you feel a current of air Gases cannot be kept in an open mouthed vessel Gases are easily compressible

Resumé of the general properties of matter (ice, water and steam)

Divisibility of matter

Gravity

E — Chemistry (4 pages), for boys only—Further lessons about solubility

Take some lime in a bottle fill half the bottle with water cork it tightly and violently agitate the contents Allow to settle over night Next day carefully decant off the clear liquid note the *alkaline* nature of the water divide it into two portions blow into one by means of a tube of bamboo or some kind of reed Observe how the water turns milky the lime which was in solution has now been rendered insoluble and thus *precipitated* Pass the milky water through a filter The water is now colourless and devoid of taste (Cf Lessons on the Chemistry of a Candle)

Treat similarly powdered alum sulphate of copper charcoal sand &c and find out which of the above are soluble and which insoluble in water

F — Hygiene (8 pages), for boys only —

Clearliness and dress—Bathing its necessity How to keep clean How to keep the house clean Uses of dress Different articles used for weaving cloths

Exercises and rest including change of air

Epidemics—How to check their spread

F(a) — Domestic Economy (8 pages), for girls —

Cooking—Cleanliness to be observed Cleaning of utensils Supply of good water for cooking food Articles to be properly prepared and washed before cooking Food to be prepared and kept covered as far as possible Rice to be cooked last and eaten before it gets cold Variety in food

Bed room—Day sleep to be avoided Regular hours of sleep Over crowding in rooms injurious Use of mosquito curtains Ventilation of rooms Bedding of infants to be changed when soiled Bed cloths and pillows to be aired and sunned and washed

*G — Drawing (Hand and Eye training) —Second half of first part of the School of Art Drawing Book ***H — Manual Training (for boys only) —Exercises in Clay modelling*

Construction of pots country lamps other household articles models of fruits and playthings

One page of directions regarding Manual Training is to be included in the Science Primer

*H(a) — Needlework, for girls —Running and felling and back stitching**I —Verses teaching morality and duties of children (3 pages)*

STANDARD III (CORRESPONDING TO LOWER CLASS OF UPPER PRIMARY SCHOOL)—ONE YEAR'S COURSE

Age about 10 years

Class subjects—Reading, Writing,† Arithmetic † a Historical, Geographical and Moral Reader a Science Primer Drawing (Hand and Eye training), Practical Geometry (INSTEAD OF EUCLID), Manual work, Needlework for girls and School Drill ‡

These Drawing Books are now in course of revision and drawings of Indian leaves, plants and animals illustrating the lessons in agriculture natural history and botany are to be included in them

† As at present

‡ Drill book to be prepared.

In addition to the Science Primer, a Reader containing lessons in History and Geography will have to be prepared for the Upper Primary Standard, and the first half of this book will be used in this class. This book should contain a few pieces of poetry, also some anecdotes with a moral tendency. It should not exceed 120 pages.

Object lessons (2 pages) —

WATER

Mist and fog—Are produced in the air and over tanks, etc., because the vapour, when cooled, changes into little drops of water.

Clouds—Are formed in the same way, but in the upper atmosphere.

Rain—Comes from these clouds, or from the vapour which has been cooled into drops of water.

Dew—Is water formed from vapour on or near the surface of the ground. The pupils should note when dew is formed, i.e., whether during cloudy or cloudless weather, etc., the difference in the amount of dew in different seasons of the year and on what objects the dew lies thickest.

Hailstones—Are rain drops made solid by cold, and they fall usually during thunderstorms. Hailstones should be collected and examined and allowed to melt in a glass, so that the water can be seen and tested.

Thunder and lightning—Also usually occur during storms of rain, hail, etc.

The Science Primer will contain—

A — Botany (8 pages) — Stems and their functions —

Stems of plants — The stem grows upward, so that the plant may get as much light as it can. Green plants cannot grow without light. Observe the discolouration and unhealthy condition of grass growing when shaded from light.

Different kinds of stems—

a — Woody stems

b — Climbing stems. Observe the twining tendrils by which the plant obtains support e.g. cucurbit.

— Succulent stems

d — Underground stems e.g. potato, turner, ginger etc.

B — Natural History (10 pages) —

Difference between a vertebrate and an invertebrate animal as illustrated by comparing the wings, legs and body of a bird with those of a butterfly.

Animals without a back bone a snail, a cray fish, an earth worm, a milliped a butterfly, a leech and a cockroach compared with a fish.

The dog as compared with the cat in external appearance — the longish face — claws non retractile — different breeds of dogs — Newfoundland spaniel, greyhound, St Bernard and the uses they are put to — dogs of the cold countries furnished with a thick coating of fur.

C — Agriculture (10 pages) for country schools, for boys only (alternative with Physics and Chemistry) —

Why crops fail

Drought resisting crops

Irrigation from small depth and from great depth

D — Physics (10 pages) for town schools for boys only —

Liquids — Surface of liquid is always level. Pressure exerted by liquids in all directions. Bodies weigh less in water than in air. Floating bodies.

Gases — Pressure exerted by the atmosphere. Invert a tumbler filled with water, with the open mouth covered with a card. Observe the water is kept from falling. The syringe.

E—Chemistry (6 pages) for town schools, for boys only—

Chemistry of a Candle—A candle attached to a stout iron wire is lighted and gradually lowered into a wide mouthed glass bottle it continues to burn. Observe that the sides of the bottle begin to lose transparency and become covered over with mist. Where does the water come from? The mouth of the bottle is gradually closed with a glass or earthenware plate. The light begins to get more and more dim till it is extinguished. Pour lime water into the bottle and shake it. The lime water turns milky. Take some fresh lime water in a tumbler and blow into it. The lime water in this case also turns milky.

F—Hygiene (16 pages), for boys only—

Air—Pure air. Cause of its impurities. Overcrowding in houses and public institutions. Means of ventilation.

Water—Its sources of supply. Different ways in which it is rendered impure. How to secure pure water. Filters. Alcoholic and other objectionable drinks.

Food—Why do we eat. Over eating and under eating. Different kinds of food including cereals, pulses, tubers, vegetables, meat, milk and its preparation, sugar, eggs, fruits, preserved foods, condiments.

Sunlight with special reference to its disinfecting action and necessity to health.

F(a)—Domestic Economy (16 pages), for girls—

How to keep rooms clean—How they become unclean. Open lamps. Spitting in rooms and on walls improper. Sitting with naked back to the wall. Cobwebs. Children not to play with dirty things in rooms.

Furnishing rooms—Furniture and utensils to be sufficient for the requirements of the household. Everything in its place. Use of lanterns. Advantages of glass or glazed or stone vessels over metallic articles from a sanitary point of view.

The kitchen—To be kept quite clean. Adjoining parts also to be clean. Utensils, cooking vessels, dishes to be made clean before and after use. Admission of light and air into the kitchen.

Sunlight with special reference to its disinfecting action and necessity to health.

G—Drawing (Hand and Eye training)—8 pages, explaining the lessons in the drawing book and the elementary practical geometry which is to take the place of mensuration are to be included in the Primer.

Subjects—(1) Freehand drawing, with chalk on the blackboard or a prepared wall surface. (2) Elementary practical geometry.

NOTE 1—The value of freehand drawing, on the blackboard as a means of physical and hand and eye training is very great and is hardly sufficiently appreciated in most schemes adopted in Europe. The facility with which it can be put into practice in any school building which has *pukka* walls makes it peculiarly suitable for India. The advantages of it are that the student does not sit in a stooping position as in writing or drawing on paper. They stand upright with the head erect and the example opposite the eye. They walk backwards and forwards occasionally to observe their work at a distance. The hand does not rest on anything, but is firmly on the wrist. This in itself gives the arm and wrist a strength and the hand a certainty of touch which cannot be acquired by any other kind of drawing.

The difficulty regarding the provision of blackboards or other drawing surface for a large number of students in all the upper primary schools in Bengal is easily surmounted. It is obvious that any upright surface properly prepared will answer as well as or better than a blackboard. Any building which has a *pukka* wall can have a surface prepared for drawing on at comparatively small expense. Portland cement would be the best material; it resists damp and saltpetre which destroy ordinary plaster and it makes a surface when properly prepared which will last for years. The colour of the surface is the next consideration. The natural colour of Portland cement is dirty and ugly but by mixing the cement with Indian red (a red ochre which can be obtained easily and cheaply) in the proportion of about 1 to 6 by weight a low toned and pleasant colour can be obtained which would not be trying to the eyes. So instead of blackboards a band of coloured Portland cement about 3 feet wide running round the whole class room at a height of about 3 feet from the ground would make an excellent surface for drawing on and would be a cheerful decorative feature in the class room. The black coloured surface is only necessary for a teacher's work in demonstrating figures and diagrams to students who sit at some distance off. For students drawing practice it is neither necessary nor desirable. The next question is the drawing examples. These would be taken from the Indian School of Art drawing book alluded to before. They would be mounted on card-board and hung from a strip of wood fastened to the wall at the upper edge of the drawing surface. The students would enlarge the examples to three or four times the size so that the copying should not be merely mechanical.

The elementary course of practical geometry is also advocated as being of far greater educational value for students of this age than the learning of Euclid which is almost sure to degenerate into a mere memory exercise. The instruments required are not expensive. They consist of a pair of pencil compasses, a six inch scale and one or two small set squares.

H—Manual Training, for boys only—Weaving (4 pages)—

Basket weaving with palm leaves
String weaving (knotting, netting, looping, plaiting, weaving of single loop chains of one string, sling weaving)

H(a)—Needlework, for girls—Cross stitch and making of kurta

STANDARD IV (CORRESPONDING TO UPPER PRIMARY
CLASS—ONE YEAR'S COURSE)

Age about 11 years

Class subjects—Reading, Writing,* Arithmetic,* a Historical, Geographical and Moral Reader, Science Primer, Drawing (Hand and Eye training), Practical Geometry and Mensuration, Manual work for boys, Needlework for girls and School Drill †

The second half of the Geographical, Historical and Moral Reader will be taken

Object lessons (3 pages)—

The action of water in nature and on the surface of the land

Water when it falls in the form of rain, etc., partly runs over the surface of the ground into tanks, streams, and rivers; it partly sinks into the ground to pass into wells and to reappear in the form of springs, etc., at a lower level, and it partly passes again into the air in the form of vapour.

The action of heavy rain in cutting channels in the earth or soil and in carrying away particles of light material such as straw and wood and of soil or earth, or even stones, into the nearest stream, and then into a larger stream or river, should be carefully watched by the pupils.

The pupils should study the nature of the nearest stream of water determining in what part of the stream the current is most rapid, etc., and ascertaining how it carries away soil and even small stones, and how it cuts away its banks, etc.

The turbid water produced by a rapid stream should be placed in a glass tumbler, and the deposit of silt or soil found at the bottom on standing should be observed. Attention should be drawn to the fact that in this way new earth or soil has been formed in Bengal.

The pupils should be required to decide simple questions, such as—Is the ground on which the school stands level or sloping? Is the ground in the neighbourhood of the school village or town level or sloping, the nature of the land being ascertained by watching the flow of water after rain (i.e., by the drainage)? It should be noted that the greater the slope of the land the more rapid will be the flow of water. The action of rain and running water in modifying the surface of the land must be fully explained.

The differences in the erosion of land by running water when (a) the land surface is bare and (b) when the land is covered with grass or vegetation or by forests must be explained.

Water can be made to pass through certain soils, sand, etc., easily, but it cannot pass through clay. This can be experimentally shown.

Wells and tanks are dependent for their supply of water on the level of the water in the soil, and the depth of this from the surface depends upon the nature of the soil, rain fall, etc. Subsoil water is essential to the growth of plants.

* As at present

† Drill book to be prepared

The Science Primer for this class to contain—

A — Botany (8 pages) — Lessons on leaves and flowers.

Leaves — Function of leaves

Different parts of a leaf—the stalk and the blade

Make a collection and examine the different kinds of simple and compound leaves

Some leaves are sensitive to touch e g the sensitive plant

Observe the order in which leaves close when the end of a branch is touched

Flowers — The function of flowers is to produce seeds which give rise to a new plant

Study of the different parts of a flower

Count the number of sepals petals stamens and pistils of different kinds of flowers

Examine pollen grains also the pistil and the enclosed ovules

Pollen must fall on the stigma for the maturing of the seed

Pollination often done by insects The brightly coloured petals serve to attract the insects

B — Natural History (10 pages) —

The cow and the horse compared—the cloven foot and the solid foot—other members of the cow family the buffalo, the sheep, the goat Stomach of a goat (a typical ruminant) examined and laid open—the four chambers—the construction of the stomach suited to the habits of the animals which chew the cud

C — Agriculture (16 pages) for country schools, for boys only, alternative with Physics and Chemistry—

Food and fodder yielding trees

Insect and fungus pests

Oil cakes as cattle food and manure

D — Physics (10 pages) for town schools, for boys only — Heat—

Expansion of solids liquids and gases

Make a simple liquid thermometer with a bottle and a tube or quill and explain the principle of a thermometer

Change of condition—

*From solid to liquid
liquid to gas*

Conduction—

Good conductors and bad conductors Principle of warm clothing

Convection—

Air currents and winds

Radiation

Boiling—

Elastic force of steam

A simple reading lesson on the steam engine

E — Chemistry (8 pages) for town schools, for boys only — Chemistry of a Candle, Second half —

When air is breathed out an invisible gas comes out which has the property of turning lime water milky This gas is also formed when a candle burns Combustion to be explained and compared to respiration The part which oxygen plays Blow air into a charcoal fire by means of a pair of bellows The fire becomes more and more brisk The common practice in this country of stirring a fire by blowing air into it by means of a bamboo pipe to be referred to

F — Hygiene (for boys only)—16 pages

Slightly more advanced than the matters intended for Lower Primary course—Cleanliness to Epidemics

Ordinary accidents — Burns, snake-bites bites of rabid animals, drowning

F(a) — Domestic Economy (for girls)—16 pages

Cooking—Good water to be used Every article to be properly prepared and well cleaned and washed before putting it in the cooking pot Cooking pots to be cleaned before use Cooked food to be kept covered Variety of dishes necessary

Meals—Time of meals All to eat at the same time if possible Hall for meals to be spacious and clean Dishes and cups Distribution of food Economy and no waste Simultaneous eating saves trouble and ensures economy Evils of eating at separate times Feeding of infants and little children Over feeding and under feeding

Bed room—Elevated bed necessary especially in damp rooms Over crowding, bad Use of curtains Sunning and washing bedding and clothes Ventilation of rooms Soiling of bedding by little children

Ordinary accidents—Burns snake bites bites of rabid animals drowning

*G — Drawing (Hand- and Eye-training) —Freehand drawing book Practical Geometry and Mensuration (15 pages)**H — Manual Training (for boys only)—3 pages*

Bamboo work—(Dao and knife.) Making of sticks angling rods paring of split bamboo for fencing purposes cage making frame work for plants

H(a) —Needlework (for girls) —Cutting out a kurta sewing on buttons and strings, making buttonholes, marking

STANDARD V —CLASS ABOVE THE UPPER PRIMARY STANDARD
OR LOWER CLASS OF MIDDLE SCHOOL—ONE YEAR'S
COURSE

Age about 12 years

Class subjects—Reading, Writing,* Arithmetic,* a Literature book (about 150 pages), Geographical and Historical Reader, including some lessons in Physical Geography (together about 150 pages)† Science Reader, Drawing (Hand and Eye training), Practical Geometry and Mensuration alternative with Euclid first 26 propositions of book I, Manual work, Needlework for girls and School Drill ‡

More advanced Readers, to be prepared for the Middle School Standard in History and Geography, of which one-half would be read in this year's course

The Science Reader for this class to contain—

A —Botany (12 pages)—

Life history of a plant—

(1) How plants obtain their food—

A more detailed study of the functions of the root and leaf
Observe the arrangement of leaves to secure the largest area exposed to light Transpiration

(2) How plants store up food for future use—

- (a) in the stem
- (b) in the root
- (c) in the seed for future use of the seedling

(3) How plants protect themselves by means of thorns and other devices

B —Natural History (12 pages) —Teeth of certain typical animals

Arrangement of the teeth in the upper and lower jaw respectively of the cat—the prominent *canines*—a characteristic of the carnivora—the function of the incisor—the canine and the molar teeth explained

Dentition of a ruminant and a rodent compared

Some typical members of the rodent family, the rat, and the squirrel.

* As at present.

† Such as Lee Warner's Citizen of India.

‡ Drill book to be prepared.

C—Agriculture (16 pages) for country schools for boys only (alternative with Physics and Chemistry) —

Every Middle School choosing Agriculture as an alternative subject in place of Physics and Chemistry should provide itself with land sufficient for a small garden where each boy can grow a few square yards of some crop. Each boy must also make a collection of at least five articles of agricultural interest for the school museum under the teacher's guidance. In course of time a complete local collection of soils crops manures weeds, oils fibres and other agricultural produce insect and fungus pests, insecticides and fungicides etc may be made.

Fertility of soil Lessons on *araka* and *dhanca* How saltpetre is made Sugarcane and sugar

D—Physics (10 pages) for town schools, for boys only Light—

Light travels in a straight line Shadows
Reflection of light—plane mirror Refraction of light Refraction through a prism

A double convex lens—Formation of images by a double convex lens Use of a lens as a simple microscope

E—Chemistry (6 pages) for town schools, for boys only — Metals

General properties of the metals—Lustre—malleability the alloys and their mode of formation Liability to rust

The well known metals—Gold silver copper tin lead zinc iron and the alloys brass and *kansa* the different uses to which they are put

F—Hygiene (for boys only)—20 pages

A short chapter defining terms used and giving some idea of the human body and the functions of nutrition and respiration

Food—Components of perfect food. Articles of good food advantages of variety in foods Food according to age and occupation

Drink—Water and its sources of supply—How to secure good water Rivers tanks and wells how to be protected from pollution Filters storage of rain water Alcoholic and other drinks

Air—Carbonic acid gas Other substances that pollute the air Air inside and outside of houses Air in towns swamps and in dry and high places Slow poisoning by impure air Natural purification of air how carried on Ventilation in houses

Construction of dwelling houses—Admission of air and sun light How to keep the premises clean and dry

F(a)—Domestic economy (for girls)—20 pages

Feeding bathing and cleanliness pure air ventilation of houses

Management of common ailments Colds coughs fevers skin diseases indigestion Sick diet

Burns and scalds wounds and bruises

G—Free hand Drawing (Hand and Eye training) —

G(a) Practical plane geometry including simple practical mensuration of lines and surfaces (15 pages)

G(b) Euclid alternative with G(a) First 26 propositions of 1st Book †

H—Manual Training (for boys)—Bamboo work—3 pages

Bamboo work—As in the Upper Primary course

H(a)—Needlework (for girls)—Gathering and sewing on a band, darning and herring boning

STANDARD VI—MIDDLE STANDARD—ONE YEAR'S COURSE

Age about 13 years

Class subjects—Reading, Writing,* Arithmetic,* a Literature book, Geographical and Historical Reader, including some lessons in Physical Geography, Science Reader Drawing (Hand and Eye training), Practical Geometry and Mensuration, alternative with Euclid, book I, Manual work for boys, Needle-work for girls and School Drill †

The second halves of the Geographical and Historical Readers to be prepared

As at present
† Drill book to be prepared.
‡ In a separate book.

Science Reader to contain—

A — Botany (12 pages) — Life history of a plant

How the seeds mature—

- (a) Pollination by insects The object of bright colouring of the flower leaves Insects are also attracted by scent. Observe how small and inconspicuous flowers club together to become conspicuous *eg*, composites.
- (b) Pollination by the wind
- (c) Water as carrier of pollen grain

Dispersion of seeds and the object of dispersion—

- (a) Winged seeds
- (b) Seeds which are scattered by mechanical means
- (c) Seeds which are dispersed through the agency of birds and other animals
- (d) Dispersion of seed by currents of water

B — Natural History (12 pages) —

Development and metamorphosis of an insect *eg* a butterfly or a silkworm—the pupa and the chrysalis stage etc

Some typical members of the monkey family The common monkey (*bandar*)—the *hannuman*

The Snakes their habits—mode of progression how the snake bites—the curved grooved poison fang

C — Agriculture (16 pages) for boys in country schools (alter native with Physics and Chemistry) —

Rotation of crops
Feed and keep of cattle
Use of bones as manure

D — Physics (10 pages) for town schools, for boys only — Electricity and Magnetism

Two kinds of electrification Action of electrified bodies on one another A pith ball electroscope

Directive action of earth on a magnet A simple compass needle Mutual action of similar and opposite poles

Production of electric currents Action of a current on a suspended magnetic needle

E — Chemistry (6 pages) for town schools, for boys only — Elements and compounds, carbon and sulphur

Carbon graphite and diamond the physical properties of each well illustrated and the economical uses to which they are applied What happens when a piece of charcoal is burnt (*Cf* Lesson on the Chemistry of a Candle)

Some ideas of an *element* and a *compound* incidentally conveyed. A blade of a knife previously well cleaned is dipped into a solution of sulphate of copper the deposit of metallic copper shown The copper a component of sulphate of copper in a compound the properties of the component elements are entirely changed

A lesson on Sulphur its physical properties colour brittleness bad conducting power of heat fusibility insolubility in water, economic uses etc

F — Hygiene for boys only (20 pages)—

Village conservancy—Disposal of filth and sewage How villages are rendered unhealthy

Cleanliness—Personal and domestic Bathing

Dress—Dress materials Dress according to weather Washing clothes

Exercise and rest—Different kinds of exercise Sleep and its hours Absolute rest in certain cases

Epidemics—Precautions to be taken

Accidents—Burns snake-bites bites of rabid animals, drowning bleeding

F(a) — Domestic Economy for girls (20 pages)—

Management of infectious diseases including cholera, small pox, chicken pox measles

Infection—Disinfection of premises bedding clothes

The sick room—Duties of the sick nurse food and drinks for the sick

Cooking of articles of sick diet—Necessity of absolute cleanliness in preparing food, including pure water aerated waters, lime water

G — Drawing (*Hand and Eye training*) — Free hand drawing

G(a) — Practical plane Geometry including simple practical Mensuration of lines and surfaces — (15 pages)

G(b) — Euclid alternative with G(a) whole of 1st Book *

H — Manual Training for boys only (5 pages) — Bamboo work, woodwork.

Bamboo work — As in the Upper Primary course

Wood work — Simple sloyd work with the sloyd knife only

H(a) — Needlework for girls — Cutting out and making a *piram* feather stitching and ornamental marking

Euclid will be contained in a separate book

Subject	Nil	Nil	Habits and description of the cow, cat, and dog	Further lessons about the cat, family, and dog	Differences between the habits of the cat, dog, and horse	Cow and horse compared	Denition of animals	Development and the anatomy of the monkey family
A. Agriculture (for country schools for boys only)	Nil	Nil	Necessaries of life. Varieties of crops	Lesson on rice and oil seeds.	Why crops fail in drought irrigation.	Food and fodder-yielding trees, peas, oil cakes.	Work in school garden collection of green means also lessons on fertility pulse crops, ngarcane and salt petre	Work in school garden collections also lessons on rotation of crops, feed and keep of cattle use of bones
Physical Science (for town schools for boys only).	Nil	Nil	Simple facts about the properties of matter	Further discussion on properties of matter	Pressure exerted by liquids at different depths. Pressure of atmosphere. Syringe	Heat—and its effects. Conduction on convection. Radiation. Boiling	Light—reflection, refraction.	Electricity and magnetism
Chemistry (for town school for boys only)	Nil	Nil	Solubility	Further discussion on solubility of substances.	Chemistry of a candle. First half	Chemistry of a candle. Second half.	General and chemical properties of well known metals.	Elements and compounds—carbon and sulphur
Hygiene for boys	Nil	Nil	Food drink and light	Cleanliness and dress. Personal cleanliness.	Air, water, food, sun, light	More advanced. Lower primary course. Primary accidents	Food, drink, air, dwelling houses.	Village conservancy. Cleanliness. Dress. Exercise and rest. Epidemics. Accidents
Domestic Economy for girls.	Nil	Nil	Bathing, dress, the kitchen	Cooking, bed room	How to keep rooms clean. Furnishings. The kitchen. Sunlight	Cooking meals. Bed room. Ordinary accidents	Personal hygiene. Treatment of common ailments. Scalds, wounds and bruises.	Infectious diseases. Infection of a kitchen. Cooking of sick diet

the Junior Teacher's Manual (a book of about 200 pages) will give directions how the subjects marked (*) are to be taught It should be in the hands of teachers of Lower Primary Standards
the Drill Book (about 75 pages) should also be in the hands of the teacher only
the Senior Teacher's Manual (about 250 pages) will give directions how the subjects marked (†) are to be taught It will also give directions regarding school management (including keeping of registers and accounts)

APPENDIX D

THE TEACHER'S MANUAL FOR THE LOWER PRIMARY STANDARD (200 PAGES)

- 1 *Introduction*—A short and simple statement of the principles of the Kindergarten method of training young children (10 pages)
 - 2 The Kindergarten occupations and action songs (8 pages)
 - 3 The requirements of the syllabus for the Infant and Lower Primary Standards of Vernacular Education (10 pages)
 - 4 The school room and arrangement of children (3 pages)
 - 5 Methods of giving lessons on particular subjects, full notes of lessons containing detailed instructions as to how to give lessons on form, colour, writing, reading, arithmetic, etc so that the pupils might thoroughly learn the subjects taught, and that at the same time their senses might be trained and their power of expression and all the faculties—physical, mental, and moral—be duly developed (162 pages)
 - 6 Qualifications and duties of a good teacher, and his conduct towards his pupils, punctuality and discipline corporal punishment (6 pages)
-

THE TEACHER'S MANUAL FOR THE UPPER PRIMARY AND MIDDLE VERNACULAR STANDARDS (250 PAGES)

- 1 *Introduction*—The principles of Froebel's method, the principles underlying school education the English Public School system the Hindu method (20 pages)
- 2 The requirements of the syllabus for the Upper Primary and Middle Vernacular standards (10 pages)
- 3 *Class teaching*—Instruction and education collective instruction attention to individuals analysis and synthesis oral teaching and questioning the Socratic method answering proceeding from the known to the unknown, from the concrete to the abstract the verbal, material and pictorial illustration the use to be made of analogy and contrast the use of the black-board learning by heart repetition home exercises examining (30 pages)
- 4 Methods of teaching particular subjects, together with notes of lessons selected from text books prescribed in science literature history geography, etc (155 pages)
- 5 Moral training (5 pages)
- 6 *Organization*—The organization of a good school, time tables the arrangements into sections and classes and of the standard of classification the teaching staff the apparatus and furniture the register and account books, the drill and recreation the sanitation of the school room and school house, etc (10 pages)
- 7 The qualities necessary in a pupil necessity of punctuality, discipline, rewards and punishment drill as an aid to discipline (15 pages)
- 8 Qualifications and duties of a good teacher, and his conduct towards his pupils (5 pages)

APPENDIX E

Statement showing the number of hours to be spent in a week on each subject in a Lower Primary School

NAMES OF SUBJECTS	INFANT STAGTS			Standard I	Standard II	REMARKS
	Stage I	Stage II	Stage III			
1	2	3	4	5	6	7

reason why an equally good result should not be attained in Ireland if equal encouragement be given. From the experience of English and Scotch schools, it seems clear the *Tonic Sol fa* method of teaching is the most simple and effective. This system has been already adopted in some Irish schools, and we strongly recommend that it be extended as rapidly and widely as may be found possible.

IX—Drill and Physical Exercises—Various kinds of Drill and Physical Exercises are now a recognised part of primary education in England in Scotland, and on the Continent of Europe, and we think they should be introduced into the primary schools of Ireland with the least possible delay. We are satisfied from what we have seen and heard on this subject that such exercises contribute largely to the health, the spirits, and the general well being of the children. They are no additional burden on school life, but rather a pleasant form of recreation and the children return from them to their studies with renewed energy.

It will be for the Commissioners of National Education to consider and determine in what manner these various changes can best be introduced into their system. But we have ventured to make some general suggestions on this head, which it may be well to set forth here in a summary form.

We think that the changes recommended ought to be introduced, not all at once, but gradually and tentatively. They should be tried first in the larger centres and afterwards extended to more remote districts. It would be necessary at the outset, to engage the services of experts from outside the present staff of the National Education Board whose duty it would be to organise the classes and to aid the teachers with their counsel and instruction. But we have no doubt that this work after a little time could be taken up by the ordinary staff of the Board. Again it is obviously important that all future teachers should be trained in the new subjects and the programme of the Training Colleges must accordingly be framed to this end with as little delay as possible.

We have carefully considered the question by what means time may be found for the several exercises in manual and practical training, which we have recommended and we have pointed out certain modifications in the present programme of studies which may be adopted for that purpose, and which, we believe, will not interfere unfavourably with the course of instruction hitherto given in the National Schools.

Lastly, we are strongly of opinion that the system of Results Fees, depending on the individual examination of pupils, at present in force in the National Schools, ought not to be applied to these subjects of Manual and Practical Instruction. While it should be always open to the Inspector to examine individual pupils, we think that the grants awarded to the teacher in these subjects should largely depend on the general evidence of his own zeal and industry, on the efficiency of his method of teaching and on his power to attract and hold the attention of his class.

The considerations by which we have been led to the general conclusions above set out will be fully discussed in the second part of this Report, under the several heads of Manual and Practical Instruction. But we think it will be for your Excellency's convenience that the general summary of our conclusions should be here followed by a general summary of the grounds on which they are based—

I—First, then, there are reasons founded on educational principles. The present system, which consists largely in the study of books, is one-sided in its character, and it leaves some of the most useful faculties of the mind absolutely untrained. We think it important that children should be taught not merely to take in knowledge from books, but to observe with intelligence the material world around them, that they should be trained in habits of correct reasoning on the facts observed and that they should, even at school, acquire some skill in the use of hand and eye to execute the conceptions of the brain. Such a training we regard as valuable to all but especially valuable to those whose lives are to be mainly devoted to industrial arts and occupations. The great bulk of the pupils attending primary schools under the National Board will have to earn their bread by the work of their hands: it is therefore important that they should be trained from the beginning to use their hands with dexterity and intelligence.¹

II—Next, we have the practical experience of those schools in England, Scotland, and on the continent of Europe in which such a system as we recommend has been already introduced and tested. The evidence we have received on this point is absolutely unanimous and, as we think, entirely conclusive. We have been told over and over again that the introduction of manual and practical training has contributed greatly to stimulate the intelligence of the pupils, to increase their interest in school work, and to make school life generally brighter and more pleasant. As a consequence the school attendance is improved, the children remain at school to a more advanced age, and much time is gained for the purpose of education.

¹ The general educational value of Manual Training in primary schools is especially for those who have to take their living from manual work has been insisted on by a great number of writers. The following may be taken as typical—
M. A. W. B. as Director of Manual Training to the Birmingham School Board vol. ii pp. 313—4. *M. C. H. as Head Master Board School Birmingham* vol. i pp. 358—90. *S. P. J. as Magistrate* (tyndal) pp. 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

APPENDIX G

Statement showing the number of hours to be spent in a week on each subject in a Middle Vernacular School

FINAL REPORT OF THE COMMISSIONERS APPOINTED TO CONSIDER
MANUAL AND PRACTICAL INSTRUCTION IN PRIMARY SCHOOLS
UNDER THE BOARD OF NATIONAL EDUCATION IN IRELAND

PART I

General conclusions, and the grounds on which they are based

I — *Kindergarten* — We are of opinion that the general principles and methods of the system known by the name of Kindergarten, which have been already introduced into some of the schools under the National Education Board, should be extended as far as possible to all schools attended by infant children

II — *Educational handwork* — We think that Kindergarten methods and principles should be continued in Classes I, II, and III of ordinary schools in the form of Paper folding, Cardboard work, Wire work, Brick laying, Clay modelling and such like exercises. These exercises we include under the general term of *Hand and Eye Training*, and we look upon them as of great importance for the purpose of carrying on the manual training of the children, from the Kindergarten stage to the higher grades of Manual Instruction. Further, we consider that some form of more advanced Manual Instruction should be introduced, as far as possible, in the higher classes of schools for boys, and we recommend as most suitable for this purpose instruction in the principles and practice of *Woodwork*, treated educationally. The object to be aimed at is not to make the boys carpenters, but to train them in habits of accurate observation, careful measurement, and exact workmanship. Such habits we regard as of great value to all boys, whatever may be their subsequent career in life.

III — *Drawing* — We recommend that Drawing should be made compulsory as far as possible, in all National Schools. The first elements of it find a place in the Kindergarten system, and it should be continued, we think, to the end of the school career. In the classes above the Kindergarten it should be associated with Hand and Eye Training, with Woodwork, and to some extent also with Elementary Science, as soon as these subjects are introduced.

IV — *Elementary science* — We are of opinion that a simple course of Elementary Science should form a part of ordinary education in National Schools. This course should be so framed as to bring home to the minds of the children an intelligent knowledge of the common facts of nature and the rudimentary principles of science. In the lower classes it should consist in great part of object lessons, and in the higher classes it should be illustrated by simple experiments. The pupils should be encouraged and assisted as far as may be found practicable, to take part in the experiments. The programme for this course, while following everywhere the same general lines, may with advantage be varied in its details according to the circumstances of the locality and the character and condition of the children.

V — *Agriculture* — We do not think that Agriculture as an art, that is to say practical farming, is a subject that properly belongs to elementary education. At present the study of what is called the Theory of Agriculture is compulsory for boys in all rural schools, and is highly encouraged by fees. But our inquiry has shown that this study consists for the most part in committing a text book to memory, and we have come to the conclusion that it has little educational or practical value. We recommend instead that the course of Elementary Science to be taught in rural schools should be so framed as to illustrate the more simple scientific principles that underlie the art and industry of Agriculture. We also recommend the maintenance and extension of School Gardens as a means by which these scientific principles may be illustrated and made interesting to the pupils. On the other hand, we do not consider that the maintenance of School Farms, the object of which is to teach the art of Agriculture, properly belongs to the functions of a Board of primary education. As regards the Model Farm at Glasnevin and the Munster Dairy School, we think that they could be made more useful for the purposes of Agricultural education if placed in charge of an Agricultural Department, whenever such a Department is established in Ireland.

VI — *Cookery, Laundry work, and Domestic Science* — We think it very desirable that Cookery, Laundry work, and Domestic Science should be taught, as far as may be found practicable in girls' schools. We cannot advise that these subjects should at present be made compulsory, but we do recommend that aid should be freely given to provide the necessary buildings and equipment for teaching them, and that managers and teachers should be encouraged to take them up by a liberal system of grants.

VII — *Needlework* — Needlework should continue to form, as at present, an important element in all schools for girls. The first elements of it are taught in the Kindergarten system. It should be continued in Classes I, II, and III as a part of Hand and Eye Training, and in the higher classes advanced Needlework will naturally occupy the time devoted to Woodwork in schools for boys.

VIII — *Singing* — We recommend that Singing should be brought within the reach, as far as possible, of all the children attending National Schools in Ireland. It has a cultivating and refining influence, and furnishes a source of permanent enjoyment. In England and Scotland the number of children who are taught Singing in schools inspected by the State is about 99 per cent of the number in average attendance, and we see no

WEATHER AND CROP REPORT

For the week ending the 3rd July 1899

Burdwan — Rainfall at Sadar 4 33 Kalna 6 54 Katwa 6 01, Raniganj 2 56 Weather seasonable Sowing and transplanting of *aman* paddy continue Standing crops doing well Fodder and water sufficient Cattle disease in Katwa decreasing Common rice selling as follows —

	Srs	
Sadar	16 to 19	} per rupee
Kalna	15	
Katwa	18	
Raniganj	18½	

Birbhum — Rainfall at Sadar 3 19 Rampur Hat 3 74 Weather cloudy with occasional showers Sowing of seed and ploughing going on Price of common rice at Sadar and Rampur Hat 18 seers per rupee Fodder sufficient No cattle disease

Bankura — Rainfall at Bankura 2 67, Vishnupur 2 90 Weather cloudy with rain almost every day Transplantation of *aus* and *aman* going on briskly Sugarcane doing tolerably well No cattle disease reported Fodder and water sufficient Common rice sells at 17½ seers per rupee at Bankura and Vishnupur

Midnapore — Rainfall at Sadar 4 41, Contai 4 23 Tamluk 2 47 Ghatal 7 03 Weather seasonable Prospects of sugarcane, jute and flax favorable Cattle disease reported from Chandrakona Common rice sells as follows —

	Srs	
Sadar	12 to 20	} per rupee
Tamluk	14½	
Ghatal	14 to 18	
Contai	16	

Hooghly — Rainfall at Sadar 4 24, Serampur 4 28 Jahanabad 6 17 Sowing of paddy continues Excessive rain damaged jute and paddy seedlings Common rice sells from 17 to 16 seers per rupee

Howrah — Rainfall at Sadar 7 93 Ulubaria 2 23 Weather cloudy with rain almost every day Sowing of *aman* and *aus* still continues Transplantation of *aman* commenced in places The recent rain has done some damage to the paddy seedlings in Ulubaria Sugarcane and jute doing well Fodder and water sufficient Common rice sells at 12 to 14 seers per rupee

24 Parganas — Rainfall at Sadar 6 40 Barasat 7 12 Basirhat 1 87 Diamond Harbour 2 91 Weather hot and cloudy with occasional rain Weeding operations resumed Prospects hopeful Cattle disease reported from Basirhat subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	13½ to 16	} per rupee
Barasat	16½	
Basirhat	18 4½ch	
Diamond Harbour	16	

Nadia — Rainfall at Sadar 5 58, Kushtia 5 23, Meherpur 4 03, Chuadanga 2 24 Ranaghat 4 76 Weather cloudy and rainy Prospects of crops promising Fodder and water sufficient Price of common rice stationary

Murshidabad — Rainfall at Sadar 5 50 Kandi 2 58, Jangipur 4 17 Weather seasonable Transplantation of *aman* still going on *Bhatol* and jute thriving well State of indigo and mulberry good Most of the paddy is under water on account of excessive rain Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	16	} per rupee
Kandi	18½	
Jangipur	18	

Jessore—Rainfall at Jessore 6 13, Jhenida 3 82, Magura 8 19, Narail 6 70 Bargaon 2 78 Weather cloudy and rainy occasionally hot Weeding of *aus* and jute going on Prospects of standing crops good Insects damaging paddy in the subdivisions of Magura Narail and Bargaon Cattle disease reported from thana Gaighata in the Bargaon subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Jessore	16 to 20	} per rupee
Jhenida	16	
Magura	17 to 20	
Narail	20	

Khulna—Rainfall at Sadar 7 88 Bagurhat 4 49 Satkhira 3 42 Weather rainy and cloudy Cultivation and transplantation of *aman* going on Fodder and water sufficient Cattle disease reported from thana Rampal Common rice sells as follows —

	Srs	
Sadar	19 to 23	} per rupee
Bagurhat	20	
	{ 15 and	
Satkhira	{ 20 (coarse <i>aus</i>)	

Rajshahi—Rainfall at Sadar 2 67 Nator 5 01, Nangaon 6 39 Prospects of crops good No cattle disease Fodder and water ample Price of rice ranges from 16 to 23 seers per rupee

Dinajpur—Average rainfall 50 Weather rainy Cultivation of land for *haumanti* going on Standing crops good but weeding of *bhadori* and jute retarded by incessant rain Cattle disease reported from six thanas Rice selling from 16 to 20 seers per rupee

Jalpaiguri—Rainfall at Sadar 9 92, Alipur Duars 13 08 Weather cloudy and rainy *Bhadori* paddy and jute progressing Transplantation of *haumanti* paddy commenced Prospects good Fodder and water sufficient Common rice sells from 10 to 13 seers per rupee

Darjeeling—Rainfall at Darjeeling 8 78 Siliguri 4 92 Weather seasonable *Hills*—*Bhutia bhadori* paddy and *chota murua* doing well *Terai*—Jute *bhadori* and sugarcane doing well prospects good lands being prepared for *haumanti* paddy Coarse rice sells as follows —

	Srs	
Hills	9 to 12	} per rupee
Terai	10 to 19	

Bhutia sells at Darjeeling 24 seers and at Kalimpong 40 seers per rupee

Rangpur—Rainfall at Sadar 2 11, Kurigram 2 76 Gaibandha 5 63 Nilphamari 8 93 Weather rainy Cutting of *aus* and transplanting of winter rice going on Prospects good Common rice selling from 16½ to 20 seers per rupee Fodder and water sufficient Cattle disease reported from one village in thana Jaldhaka in the Nilphamari subdivision

Bogra—Average rainfall 4 51 Cultivation of *aman* going on Prospects good Common rice sells from 17 to 24 seers per rupee Supply of fodder and water sufficient

Pabna—Rainfall at Sadar 4 71 Sirajganj 7 94 Weather hot and rainy Prospects of crops very good Prices unchanged

Dacca—Rainfall at Sadar 11 16 Manikganj 4 42 Munshiganj 6 60, Narainganj 6 86 Weather seasonable Insects have destroyed a good deal of paddy in almost all parts of the district and are still destroying jute in some parts Fodder available No cattle disease Price of common rice stationary

Mymensingh—Rainfall at Sadar 4 13, Jamalpur 2 97 Tangail 6 07, Kishorganj 2 31 Netrokona 6 94 Weather showery Prospects of crops excellent Condition of cattle good Fodder and water ample Common rice sells as follows —

	Srs	
Sadar	20	} per rupee
Netrokona	24	
Tangail	18	

Faridpur—Rainfall at Sadar 8 93 Goalundo 7 98, Madaripur 11 61 Weather cool and rainy State and prospects of crops good Common rice sells at 18 seers per rupee

Backergunge—Rainfall at Sadar 4 35 Weather showery Prospects of crops fair *Aman* rice sells from 14 to 21 seers per rupee

Tippera—Rainfall at Sadar 1 94, Brahmanbaria 1 13, Chandpur 6 87 Weather seasonable Standing crops doing well Prospects favourable Average price of common rice 19 seers per rupee

Noakhali—Rainfall at Sadar 4 92 Feni 8 60 Prospects of standing crops fair No cattle disease Fodder and water sufficient Price of rice stationary

Chittagong—Rainfall 14 64 Weather cloudy and hot Cultivation of *aus* progressing Prices steady Water and fodder sufficient

Patna—Rainfall at Sadar 7 58 Bikram 8 00 Hilsa 6 55, Bihar 4 85 Barh 2 69 Dinapore 5 16 Sowing of Indian corn and transplanting of *marua* going on Condition of cattle good Green fodder and water for cattle plentiful Common rice in Patna sells at 19 seers per rupee

Gaya—Rainfall at Sadar 5 59, Jahanabad 3 42 Aurangabad 7 74 Nawada 2 41 Paddy and *bhador* crops being sown Common rice selling at 17 seers per rupee

Shahabad—Rainfall at Sadar 5 98 Buxar 9 02, Bhabua 3 33, Sasaram 7 63 *Bhador* and rice crops being sown Sugarcane doing well Cattle disease still in Sasaram subdivision Prices stationary

Saran—Rainfall at Sadar 4 02, Siwan 4 61, Gopalganj 2 70 Weather showery *Bhador* sowings almost finished and germinating well Paddy sowings still going on General prospects good Average prices—Common rice 14 15 seers and *malai* 25 8 seers per rupee

Champaran—Rainfall at Motihari 6 16, Bettiah 7 98 Barharwa 3 67, Bagaha 5 39, Ramnagar 1 30 Prospects good *Bhador* sowings continue Weeding of *makai* and *lodo* and transplanting of *marua* and paddy going on Price of common rice 13½ seers and of maize 23 seers per rupee

Muzaffarpur—Rainfall at Sadar 13 69 Hazipur 9 23, Sitamarhi 6 50 Sowing of *bhador* crops retarded somewhat owing to continued heavy rain otherwise prospects good Prices are—Common rice 12 to 15 seers, wheat 16 to 18 seers barley 24 seers *malai* 23 to 24 seers gram 21 to 24 seers, and *rahar* 20 to 21 seers per rupee

Monghyr—Rainfall at Monghyr 7 28 Bogusara 4 11, Jamui 5 47 Young standing crops doing well *Bhador* and paddy sowings continue Weeding of *bhador* commenced in places Common rice sells as follows —

	Srs	
Monghyr	12½ to 15	} per rupee
Bogusara	15	
Jamui	16	

Bhagalpur—Weather hot and warm Rainfall at Sadar 1 76 Banka 1 78 Madhupura 5 56 Supaul 4 24 Sowing and transplanting of paddy in progress No cattle disease except a few cases in Madhupura Prices stationary

Purnea—Rainfall at Sadar 4 38 Kishanganj 6 90 Araria 7 45 Weather rainy Standing crops in good condition Transplantation of winter rice going on Prospects generally good A cessation of rain will benefit crops No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	15	} per rupee
Araria	15	
Kishanganj	16	

Malda—Rainfall at Sadar 5 17, Chanchal 8 00, Shibganj 2 52, Gajole 4 42 Weather warm and showery Constant rain retarding weeding of *bhador* paddy and jute Indian corn doing well Price of common rice stationary at 18 seers per rupee Fodder ample

Sonthal Parganas—Abundant rain—average 5 inches Cultivation active Price of common rice 14 to 18 seers and of maize 18 to 32 seers per rupee Cattle disease in Rajmahal

Cuttack—Rainfall at Sadar 4 28, Jajpur 1 59 Kendrapara 1 98 Banki 1 90 False Point 4 48 Weather seasonable *Sarad* jute and sugarcane growing *Beati* being weeded and harrowed Cotton being harvested Condition of cattle generally good but cattle disease reported from some places Fodder and water sufficient Common rice sells as follows —

	S	ch	
Cuttack	17	1	} per rupee
Jajpur	17	1	
Kendrapara	19	11	
Banki	17	15	

Balasore—Rainfall at Sadar 5 34 Sugarcane thriving well *Beah* and *sarad* growing well and seedlings out in places Rice sells from 16 to 24 seers per rupee in the interior and at 17 seers at Balasore and Bhadrak Cattle disease in chakla Dhamnagar ceased but appeared in chakla Singla Fodder and water sufficient

Angul—Weather seasonable Rainfall at Sadar 2 39, Bisipara 1 09 Paddy seedlings doing well Early cotton being sown Common rice selling at 24 seers per rupee in Angul and 16½ seers in Khondmals

Puri—Rainfall at Puri 94, Khurda 2 22 *Beah* being harrowed Sowing of *sarad* crop continues Sugarcane *mandia* and other miscellaneous crops doing well Fodder and water sufficient Cattle disease reported from parts of the district Common rice sells as follows —

	S ch	
Puri	15 12	} per rupee
Khurda	17 11	
	15 12	
Interior of the district	to 21 0	

Hazaribagh—Rainfall at Sadar 5 79, Giridih 3 60 Weather rainy Ploughing and sowing in progress Common rice sells from 15 to 20 seers per rupee

Ranchi—Rainfall 4 78 Weather seasonable Ploughing and sowing continue Rice sells at Ranchi 15 seers per rupee and in the interior from 16 to 25 seers per rupee Health of cattle good Fodder and water plentiful

Palamau—Rainfall 4 86 Weather seasonable Heavy rain everywhere Sowing of *bhados* in full swing Prospects of sugarcane good Rice sells at 16 seers per rupee

Manbhum—Rainfall at Sadar 6 28, Gobindpur 3 57 Weather seasonable Prospects of crops generally good Cattle disease reported from thanas Jhalda and Tundi Fodder and water sufficient Average price of common rice at Sadar 18 seers 10 chitaks per rupee and at Gobindpur 18 seers per rupee Supply sufficient

Singbhum—Rainfall 2 52 Crops doing well Rice sells at Kalikapur 22 seers per rupee, and at other places at rates varying from 16 to 20 seers per rupee

General Summary—Heavy rain has fallen all over the Province General agricultural prospects are favourable but in some parts the cultivation is retarded by heavy rain The sowing of autumn crops and of winter rice and the transplanting of seedlings are in progress Early rice jute and sugarcane are in good condition Insects are said to have destroyed a good deal of the young paddy and jute crops in Dacca, and the paddy plants in some parts of Jessore Fodder is abundant Cattle disease is still reported from many districts Except for a slight rise in a few districts, the price of common rice remained stationary

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secretary to the Govt of Bengal

12

The mean relative humidity

86

The average relative humidity of the corresponding period for 24 years, Surveyor General's Office

84

The total fall of rain from 25th June to 1st July 1899

Inches
6.00

The average fall of the corresponding period for 24 years, Surveyor General's Office

2.76

The total fall from 1st January to 1st July 1899

29.63

The average fall of the corresponding period for 24 years, Surveyor General's Office

21.96

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h., 16h., and 22h

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86 formerly at the Surveyor General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

C W BOLTON,

Chief Secy to the Govt of Bengal

NOTIFICATION—No 3170A

The 10th July 1899—An examination of candidates for recruiting the staff of the superior Police Officers in Bengal and Assam will be held in Calcutta in November 1899 on dates to be notified hereafter

2 At this examination only such European candidates as have been nominated by the Lieutenant Governor of Bengal will be permitted to present themselves

3 The candidate should submit a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination His age must not be less than 19 or more than 24 years on the 30th September 1899 A medical certificate in the form annexed will be required from each selected candidate after he has passed the competitive examination and before he is appointed to the service The certificate will be granted by a Presidency Surgeon, viz, the Professor of Midwifery Medical College, on the requisition of the Under Secretary to Government, to whom applications should be made In the event of the opinion of the medical officer being unfavourable to the candidate, an appeal will lie to the Medical Board, and the decision of the Board will be final

4 A certificate that the candidate is able to ride, and is of active habits, signed by a District Magistrate or by the Commissioner of Police, Calcutta, must also be submitted

5 Applications accompanied by the necessary certificates, except medical certificate must be sent to the Private Secretary to His Honour the Lieutenant-Governor not later than two months before the examination is held Such applicants as are granted nominations will receive an intimation to that effect

6 The subjects of examination and the number of marks to be allotted will be as follows —

	Marks
Writing and composition <i>Impromptu</i> essay upon some given subject	150
Arithmetic (no special text book) and Euclid, Books I to IV and VI, also easy Deductions	300
Algebra up to and including the Binomial Theorem (text book—Todhunter's Algebra)	
Plane Trigonometry up to and including the Solution of Triangles and Mensuration (text book—Todhunter's Plane Trigonometry)	
Not more than <i>two</i> of the following languages —	
Latin, Greek, Sanskrit, Arabic, French, German, Persian or one of the vernacular* languages of the Province, <i>i.e.</i> , either Hindi (Kaithi character) or Bengali	200 each
English History and Literature and Indian History (Elementary)	200
Geography Asia (especially India) and Europe	150
Total	1,200

7 Candidates who have been permitted to appear at the examination must intimate to the Under Secretary to the Government of Bengal in the Appointment Department, at least one month before the examination is held, which are the two languages in which they desire to be examined. They must at the same time remit a fee of Rs 20, and, unless this fee is paid will not be allowed to appear at the examination.

8 One candidate will be selected at the next examination. The candidate who obtains the highest marks will, on his producing the required medical certificate and subject to such further examination in riding as the Lieutenant Governor may prescribe, be appointed as a Probationary Assistant Superintendent of Police. No candidate will be admitted to the department who obtains less than 500 marks in all.

9 A candidate is not allowed to compete at the examination for admission to the Police Department more than twice.

O W BOLTON,
Chief Secy to the Govt of Bengal

NOTE.—The vernacular standard will be a high one involving a thorough knowledge of the language and ability to write and read the written character with facility.

REVENUE DEPARTMENT—(FORESTS)

NOTIFICATION—No 789T—R

The 3rd July 1899—In exercise of the power conferred by sections 31 and 41 of the Indian Forest Act (VII of 1878), and with the previous sanction of the Governor General in Council, the Lieutenant-Governor of Bengal is pleased to make, with effect from the date of this notification, the following rules for the protected forest in the district of the Sonthal Parganas in the Bhagalpur Division, in supersession of those published under section 31 with Notification No 4846(For), dated the 2nd November 1894, in the *Calcutta Gazette* of the 7th idem—

1 All *bond fide* cultivators of Government land in the district may, free of charge, fell convert and remove to their homes for their own private use only—

(a) all trees and timber of the species not reserved, and all other forest produce what soever, and

(u) on prepayment of a royalty equivalent to half the amount prescribed as payable at hâts under rule 4 for like timber, and with the previous written permission of the Forest Officer trees and timber of the reserved species, provided such timber is available in the working circle, whence such cultivators would in the ordinary course be supplied

2 Paharia raiyats and such other persons as the Deputy Commissioner may, from time to time, authorize in this behalf in writing, may *cut or fell convert, collect and remove, or cause to be cut, felled converted, collected or removed* for the purpose of sale or barter any trees timber or other forest produce, subject to the following conditions—

(a) green trees and timber of the reserved species shall not be felled, converted or removed, except with the previous written permission of the Forest Officer,

(b) if the Deputy Commissioner, being of opinion that the supply of any kind of forest produce is not more than sufficient to meet local requirements shall by order in writing prohibit the removal of such forest produce beyond the limits of any specified locality, such forest produce shall not be removed beyond such locality and

(c) all timber and other forest produce *cut, felled, converted or collected* under this rule shall, in the first instance be conveyed to the nearest authorized hât for such produce and shall be deposited in such place as may be there appointed by the Forest Officer, whence it shall not be removed except with the written permission of the Forest Officer and after prepayment to him of the royalty due thereon

3 *No person other than a person specified in Rules 1 and 2, or in contravention of the conditions prescribed therein and in Rule 3, may cut fell, convert, collect or remove, or cause to be cut, felled converted collected or removed any trees, timber or other forest produce*

4 No person shall—

(a) cut the stem of any standing tree at a height exceeding twelve inches from the ground

(i) cut up into fuel or fencing material or otherwise damage the value of any wood of the reserved species which could be more profitably used

(c) injure any tree of the reserved species

(d) manufacture charcoal, except in localities previously approved by the Forest Officer

(e) hunt, shoot or fish in contravention of the rules on this subject for the time being in force in the protected forests of Bengal

5 The number and location of the authorized hâts, as well as the scale of royalties which shall be there levied for forest produce, shall be fixed from time to time by the Deputy Commissioner in consultation with the Conservator of Forests, under such rules as the Local Government may lay down

6 *Bond fide* cultivators of Government lands in the district may graze, free of charge, the cattle kept by them for their own household and agricultural requirements, or any forest land within the limits of the villages of which they are the raiyats, the grazing of all other cattle shall be prohibited

The pasturing of goats and sheep shall be permitted only in areas set apart for that purpose provided that when in any locality it is found impracticable, for want of a sufficiency of waste land, to set apart a particular area for this purpose, the Deputy Commissioner may, after consultation with the Forest Officer, permit such pasturing generally in such locality, except such parts, if any, thereof as it may be considered essential to maintain clothed with trees or bushes

7 'Karao' may continue to be practised by all Paharia raiyats of Government lands in the district, who are at the time of this notification, lawfully practising this method of cultivation, subject nevertheless to the following restrictions—

(a) the Deputy Commissioner may except from this method of cultivation any specified area if more suitable provision for the people can be obtained elsewhere, and in such case 'karac' shall cease to be practised on such excepted land, and shall thenceforth be restricted to the substituted land,

(b) "karao" shall not be practised on slopes exceeding twelve degrees of gradient and

(c) wood cut in the process of "karao" shall not be sold or bartered, except after compliance with condition (c) of rule 2

Explanation—The term "karao" as used in this rule means the system of cultivation which consists in felling the forest on a selected area, burning the cut material, and sowing one or two crops in the ashes, and then, after reaping, leaving the area to lie fallow for a number of years before recultivation

8 Any land may be cleared or broken up for a public work, or for permanent cultivation, with the written permission in each case of the Deputy Commissioner

9 These rules are made subject to the provisions and conditions of any settlement made, or hereafter to be made, under the Sonthal Parganas Settlement Regulation (III of 1872) or any other law for the settlement of land for the time being in force in the Sonthal Parganas

FINANCIAL DEPARTMENT

NOTIFICATION—No 9969S B

The 7th July 1899—The following rules proscribed in the Resolution of the Government of India, Finance and Commerce Department No 2655 S B dated the 13th June 1899, for substitution for rules 10, 11 13 15, 16, 29 and 33 of the existing rules for the custody, supply and sale of all kinds of stamps and stamp papers, are published for general information—

10 “As soon as possible after the arrival of a supply of stamps from the central depot or from another local depot the officer in charge of the local depot shall personally examine the outward appearance of the boxes or packets and satisfy himself that they bear no marks of having been tampered with. He shall then have the boxes or packets opened in his presence and the contents of each box or packet counted either by himself or in his presence, immediately on its being opened. At the head quarters of a district where the treasury is the local depot the boxes or packets should invariably be placed immediately on arrival in the strong room of the Treasury and there opened, one at a time in the presence of the Treasury Officer, who must be present all the time the boxes or packets are being opened, and their contents examined and counted. In no case must a second box or packet be opened until the contents of the first have been completely examined and verified and placed in the proper receptacles as required by rule 13. The number and value of stamps received shall be compared by the officer in charge with the invoice submitted or with the passed indent and a receipt shall be sent as soon as possible to the officer who sent the stamps.”

11 Local Governments may issue such orders as may be thought necessary regarding the detailed counting of stamps received in a local depot and as to the descriptions of stamps which the officer in charge must count with his own hands. Such orders may include instructions that a certain percentage only of sealed packets marked as containing a certain number of stamps need be opened and counted at the time of receipt and the remainder, if the percentage opened are all found correct, left with seals unbroken to be counted as they are required on being given out from double lock. The officer in charge is responsible for observing any such instructions, and for satisfying himself as to the number of stamps received before signing the receipt. The inside wrappers of packets of stamps which bear the initials of the officers through whose hands the packets passed before issue from England should invariably be preserved till the whole contents of the packets have been examined and found correct.

13 Immediately after the stamps received have been counted, they shall be placed in proper receptacles in the store under double lock in the presence of the officer in charge arranged in parcels and packets containing known quantities, the amount and value of each denomination being entered at the same time in a register* maintained to show the receipts and issues to and from the store under double lock. These entries shall be checked by the officer in charge at the time the stamps are deposited, and the correctness of the arithmetical

* A form of register will be published later by the Comptroller and Auditor General

calculations of additions to balance, as well as of the values compared with quantities, shall be verified and initialled by him at the time. The register shall then be placed with the stamps in the double lock receptacles and shall not be removed therefrom, nor shall any entries be allowed to be made therein except in the presence of the officer in charge.

14. The officer in charge of the branch depot shall obtain his supplies from the local depot to which the branch depot is subordinate in the same manner as the *ex officio* vendor at the local depot obtains his supplies except that the indent and the stamps must be sent by post or messenger to and from the local depot and that the examination of the balance in hand and the comparison of the amounts shown with those shown in the indent shall be done by the officer in charge of the branch depot. In cases where there is likely to be a distinct saving of cost or greater security of the stamps in transit the Local Government may empower the Board of Revenue or other superior revenue authority to sanction the despatch of stamps direct from the central depot to branch depot, such supplies being passed through the accounts of the local depot and treated by the Superintendent of Stamps as supplies to the local depots to which the branch depots are subordinate.

15. The stock to be made over to the *ex officio* vendor to be kept by him under single lock should ordinarily be sufficient for the probable demand of one month. The *ex officio* vendor will maintain a register of receipts and issues from single lock in the same form as the double lock register, and on a fixed date near the beginning of each month he will prepare an indent for the quantity required for the month in a form showing the balances in his hands, an average month's consumption and the quantity required. When this indent is presented to the officer in charge, he will examine the single lock register, check the correctness of the arithmetical calculations made therein and compare the balance shown with the actual balance in the *ex officio* vendor's hands. If he approves the indent, he shall then give out the quantity required from the store under double lock, check the correctness of the entries made in the double lock register, see that they correspond with those made in the single lock register, initial both registers and return the double lock register into the double lock store. The same procedure shall be followed if any stamps should be required at any intermediate date. Local Governments may reduce the period of one month mentioned in this rule to one week or any other period less than a month if they consider this desirable, with reference to the amount of the treasurer's security or for any other reason.

16. From the stock so made over to his charge and kept by him under single lock the *ex officio* vendor shall sell stamps to the public and to licensed vendors for cash. He shall maintain the single lock register in the form mentioned in the preceding paragraph in such language as the Local Government may direct, entering therein both in quantities and values the receipts from double lock, the daily sales and balance in his hands of each denomination at the end of each day. He shall pay daily into the Treasury the cash received by him for stamps sold, the amount realised on account of each of the four descriptions of stamps—namely, General Court fees, Postage, and Telegraph—being paid in separately. The account of the daily sales should be inspected and the correctness of the calculations shown therein checked every day by the officer in charge of the depot.

17. The officer in charge of the branch depot shall obtain his supplies from the local depot to which the branch depot is subordinate in the same manner as the *ex officio* vendor at the local depot obtains his supplies except that the indent and the stamps must be sent by post or messenger to and from the local depot and that the examination of the balance in hand and the comparison of the amounts shown with those shown in the indent shall be done by the officer in charge of the branch depot. In cases where there is likely to be a distinct saving of cost or greater security of the stamps in transit the Local Government may empower the Board of Revenue or other superior revenue authority to sanction the despatch of stamps direct from the central depot to branch depot, such supplies being passed through the accounts of the local depot and treated by the Superintendent of Stamps as supplies to the local depots to which the branch depots are subordinate.

The receipt and examination of stamps on arrival from a local, central or other depot should be conducted in the manner laid down in rule 10.

The *ex officio* vendor shall obtain his supplies from the officer in charge of the branch depot in the same manner as the *ex officio* vendor at the local depot obtains his supplies from the officer in charge.

Returns to and by the Superintendents of Stamps and Accountants General

18. On the last open day of September and March each year, the officer in charge of each local depot will count or have counted in his presence, the stamps in his depot both those under double lock and those under single lock, and will require the officers in charge of the branch depots subordinate to him similarly to count the stamps in the branch depot.

He will attach to the monthly statements for September and March rendered to the Superintendent of Stamps, Calcutta, Madras or Bombay or in the provinces noted in the margin, to the local Superintendent or

Commissioner of Stamps or other officer named by the Local Government, a certificate in the following form—

I do hereby certify that I have personally examined and counted or had counted in my presence, the stamps of all descriptions in store in this local depot on the _____ 18____,

and found by actual calculation of numbers and values not less than 10 per cent of the entries having been checked by me personally, that the value of each description is as stated in the margin * Also, that I have received similar certificates from the officers in charge of the subordinate branch depots that they have similarly counted the stamps in their branch depots on the last day of the month of $\frac{8 \text{ pt } b}{M \text{ h}}$ 18, of which the accounts are incorporated

C W BORTON,
Chief Secy to the Govt of Bengal

NOTIFICATION—No 1286J D

The 1st July 1899 —The following draft of a rule which it is proposed to make in exercise of the powers conferred by section 7 of the Indian Explosives Act (IV of 1884) is published, as required by section 18 of the said Act and the Government of India Home Department, Notification No 1964 dated 2nd September 1887 for the information of persons likely to be affected thereby and notice is hereby given that the draft will be taken into consideration by the Lieutenant Governor after the 1st day of August 1899

2 Any objection or suggestion which may be received from any person with respect to the draft before that date will be considered by the Lieutenant Governor

DRAFT RULE

In exercise of the powers conferred by section 7 of the Indian Explosives Act (IV of 1884), and with the previous sanction of the Governor General in Council, the Lieutenant Governor is pleased, in substitution of No 27 of the Rules for the manufacture possession and sale of explosives in Bengal, to make the following rule —

‘The officers herein undormentioned are authorized, within the areas respectively specified below,—

- (a) to enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed, used, sold, transported or imported under a license granted under the Indian Explosives Act (IV of 1884) or in which they have reason to believe that an explosive has been or is being manufactured, possessed, used, sold, transported or imported in contravention of that Act, or of the rules thereunder,
- (b) to search for explosives therein,
- (c) to take samples of any explosives found therein on payment of the value thereof, and

- (d) to seize, detain remove, and, if necessary destroy or otherwise render harmless any explosive found therein in respect of which there may be reason to believe that the provisions of the said Act or of the rules thereunder have been contravened

Areas

In all parts of Bengal
 Within their respective districts
 Within the areas respectively subject to their jurisdiction
 In the town of Calcutta and its Suburbs

Officers

The Chief Inspector and the Inspector of Explosives, Bengal
 All District Magistrates
 All Magistrates subordinate to the District Magistrate
 The Commissioner of Police, Calcutta, and all Police Officers of rank not below that of Inspector, if specially deputed in that behalf by the Commissioner of Police

Provided that—

- (1) whenever the Chief Inspector or the Inspector of Explosives, Bengal or any Magistrate subordinate to the District Magistrate seizes, detains or removes any such explosive, he shall report the fact to the District Magistrate
- (2) neither the Chief Inspector nor the Inspector of Explosives, Bengal, nor any Magistrate subordinate to the District Magistrate, shall destroy or otherwise render harmless any such explosive without the previous sanction of the District Magistrate, unless the matter appears to him urgent and fraught with serious public danger and in such cases he shall take and keep a sample of the explosive and shall, if required, give a portion of the sample to the person owning the explosive or having the same under his control at the time of seizure, and shall report the circumstances to the District Magistrate

RAILWAY DEPARTMENT

The 11th July 1899

No 128 — Notification — Whereas it appears to the Lieutenant Governor of Bengal that land in the Bhagalpur district is likely to be needed for a public purpose, viz, for a Railway from Bararoo Ghat to the Bhagalpur Station of East Indian Railway on the south bank of river Ganges, notice is hereby given to all whom it may concern that in exercise of the powers conferred by section 4 of the Land Acquisition Act, I of 1894, the Lieutenant Governor of Bengal has authorized the Bengal and North Western Railway Engineers for the time being engaged on this undertaking to enter upon and survey lands and do all other acts necessary for the proper execution of their work as provided for or specified in the said section

The general route taken for the survey will probably be from near Bararoo Ghat on the south bank of the river Ganges *via* Futtehpur to Bhagalpur East Indian Railway Station

No 129 — Declaration — Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz, for the construction of Permanent way gang hut at about 48½ miles on the Eastern section of the Eastern Bengal State Railway System in mauza Kessayepore, pargana Mamjowany zilla Nadia, it is hereby declared that for the above purpose a plot of land measuring more or less, 4 cottahs 13 chitaks and 35 square feet of standard measurement, bounded on the north and south partly by the relinquished B class land of the Eastern Bengal State Railway, and partly by the land occupied by Rishibur Ghose, on the east by the land occupied by Rishibur Ghose, and on the west by the land belonging to the Eastern Bengal State Railway, is required within the aforesaid mauza of Kessayepore

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern

A plan of the land may be inspected in the office of the Executive Engineer, Eastern Bengal State Railway, Calcutta

No 130 — Declaration — Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose viz, for the construction of staff quarters and sidings of the Simi Midnapore-Cuttack Calcutta extension of the Bengal Nagpur Railway at Kidderpore Garden Reach in mahal Sahaban Bagicha in pargana Magura in the district of the 24 Parganas, in the Suburbs of Calcutta, it is hereby declared that for the above purpose the undermentioned plot of land, measuring, more or less 39 bighas 6 cottahs 4 chitaks and 5 square feet of standard measurement equivalent to 12 acres 3 roods and 39 34 poles is required within the aforesaid village of Kidderpore in mahal Sahaban Bagicha —

Plot D (Premises No 11, Garden Reach Road, being the Trinidad Emigration Depot) —

Bounded on the —

North — By the River Hooghly

West — By the eastern boundary of premises No 12 Garden Reach Road

East — By the western boundary of premises No 10, Garden Reach Road (being the P and O Company's premises)

South — By the Garden Reach roadside land belonging to the Municipal Corporation of Calcutta

This declaration is made under the provisions of section 6 of Act I of 1894, to all whom it may concern and is in supersession of declaration No 110 dated the 22nd June 1897, published at page 822 Part I of the *Calcutta Gazette*, dated the 23rd June 1897, and of declaration No 172 dated the 15th December 1898, published at pages 1326 1327, Part I of the *Calcutta Gazette*, dated the 14th December 1898, and of Corrigendum No 179, dated the 31st December 1898 published at page 7, Part I of the *Calcutta Gazette*, dated the 4th January 1899, so far as they related to the abovenoted plot D

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Bengal Nagpur Railway, at No 301, Grand Trunk Road, Sibpur, Howrah

No 131 — Declaration — Whereas it appears to the Lieutenant Governor of Bengal that extra land is required to be taken by Government at the public expense for a public purpose, viz, for the Bengal Nagpur Railway Extension from Cuttack to Calcutta in the village of Randeah pargana Randeah Ugarh, zilla Balasore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 roods and 12 poles, being equivalent to 2 bighas and 10 cottahs of standard measurement, is required within the aforesaid village of Randeah

This declaration is made under the provisions of section 6 of Act I of 1894, to all whom it may concern

A plan of the land may be seen in the office of the District Engineer, Balasore District, Bengal Nagpur Railway at Balasore

B. B. BUCKLEY,
Secy to the Govt of Bengal

HIGH COURT NOTICES

General Letter No 4, dated Calcutta, the 8th June 1899

From—E. I. CHAPMAN, Esq., Registrar of the High Court, Calcutta,
To—The Sessions Judge of

THE attention of the Judges has been drawn to the inconvenience which is caused to jurors and others when a trial is continued throughout the day without any interval. I am directed therefore to intimate to you that it is in the opinion of the Court, advisable that there should in the case of trials by jury or with the aid of assessors be a short adjournment daily not to exceed half an hour, at about two o'clock in the afternoon.

List of Assessors framed with the approval of the Honourable the Chief Justice, under Rule I of the Rules passed under the provisions of Section 640A of Act XIV of 1882

Principal, Sanskrit College, and Registrar

Sanskrit Examinations

CALCUTTA,
The July 1899

ORDERS BY THE HON'BLE THE VICE CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY

The following eight Natural Orders in Botany have been prescribed for the Preliminary Scientific L M S and M B Examinations in 1900 —

1	Malvaceæ	5	Verbenaceæ
2	Rutaceæ	6	Polypodiaceæ
3	Leguminosæ	7	Aroidæ
4	Rubiaceæ	8	Gramineæ

SENATE HOUSE,
The 6th July 1899

A C EDWARDS
Registrar

NOTIFICATIONS OF THE BOARD OF REVENUE

No 1291B

NOTICE is hereby given that the Eighth Sale of Opium the Provision of 1897-98, will be held at the Government Opium Sale room No 2 Bankshall Street, on Wednesday the 2nd August 1899, at 11 A M, and will comprise 3,400 chests viz —

Opium manufactured at the Patna Factory	1,400
Ditto at the Ghazipur Factory	1,950
Total	3,400

2nd — The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 29th November 1898, and published in the *Government and Exchange Gazette*, or on personal application at the Office of the Board of Revenue.

3rd — The latest dates for deposit and clearance will be the 7th and 17th August 1899 respectively that is to say no Bank of Bengal Receipts Government Promissory Notes or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale room will be received after 3 30 P M of Monday, the 7th August 1899 and no Bank of Bengal Receipts in full payment of bids will be accepted after 3 30 P M of Thursday, the 17th August 1899.

4th — In addition to the quantity above advertised for sale the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue however reserve to themselves the right of altering these dates should circumstances render it expedient to do so —

DATE		Manufactured at Patna	Manufactured at Ghazipur	Total about chests
On or about Monday,	4th September 1899	1,400	1,950	3,400
On or about Monday	2nd October	1,450	1,950	3,400
On or about Wednesday	1st November	1,450	1,950	3,400
On or about Friday	1st December	1,450	1,950	3,400
Total		5,800	7,800	13,600

Chief Secy to the Govt of Bengal

NOTIFICATION

Simla, the 6th July, 1899

No 14 —The following Statute is published for general information

THE ARMY (ANNUAL) ACT, 1899

[62 VICTORIA, CHAPTER 3]

An Act to provide, during Twelve Months, for the Discipline and Regulation of the Army

[27TH APRIL 1899]

WHEREAS the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law

And whereas it is adjudged necessary by Her Majesty and this present Parliament, that a body of forces should be continued for the safety of the United Kingdom and the defence of the possessions, of Her Majesty's Crown, and that the whole number of such forces should consist of one hundred and eighty four thousand eight hundred and fifty three including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within Her Majesty's Indian possessions

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in Her Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid

And whereas the said marine forces may frequently be quartered or be on shore or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the Government of Her Majesty's forces by sea

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm, yet nevertheless it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert Her Majesty's service or are guilty of crimes and offences to the prejudice of good order and military discipline be brought to a more exemplary and speedy punishment than the usual forms of the law will allow

And whereas the Army Act will expire in the year one thousand eight hundred and ninety nine on the following days

- (a) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April and
- (b) Elsewhere in Europe inclusive of Malta, also in the West Indies and America, on the thirty first day of July and
- (c) Elsewhere whether within or without Her Majesty's dominions, on the thirty first day of December

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled and by the authority of the same, as follows

Sh t title

1 This Act may be cited as the Army (Annual) Act, 1899

2 (1) The Army Act shall be and remain in force during the periods hereinafter mentioned, and no longer, unless otherwise provided by Parliament that is to say,

Army Act (11 & 45 Vict
in force for period of time

- (a) Within the United Kingdom, the Channel Islands, and the Isle of Man from the thirtieth day of April one thousand eight hundred and ninety nine to the thirtieth day of April one thousand nine hundred, both inclusive and
- (b) Elsewhere in Europe, inclusive of Malta, also in the West Indies and America, from the thirty first day of July one thousand eight hundred and ninety nine to the thirty first day of July one thousand nine hundred, both inclusive and
- (c) Elsewhere whether within or without Her Majesty's dominions, from the thirty first day of December one thousand eight hundred and ninety nine to the thirty first day of December one thousand nine hundred both inclusive,

and the day from which the Army Act is continued in any place by this Act is in relation to that place referred to in this Act as the commencement of this Act

(2) The Army Act, while in force shall apply to persons subject to military law whether within or without Her Majesty's dominions

(3) A person subject to military law shall not be exempted from the provisions of the Army Act by reason only that the number of the forces for the time being in the service of Her Majesty, exclusive of the marine forces, is either greater or less than the number herein before mentioned

3 There shall be paid to the keeper of a victualling house for the accommodation provided by him in pursuance of the Army Act the prices specified in the schedule to this Act

Price not filled

Amendment of Army Act

4 (1) In section ninety one and in sub section (8) of section one hundred and thirty eight, and in sub section (2) of section one hundred and forty five of the Army Act, after the words "a Secretary of State" in each place where they occur shall be inserted the words "or any officer deputed by him for the purpose, and after the words "the Secretary of State" in each place where they occur shall be inserted the words "or officer"

(2) In sub section (2) of section ninety one of the Army Act, the words "or under the hand of an under secretary" and in proviso (a) of section one hundred and thirty eight the words "by a court martial, commanding officer or Secretary of State," are hereby repealed

5 After the words "of the forces in India" where they occur in sub-section (2) of section fifty seven sub section (3) of section seventy three, and sub section (2) and proviso (b) of section one hundred and eighty three, of the Army Act, shall be inserted the words "or such officer as the Commander in Chief of the forces in India with the approval of the Governor General of India in Council, may appoint"

6 (1) In sub section (6) of section eighty three of the Army Act, the words "or in the corps of armoured sergeants, or in the medical staff corps, or in the army service corps" and the words "or in the corps of mounted military police" shall be repealed

Amendment of 44 and 45 Vict c 58
as 83 190 as amended by 38 Vict.
c 1 a to certain corps

(2) In section one hundred and ninety of the Army Act, sub-section (15) (A) (in) the words "the army service corps, the medical staff corps," and the word "other" shall be repealed

PART II

ORDERS BY THE LIEUT GOVERNOR OF BENGAL

MUNICIPAL AND LOCAL

NOTIFICATION

No 3539M — The 14th July 1899 — Whereas a notification No 1958M dated the 5th April 1899, was published at pages 68 and 69 Part II of the *Calcutta Gazette* of the 12th idem declaring the intention of the Lieutenant Governor to confirm the rules set forth below, which were framed by the Commissioners of the Nator Municipality in the district of Nayshahi under section 6 of Act XX of 1887 for the protection of wild birds and game and whereas no objection has been made to the proposal within one month from the date of publication of the aforesaid notification within the Municipality, it is hereby notified that the said rules are confirmed by the Lieutenant Governor under clause 4 of the said section of the Act and are published for general information under clause 5 of section 6 of the General Clauses Act, 1 of 1887 —

RULES

1 "Wild birds" for the purpose of these rules shall include jungle fowl, pea fowl, partridge, quail, plover, whistling, teal, painted snipe, cotton teal and every bird killed for the sake of its plumage.

2 The Local Government having by notification declared that the provision of section 3, Act XX of 1887 shall apply to hares and deer, the following rules will apply to those animals as well as to wild birds.

3 The breeding season for the purposes of these rules shall extend from the 1st April to the 30th September.

4 Whoever during the breeding season exposes for sale within the Nator Municipality any wild bird or animal living or dead, shall be liable to a fine not exceeding Rs 5 for each bird or animal.

5 Whoever during the breeding season imports into the town the plumage of any kind of wild bird recently killed or taken or the fur or skin of any hare or deer recently killed or taken shall be liable to a fine not exceeding Rs 5 for the plumage of every such bird or the fur or skin of every such hare or deer.

6 In the case of a second conviction the fine may extend to Rs 10 for each such bird, hare, deer, plumage, fur or skin.

7 All birds, plumage, fur or skin &c, in respect of which a conviction has been had under rules 4, 5 and 6 shall be confiscated.

8 A reward not exceeding half the fine imposed and realised under rules 4, 5 and 6 may be granted by the adjudicating Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

E W COLLIN,
Offg Secy to the Govt of Bengal

NOTIFICATION

No 3564M—The 6th July 1899—Whereas a notification No 818TM, dated the 4th November 1898, was published at pages 19 & 96 Part IB of the *Calcutta Gazette* of the 9th idem, declaring the intention of the Lieutenant Governor under the provisions of clause (d) of section 9 of the Bengal Municipal Act III of 1884 as modified up to 1st November 1896 and on the recommendation of the Commissioners of the Barnagore Municipality, in the district of the 24 Parganas made at a meeting, to subdivide the said Municipality into two Municipalities and whereas no objection, under section 9A (1) of the said Act, has been raised to the proposal within six weeks from the date of the local publication of the notification within the Municipality, it is hereby notified for general information that under section 9A (2) of the Act the Lieutenant Governor is pleased to direct that the proposed alteration shall take effect from the 1st August 1899

2 The two Municipalities will be called respectively the "Barnagore Municipality" and the "Kamarhati Municipality," and their boundaries will be as follows—

I—Boundaries of the Barnagore Municipality

On the North—A line commencing at Dakhineswar ghât on the river Hooghly along the southern edge of Datta Ram Mural's Street till it meets the road leading to the Magazine road, thence southward along the eastern edge of the eastern drain of this road till it joins the Magazine road thence eastward along the northern edge of the northern drain of the Magazine road up to its junction with the Barrackpore Trunk road thence northward along the western edge of the Trunk road to the Dantia khal, thence eastward along the southern side of the Dantia khal across the culvert of the Eastern Bengal State Railway up to a distance of about 1,330 feet from the culvert

On the East—A line commencing at the point where the northern boundary ends at the north eastern corner of Nawapara, thence southward across the paddy fields and over the trenching ground of the Cossipore Chitpur Municipality along the eastern border of mauza Nawapara crossing the Nawapara District road at a distance of about 220 feet to the east of the culvert under that road, then runs over the paddy fields till it reaches the southern border of Nawapara, thence turns westward and runs along the southern border of mauza Nawapara up to the eastern edge of the Eastern Bengal State Railway line, thence southward along the eastern edge of the Eastern Bengal State Railway line up to the railway bridge over the Sinta road

On the South—A line commencing from the eastern edge of the railway bridge over the Sinti road thence westward along the northern edge of the drain to the north side of Sinti road, up to its junction with the Barrackpore Trunk road, thence across the Trunk road westward along the northern edge of the north side drain of the Dheriabagan road till it meets the Cossipore road and Gopal Lal Tagore road thence southward along the western edge of the Cossipore road up to its junction with the Paramanick Ghat road thence westward along the northern edge of the drain of Paramanick Ghât road up to the river Hooghly to the northern edge of Paramanick Ghât

On the West—A line commencing from the northern edge of Paramanick Ghat and thence along the bank of the river Hooghly up to the Magazine Ghât road

II—Boundaries of the Kamarhati Municipality

On the North—A line commencing at the southern edge of the Malapara Ghât on the river Hooghly thence eastward along the southern edge of the Malapara road up to the point where the road turns to the north at a distance of about 600 feet to the east from its junction with the Kumarpara road thence turns south and passes by the west of Atul Chandra Bhattacharjee's land again turns east passing by the south of the land of the said Atul Chandra Bhattacharjee up to the corner of Kasari Bagan thence passing on along the drain to the north of Kasari Bagan meets the western drain of kutcha road of the South Barrackpore Municipality thence passes along that drain a little to the south then crosses the kutcha road and runs eastward along the drain to the north of the garden of the late Babu Dwarka Nath Dutt till it meets the Barrackpore Trunk road thence eastward across the Trunk road by the northern side of Babu Kanai Lal Neugis's garden land, and along the northern border of village Sener Arah meets the Nilgunge road at a point about 630 feet to the north from its junction with the Basdebpore road thence eastward along the northern border of mauza Basdebpore, crosses the Eastern Bengal Railway line at a distance of about 870 feet from the point where the line is crossed by the Goalpara road thence passes along the northern border of Basdebpore till it meets the Ghola road at its junction with the kutcha road to Natagarh

On the East—A line commencing at the junction of the Natagarh road with the Ghola road then runs in a south westerly direction along the eastern edge of the Ghola road up to its junction with the Sener Arah Nimta road thence eastward along the northern edge of Sener Arah Nimta road up to a distance of about 410 feet from the junction thence southward across the paddy fields passing by the side of Sambhu Chandra Mukerjee's garden along the eastern border of mauza Belgharia across the Nimta District road at the south eastern corner of Haran Chandra Chatterjee's garden at a distance of about 1200 feet from the junction of the Ghola road thence southward across the paddy fields along the eastern border of mauza Belgharia till it meets the Dantia khal at the point where the northern and eastern boundary of the Barnagore Municipality meet

On the South—A line commencing at the eastern border of Belgharia at the above point, thence westward along the edge of the northern boundary of the Barnagore Municipality as defined above up to the northern edge of the Magazine Ghât on the river Hooghly

On the West—A line commencing at the Magazine Ghât thence along the eastern bank of the river Hooghly up to the southern edge of the Kamarhati Malapara Ghât

3 The Lieutenant-Governor is also pleased to direct that the name of the Kamarhati Municipality shall be inserted in both the first and second schedules of the Act and that the number of Commissioners of the Municipality shall be nine

LAND SALE NOTICES

Advertisement of Sale

NOTICE is hereby given that the undermentioned plots of land no longer required by Government situated along the Assam Bengal Railway in the district of Tippera will be put up to sale at 2 o'clock on 1st August of the year 1899 corresponding with the 17th Shaban 1306 Fushl at the Court of the Land Acquisition Deputy Collector at Comilla.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100 the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100 one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day the sale shall be cancelled the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement in the case of original sale.

4th.—The plots of land will be sold revenue free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Chittag n h C lle torate the 2nd June 1899)J H [PA Off₂ Collector

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estate situate in the district of Bankura in the subdivision of Vishnupur will be put up to sale by the Subdivisional Officer on the spot at Mundara alias Brindabanpur on 24th July 1899 corresponding with 9th Sraban 1306 B S

The purchasers will be subject to the following conditions of sale —

Conditions of Sale

- 1st—The estate to be sold to the highest bidder above the upset price which will be fixed by the Sub divisional Officer at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd—If the amount of purchase money do not exceed Rs 100 the whole amount to be paid down at once.
- 4th—If the amount of purchase money exceed Rs 100 one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number on the district roll	Name of estate and pargana	Approximate area in acres	Government revenue assessed	REMARKS

Western Bengal Prospecting Syndicate Limited

PROCEEDINGS of the Adjourned Ordinary Annual General Meeting of Shareholders of the Western Bengal Prospecting Syndicate Limited held at its Registered Office No 7 Church Lane Calcutta, on Friday the 7th day of July 1899 at 4 P.M. —

PRESENT

Mr A. R. Mackintosh in the Chair
Messrs J. Mackillochan
W. H. Miles
Narain Das Burmon
R. M. Ross by his Proxy W. H. Miles

Mr O. H. Dickinson representing the Company's Solicitors also attended the Meeting.

The Notice convening the Meeting was read and it was resolved —

That the reports by the Agents and the Accounts for the years 1897 and 1898 as laid on the Table and printed and circulated to the Registered Shareholders be adopted and passed as correct.

The Chairman explained to the Meeting the position of the Company and the following extraordinary resolution was then put viz —

Proposed by Mr A. R. Mackintosh

Seconded by Babu Narain Das Burmon —

That it has been proved to the satisfaction of this Meeting that the Company cannot by reason of its liabilities continue its business and that it is advisable to wind up the same and accordingly that the Company be wound up voluntarily and that Mr W. H. Miles be and is hereby appointed Liquidator for the purposes of such winding up without remuneration.

The above resolution was carried by the requisite majority being carried unanimously.

A. R. MACKINTOSH Chairman

Notice

It is hereby notified for general information that a subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

THE following Weather Reports of the Bengal Meteorological Department issued by order of the Government of Bengal can be supplied to the public at the prices annexed—

1st—Bay of Bengal and Bengal Daily Weather Report, giving meteorological observations taken at 65 stations in Bengal and on or near the coast of the Bay with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by post in Calcutta soon after midday. Price to subscribers in Calcutta Rs. 3 per annum payable in advance for six months.

This report will be issued every year from 1st May to 31st October. From 1st November again the Bay of Bengal Report containing observations taken at 28 stations will be issued up to 30th April.

2nd—A Monthly Statement of Meteorological Observations taken at 49 observing stations and of rainfall recorded at 327 subdivisional and other stations together with summaries of the more important features of the meteorology of the past month of the province and of the distribution of the rainfall and its variation from the normal. Price of the Monthly Summary Rs. 2 per annum payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5 Rajah Street Calcutta for the Bay of Bengal and Bengal Daily Weather Report and to the Accountant and Treasurer, Bengal Secretariat for the Monthly Report.

C. LITTLE

Meteorological Reporter to the Govt. of Bengal

Notice

NOTICE is hereby given that the term for the purchase of publications from the Bengal Secretariat Book Depot except for Government offices or offices under the control of Government Officers are strictly cash and on no other terms will any publication be supplied or advertisement notice be inserted in either of the Gazette.

In the case of non-cash notices cash must be sent with such notices when forwarded by Messrs. Courts or offices and for those forwarded by the Official Assignee cash must be paid on presentation of a memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the Registrar, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at the Bengal Secretariat Book Depot.

NOTICE TO MARINERS—No 134

[First Publication]

CHINA SEA—BASHI CHANNEL

Gadd rock—Overfalls southward of—

THE British Admiralty has given notice (No 320 of 1899), that information has been received from Mr George Scott Master of the ship *Buckingham* that his vessel, on May 22nd 1898, when about 11 miles to the southward of Gadd rock Bashi channel, passed through heavy overfalls and discoloured water, no soundings were obtained, and bottom could not be seen from the masthead

The following bearings were taken at the time Botel Tobago west point N 10 W summit of Little Botel Tobago, N 2 E and North island of the Batan group S 36 E

Approximate position, lat 21° 33 N, long 121° 34 L

Overfalls has been engraved on the Charts in this position

NOTE—At page 233 of the China Sea Directory vol III, 1894 it is stated that violent tide ripples and smooth whirls exist between Gadd rock and Vile Rete rocks it would seem not improbable that these ripples may extend southward of Gadd rock also

(Variation Nil in 1899)

This notice affects the following Admiralty Charts—China sea, Nos 1213 2661b Luzon northern portion, No 2454 Also, China Sea Directory, vol III, 1894, page 233

RESOLUTION ON THE ANNUAL REPORT ON EMIGRATION FROM THE PORT OF CALCUTTA TO BRITISH AND FOREIGN COLONIES FOR THE YEAR 1898

GENERAL DEPARTMENT—EMIGRATION

Darjeeling, the 6th July 1899

RESOLUTION—No 506TG

READ—

The Annual Report on Emigration from the Port of Calcutta to British and Foreign Colonies for the year 1898

The appointment of Protector of Emigrants was held by Dr C Banks throughout the year

2 During the year emigration to the Seychelles Islands was declared to be lawful, and Mr A C Stewart was appointed by this Government as Emigration Agent at Calcutta for that Colony. A new edition was issued of the Rules relating to colonial emigration.

3 As in the two previous years, 1896 and 1897, there were six agencies at work, namely, five British and one Dutch, but the coolies which were requisitioned for Jamaica could not be despatched till February 1899, owing to

the difficulty experienced in recruitment The following table shows the demand and supply of adult labour in the year under review as compared with the year 1897 —

NAME OF COLONY	1897		1898	
	Indent	Supply	Indent	Supply
1	2	3	4	5
Demerara	1,200	1 149	2,400	2,301
Trinidad	1,700	1 800	1,200	1 225
Jamaica			690	Nil (623 were supplied in February 1899)
Mauritius	240	292		
Natal	1 994	2,800	908	1,358
Fiji	1,300	1,287	560	560
Surinam	590		600	590
Total	7,024	7,378	6,308	6,034

4 The terms on which emigrants were engaged during 1898 for Demerara and Jamaica were altered as to return passages, for Trinidad the alterations concerned the duration of work, period of indenture, classification of emigrants, wages, rations, and return passages. None of these changes were in favour of the emigrants. For the other colonies the terms on which emigrants were engaged remained the same as in 1897.

5 Of the 701 licenses granted to recruiters, 27 were subsequently cancelled for various causes. During the period under review 9,334 emigrants were registered as against 12,315 in 1897. The decrease is, no doubt rightly, ascribed to the greater prosperity of the agricultural population and the abundance and cheapness of food supplies. Of the number recruited during the year, 6 per cent were obtained in Bengal, 7 per cent in Bihar, 55 per cent in the North Western Provinces, and 32 per cent in Oudh, as against 9, 10, 56, and 24 per cent, respectively, in the previous year.

6 Of the 9,487 emigrants including 153 remaining from the previous year, (accommodated in the sub depôts), 1,492 or 16 per cent did not start for Calcutta, while 7,439 or 79 per cent of those recruited actually reached Calcutta, 258 remained in the sub depôts at the close of the year.

Altogether 8,116 emigrants were accommodated in Calcutta, including 667 remaining from the previous year. Of these, 663 were rejected as unfit, 152 deserted, 13 died, 470 were discharged for various reasons, and 6,223 or about 77 per cent were despatched to the colonies, leaving 595 in two of the depôts at the close of the year for subsequent disposal.

Of the number despatched, 5,350 were Hindus and 873 Muhammadans.

The percentage under the head of "Rejected as unfit" has risen from 7.56 in the previous year to 8.16 in 1898, and the Protector's attention is drawn to the request made in paragraph 6 of the Resolution of this Government on his Report for the year 1897 that special attention should be paid to the matter of awarding compensation to persons who are brought down to Calcutta at great inconvenience to themselves and then rejected as unfit. A report of what has been done to meet the orders of Government should be submitted at a very early date.

7 The total number admitted into hospitals was 337, of whom 13 died, as compared with 489 admissions and 26 deaths in 1897.

8 Of the emigrants who were embarked, 38 per cent were for Demerara, 20 per cent for Trinidad, 22 per cent for Natal, 9 per cent for Fiji, and 10 per cent for Surinam. There were 8 sailing ships and 4 steamers engaged to convey the emigrants, as against 7 and 9, respectively, in the previous year, the average number carried on each being 518 as compared with 474 in 1897. The four steamers conveyed emigrants to Natal only. The duration of the voyage varied from 22 days to Natal, to 120 days to Demerara, the average duration being 73 days as against 52 in 1897.

The aggregate mortality on the various voyages was 27 as against 58 in 1897. The largest number of deaths (5) occurred on the *S S Umanto*, bound to Natal, and was due to an epidemic of influenza associated with pneumonia. Though there was a considerable diminution in the number of steamers engaged in the emigration trade it is satisfactory to note that there was a marked decrease in the death rate. This cannot, however, be looked on as anything but a remarkable exception to the general rule that the speedier the voyage the less the sickness *en route*.

9 During the year under report 7 colonies returned emigrants to India as against 6 in 1897, the number being 3,502 as against 3,700 in the previous year. There were 8 births on the return voyage, and 66 or 1.88 per cent of deaths as against 90 or 2.53 per cent in 1897—again a satisfactory feature of the emigration returns of the year.

The following table shows the total number of emigrants who returned from each of the colonies during the year under review, the aggregate savings, and the average saving per head —

COLONIES	Number of emigrants at colony	SAVINGS	
		Average	Aggregate
1	2	3	4
		Rs A P	Rs A P
Demerara	1 558	2,14 403 4 2	137 9 9
Trinidad	747	1,06,061 11 10	111 15 8
Mauritius	133	6 451 0 0	14 14 4
Natal	116	18 051 2 3	155 9 9
Fiji	393	90,337 14 0	229 13 10
Surinam	213	36 390 13 0	170 13 6
Guadeloupe	42	3 391 7 3	80 11 11
Total	3,502	4,75,087 4 6	130 10 7

These figures are of some value and interest, but the Lieutenant Governor was surprised to find in the course of some enquiries last spring how greatly the savings of emigrants in the same ship varied, and how large was the number of those who came home with practically no savings at all. As long as some men are thrifty and some are not, there must be variations of the sort, but he had hoped to find a more uniform standard of prosperity among returning emigrants than these enquiries disclosed. Dr Banks has the comfort of the emigrants constantly at heart, but it is necessary that he and the Government should know more than they do about the prospects the several colonies hold out. To this end the Lieutenant Governor would be glad if the Protector would continue these enquiries in all returning ships to ascertain what proportion has not saved, and so far as he can, the reasons that have led to failure.

10 In consequence of remarks to the same purport last year, the Protector of Emigrants has prepared the following curious table —

NAME OF COLONY	Total number of the resident population at end of 1897	Number of emigrants who worked on the way to the colony during 1898	IMMIGRANTS RETURNED TO INDIA DURING 1898		Savings of the total number of emigrants resident in the colony at end of 1897	Average savings per head of emigrants resident in the colony at end of 1897	REMARKS.
			Number	Average per head			
1	2	3	4	5	6	7	8
Demerara	116 633	2 380	1 568	Rs A P 137 9 9	£ S D 174 403 7 7	£ S D 1 8 2	The entries in column 6 represent only the ascertained savings of the emigrants. Loans to shipkeepers and others and investments in cattle and farms probably account for a large portion of their actual savings.
Tobago	84 057	1 268	747	141 15 8	80 378 6 8	1 1 8	
Maricao	260 542		433	11 15 4	3 7 363 16 0	0 19 9	
Natal	84 461	1 390	118	175 9 9	2 944 15 0	0 7 8	
Fiji	11 965	567	334	223 13 10	19 4 8 5 4	1 13 5	
Jamaica	14,979				22 231 6 4	1 11 6	
St. Lucia	163				28 11 3	0 3 8	
Surinam	9 258	618	213	170 13 6	19 410 17 6	2 1 11	
Reunion	16 60				7 335 6 10	0 9 1	
Guadeloupe	15 303		42	80 11 11	8 190 5 5	0 4 1	

It cannot be said that this compilation adds much to the information on the matter. The returns of their savings made by the emigrants in the several colonies are probably most fragmentary. If they are to be believed, Mauritius pays the emigrant very well, and it is only those who completely fail, who ever leave it. But it is through inconsistencies of the kind that the Protector will be guided in his enquiries, and the Lieutenant Governor trusts that information will thus be gradually accumulated of some real value as to the relative advantages of the different colonies. He notes for the meantime, that though the Protector does not consider that any reliable conclusions can be drawn from the figures in this and the preceding statement, he regards the position and prospects of the resident immigrants in Fiji and in the West Indian colonies as being the most favourable.

11 The aggregate number of estates belonging to emigrants under administration was 614, valued at Rs 60,030 2 6. Of these, 457 estates, valued at Rs 35,254 0 9, were finally administered, the sum of Rs 21,505 9 4 having been paid to the heirs in respect of 233 estates, while the sum of Rs 13,748 12 5, standing at the credit of the remaining 224 estates, lapsed to the Indian and Colonial Governments concerned, owing, in some cases, to absence of heirs and in others to the impossibility of tracing them under the false descriptive particulars furnished by the emigrants at the time of registration. Besides the final disposal of the above 457 estates, heirs were traced in respect of 36 estates, valued at Rs 11,287 9, and the sums due will be paid. Enquiries for heirs were therefore completed in respect of 493 estates, or 80 per cent of the total number of estates under administration as against 381 estates or 58 per cent in 1897. Enquiries regarding the remaining 121 estates, valued at Rs 13,993 3 9, had not been completed by the close of the year. The Protector acknowledges the valuable assistance rendered by District Officers in connection with the tracing of relatives of deceased emigrants.

12 The receipts amounted to Rs 18,692, showing a reduction of Rs 5,811 11 10, as compared with those of the previous year, while the charges amounted to Rs 29,059 10 6, being an increase of Rs 672 13 11. The year closed with a deficit of Rs 10,367 10 6, due chiefly to the smaller number of emigrants having been despatched to the colonies than in the previous year.

13 The thanks of Government are due to Dr Banks for the manner in which he performed his duties as Protector of Emigrants during the year under report.

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secretary to the Govt of Bengal.

SYSTEM OF VERNACULAR EDUCATION IN THE CENTRAL PROVINCES

GENERAL DEPARTMENT—EDUCATION

RESOLUTION—No 2003

Calcutta, the 11th July 1899

THE following careful and interesting report on the system of Vernacular Education in the Central Provinces submitted by Mr Alexander Pedler, F R S, now Director of Public Instruction, Bengal, is published for general information, with reference to Government Resolution No 1921, dated the 1st July 1899, concerning the question of remodelling the existing system of Vernacular Education, published in the *Calcutta Gazette* of the 5th July 1899

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secy to the Govt of Bengal

SHORT REPORT

ON THE

SYSTEM OF VERNACULAR EDUCATION

IN THE

CENTRAL PROVINCES

BY

ALEXANDER PEDLER, F R S, &c

Preliminary description and general consideration of the system

AFTER a few preliminary enquiries at Nagpur I decided to investigate the conditions of vernacular (primary and middle school) education in the Central Provinces for the past 18 years only. In this I was guided by the fact that up to about the year 1880, no attempt was apparently made to introduce any of what may be called the modern ideas and methods in educational matters into the system employed. Hence, it did not appear necessary to go back beyond this date in my enquiry. From 1880, however, the ruling authorities in the Central Provinces appear to have appreciated the fact that modern methods had begun to differ largely from the older style of education, and they hence began to introduce changes.

They first took up the necessity of physical training in schools in addition to the ordinary subjects of mental training, and from about this date (1880) drill began to be taught in schools, and it has been since steadily encouraged, while more lately it has been reduced to a complete system. At first apparently the methods of drill were partly on European models, but it has been found that the native systems of drill and exercise are more popular, and hence a book has been prepared and issued (in 1897-98) called the *Deshi Kasarat*, which is the manual for drill in all primary and vernacular schools in the Central Provinces.

I had personal opportunities of witnessing the system of drill in six schools (five boys' and one girls'), and I confess to have been very much surprised by the

* Under the charge of an English Missionary Lady systematic way in which the drill was done and by the excellence of the exercises. In the girls' school*

I may mention the system was more or less European, but in the case of the boys' it was purely native drill and gymnastics.

It appeared to me that this very complete and definite system of drill has had a most excellent effect on the tone of the schools, and also on the physique of the children. I am also of opinion that this drill has given to the schools a discipline which is very much superior to that found in the schools of Bengal. The pupils were smartly obedient to orders, both at drill and also in the school classes, and the attitudes and motions of the body and limbs in the

drill were quickly and accurately gone through in a most systematic manner in obedience to brief commands. In passing I may point out that the system introduced in the Central Provinces has no connection or resemblance to military drill, but that it is only intended to exercise thoroughly the various muscles and parts of the body. No apparatus is required for this drill, and hence there has been and would be absolutely no expense in its introduction into schools.

I need hardly point out the very great influence which such a system of drill has upon discipline. Drill is indeed one of the best, if not quite the best, means of teaching and enforcing discipline and obedience in schools, but in the schools in Bengal this valuable aid to sound education has been to a great extent disregarded and neglected, or at all events it has never been really encouraged to the extent it should have been.

As this is a portion of education which costs nothing, and can be introduced with practically no preliminary arrangements or training, there does not seem to be any reason why a system of drill should not at once be made compulsory in Bengal in all schools from the primary stage upwards. All that would be necessary would be to prepare a work or description of the drill to be used, like the *Deshi Kasarat* employed in the Central Provinces, and to circulate it to all schools. The cost of the *Deshi Kasarat* is 1 anna 6 pies only.

Arrangements having been made to improve the discipline and physical condition of the pupils, a few years later the authorities of the Central Provinces introduced changes with the object of improving the educational methods used in schools, and in this they kept in view that it is necessary in education not only to train the memory and reasoning powers, but also to train habits of observation, thought and inference, and also to train the hand and eye. Hence about 1887, in addition to the ordinary subjects of school teaching, the subject of drawing (hand and eye training) was introduced in all schools, and this was followed in 1888-89 by the introduction of the methods of kindergarten teaching, object lesson teaching, science teaching (physical science in middle town schools and agriculture in rural primary schools) and also by the introduction of manual training.

The subjects which were taught under the head of manual training were (1) clay modelling, (2) paper cutting and pattern forming, (3) cardboard work, and (4) wood work or sloyd. As before stated, manual training in schools was introduced as a compulsory subject by Sir A. Mackenzie in 1888-89, but in the year 1891-92 it was specially relegated to the class of optional subjects, and to a great extent neglected and almost abolished under the orders of Sir A. P. McDonnell. Hence this subject was scarcely given a fair trial, as it was only taught for two years, but the evidence showed that clay modelling and paper cutting, &c., were distinctly popular and useful, though cardboard work and wood work were less congenial. The opinion of the Inspector of Schools, who was deputed to show me the educational system of the Central Provinces, was to the effect that though it might have been a little premature to introduce manual training broadcast and compulsorily into the schools in 1888-89, yet its almost practical abolition in 1891-92, when it had really begun to gain a hold on the schools, was a great mistake, and decidedly retrograde in character.

Though manual training of the forms mentioned has almost disappeared from the ordinary schools, yet it is still taught in the normal schools for teachers, and I saw good paper cutting, pattern forming, &c., in progress in the Nagpur Normal School. I also saw the remains of manual training work in the village, &c., schools, and in some of them the clay objects modelled, &c., are still kept for inspection and are fairly good.

The remaining four subjects, which may be taken as being modern subjects or methods of education, namely, drawing, kindergarten teaching, object lesson teaching, and science teaching (physical science and agriculture), are still in use in many, if not almost all, the vernacular schools, and on the whole the results obtained appear to be decidedly satisfactory. The details of such teaching will be included under the description of the work done in the various classes of schools in a later section of this report.

About 1894 complaints appear to have been received to the effect that the number of subjects to be learned, and the length of the instruction in vernacular schools had become too great and the plan was then adopted of dividing the subjects into compulsory and optional, and into subjects to be taken by

town schools and those in rural districts. In the case of the schools away from towns, &c, they are practically almost all of the upper primary class, and for the primary rural schools the compulsory subjects now in use are reading, writing, arithmetic, and geography, and the optional subjects grammar, object lessons or elementary science, kindergarten occupations, manual training, and drawing. In addition, in the readers which are employed under the head of reading in classes III and IV, agriculture and the elements of science necessary for the explanation of the agricultural facts, as well as elementary sanitation, are included, and these do not, therefore, appear as separate subjects in the curriculum, for they are part of the compulsory course. In the case of the optional subjects mentioned, practically all except manual training are now taught in almost all schools.

In connection with the study of agriculture, it should be mentioned that in all the schools I saw where agriculture was taught, there were school gardens attached. These gardens are divided into plots, which have to be kept in order usually by two boys working jointly. Most of these school gardens were really very good, and were well kept up.

The schools situated within municipalities and towns are usually of the class of middle schools, and the curriculum for the middle schools is slightly different from that detailed above. In the classes up to and including class IV, corresponding to the upper primary standard, drawing is compulsory. In addition to reading, writing, arithmetic, and geography, object lessons are also compulsory in the first three classes, while for class IV to VI completing the middle course, a certain amount of science is taught, the text book in classes V and VI being a translation of Balfour Stewart's Primer of Physics. In class IV or the upper primary class an elementary knowledge of animals and plants and of metals and of other substances used in the arts and manufactures is required.

The optional subjects for the vernacular middle town schools are kindergarten occupations, manual training, drawing, surveying, and mensuration in classes V and VI, history in classes III to VI, and geometry and algebra in class VI. Sanitation and agriculture are again included in the ordinary reading lessons in the text books prescribed for middle schools, but in the case of agriculture it is only intended to be taken in urban schools. Of the optional subjects, kindergarten and drawing are practically always taken up, while the other subjects which are read in the schools vary under different local circumstances.

In the case of vernacular girls' schools needle work is compulsory in addition to reading, writing, arithmetic, and geography while the optional subjects are grammar, object lessons or elementary science, kindergarten occupations, manual training and drawing. Sanitation is again included in the readers used, and is thus a compulsory subject. In the girls' schools the needle work is said to be good, and among optional subjects kindergarten is well taught.

The method of the introduction of the new subjects into the schools appears to have been simplicity itself, inasmuch as a simple departmental order was issued that such subjects should be taught in the future in all schools under the authority of Government and in those receiving public aid. At the same time, the subjects were introduced into the normal schools, so as to gradually provide trained teachers, and from year to year a considerable number of mufassal teachers were called in from their schools to receive special courses of instruction at the normal and other training schools.

As this method had the disadvantage that for a time a good deal of the teaching would have been given by persons not actually trained or instructed in such subjects, it was arranged to have conferences of Inspectors and Deputy Inspectors and of masters, district by district, each conference lasting about three weeks, at which such subjects as kindergarten work, object lessons, drawing, manual training, sloyd, &c, were thoroughly explained to the masters to enable them to pass on the instruction to the schools. At a later date also agricultural conferences for enforcing the teaching of simple agricultural facts were held among the masters, &c.

The methods of supplying trained teachers in the schools in the Central Provinces are, however, much more satisfactory than in Bengal. No person is now allowed to commence a career as a paid public teacher or would be

allowed as a new teacher to present pupils for a reward from public money, unless he has passed the departmental examination or tests as a teacher. The

* There are only about 2200 schools I believe in the Central Provinces

school teachers are naturally when compared with those in Bengal few in number,* but the training schools in the Central Provinces have been steadily turning out a good supply of trained teachers, so that at the present time about 75 per cent of the masters in the primary schools have actually passed the departmental test as qualified teachers. The details as to the methods of training teachers and the courses followed in normal schools will also be referred to later on.

It is probable that at first the teaching of the new subjects was decidedly poor, but owing to the steps which have been taken, it appeared to me that the teaching was now carried on fairly satisfactorily, and at all events that the teaching was far better than in the great majority of schools in Bengal.

A very important point to be considered with regard to the modernising of the education in the Central Provinces is its cost. In certain previous discussions which have been laid before the Bengal Government when the Central Provinces' system was compared with that in Bengal, a very strong opinion was put forward that the modern system of education was very costly. I therefore made very particular enquiries on the subject of the expenditure to try to ascertain whether the introduction of the modern subjects and system had been attended by an increase in the cost of education per head of pupils. It appears to be true, and I was assured that such was absolutely the case, that practically no increased cost has been thus incurred, and that it is practically as cheap to educate by modern methods as by those which are more or less antiquated. It is desirable that this point should be made perfectly clear, and I therefore asked for several sets of statistics from the Central Provinces bearing on this fact.

I much regret to state that though this report has been somewhat delayed, the statistics have by a misunderstanding not been supplied. The report is therefore submitted without them, and a supplementary note can be added later on if found necessary.

The following figures however which are extracted from the annual reports on education in the Central Provinces may be considered to prove this point sufficiently clearly. The figures relate to the average cost of education of each primary pupil year by year in all the schools in the Central Provinces, and show in the first column the total cost of education, and in the second the cost to Government of each such primary pupil.

Cost of educating a pupil in the Primary Schools in the Central Provinces

YEAR	Total cost of educating each pupil			Cost to Government		
1	2			3		
	Rs	A	P	Rs	A	P
1886	3	4	8	0	12	5
1887	3	6	7	0	13	2
1888	3	6	9	0	15	8
1888 89	3	5	7	0	15	3
1889 90	3	4	11	0	15	10
1890 91	3	6	5	0	14	2
1891 92	3	5	8	0	13	4
1892 93	2	13	1	0	8	8
1893 94	2	11	10	0	11	9
1894 95	2	12	7	0	10	4
1895 96	2	12	10	0	10	2
1896 97	2	14	5			*

Not given in quinquennial report for 1896 97

Indeed it might be almost possible from these figures to argue that education by modern methods is, if anything, less costly than by the older methods

DETAILS OF WORK IN SCHOOLS

The following are the classes of schools which were inspected and considered on my visit to the Central Provinces —

Primary schools,	Girls (primary) schools,
Middle „	Normal or training schools,
Agricultural training schools,	

all of which form part of the scheme for vernacular education in that province

Having given previously a brief outline of the changes which have been made in the system, it is now proposed to state briefly a few facts with reference to the courses of instruction followed in each of the classes of schools, and to point out more in detail those portions of the work in which the methods followed differ considerably from those in use in Bengal, and which appear to be improvements on the Bengal system.

In the bare outlines of the scheme of education, the system followed in the Central Provinces shows great similarity to that existing in Bengal. Thus the primary education is divided into two stages—

(1) The Lower Primary

|

(2) The Upper Primary

But there is this difference that while in Bengal the great majority of schools are of the lower primary class, and having started as lower primary schools remain as such, in the Central Provinces if a school is started as one of the lower primary standard, every effort is made to raise it quickly to the upper primary standard.

Here undoubtedly the advantage rests with the Central Provinces' method.

There is, however, in Bengal a rather greater difference between the lower primary and upper primary standards than is the case in the Central Provinces.

In lower primary schools in Bengal we have the classes "B Standard" and "A Standard" and the lower primary class. These exactly correspond to the three classes belonging to the lower primary school in the Central Provinces. In Bengal there is above the lower primary class a higher class (class II) and then the upper primary class, but in the Central Provinces the pupils of class III, the lower primary class, pass at once into class IV or to the upper primary standard. That is in Bengal it takes five years to reach the upper primary standard while in the Central Provinces it takes only four years.

Above the upper primary standard in Bengal we have the second class of a middle school and then the first class in the middle school standard, which is exactly parallel to the system in the Central Provinces, where the V and VI classes rise to the middle standard. Usually, as in Bengal, promotions are made once a year, and thus while six years are given in the Central Provinces to reach the middle stage of education, seven years are usually occupied in the Bengal schools.

The standards of work in middle and primary standards of boys' vernacular schools and also in girls' vernacular schools (which usually only rise up to the upper primary standard), are shown in the following tabular statement. This is the school curriculum as defined in the Central Provinces Education Manual, slightly abridged by the omission of the reading courses in the various vernacular languages met with in the schools.

	CLASS I One year's course	CLASS II One year's course	CLASS III One year's course	CLASS IV One year's course	CLASS V One year's course	CLASS VI One year's course
1	2	3	4	5	6	7

Model drawing geometric solids painting black and white black and white

NOTE 1.—Not more than two optional subjects can be taken.

2.—Sanitation is taught from the reading lesson in the 3rd and 4th revised Readers. The lessons on agriculture should be omitted.

Taking the course up to the Upper Primary and Middle Vernacular standards, the subjects in which the main differences occur between the courses of work in the schools in Bengal and the Central Provinces are the following —

- (1) Drill, not shown in the printed curriculum
- (2) Drawing (hand and eye training)
- (3A) Agriculture
- (3B) Physical Science
- (4) Kindergarten teaching
- (5) Object lessons
- (6) Manual training

A few remarks may be written on each of these subjects

1 *Drill*, which is carried on systematically in every class of schools, and which has been attended with most satisfactory results. The text book of drill and gymnastics, "Dushi Karmat," in Hindi and other vernaculars was issued in 1897-98.

A brief statement of the nature of the work done in boys' schools will be submitted later on. The actual book is being translated into English, and a few copies of the translation will be printed so that it may be considered by the Committee on Vernacular Text Books, which is sitting, and the Committee will discuss its suitability for introduction into Bengal schools.

In the case of girls' schools the system of drill followed is different from that in the boys' schools, and instead, perhaps, of using the term drill, it would be more correct to say the girls are practised in action songs and calisthenics. Some of the exercises gone through by the girls were, however, very satisfactory. Practically a very simple modification of the exercises used in an English girls' school would be sufficient for Indian girls' schools. No special book for this appears necessary at present in the case of Bengal schools.

2 *Drawing (hand and eye training)*—This is a second point in which the Bengal schools might take a wholesome lesson from those in the Central Provinces. In my inspection I found that in some Central Provinces' schools the drawing of boys in the primary classes was fully equal to, and indeed sometimes superior to, the drawings done by boys in Bengal in the first class of zilla schools, and who are presenting themselves in the drawing standard of the Calcutta Entrance Examination.

In the schools in the Central Provinces, ordinary kindergarten drawing is taught in the lowest classes, and from about class III ordinary free hand drawing from copies is practised. In the teaching of drawing in class I or classes I and II, a kindergarten blackboard (ruled in one inch squares) is used in the schools, the cost of which is about Rs 4, while in the case of drawing from copies at first the "South Kensington" copies were supplied to the Central Provinces' schools, but these have been replaced by cards with locally prepared lithographic copies of figures, &c, and on the back of these cards the directions or instructions to be given by the teacher, and which are required for the work of copying, are given in the various vernaculars. The cost of these copies (about 30 or 40 in number) is only Re 1 14. Beyond this there is no extra cost to the school, for in the kindergarten drawing the copies are made on the children's slates, and in the higher drawing the pupils provide their own pencils and drawing books, the latter costing only one anna each.

There therefore again appears to be every reason why drawing should be introduced into Bengal schools.

3A *Agriculture* is another subject which is highly important in a country like India, and while fairly well taught in an elementary manner in the vernacular schools in the Central Provinces, it is scarcely considered or studied in Bengal schools.

The portions of the readers for the third and fourth classes in the schools in the Central Provinces curriculum, which deal with agriculture, are based on "Fuller's Agricultural Primer adopted for use in elementary schools or classes in the Central Provinces." The following are briefly the subjects which are discussed in this Primer—

Lesson or Chapter I—The similarity between the growth of animals and plants

Lesson II—I—The different parts of a plant

Lesson VI—Plants, like animals, grow by feeding

Lesson VII—XV—The three chief requisites for successful cultivation—(1) good seed, (2) plant food, (3) careful protection

Lesson XVI—On agricultural machinery and implements

Lesson XI II—The management of farm cattle

Lesson XVIII—The law of landlord and tenant

There are also certain appendices on common cattle diseases

In order to ensure that this portion of the teaching is not considered to be simply an oral lesson, only to be committed to memory and not understood, special circulars have been issued to the normal schools for teachers, etc., which detail the nature of the practical teaching which should be attempted by the village school masters. A free translation into English (with explanatory remarks) of one of the special vernacular agricultural circulars (illustrated by diagrams) is appended, so that it may be clearly seen how far the experimental or practical portion of agricultural work is pushed. Hence it will be seen the teaching of agriculture in the primary schools in the Central Provinces has its practical as well as theoretical side.

KRISHI PRAYAG DARPAN

OR

A GUIDE TO THE AGRICULTURAL EXPERIMENTS

IN THE

VILLAGE SCHOOLS, CENTRAL PROVINCES

EXPERIMENTS Nos 1 AND 2

Bottle culture

Experiments A and B

Apparatus required—Two bottles, two corks with a hole in the middle and split on one side up to the middle hole, a few seeds of any grain you want to germinate, a small basin, thin blotting paper, water, manure or soil, wrapping paper.

Experiment A—In the basin supplied place a piece of thin blotting paper and moisten it with water and then place the seeds on it. Cover the seeds with another piece of blotting paper, also moistened with water. Keep the blotting paper always moistened with water, and in about four or five days the seeds will germinate and will be soon fit for removal.

Take the bottle and the cork. Introduce the young plant through the slit of the cork into the middle hole of it, and put a little piece of cotton wool in the hole so that the plant may not fall down or through the hole. Put the cork into the bottle so that the roots of the plant may reach the water in the bottle. Wrap a piece of paper round the bottle, and then keep it in an airy and well lighted place.

Change the water once in two or four days. The plant will grow for a time and then will begin to fade away, and finally will die altogether.

Experiment B—Arrange everything just like in the experiment A, but while changing the water put plant food* into it.

* Plant food may thus be prepared—

Take some fertile soil or good manure (cow dung manure is best) and place it in a bucket full of water. The soil or the manure will mix itself in water and after a few hours all the soluble portions of plant food in the soil or the manure will be dissolved in water. Then filter the muddy water through blotting paper until it is clear or simply pour off the clear water free from the sediment at the bottom of the bucket. Keep this water in a bottle and use it for this experiment.

In this case the plant will grow in just the same manner as if it were planted in the ground. But its roots being always in water, which is not the case with the plant in the ground, it will not be equally vigorous and productive.

What we learn from this experiment is that roots of plants take in plant food dissolved in water, while the plant in the experiment A lived for a short time only and died away as there was no food in the water.

MAGNIFYING GLASS

PICTURE No 3

The magnifying glass is intended for showing the small parts of a flower, etc., as detailed in the reading book. Experiments with the magnifying glass are made frequently throughout the course.

EXPERIMENT IV—*Osmose*

Every plant is formed of cells (use of magnifying glass). At the end of the root of a plant there is a cell which takes the nourishment of the plant in. It is in fact a closed bag, and sucks in the plant food little by little when the food is presented to it dissolved in water.

This experiment is to show that a thinner or less dense liquid passes through a membrane into the thicker or denser liquid in larger quantity than the dense liquid passes outwards, in other words, plant food dissolved in the water in soil may pass into the roots of a plant.

PICTURE No 4

Apparatus required —A wide mouthed bottle, a tube open at both ends, the one end enlarged to the shape of a funnel, bladder, sulphate of copper, or milk, or solution of honey or treacle.

First fill the bottle with common drinking water, and then prepare a strong solution of sulphate of copper. Tie over the enlarged end of the tube with the bladder by means of string tied tightly, so that air may not enter, and then fill this tube with the strong solution of sulphate of copper, or with milk, or with solution of honey or treacle, and then dip the widened end into the water in the bottle, and hold it in its place by means of a cork. Mark the place where the liquid in the tube stands now (A). After half an hour or so the liquid will rise in the tube above the point (A), showing the liquid from the bottle has entered into the tube. On the other hand, it will be seen a small quantity of the liquid from the tube has passed into the bottle, as the water in the bottle is coloured with milk, etc., but that the quantity passing outwards is smaller than that passing inwards is shown by the rise of the liquid in the tube.

This process is called *osmose*. By this process the plants take their food from the water in the soil by means of their roots.

TRANSPIRATION

EXPERIMENT No 5

To show the process of transpiration (or perspiration) through the pores of the leaves, etc., of plants. Note—The hard stems of plants have not the power of transpiration.

Apparatus required —A good transparent glass jar or bottle, and an earthen pot containing a plant with healthy leaves.

Place the glass over the plant, and expose the whole apparatus to bright sunlight or daylight. After half an hour you will see the inner surface of the vessel quite dim with the watery vapour exuded from the leaves of the plant. The cold of the glass gradually condenses the vapour, which begins to flow down from the inner surface of the glass, showing that watery vapour is always exuded from the surface of plants. This action of the leaves of plants is called *transpiration*.

(Watery vapour is exuded not only from green leaves, but from other green portions of the stem through interstices called *stomata*.)

EVOLUTION OF OXYGEN FROM PLANTS

EXPERIMENT No 6

To show that living plants in the form of green leaves, etc, have the power of decomposing carbonic acid dissolved in water, etc, and of assimilating the carbon while setting free the oxygen, which is again added to the atmosphere

Apparatus required —A large bottle with a wide mouth, a few leaves of any plant, a small earthen basin which can hold the mouth of the bottle, a bucket full of water

Fill the bottle with water and leaves, and invert it in the basin full of water, so as not to leave any air bubbles at the bottom of the inverted bottle. Keep the bottle with the basin in the strong sunshine for about three hours. You will observe afterwards that some gas bubbles are seen adhering to the back of the leaves. This gas will collect in the upper part of the bottle. This is the oxygen gas evolved by the leaves through the stomata in the action of respiration. That this gas is not common air, but oxygen, may be proved by testing its properties.

The gas will probably relight a chip of wood the end of which is glowing, (i.e., a lighted piece of wood just blown out, but not fully extinguished)

FORMATION OF CHALK FROM LIME WATER

EXPERIMENT No 7

Apparatus required —A glass tube of half an inch in diameter and a few inches long, lime water, a glass vessel

Pour a little lime water* in the glass vessel, dip one end of the glass tube with your right hand into the solution. Hold the vessel in your left hand. Then blow in air with your mouth. After a few minutes, the clear water will become turbid, and finally will assume a milky appearance, owing to the formation of chalk†. If this milky water were allowed to stand still for a few hours, the chalk will settle down, and clear water will float on its surface.

The following is a list of the apparatus required to be supplied to each primary school for the purpose of such experiments. The list is divided into two parts, the first part containing the apparatus which is essential, and the second part apparatus which it is desirable should also be supplied to each school, if funds permit, to enable further experiments to be performed. The cost of the first set is Re 1 14, and of the second or non essential set Rs 2 12, making altogether only Rs 4 10.

List No I

Name of experiment	Apparatus.	Approximate price
1	2	3
		Rs A P
1 Bottle culture	2 bottles	0 3 0
2 Ditto	Magnifying glass	1 0 0
3 Osmose	A glass tube	0 2 0
4 Transpiration	A glass	0 4 0
5 Evolution of oxygen gas from plants	A big bottle	0 4 0
6 Lime water and formation of chalk	A tube	0 1 0
	Total	1 14 0

* Preparation of lime water —Take a few pieces of burnt lime and pour water on them in a vessel. Instantly it will begin to boil and a mass commonly eaten with *pan bida*, is formed. Then pour in some more water and keep it for a few hours, after stirring it well. Then pour off the clear solution without stirring the lime into a bottle and use it for experiment.

† Chalk is insoluble in water while lime is soluble.

Additional apparatus desirable, but not absolutely essential

List No II

Name of experiment	Apparatus	Approximate price
1	2	3
		Rs A P
1 Preparation of carbonic acid gas	A wide mouthed bottle, with two tubes, funnel, &c	1 0 0
2 Preparation of hydrogen gas	Two beakers	0 8 0
	A basin	0 8 0
	Acid sulphuric	0 4 0
	, hydrochloric	0 4 0
	Zinc	0 4 0
	Total	2 12 0

A very important practical portion in the teaching of agriculture in the Central Provinces is to be found in the fact that in every school where there is the slightest facility for it, a school garden is started. Naturally, these school gardens can be better fostered in the schools in the country than in those in town. The usual plan is for the plot of ground available to be marked out by small low raised banks into a number of separate plots, usually perhaps two or three yards square, and for each plot to be handed over to two of the boys of the school, who have to do practically all the work in connection with the plot in the way of sowing the seeds (usually those of vegetables and flowers), weeding, watering and generally bringing the crops up to maturity, when the produce of such plot of ground belongs to the boys who cultivate it.

The only expense in such a school garden is (1) for laying out the garden in the first instance, (2) for procuring the seeds, and (3) in some cases where water may have to be drawn up from a deep well, &c, a slight cost for part of the time of a cooly to draw up water, &c. As the third is an expense which can usually be avoided, and the second is one, which if the school master understands his work can be prevented by his collecting and saving the seeds, etc, from the plants that are grown in the garden, practically the cost of a school garden usually reduces itself to the cost of laying it out in the first instance, amounting possibly to Rs 3, Rs 5, or Rs 10 according to the size of the garden. Even this cost may be avoided by the school master (with the aid of the villagers, &c) doing the work himself. In the same way any tools required by the boys in the cultivation of their plots can always be borrowed from their own homes.

Definite instructions are issued in the form of circulars to school masters, etc, on the subject of school gardens, dealing with the soil of the garden, the area wanted, watering, manuring, cultivation, sowing and transplanting, and also indicating the various crops, vegetables, flowers, etc, which may be grown at different seasons of the year in such school gardens.

8(B). It has been pointed out that in town schools agriculture is partly replaced by the teaching of a general elementary course in science in the upper primary standard, while physical science commences after the upper primary standard, and continues through the middle standard. The latter course is to a considerable extent similar to the plan adopted in middle schools in Bengal, where physical science is usually taught. There is, however, one point of difference, inasmuch as in the schools in the Central Provinces apparatus is provided for demonstrating the simple physical facts, while in middle schools in Bengal apparatus for such purposes is usually entirely wanting. On the other hand it is, in my opinion, doubtful whether the selection of the Physical Science Text-Book and of the apparatus to illustrate it in the Central

Provinces schools is quite judicious. In the case of the apparatus given, I am sure the selection is too ambitious, and several of the pieces supplied are not, and could not be, properly used. In Indian schools of this type the apparatus must be of exceedingly simple and inexpensive nature—apparatus which can be renewed or repaired locally in small villages by ordinary bazar artizans. This, however, is not the case in the Central Provinces, and in several cases I saw pieces of apparatus (such as Tate's air pumps, Magdeburg hemispheres, &c) out of order, which certainly could not be repaired by the master of the school or by any local artizan, and which were hence quite useless. The cost of the usual simple set of apparatus to teach physical science in middle schools in the Central Provinces is said to be about Rs 26 or Rs 27, but in larger towns under rich municipalities as much as Rs 150 to Rs 200 is spent for this purpose.

In the case of the science subjects taught in class IV (upper primary class) of the town schools in the Central Provinces, it is partly of the nature of that which is taught as agriculture in village schools and partly elementary natural history, etc. It is only intended in this course to give a slight and superficial knowledge of the materials met with in every day life. There does not appear to be very much to comment on with reference to this section of the course. The subject and the teaching of it are probably not entirely satisfactory.

4 *Kindergarten*—Kindergarten methods are used in the lower classes of the schools, and all the teachers who are now sent out from the training schools have to go through this system as a regular part of their instruction. As mentioned previously, kindergarten drawing is practised in the lower classes. Kindergarten or action songs are also encouraged, and in many schools the first six of the kindergarten gifts are employed in teaching. The cost of a set of the first six of Froebel's gifts, as made at Nagpur, is said to be about Rs 7, but they are also made up in villages by carpenters, &c, for the use of village schools (where they are perhaps not quite so well finished as at Nagpur) for about Rs 4 only. The following is a short description of the gifts alluded to—

The first six kindergarten gifts of Froebel are usually—

The first gift of six soft balls, commonly of rubber covered with coloured woisted, but may be of wool only, representing the primary and secondary colours. With these the young pupils are taught to distinguish colours and to become acquainted with differences in material, shape, weight, and the properties of the balls. Games are usually designed in which the balls play a prominent part.

The second gift consists of a sphere, cylinder, and cube in wood. It offers opportunity for comparison first with the rubber balls, and then between the articles which constitute this gift as to shape, etc, etc.

The third gift is a cube (usually two inches) divided once in every way, thus forming eight cubes. With these various exercises in construction, etc, are carried out. The fourth, fifth, and sixth gifts consist of a cube variously divided, and these are used for similar exercises, but more advanced than those of the third gift.

Beyond these, as a rule, the schools do not go, though the seventh gift, a series of thin slabs or tablets, squares, half squares, equilateral pieces, etc, etc, for making patterns, and the eighth gift a number of small wooden rods used for making figures, letters of the alphabet, etc, would certainly be useful. From the tenth gift (consisting of arrangements for drawing) upwards, practically Froebel's gifts introduce the elements of hand and eye and manual training. They illustrate drawing, paper cutting, paper weaving and interlacing, modelling, etc, etc, and these are usually included under these particular headings in schemes of general education. If I might venture an opinion on the kindergarten teaching in the Central Provinces, I should remark that this part has been taken practically bodily from European books, and it is doubtful whether more satisfactory results could not have been obtained by working on Froebel's principle or system, but giving the system, etc, what might be called a local atmosphere. Some of the gifts, in the form of wooden cubes, divided into complicated geometrical sections, are undoubtedly quite unfamiliar to Indian children in their ordinary lives, and it would probably have been better to select materials and objects for kindergarten work which are to be found in

every village, or which are easily within the power of construction of every village school master

5 *Object lessons*—I found in every village school that I went to small collections of objects which were used for the purpose of object lessons. Generally also the village school master had either himself prepared or had persuaded a village carpenter to prepare a small cupboard or box with compartments for storing these objects, most of them being duly named and kept in a particular compartment of the box or cupboard. I heard also one or two object lessons given by the masters of the schools, but owing to my ignorance of *Mahrathi*, I can give only the general impression that the teachers seemed to know how to set to work to give object lessons.

Again, if I may make a criticism, it is to the effect that possibly the objects chosen might have been selected more judiciously. In some cases, various metals including even such valuable bodies as silver and gold, and the ores of such metals were taken as objects for lessons, and to my surprise gold quartz and silver ore were actually in the collections of some schools. It appeared to me that it would be better if the objects were such that they could all be procured in the school house or in the immediate neighbourhood of each school, so that there would be no expense in making the collection, and all the objects worked with would be well known. Further, it would be a great advantage if the boys of a school were made to collect objects themselves, which would form part of a small school collection, and which would be used subsequently for the object lessons in the class. These collections could be wholly or partially renewed from year to year by fresh batches of pupils. In this way the children would take much more interest—even a personal interest—in the subject of the object lessons, as they would deal with objects more or less belonging to them. If the system of object lesson teaching is extended to Bengal schools, some such plan as this could be tried, for it would be certainly more economical, and probably more interesting and effective as a means of education.

6 *Manual training*—I regret very much that owing to the discouragement which has been shown to this subject in the Central Provinces since 1891-92, I was unable to see the system at work in any of the village schools. It is, however, still taught in the training schools, and I was satisfied with the paper cutting and pattern making which I saw at the Nagpur School. I saw, however, no clay modelling except in the shape of former specimens of work. So far as I could judge, these two forms of manual training must have been working fairly satisfactorily, and it was certainly a pity, when progress had been made, that they were more or less stopped. All the four ordinary forms of manual training, paper work and clay modelling with the addition of card board work and sloyd work, seem to me to be very suitable for introduction into Bengal schools, but the work must be done in an exceedingly elementary way, and it must be a cheap system, and one that will not lead to the idea that any form of trade is being taught or fostered. That is, it must be taken up from the purely educational point of view, and probably no tools other than knives, scissors, &c., could be made admissible in such courses in schools. The introduction of trade or artizan implements—at all events at first—might probably lead to much opposition and might prevent any progress being made in this highly important educational training.

This really concludes the criticism of the modern subjects taught in the vernacular schools of the Central Provinces. It does not appear necessary in any way to review the course of instruction adopted in such subjects as reading, writing, arithmetic, geography, history, &c., for the methods followed in the Central Provinces and Bengal appear to be fairly similar. It may, however, be remarked that while history and Euclid find a place in the upper primary course in Bengal, they are not taught even as optional subjects in primary schools in the Central Provinces. In other respects the subjects taught are more or less similar.

The above remarks also exhaust probably all that it is necessary for me to say on the subject of the education of boys up to the middle standard.

In the case of girls' education in the Central Provinces, I may remark it is exceedingly backward and limited in amount. Very few girls' schools indeed exist, and the great majority of these only teach up to the upper primary

standard. There is little necessity, therefore, for noticing these schools in detail. It may, however, be mentioned that in girls' primary schools needlework is compulsory, drawing, grammar, object lessons or elementary science and kindergarten occupations and manual training being optional, of which any two may be taken. Sanitation, though not specially mentioned, is really compulsory, as it is taught in the reading lessons in the 3rd and 4th Readers. In the matter of agriculture, the chapters on this subject in the third and fourth Readers are cancelled for the girls' course.

There is also a difference in the method of teaching drill and gymnastics, and the physical exercises used in the girls' schools are more correctly described as action songs and calisthenics rather than drill and gymnastics. The system which I saw followed in a girls' school in Nagpur was more or less English or European in its character.

CLASSIFICATION OF VERNACULAR SCHOOLS AS REGARDS SOURCES OF INCOME AND NOTES AS TO INSPECTION OF SCHOOLS

Almost the whole of the schools in the Central Provinces are under public management, receive aid from public funds, and submit to regular inspection from the officers of the Educational Department. It is stated that there are less than 100 "venture" primary schools in the whole of the province and no "venture" middle schools, while the total number of primary schools in 1896-97 was 2,109 and of middle schools 149. Hence practically the venture schools may be neglected in any discussion of the condition of education in the Central Provinces. These vernacular schools appear to be divided into three classes—

- (A) Those maintained by Government or by Boards such as District Councils, Boards, Municipalities, etc., the expenses being wholly met from public funds. This may be called the "fixed grant" system.
- (B) Those maintained wholly by payment on the results of the examinations plus school fees. This may be called the "result grant" system.
- (C) Those maintained partly by contribution from grants made by Government to public bodies, and partly by "payments by results" of the examination, etc., of the pupils. This may be called the "combined" system.

The schools of classes A and C constitute by far the larger number, those of class B are not so much encouraged. In this respect the schools in the Central Provinces exhibit a marked contrast to the primary schools in Bengal, where all except a small proportion belong to the result grant system, i.e., they are paid solely by results.

The result grant system, in which a considerable number of schools in the Central Provinces are working, also differs decidedly from the system as worked in Bengal. The Central Provinces system gives a school aid calculated *partly* on the number of passes in an examination conducted after prescribed standards and *partly* on the average attendance of pupils. No school is examined for a result grant which has not on the date of examination met on 180 school days from the date of the last examination, or in the case of new schools from the date of registration. These qualifications (and others which are noted below) of the method of sole or simple payment on examination results appear to be very wholesome, and might probably be extended with advantage in Bengal.

The subjects for examination in the vernacular schools as pointed out previously, are divided into two classes, compulsory and optional. In these examinations no pupil can earn a grant who has not attended the school for at least 90 days. To pass in a subject he must obtain one third of the maximum marks, but he cannot earn a grant in more than four optional subjects. There are also other restrictions. In the compulsory subjects of any standard no pupil can earn a grant unless he passes in at least two of these subjects. In the optional subjects of the first standard no pupil can earn a grant unless he passes in the three compulsory subjects of the standard. In other standards he must pass in at least two subjects.

In the combined system of schools the fixed grant cannot exceed Rs. 6 per mensem, and the result grants are given at the rate of 50 per cent of the maximum rate attained in result grant schools.

In order to pass the upper primary examination a candidate must pass in the three compulsory subjects and at least two optional subjects.

I made enquiries into the working and results of the three classes of schools, A, B, and C, as indicated above, and I was assured by the Inspector of Schools that—

Class A — The fixed grant system (schools fully maintained from public funds) are by far the best, they give the best kind of teaching and education, but on the other hand they are the most expensive of the three classes.

Class B — The result grant system (schools paid no fixed grant, but only paid on the results of examination, etc.) These are the worst of all the classes of schools in the Central Province, giving the poorest education and least satisfactory discipline, but on the other hand they are decidedly the cheapest.

Class C — The combined system (schools paid partly by fixed grants and partly by results grants) These stand intermediate between A and B, and give a fair education, while they are decidedly cheaper than A, but more expensive than B.

Speaking generally, the housing of schools of classes A and C is better than that of B, though attempts are made to gradually provide schools of class B with suitable school buildings by appealing to private subscriptions, District Boards, etc.

It will be seen that class B practically corresponds in its method of working and general conditions to the ordinary lower primary schools in Bengal.

Another point which is worthy of note in the case of these schools is that while there are only 2,109 primary and 149 middle schools in the Central Provinces, and a correspondingly small number of high schools, yet there are four Inspectors of Schools (in addition to the Inspector General, who is an energetic inspecting officer 1), and 30 Deputy Inspectors of schools for supervising the work giving roughly to each superior inspecting officer 40 primary and secondary schools and to each Deputy 7 only. It will thus be seen that the superior inspecting officers can be, and are, much more in touch with and have far greater personal control over elementary education in the Central Provinces than is possible in Bengal with its enormous number of schools and relatively smaller staff of Inspectors. Further, the Deputy Inspectors in the Central Provinces can give long personal visits to schools, to teach new forms of instruction, or to correct mistakes, etc., while in Bengal the Deputy Inspectors have practically no time and no such opportunity of working in detail with primary schools. It is probably certain that to this relatively very strong inspecting staff a considerable part of the success of the Central Provinces educational scheme has been due, for the numerous inspecting officers have been able to personally and individually work out in the schools the improvements which it had been decided by Government to introduce.

The good results are also due partly, if not largely, to the system of training of teachers in normal schools, which has been practised in the Central Provinces to a larger extent than is the case in Bengal.

Hence it appears necessary to review briefly the existing system of training schools as carried out in the Central Provinces.

TRAINING SCHOOLS FOR TEACHERS

Training schools — There are three training schools for teachers in the Central Provinces. One is for teachers in English and native schools in Nagpur, and the others for native school teachers only in Raipur and Jabalpur. Probably about 100 to 110 teachers are trained and turned out each year and as there are roughly only about 2,200 schools in the Central Provinces, the supply would appear to be fairly ample.

The training institution at Nagpur, contains two departments, a secondary and a primary. In the secondary department graduates, F A certificate holders, and those that have passed the matriculation examination of any Indian university are trained for a year for employment in colleges and in high schools and in those middle schools which teach English. In the primary department students are prepared for employment in primary and vernacular schools generally by one or two years' course, according to the standard worked for.

In the normal school arrangements are made for instruction in—

- I—The Principles of Education
- II— „ History „ „
- III— „ Practice „ „ including organisation of a school, methods of teaching, discipline, &c, and „
- IV—Extra subjects (which may be taken up optionally), Physical Science, Drawing, and manual training
- V—And in the lower parts of the school arrangements are made for continuing the general education of the teachers

In the highest grade of teachership examination all the first four of the above subjects are taken up and have to be passed. For the secondary grade of certificates, section I is omitted, while even for the certificates of the primary grade of teachers the following subjects have to be passed*—

* Page 82 of Central Provinces Education Manual

- A—Easy questions on the Kindergarten system
- B—Questions on the best method of teaching reading, spelling, grammar, writing, arithmetic, geography, drawing, and object lessons in a primary school
- C—Questions on the art of oral teaching generally
- D—Questions on the form of school registers, the mode of keeping them and making returns from them
- E—To write notes on a lesson on a given subject
- F—Questions on the organisation of a Primary school, and proof of ability to maintain order and inculcate principles of truthfulness, obedience, and general morality

Only teachers who have passed the usual teachership examination are now allowed to join schools which receive aid from public funds, and comparing the standard which has to be reached for even primary teachers in the Central Provinces with the standard of qualification, or rather the want of qualifications, of the ordinary gurus in primary schools in Bengal, it will be seen how backward Bengal is in this respect.

It has not been thought necessary to add here any figures as to the cost of the ordinary work of normal or training schools. Such schools already exist at Calcutta, Hooghly, Dacca, Bankipur, &c, and their cost in Bengal is well ascertained.

The above subjects represented the ordinary course of instruction for a primary teacher up till recent years. Since, however, agriculture has been made a more prominent subject of teaching in primary schools, the course of instruction for teachers has also been extended, and they are now called upon to go through a six months' course in agriculture, theoretical and practical, and on the methods of teaching it, in the agricultural school attached to the Agricultural Experimental Farm at Nagpur. This course is partly theoretical, partly practical in the laboratory, and partly practical on the Farm. In addition also each teacher has a plot of ground given him about two yards wide by five or six yards long, which he has to cultivate entirely himself (to dig, to plant, to weed, to water etc, etc), and the produce of this during the six months' course belongs to the student.

Batches of about 60 are taken each half year, of whom about a quarter consist of students who have just passed through the training school, while the remaining 45 consist of actual teachers of schools who are drafted up from their schools, two or three being selected from each district for each course. At the end of six months there is the usual examination on which certificates are issued. In this way about 110 to 120 teachers of primary schools are trained annually in agricultural methods, and as time goes on practically all the teachers

of the province will become thus trained In the case of the training school students who have just passed as certificated masters, they receive a scholarship allowance of Rs 5 a month, while the actual masters drafted from the mufassal schools receive their own full pay, the pay of their substitutes being provided by the various District Councils, Boards, etc, under whom they are serving

As this represents an important development in the method of training primary teachers, which is not at all represented in Bengal at present, and as it is connected with certain proposals made on the establishment of the Lower Agricultural Class at Sibpur (which has been lately opened, but which has not yet filled) it will be perhaps well to give a few details of the kind of instruction followed, and as to the staff, etc, required in the institution

The following is the curriculum of study in the class which is intended for the instruction of vernacular school teachers —

1	Agriculture	As in Fuller's Primer
2	Chemistry	Selected lessons to illustrate Fuller's Primer
3	Kasra	Study of methods of land records, etc, and how to fill up certain forms used by village patwaris and to learn cognate matters
4	Drawing	Primary course, model and freehand
5	Veterinary science	Lessons as given in Fuller's Primer
6	Botany	Lectures as far as required to illustrate Fuller's Primer

The actual work which these teachers have to get through in their six months' course of study is more clearly shown in the following detailed syllabus of study

Syllabus of Demonstration work to illustrate the Agricultural Primer

Preliminary — Exhibit the magnifying glass, show magnifying powers of a drop of water on leaf hairs explain general structure of the microscope and show its effect with previously prepared slides and also with objects (such as a flea) prepared for the occasion —

Lesson I — (With the microscope) *Vorticella rotifera* (fixed animals) desmids and diatoms (moving vegetables) volvox (the same in early stage)

(On the table) Sensitive plant examples of plants which open and close at certain hours

(With the microscope) The cellular structure of the root and stem of a plant

Lesson II — (On the table) Structure of the orange, plantain stem tap roots and crown roots, root hairs as seen on a plant dug up and on the rootlets of a plant grown in water proof of root suction exhibit endosmosis with a tube closed at one end by a piece of bladder aerial roots of the maize bargad and orchid compare beet with carrot, onion and potato as specimens of root and of stem development

Lesson III — (With the microscope) Fibro vascular bundles in the plantain cross sections showing their position in the plantain and the arhar also the thickness of cell walls

(On the table) Sections of trees showing the annual growth under the outside bark flax fibre and hemp fibre extracted from the plants Experiments to show transpiration with a growing plant under a shade, then with leaves having their petioles in water and out of water

(With the microscope) Stomata of leaves, chlorophyll granules

Lesson IV — (On the table) Cotton flower and seed

(With the microscope) Anthers and pollen grains pollen grains adhering to stigma

Lesson V — (On the table) Compare with cotton flower a flower of the pea-tribe, a til flower, a marigold the flowering stock of the maize, male and female flowers of the gourd tribe flowering stalks of the grass tribe exhibit the Paris model of a pea flower and diagrams

Lesson VI — (On the table) Repeat the experiment to show endosmosis demonstrate the existence of invisible gases by showing the effect on light and on life of oxygen and carbonic acid gas confined in jars, prepare oxygen gas from chlorate of potash or red oxide of mercury, prepare carbonic acid gas from charcoal and prove its existence by lime water show its existence in breath expelled from lungs show the evolution of oxygen gas by leaves exposed to sunlight, in water, and the clearing of a jar of carbonic acid by plant action so as to render it possible to burn a light in it illustrate the gaseous, liquid and solid conditions of matter by an experiment with sulphur

Lesson VII — (On the table) Compare good and bad wheat seed and cotton seed, prove by pot cultivation that a good seed of wheat or cotton will produce a finer plant than a bad seed, if indeed the latter does not fail to germinate altogether explain the loss in sowing for wheat a large amount of seed which does not germinate

(In the field) — Show the effect on plants of not being crowded, but having plenty of room and air

Lesson VIII — (On the table) Compare different kinds of wheat seed, pissi, haura, kathsa, and different kinds of cotton, bani, jari American

Lesson IX—(On the table) Show by cultivation in distilled water that a plant can for some time live on what it obtains from air alone

Chemical combination, its difference from mechanical combination illustrated by an experiment with zinc and sulphur, heated and unheated explode hydrogen and oxygen and produce water decompose water by electricity compare a piece of chalk with specimens of calcium carbon and oxygen gas contrast chalk (carbonate of lime) with pure lime (lacking carbonic acid) prepare lime water from the latter drive off carbonic acid from the former and show the formation of chalk by the combination of the carbonic acid with the lime water repeat the experiment on lime water with carbonic acid formed from charcoal illustrate chemical combination by the formation of copper nitrate show the rusting of iron by combination of oxygen then drive off the oxygen from red oxide of mercury and show its reduction to pure metal and loss of weight owing to loss of oxygen

Repeat the experiments described in the second clause under lesson VI show loss of weight by dessication in case of cabbage or other fleshy leaved plant weigh a piece of green bamboo then dessicate to show weight of water then reduce to charcoal to show the weight of substances other than carbon and mineral constituents then reduce to ashes to show weight of mineral constituents

Lesson X—(On the table) Exhibit specimens of different kinds of soils and analyze them mechanically to show various degrees of fineness

(In the field) The box system of keeping cattle and the proper storage of manure under cover

Lesson XI—(On the table) Effect of watering with solution of saltpetre in pot cultivation Pot cultivation with various manurial substances

(In the field) The sewage farm the Ville and manure series of experimental plots

Lesson XII—(On the table) Ball and ring experiment to show expansion by heat, contraction by cold the thermometer cracking of soils by alternate heating and cooling illustrated by heating a glass rod and cooling it suddenly Show by mechanical analysis the varying proportion of fine particles in different samples of soils

(In the field) The construction and working of the earth turning plough

Lesson XIII—(On the table) Capillary action in a fine tube in a sun dry brick contrast with a heap of loose earth

Lesson XIV—(In the field) Embanking for wheat, effect of irrigation on wheat and garden crops

(On the table) Illustrate the effect of irrigation in pot cultivation

Lesson XV—(On the table) Specimens of *kans grass* and of *agia* if procurable

(In the field) Effect of allowing a field to become weedy or its plants overcrowded

(With the microscope) Rust, ergot bunt and smut

Lesson XVI—(In the field) Construction and use of the following implements —

Swedish plough compared with the local Nagpur plough

Bakhar Daura Dunda Tifan, Arara

Chain pump steel lift moth

Winnowing, thresher sugarcane mills

Lesson XVII—(In the field) Ensilage if possible illustrate cattle disease by examination of patients in the veterinary dispensary

The following time table also shows the scheme of study of the students —

NORMAL AGRICULTURAL CLASS

TIME TABLE

	7—8	8—9	9—10	3—4	4—5	5—6
Monday	Agriculture			Kasra		(Leave)
Tuesday	Botany	Agriculture		Drawing	Gymnastics	Garden work
Wednesday	Do	Ditto		Model Farm	Model Farm	Ditto
Thursday	Chemistry	Ditto		Drawing	Gymnastics	(Leave)
Friday	Ditto	Ditto		Kasra	Ditto	Garden work
Saturday	Examination			Drawing	Veterinary science	Ditto

The staff which is required to teach these vernacular masters in two sections using two languages (Mahrathi and Hindi) and to superintend their practical training has also to take two higher grade Agricultural classes (first and second grade) working for revenue, etc, appointments which will be

referred to later on The cost of the teaching staff is, however, moderate It consists of the following gentlemen —

	Pay Rs
<i>Principal</i> —R S Joshi D Ag (Who gets also Rs 175 as Superintendent of the Experimental Farm)	50
<i>Lecturer</i> —I N Jakati, D Ag	80
„ B V Joshi (Rs 40 to Rs 60 in five years)	50
<i>Drawing master</i> —(Comes from training school)	Nil
<i>Veterinary lecturer</i> —(receives an allowance of (Is also Veterinary Inspector to D V C and gets Rs 70))	20
Total	200

That is for training 120 vernacular teachers per annum, and also the two agricultural classes, the total cost of lecturers, etc., is Rs 200 a month only

As stated previously, there is a higher (English) class in agriculture the course for which extends over two years and which is held in the same building with the vernacular master's agricultural class These students on passing out have a preferential claim on certain revenue settlement and Court of Wards appointments As this class is interesting at the present time, as it corresponds to the new agricultural class at Sibpur, I made a few enquiries as to its working The numbers attending it are not large, as there are only fourteen students in the first year class and four students in the second year The course of study which they have to go through comprises—

Agriculture (theory and practice)
 Surveying (theory and practice)
 Chemistry (theoretical and practical)
 Botany
 Geology
 Elementary Veterinary Practice and Science
 Drawing

In the case of practical agriculture each student is given a plot of about a quarter of an acre of land, which he is required to cultivate entirely with his own hands, and the produce of which he is allowed to keep They have also to do actual work in connection with the experimental agricultural farm in studying improved forms of agricultural implements, in studying the effects of manures on various crops, etc., etc

It may probably be interesting to place on record the detailed course of studies which these agricultural students have to work through, for the purpose of comparison with the course which is being taught at Sibpur

AGRICULTURAL CLASS, NAGPUR

Syllabus of Studies

A—AGRICULTURE

SOILS—(*First year*)—Origin of soils soils *in situ* and alluvial soils description of principal soils of the Central Provinces with names and qualities classification of soils by mechanical analysis fertility of soils as dependent on composition, texture, depth and lie of surface effect of climate in improving soils improvement of soils by levelling and by embankment cost of these processes

(*Second year*)—Physical properties of soils their absorbent and evaporative powers capillary action chemical composition of soils considered with reference to supply of the more important plant food elements the use and abuse of soil analysis soil analysis by cropping (Ville's method) dormant and active condition of plant food elements effect of climate and of tillage in converting plant food from the dormant to the active condition,

loss of plant food by surface scouring the exhaustion of soils, its signs and its causes uses and methods of fallowing, rotation of crops

TILLAGE—(*First year*)—Objects to be attained influence of climate in assisting and obstructing tillage use of a fine tilth, the conditions in which different soils are suitable for sowing different systems of tillage instanced by the systems followed for wheat for *juari*, for sugar cane and for rice implements used for tillage, the *nagar* in its different forms, *bakha*, the clod crusher English ploughs and harrows

(*Second year*)—The history of the plough the theory and method of adjusting the English plough the materials used for various implements and the method of their construction special operations of tillage for breaking up waste land or eradicating grass the advantages and dangers of deep ploughing the effect of embanking land in lessening the need of tillage, the cost of the various operations of tillage

SOWING—(*First year*)—The condition in which land is fit for sowing, methods of sowing practised with different crops the *nari* plough, *tifani*, the *argara* the broadcast sowing the depths to which different seeds should be sown thick and thin sowing, English drills the growth of seedlings for transplantation the advantages of transplanting

(*Second year*)—The vitality of seeds and means of ascertaining whether seed has retained its vitality or not special preparation of seed for sowing use of sulphuric acid for cotton pickling seed improvement of seed by special cultivation and selection the principles to be followed in selecting seed, the use of changing seed special treatments in preparing seed beds for the growth of seedlings for transplantation, cost of sowing and transplanting

MANURE—(*First year*)—The need of applying manures exhaustion of soils by continuous cropping soils which give and do not give good returns for manuring descriptions of manure used by the people and the method of their application cattle dung, the best method of storing it the condition in which it should be applied the seasons for its application, green soiling bones, the manufacture of bonemeal saltpetre town sewage

(*Second year*)—Manures considered in relation to plant food the particular plant food supplied by different manures suiting the manures to the requirements of the soil the changes occurring in manure pits and the means of regulating them so as to prevent loss of value the method of making bone superphosphate the theory of green soiling and of growing crops in a mixture use of slaked and unslaked lime and gypsum the various methods of utilizing town sewage in agriculture the cost of various manures and of applying them

IRRIGATION—(*First year*)—The crops for which irrigation is needed monsoon irrigation of rice, cold weather irrigation of wheat vegetable, and sugar cane, different methods of lifting water the well bucket, the Persian wheel, the lever lift, the swing bucket, pumps kuteha and pukka wells the means of irrigating from streams and nalas, the irrigation of rice and sugar cane from tanks

(*Second year*)—The extent to which water enters into the composition of plants, use of water as a carrier of plant food sources from which plants derive their water supply the rainfall the retention of moisture by different soils the depths from which plants can draw sub soil moisture the circumstances which render irrigation necessary its use in distributing the supply from rainfall rather than in adding to it the method of constructing different water lifts and their cost the construction of pukka and kuteha wells the method of lining kuteha wells the places favourable for well construction the construction of tanks and the places favourable for their construction the methods of roughly testing discharges and ascertaining the efficiency of different means of lifting water, surface and underground drainage natural and artificial

PROCESSES INTERMEDIATE BETWEEN SOWING AND REAPING—(*First year*)—Weeding the names and characters of the principal weeds the injury which weeds cause to crops the importance of not permitting weeds to seed Weeding by hand and by bullock power the *dawra* and *dundia* cost of weeding saving of weeding by good tillage, importance of keeping the ground open round the roots of growing plants in order to check evaporation

(*Second year*)—Increasing the yield of crops by checking their growth lopping cotton the 'beasi' of Chattisgarh watching crops methods of scaring animals cost of watching cheap methods of fencing means of trapping noxious animals

GATHERING AND CLEANING—(*First year*)—The harvesting of *juari*, *til*, wheat and linseed the means of threshing and cleaning them used by the people contrasted with threshing and winnowing machines the importance of proper cleaning the meaning of refraction in trade

(*Second year*)—The harvesting of rice cotton, sugar-cane and tobacco, rice cleaning cotton ginning, sugar boiling and tobacco curing, the manufacture of drained sugar

GENERAL—(*First year*)—The Indian seasons and the crops which grow in them, the effect of heat and cold moisture drought and cloudy weather on different crops, crop diseases rust ergot and caterpillars

(*Second year*)—The principal crops grown in the Central Provinces, the habits of growth of their roots and stems and their effects in cleaning land, enriching or impoverishing it, the amount of each principal plant food contained in a crop of wheat, and the sources from which it obtains these foods, the part played by the atmosphere in the nutrition of plants carbonic acid, its presence in the air and its fixation by plants the ammonia received by the soil in rain, Nessler's tests, nature of fungoid disease as shown by the microscope

CULTIVATION OF SPECIAL CROPS—Students will be practically taught to grow and prepare for market the following crops —

(*First year*)—*Juarí, til, wheat and linseed*

(*Second year*)—*Cotton, rice, sugar cane, tobacco and garden crops*

FEEDING AND CARE OF STOCK—(*First year*)—The food to be given to cattle in work and out of work, importance of a mixed diet, advantage of giving salt injury resulting from sudden change from dry to green food, the comparative advantages of grazing and stall feeding, the growth of fodder crops *popul, lakhori, guinea grass*

(*Second year*)—The chief breeds of cattle found in the Central Provinces the best methods of housing cattle and preserving their manure, the use of the chaff cutter ensilage the comparative merits of cotton seed, *karbi* wheat straw rice straw and pulses as cattle food, the influence of these foods on the value of cattle dung as manure

FRUIT GROWING—(*First year*)—The methods of sowing and transplanting mangoes, oranges, plantains and guavas

(*Second year*)—Grafting and budding

B—ELEMENTARY CHEMISTRY

First year—Changes occurring in air during the burning of a candle, chemical action, indestructibility of matter elements and compounds, resolution and formation of compounds by analysis and synthesis metals and non metals water its decomposition by electricity into oxygen and hydrogen other methods of preparing oxygen and hydrogen properties of oxygen and hydrogen ozone, its formation and properties, determination of the composition of water by volume and weight three physical states of water, ice, steam change of state produced by heat expansion of bodies by heat, thermometers, maximum density of water latent heat of water, evaporation, weight of water specific gravity, compressibility of water Florentine experiment porosity of matter purity of water hard and soft water, filtration and distillation, water of crystallization solvent property of water, liquid diffusion, dialysis osmose air chemical composition of air difference between simple mixture and chemical compound, eudiometer, preparation and properties of nitrogen, functions played by the several constituents of air in the economy of nature action produced by animals and plants on air weight of air, barometer air pump combustion carbon its varieties and properties structure of flame blow pipe reducing and oxydising flame preparation of coal gas Davy's safety lamp, preparation and properties of nitric acid ammonia and carbon dioxide chlorine, its preparation and properties preparation and properties of hydrochloric acid, aqua regia, bleaching powder and its uses occurrence, modifications and properties of sulphur, silicon, its occurrence and properties occurrence, preparation modifications and properties of phosphorous occurrence and properties of zinc tin, lead, copper, mercury, silver, gold and platinum

Practical—Solution and filtration preparation of hydrogen, oxygen, ammonia carbon dioxide and nitric acid, mechanical analysis of soil, detection of lime in soil and chemical analysis of simple salts containing the following basic and acid radicals —

Basic radicals—Lead silver mercury, bismuth, copper, cadmium, arsenic antimony, iron, aluminium, chromium, nickel cobalt manganese, zinc

Acid radicals—Sulphuric, carbonic, nitric, hydrochloric

Second year—Atom and molecule atomic weight laws of combination nomenclature, symbolic notation and formulæ, nature of acids, bases and salts, preparation and properties of sulphuric acid and hydrogen sulphide silica, its occurrence and properties tribasic phosphoric acid, its preparation and properties, preparation and properties of potassium, caustic potash, potassium carbonate, potassium nitrate, composition of gunpowder, composition of soap, sodium caustic soda, sodium chloride, sodium carbonate, sodium nitrate sodium sulphate ammonium ammonium chloride, carbonate, nitrate and sulphate, calcium caustic and slaked lime calcium carbonate sulphate and chloride aluminium, alumina, aluminium sulphate formation of clay, composition of glass, porcelain and earthenware, magnesium, magnesia, magnesium sulphate manganese, black oxide of manganese iron, manufacture of wrought-iron, cast-iron and steel, ferrous sulphate and sulphide, ferric sulphate, carbohydrates, cane sugar, grape sugar, starch and woody fibre albuminous substances, fibrine, casein, gluten and gelatin composition of bone blood, saliva, gastric juice bile, milk and urine

Practical—Chemical analysis of simple salts, containing the following basic and acid radicals and a few mixtures of the above salts —

Basic radicals—Barium, strontium, calcium, magnesium, potassium sodium, ammonium

Acid radicals—Sulphuric, carbonic, silicic, phosphoric, hydrochloric, nitric

Manufacture of superphosphate, detection of organic acids in soils, detection and distinguishing of starch and sugar, detection of phosphates, potassium compounds and calcium compounds in soil and ashes of plants

C—ELEMENTARY GEOLOGY

First year—Object of geology crust of the earth materials of which the crust is made definition of rock and mineral three great classes of rocks—(1) sedimentary (including organically formed), (2) igneous and (3) metamorphic description of typical specimens of the different classes of rocks, sandstone chalk, granite, gneiss origin and mode of formation of the different classes of rocks, change producing agencies atmospheric agencies action of carbon dioxide oxygen, moisture, frost and winds formation of soil *in situ* aqueous agencies action of streams, rivers springs seas and ice action organic agencies coral zoophytes shell fish foraminifera peat mosses, &c formation of coal, igneous agencies, interior of the earth hot springs volcanoes, earthquakes and slow movements of the crust fossils and fossilization uses of fossils in geology general characters of minerals of common occurrence quartz chalcedony jasper agate, flint felspar, hornblende, zeolite mica calcite, gypsum apatite, fluor spar rock salt

Second year—Structure of rocks stratified oolitic, crystalline, glassy, porphyritic vesicular, amygdaloidal schistose arrangement of rocks stratification, ripple marks and rain prints conformable and unconformable strata dip strike out crop, anticline and syncline faults metamorphism, bosses intrusive and interstratified sheets, veins and dykes mineral veins characteristics of different kinds of rocks sandstone grit conglomerate shale limestone, dolomite gypsum, rock salt, iron stone shell marl, coral rock chalk peat, lignite, coal graphite, anthracite, bombs volcanic ash lava obsidian pumice trachyte, granite basalt, laterite, slate, mica schist gneiss marble succession of strata relative age of rocks tests for determining the relative age of rocks geological divisions azoic, palaeozoic, mesozoic, cenozoic nebular hypothesis azoic rocks and their occurrence in India, composition distribution economic products and characteristic fossils of the formations of stratified rocks silurian devonian, carboniferous permian, triassic oolitic, cretaceous, tertiary and recent principal formations of Peninsular India Gondwana, jurassic, cretaceous, Deccan trap tertiary, post tertiary

Practical—Identification of the rocks and minerals of common occurrence, and a general knowledge of the geology of Nagpur based on Hilsop's account of it

D—ELEMENTARY BOTANY

First year—General characters of flowering plants structure of a typical plant organs of nutrition and reproduction characters of roots stems leaves root fibres and root hairs true and adventitious roots aerial roots forms of roots parasites and epiphytes buds forms of stems tendril spine prickles parts of leaf duration, arrangement, outlines, margin and surface of leaves venation, simple and compound leaves vernation, inflorescence bracts involucre receptacle floral whorls insertion, adhesion, and cohesion of parts of floral whorls suppression and multiplication of parts aestivation placentation description of specimens of plants functions of root, stem leaves flower fertilization crossing classification species genera orders and classes primary division of plants, flowering and flowerless distinguishing characters of dicotyledons and monocotyledons, structure of plants of the following natural orders, Leguminosae Malvaceae Cucurbitaceae

Second year—The fruit and its parts dehiscence of fruits classification of fruits structure of different kinds of fruits, legume drupe capsule berry, achene, nut the formation and development of the following fruits—Orange guava, mulberry, fig cotton pod cucumber pea mango cocoanut, the seed and its parts germination of seeds, conditions essential for germination surface coverings and appendages cells, their forms, structure, composition and contents growth by division of cells tissues of plants, parenchyma epidermis wood bast and vascular tissues latex vessels fibrovascular bundles internal structure of root stem leaves arrangement of tissues of stem in dicotyledons and monocotyledons food of plants conditions of plant growth selection and absorption of food and storing of nutriment ascent of the crude sap respiration, transpiration, assimilation descent of sap influence of light and heat on plants origin of species structure of plants of the following natural orders—Compositae Cruciferae Myrtaceae, Urticaceae, Graminae

E—LAND SURVEYING

First year—Plotting to scale map drawing and colouring and the use of conventional signs chain surveying by triangles and by sight rule survey by intersection calculation of areas by mensuration and by acre comb

Second year—Use of the theodolite and chain in traversing traversing with the sight rule and protractor Gale's method of plotting a traverse, proving a traverse and calculation of areas by universal theorem use of the planimeter, proportional compasses and pantograph

F—DRAWING

First year—Free hand

Second year—Model.

G—VETERINARY SCIENCE

First year (junior class) students

Anatomy—The main anatomical parts, and the practical names given to them by veterinarians, the age of bullocks, the names of important joints contents of the thorax, abdomen and pelvis, with their names and positions the different parts of the feet of a bullock, practical dissection

Physiology—The function of important organs in the chest and abdomen, and of the urinary organs Respiration, circulation and the process of digestion

Practical demonstration—Handling and cating animals—Methods of throwing bullocks the names and uses of the veterinary appliances at the hospital, and the uses of simple surgical instruments, including the clinical thermometer and catheters Castrating instruments The feeding management, and general keep of cattle

The dressing of wounds and ulcers, and treatment of ordinary cases attending the hospital.

Materia Medica and Pharmacy—The methods of making up and administering drenches, pills Making infusions, decoctions, powders, ointments and liniments The names, uses and doses of the principal medicines, both English and country with their actions, such as narcotics, diuretics astringents purgatives, diaphoretics, disinfectants stimulants, sedatives and tonics Botanical names of plants forming some of the above with ocular demonstration if possible

Second year (senior class) students

- (1) The four deadly forms of cattle disease with their chief symptoms and medicinal treatment Sanitary measures for the suppression and prevention of these diseases
- (2) Minor diseases of cattle, with chief symptoms and their treatment
- (3) Treatment of ordinary forms of wounds broken horn and ulcers
- (4) *Post mortem* examination
- (5) The popular method of castration, with practical illustrations and the principles of cattle breeding
- (6) Lameness sprains, shoulder slip, etc, with the names of the diseases of main joints and their treatment
- (7) Surgical operations viz opening abscesses, removing tumours, tapping the abdomen for hoven, etc, blood letting

The course of study and practice appear to be very practical and suitable, and likely to turn out men who will not be above their work, but who will take a practical interest in all matters connected with agriculture

Probably, however, it is not necessary to go into greater detail in connection with this point

Teachers' Manuals

The last point it appears necessary for me to refer to in connection with my visit to the Central Provinces is on the subject of teachers' manuals

It has been found desirable there to prepare books for the use of teachers of various grades of schools, treating on the various phases of school life, and the best methods of obtaining good results

A manual was prepared many years ago by Mr Carnduff, who was an Inspector of Schools in the Central Provinces His work, or at all events the English edition, is now out of print A work called *Siksha Patrika*, which is still used by teachers in many schools in the Central Provinces, is said to be a Hindi translation of Mr Carnduff's work It appears to be a work which has done, and is doing good It contains chapters on the qualities required in masters and pupils, and on the procedure as to registers, time tables, management of schools and classes, etc, etc Then follow instructions as to the best methods of teaching classes various subjects in various standards, and afterwards general subjects dealing with the management of school work, the connection of teachers with school committees, the nature of school buildings and school apparatus, etc There was, and is undoubtedly, ample scope for such a work, and specially there is scope for such a work in Bengal

As Mr Carnduff's work is out of print, and as the introduction of modern subjects and methods of teaching had rendered the work out of date Mr Spence, the Head Master of the Nagpur Training or Normal School, has written a Teachers' Manual, which is, I believe, really to be printed Translations of it are now being prepared in Hindi, Marathi, etc, and I am informed when the translations are ready, the work will be simultaneously published in English and the vernaculars

The Committee which is now sitting for the purpose of revising or remodeling the system of vernacular education in Bengal had at one of its first meetings come to the conclusion that a Teachers' Manual is urgently wanted for the use of school masters in Bengal, and the fact that the want has also been found, and is being supplied in the Central Provinces will probably show that the conclusion of the Committee was sound.

CONCLUDING REMARKS

In concluding my remarks on the subject of the vernacular education in the Central Provinces, and comparing it with that in Bengal, I am constrained to remark that in such matters as drill, drawing agricultural teaching, physical science teaching, kindergarten teaching, and object lesson teaching, the vernacular schools in the Central Provinces are very decidedly in advance of any thing we can show in Bengal. In the matter of manual work also a good beginning was apparently made in the Central Provinces, and so far as it went the attempt was successful, and proved that manual training can be introduced in Indian schools.

All these modern methods and subjects of education therefore have been shown to be practical in one province, and it remains to be seen whether equally successful, or possibly more successful, results could not be obtained in other provinces, such as Bengal. Experience has there shown that such subjects are well suited to Indian children, and that they take much interest in them, and further that the introduction of modern methods of teaching does not enhance the cost of education, while European experience has proved that education conducted on these lines is far more satisfactory and gives far better results than when confined to the old methods and subjects of teaching.

ALEX PEDLER

FIRST FORECAST OF THE JUTE CROP IN BENGAL FOR SEASON 1899

THE following is published for general information

F A SLACK,

The 5th July, 1899

Offg Secy to the Govt of Bengal

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

First forecast of the jute crop in Bengal for season 1899

Explanatory — The present forecast furnishes estimates of the area and outturn of the jute crop up to the middle of June, and is compiled from the returns received from the 26 important jute growing districts of these Provinces. The cultivation of jute outside these districts is insignificant and has been left out of consideration.

2 *Character of the season* — The rainfall in January was generally in excess of the normal in all the jute growing districts except Orissa. In February, it was above the normal in East Bengal, Jessore, and Midnapore, and below the normal in all the other districts. In March, again, it was below the normal everywhere except in Jalpaiguri and Ranpur. In April, the rainfall was well distributed, and was generally above the normal. Very heavy rain was received in this month in Khulna and Noakhali. In May, with the exception of Burdwan and a few districts in North Bengal and Bihar, the rainfall was everywhere above the normal and was excessive in East Bengal and in the districts of Hughli, the 24 Parganas and Nadia. This excess does not appear to have affected the crop much in East Bengal (Noakhali excepted) but is reported to have prevented the full area from being sown in Hughli and the 24 Parganas, and to have injured the seedlings in Hughli and Nadia. In the first fortnight of June, the weather was, on the whole, seasonable, and weeding operations were carried out successfully in most places, but the rain that has fallen up to date this month may have interfered somewhat with late sowings.

3 *Area cultivated* — In the first forecast of the jute crop for the season 1898, it was explained that the figures of normal area as given in that report were obtained from a consideration of the actual areas sown during the last five years. Those figures have been accepted in the present returns as more or less correct in the case of most districts, but they have been revised by the District Officers of Bardwan, Nadia, Ranpur, Dacca, Fardpur and Buckargunge, and with these revised estimates, the normal area under jute now amounts to 2,189,400 acres against 2,224,500 acres shown in the forecast of last year. The total area in Bengal sown with jute during the current year appears from the returns appended to this note to amount to 1,914,500 acres against 1,624,400 acres sown in 1898. The great decrease in 1898 was due to a fall in the price of jute and a simultaneous rise in the price of rice. Since then the price of jute has risen while that of rice has fallen, and the increase in the area sown with jute this year, amounting to 290,900 acres or 17.8 per cent, is undoubtedly due to these fluctuations in prices. It will be noted, however, that the area is still smaller than that which was sown in 1895, 1896

and 1897, the cultivators not having yet forgotten the fall in the price of jute which took place in 1897

4 *Character of the crop*—In spite of the excessive rainfall in May in many important districts the prospects of the crop as reported up to the middle of June are good, and the latest reports received in this Department from the chief jute growing districts confirm this favourable report

In the eleven important jute growing districts marginally* noted, which each have an area over 50,000 acres and contain about 87 per cent of the total jute growing area of Bengal,

* Mymensingh Rangpur Tip-
pera Dacca Labna Faridpur
Rajshahi Dinajpur Bogra
Tumna Jalpaiguri

the average outturn estimated for the year amounts to 93·2 per cent. In 10 districts, the present estimates of the crop are returned as 100 per cent or over 100 per cent, in 12 districts they are now estimated at 75 per cent or below 100 per cent, and in 4 districts only, viz, Hughli, Nadia, Darjeeling, and Noakhali, are the returns below 75 per cent. Although rain has been somewhat excessive lately, it does not appear to have injured the crop, but the final outturn is greatly dependent on the weather experienced in July and August and on the height of the rivers in those months

It would appear probable, therefore, that if the present conditions continue, a crop slightly below the average will be reaped in the area sown this year. It must be remembered, however, that this area is still a good deal below the average, and that the total outturn for the whole Province will be accordingly, in all probability, considerably below the normal

5 *Stocks of previous crops in hand*—It is reported by almost all District Officers that very little jute is now left in hand from the stocks of 1897 and 1898

6 *Gross outturn*—Taking into consideration the estimates of area and outturn detailed in the returns, and accepting 3 bales per acre as the outturn of a normal or 100 per cent crop, the gross outturn of jute may be roughly estimated for the present crop at 58 lakhs of bales. The normal outturn for the Province may be taken as about 66 lakhs of bales, so that the present estimated outturn approximates to 87 per cent of the normal outturn. Taking 16 annas to represent this normal outturn, the outturn of the present crop, is thus estimated to amount to 14 annas of the normal. As noted in the forecasts for the year 1898, the above is at best only a rough estimate. The District returns are published in full, and those who are interested in the jute trade are in a position to make such deductions from them as their experience may suggest

CALCUTTA MUNICIPAL BILL

MUNICIPAL DEPARTMENT

The following correspondence is published for general information

E W COLLIN,

Offg Secy to the Govt of Bengal

The 11th July 1899

No 180T, dated Calcutta, the 4th May 1899

From—The Asst Secy to the Government of Bengal, Legislative Department,
To—The Secretary to the Government of India, Legislative Department

I AM directed to submit, in pursuance of Rules 3 and 7 (4) of the revised instructions regarding legislation in Local Councils, a copy* of the Calcutta Municipal Bill as amended by the Select Committee, together with a copy* of the Report of the Committee, and to request that the sanction of the Government of India may be accorded to the penal clauses of the Bill, namely, sections 602 to 609. These sections have been modified by the Select Committee, and His Honour the Lieutenant Governor proposes to accept them as they stand in the amended Bill.

* With 25 spare copies

No 93, dated Simla, the 17th June 1899

From—A H L FRASER, Esq, C S I, Offg Secy to the Govt of India, Home Dept,
To—The Secretary to the Government of Bengal Legislative Department

I AM directed to acknowledge the receipt of your letter No 180T, dated the 4th ultimo, submitting a copy of the Calcutta Municipal Bill as amended by the Select Committee with a copy of the Committee's report. These papers have been carefully considered by His Excellency in Council, and I am to communicate the following remarks and proposals.

2 The late Lieutenant Governor of Bengal, Sir Alexander Mackenzie, set forth the grounds for the introduction of this Bill in Mr Risley's letter No 383T M, dated the 17th June 1897. He drew attention to certain matters in respect of which the existing system of municipal government in Calcutta had failed, and to certain flagrant abuses which had grown up under it. The principal grounds for the introduction of the present Bill, as summarized by him, were as follows —

- (1) the complete failure of the elective system to secure adequate representation even of the different interests existing in the native city,
- (2) the practical exclusion of European men of business from all share in the municipal government of Calcutta,
- (3) the growth of party spirit and the appearance among the elected Commissioners of a class of professional and in some cases corrupt politicians,
- (4) the abuse of the Committee system, which paralyzed the executive officers and demoralized the subordinate staff, and
- (5) the consequent breakdown of the conservancy and water supply of the town and of every department of municipal administration.

3 The Government of India fully accepted the necessity for the remedy of these abuses, and they assented generally to the principle of the proposed legislation, while in respect of details they relied at that early stage upon the high authority of Sir Alexander Mackenzie. In submitting the Bill to the Secretary of State (Despatch No 1, dated the 6th January 1898), the Government of India said "We desire to give our fullest support to the Lieutenant Governor in his endeavour to improve the system of municipal government and to remove the sanitary defects of Calcutta, and we approve of the introduction

in the Legislative Council of Bengal of a Bill based on the general lines of the Bill under consideration. But we have refrained for the present from any general discussion of the details of the Bill, and we think that the responsibility for them should rest with Sir Alexander Mackenzie." It may be noted also that in this Despatch the Government of India, even at that early stage, indicated a preference, as regards the constitution of the General Committee, for the model of the Bombay City Municipal Act. It was only in deference to Sir Alexander Mackenzie's strongly expressed objections that they did not at that time persist in their views in this respect.

4 The Secretary of State (in His Lordship's Despatch No 25, dated the 10th February 1898), after summarizing the views of the Bengal Government and of the Government of India, communicated in very cautious language his acceptance, not of the Bill itself, but of the principle that the executive should be strengthened, and that the bodies representing the trade of Calcutta should have a voice on the General Committee. He added that he would watch with interest the discussion of the proposed Bill in the Council of the Lieutenant Governor.

5 In these circumstances the Bill was introduced into the Local Council on the 19th March 1898, and it was referred to a Select Committee on the 4th April 1898. Meanwhile Sir Alexander Mackenzie resigned the office of Lieutenant Governor, and Sir John Woodburn succeeded him on the 7th April 1898. In opening the winter session of the Local Council on the 12th November 1898, His Honour made a statement upon the course of business. He dwelt especially on this Bill, the consideration of which by the Select Committee was to be the main work of the session. He accepted fully the decisions of the Council, which had endorsed the proposals of his predecessor. He specially quoted with approval the opinion of Sir Henry Harrison, a distinguished Chairman of the Corporation, that "under its present constitution there is a lack of motive power. The energies of the municipal government expend themselves in criticism and not in action," and His Honour added, "in the administration of a great city there must be provision for prompt, steady and efficacious action, and there is no room for doubt that reform of some sort is needed."

6 The Select Committee began their sittings on the same date, the 12th November 1898, and have met forty times, discussing the Bill section by section, and devoting to it what appears to have been a very patient and thorough examination. They have carefully considered the Bill itself, the voluminous criticisms referred to in the first paragraph of their report, and the views of the Calcutta Building Commission. They have recognized the limitations imposed by the reference from the Local Council under which they were acting, but they have proposed a large number of alterations, some of which are of considerable importance. And now the amended Bill with their report is submitted for the renewed consideration of the Government of India.

7 The Government of India cannot fail to realize that they have a special responsibility in this case. It would be strange indeed if they did not feel a peculiar interest in a measure affecting the municipal constitution of a city, which is not merely the capital of the Province of Bengal, but also the seat of the Imperial Government and the capital of the Indian Empire. They are deeply persuaded of the importance of a local administration, which shall adequately represent the various great interests that have placed, and still keep, Calcutta in its premier position in India, and which shall be businesslike, efficient, and free from scandal or reproach. At the same time it would be their natural desire, in the interests both of continuity of administration and of public harmony, to see these objects attained, not by any contravention of the broad principles of Local Self Government already conceded, but by a curtailment of the abuses to which in practice they may have become exposed, and by a restriction, within limits suggested by experience, of the range of their future operation. In these opinions the Government of India are convinced that they have the sympathy of the Lieutenant Governor.

8 In the course of the passage of the Bill through its various stages, much criticism has been bestowed upon it from many quarters, and, while a good deal of this criticism has been of only ephemeral value and has rested upon no solid foundation, the Government of India have been led, after a careful

and independent investigation, to think that there are features in Sir Alexander Mackenzie's Bill, which are not in entire accordance with the principles just laid down, and which might not in practice ensure that amicable and patriotic co-operation of all parties in the future municipal government of the city, which is essential to its efficient administration.

9 The first of these points is the want of correspondence, in constituent proportions, between the Corporation, which is still left under the Bill with its original numbers (75) and constituent elements (50 elected by wards, 10 elected by bodies representing trade, and 15 appointed by the Government) and the new General Committee of 12 members, to be constituted in the opposite proportions of 8 from the 20 members representing trade or appointed by the Government and 4 from the 50 ward members. This proposal, however fairly it may be held to give representation on the General Committee to the leading interest in the city, and however well it may have been expected by Sir Alexander Mackenzie to work in practice, is undoubtedly illogical, inasmuch as it introduces a wholly different basis of representation in the small executive body from that upon which the larger administrative body is constituted. Moreover, it has been anticipated that this lack of proportion, and the divergent interests which it may be expected to some extent to create, will be liable to produce friction between the two bodies, upon whose harmonious co-operation the future government of Calcutta must so largely depend. To the success of any scheme of municipal reform the absence of such a spirit of concord would unquestionably be detrimental, if indeed it did not in the long run prove to be disastrous.

10 Such were the opinions which the Government of India had been led to form by attitude of public opinion towards the Bill, and by a careful study of the Bill itself at the time when the Select Committee began their labours. It has now emerged from the Select Committee, and the Government of India are called upon to consider the Bill in its amended shape.

11 In some respects the Bill is now a stronger and a better Bill than when it was introduced into the Local Council. Passing over minor details, in respect of which there has been improvement, there have been inserted, for example, sections 26 D, 26 E and 26 I in place of sections 22 and 63 (b) of the Bill as introduced. These modifications follow the English law, and the powers of inspection and of prompt and effective intervention thus bestowed will enable the Local Government to exercise much more efficient control. And though an appeal will still lie to the Government of India, the provision for the suspension of action pending appeal has been very properly abandoned. Another instance of the improvement of the Bill in important respects is the action taken in the Select Committee to reduce the burden of work and responsibility laid upon the General Committee by the Bill as originally introduced.

12 On the other hand, the fears entertained by the Government of India as regards the institution of co-ordinate authorities and as to the possibility of friction resulting therefrom have been confirmed by changes which have been made in the Bill in the Select Committee, and by the opinions recorded by the Honourable Messrs Narendia Nath Sen and Surendia Nath Banerjee in their Minute of Dissent. The powers of the Corporation over its officers and over the work of the General Committee have been very considerably increased by the provisions of sections 28 J, 57 and 66 regarding the appointment and leave of the officers, and by the provisions of sections 79, 95 and 126 regarding contracts, control and finance, as well as by several other provisions of perhaps minor importance. At the same time an unequivocal declaration has been made by the two members of the Local Council, who represent the opinions of the majority of the Corporation as constituted by the present Bill, that "an emasculated Corporation, but lately in possession of supreme power, must view with uneasiness, if not with positive jealousy, the creation of authorities, hitherto subordinate to it but now rendered independent of it, in respect of the bulk of their powers and functions." The Government of India are not without alarm that the want of homogeneity already complained of may, if uncorrected, prejudicially affect the future success of the measure.

13 In these circumstances, the Government of India have carefully considered whether the Bill should receive their sanction in its present form, or whether it is susceptible (without any such radical reconstruction as would

produce general irritation and throw away the labours of the past year) of modifications either of principle or form which would meet the objections previously stated, and lessen, if not altogether remove, the possibilities of future friction. The Government of India have been struck, in their examination of the grounds advanced both by Sir Alexander Mackenzie and Sir John Woodburn for the measure, by the allegation that the existing Corporation has devoted itself to speech and to criticism rather than to action. This charge, while doubtless to some extent due to the temper and spirit in which it has approached its work, is in the main to be attributed to the considerable and, as it would seem excessive, numbers of the municipal body. Their numerical strength, when viewed in regard either to the number of electors by whom the majority are returned, or to the experience of municipal institutions elsewhere, seems to be disproportionately and unnecessarily large. There can be no reason why a number of voters returned as only 13,890 out of a total ward population estimated at about 600,000, or a proportion of little more than 2 per cent, should return as many as 50 members, or why the interests of a city even of over 681,000 inhabitants should require the services of 75 Commissioners for their proper protection. The Government of India are disposed, therefore, to think that a most effective, though hitherto unsuggested, check upon the abuses and anomalies complained of might be found in a reduction of the numerical strength of the Corporation.

14 Such a reduction might further enable the Government of Bengal to secure that more just and adequate representation of the various interests that compose the corporate life and wealth of Calcutta, which has been the avowed object of the promoters and supporters of the existing Bill, without presenting the illogicality of form, or producing the possible friction, associated with the measure now under discussion. It should be found, if possible, in a plan which would recognize, and constitute in some sort, an equality of balance between the two main interests and classes in the population of the city, viz, the European interest, largely preponderating in wealth and influence, and the Native interest, largely preponderating in numbers.

15 It will be remembered that already, at a very early stage in the history of this Bill, the Government of India had indicated a partiality for the Bombay model, as regards the constitution of the General Committee, and the numerical ratio existing between its constituent elements and those of the main body of the Corporation. Their attention has been recalled to this suggestion by a remarkable paragraph in the able Note of Dissent recorded by the two native members of the Select Committee who have most distinguished themselves by their frank and intelligent criticisms of the present Bill. It will be found that they there (paragraph 24 of their Note) throw out the following noteworthy suggestion —

The constitutional part of the Bill, as we have already remarked, is largely modelled on the Bombay Act of 1888. But the fact is lost sight of, that while the Bombay Act is the natural outgrowth of the systems of municipal administration, previously in force in Bombay, the principles of that Act are entirely foreign to the spirit which has characterized the municipal legislation of Calcutta since 1863. Besides the present Bill only partially borrows from the Bombay Act, incorporating some of its objectionable provisions, while all those which tend to popularize that system have been altogether left out. In the course of this Note we have pointed out how in certain important respects the provisions of the Bill differ from those of the Bombay Act and we now propose to draw attention to some of the most prominent features of the Bombay Act which find no place in the present Bill. In Bombay the Corporation is the superior administrative body. It chooses its own President, who is the chief spokesman of the Municipality. The Standing Committee, corresponding to the General Committee under the Bill, is really a Committee of the Corporation and not so merely in name fully two thirds of its members being elected by the Corporation. There is thus a solidarity of feeling among the majority of the members of the Standing Committee, who owe their position, and are responsible to one central authority, whose policy they are obliged to carry out with the utmost loyalty. The Standing Committee too elects its own Chairman, and the Municipal Commissioner the Chief Executive Officer is not even a member of either the Corporation or the Standing Committee. The Municipal Commissioner performs all executive work and carries out all orders of the superior administrative body. It is true he is appointed by Government but the appointment is for a renewable period of three years, and his salary cannot be increased beyond Rs 2,500 a month except with the approval of the Corporation. Can any one say that this is the constitution that is proposed for Calcutta under the Bill? We are no advocates of the Bombay system but if it is at all to be given a trial in Calcutta, we are certainly of opinion that it will not do to borrow from it here and there, but that the system should be introduced into Calcutta in its entirety.

16 The Government of India are inclined to think that in this suggestion and in a more close adaptation of the Bombay model, might be found the solution for which they are seeking. I am desired, therefore to submit, for the consideration of His Honour the Lieutenant Governor, the following amended plan for the constitution of the reformed Corporation of Calcutta and of its Committees.

17 The Bombay Corporation is composed of two factors equal in numbers, and consisting respectively of members elected by the wards and of members appointed by the Government or elected by representative bodies. These two sections consist of 36 members each, or a total of 72. For the reasons already named, the Government of India are inclined to think that this total, which falls little short of the 75 hitherto allotted to Calcutta, is not required in the latter city in the interests either of adequate representation or of efficiency. They are the more disposed to take this view in the case of Calcutta, because any attempt to raise the strength of what may be described as the European element to the existing level of the Native element would not merely greatly augment total numbers, which are already in their opinion excessive, but would give to European interests a share in the numerical strength of the Corporation to which it is believed that they have no desire to lay claim, whilst if the Native proportion in the Corporation were diminished by 14, and the European proportion were increased by 11 so as to follow exactly the Bombay model, it is conceived that while the objection already stated would apply to the increase of the European section, serious exception would also be taken to a reduction of the Native element, which would either involve a radical reconstruction of the wards, or would call into existence an illogical and ill balanced scheme of representation. I am accordingly to suggest that the future Calcutta Corporation should, like that of Bombay, consist of two equal factors, the strength of which should be determined by that of the moiety now returned by what are in the main European interests. In other words it is advised that the Corporation should be composed of 50 members, 25 being elected as now by the 25 wards into which the city is already divided, and 25 being partially nominated (as now) by the Government and partially elected (as now) by bodies representing commercial interests. The Bombay model would in this way be faithfully reproduced, though with smaller numbers, in Calcutta. There would be created a strict equality and balance of interest between the European and the Native elements. And, owing to the fact that no reconstitution of the existing wards would be required and that the European element would continue to be constituted as at present, the change could be introduced with the minimum of friction and delay. In speaking, however, of the European element the Government of India must guard themselves against a possible misinterpretation of the phrase. For convenience sake the term may be employed and has here been employed by them. But they are well aware that the section of the Corporation of which they are speaking need not necessarily be exclusively European in its composition, since it is to the Bengal Government and to the power of nomination enjoyed by the latter that certain non European and Native elements of the population of Calcutta must look for representation, in the event of their being unable to secure it under the existing method of election by wards. The Government of Bengal have never failed in this respect to consider the interests of the sections of the population here alluded to, and it is not unlikely that under the amended scheme which is now suggested, their good offices may be called into action in defence of non European and Native interests, that might otherwise remain unrepresented in the remodelled Corporation. To this extent must a qualification be admitted in the use of the phrase which has been employed in this paragraph.

18 The Select Committee have already in section 89A followed the Bombay model in giving to the Corporation power to appoint Special Committees to consider matters which are reserved by law for decision by the Corporation, and to delegate such of their duties to such Committees. The Bill also provides in section 88 for the appointment of Sub Committees by the General Committee. But I am desired specially to suggest that that model be more nearly followed in the constitution of the General Committee. They note the special approval with which the Honourable Messrs Narendranath Sen and Surendra Nath Banerjee draw attention to that feature of the Bombay constitution which provides for the formation of what is there known as the Standing Committee. Their words are as follow — "The Standing Committee, corre

sponding to the General Committee under the Bill, is really a Committee of the Corporation, and not so merely in name, fully two thirds of its members being elected by the Corporation. There is thus a feeling of solidarity among the majority of the members of the Standing Committee, who owe their position and are responsible to one central authority, whose policy they are obliged to carry out with the utmost loyalty." The Government of India, who see much force in this argument, are disposed to recommend to His Honour the Lieutenant Governor a similar procedure at Calcutta. They think that a General Committee, thoroughly representative both of the principal interests involved and of the larger Corporation, and qualified to discharge the important duties which it is proposed to place upon its shoulders, might be constituted by the nomination, as in Bombay, of one third of its total number of 12 members by the Government and by the election of the remaining two thirds by the Corporation itself.

19 The circumstances of Bombay, however, differ materially from those of Calcutta, in one respect, viz., in the numbers and strength of the various communities that compose the total population of the city, and are represented in the Municipal body. The Bengal Government will doubtless, therefore, find it desirable to suggest some plan that will secure to that proportion (two thirds) of the General Committee which is to be elected by the entire Corporation a strictly fair and proportionate representation of the constituent elements of the electoral body. Otherwise it might be possible for either party, in the chances of voting, by a bare numerical majority, to swamp the General Committee, and to secure that the entire two thirds proportion should be of their own political complexion or class. Such a result would be destructive of that fair representation of interests which the Government of India, equally with Sir Alexander Mackenzie and Sir John Woodburn, desire to secure. And it would be fatal to the harmonious co-operation of all parties in the future, which they hope by this suggestion to produce.

20 I am also to suggest that it might be desirable to lay down rules for the appointment of the Special Committees and Sub Committees which would secure their being truly representative, in respect of their constituent elements, of the Corporation or General Committee appointing them. The provisions requiring the making of rules and bye laws for the conduct of the business of Special Committees and Sub Committees under sections 89A and 590 in connection with sections 395 and 597, might be extended to include their constitution in general agreement with the principles already laid down. It might not be necessary or feasible for all such Special Committees and Sub Committees to be homogeneous in constitution with the body appointing them, but it is clear that in some cases at least such homogeneity alone would secure efficiency and obviate friction.

21 Such are the outlines of the revision of the existing scheme which, in the interests of the future efficient and orderly administration of Calcutta, the Government of India commend to the consideration of the Government of Bengal. No scheme that can be proposed will secure the unstinted approbation of all parties. The Bill already introduced has excited no small share of criticism. Exception can also doubtless be taken to the provisions of the suggested, or indeed of any other possible, modification of that Bill. The Government of India, however, who in framing these proposals have been actuated by a sincere desire to promote harmony equally with good government in the future, entertain the hope that there may henceforward be a truce to such dissension, and that the Bill as remodelled may be accepted by all classes in the spirit in which its modification has been discussed and put forward by them. For the successful municipal administration of a city like Calcutta, composed of such various and important interest, and with fortunes so momentous at stake, are required both a high standard of public duty on the part of those of its citizens who may be willing to enter its service, and the friendly and disinterested co-operation of every section of the community. Such a co-operation the Government of India confidently hope that His Honour the Lieutenant Governor may look forward to receiving. If its evils and abuses have grown up in the existing municipal system will not be disputed. That they stand in need of correction cannot be denied. It should be the aim of all parties so to apply or to accept this correction as to purge the reputation of the city, of which they are the guardians,

from the least stigma of reproach, and to vindicate the wisdom of the decision that twenty three years ago first accorded the privileges of Local Self Government to the capital of the Indian Empire

No 276T—M, dated Darjeeling the 3rd July 1899

From—E W COLLIER Esq, Offg Secy to the Govt of Bengal, Municipal Dept,
To—The Secretary to the Government of India, Home Department

I AM directed to acknowledge the receipt of your letter No 93 dated the 17th June 1898, conveying the views of the Government of India on the subject of the Calcutta Municipal Bill

2 It is pointed out in paragraph 9 of your letter that there is a want of correspondence, in constituent proportions, between the Corporation, which is to consist of 75 members, of whom 50 are to be elected by wards and 25 are to be selected by Government and bodies representing commercial interests, and the new General Committee, which is to consist of 12 members to be constituted in the opposite proportion of 8 from the 25 members selected by Government and commercial associations, and 4 from the 50 members elected by the wards. It is anticipated that this lack of proportion, and the divergent interests which it may be expected to create, will be liable to produce friction between the two bodies upon whose harmonious co-operation the future government of Calcutta must depend. It is also observed that the defects of the existing Corporation have been due to a great extent to the fact that the numbers of the Municipal body were excessive. It is therefore proposed to reduce the number of Commissioners, so that the future Calcutta Corporation should, like that of Bombay, consist of two equal factors, and in order to effect this object, it is suggested that the Corporation should be composed of 50 members, 25 being elected by the 25 wards into which the city is at present divided and 25 being partially (as now) nominated by Government and partially elected by bodies representing commercial interests. With regard to the General Committee it is suggested that the Bombay model should again be followed, with certain reservations necessary on account of the special features of Calcutta, and that two thirds of its members should be elected by the Corporation. The object of the reservations suggested above is to secure that the members of the General Committee who are to be so elected, should constitute a strictly fair and proportionate representation of the constituent elements of the electoral body.

3 The Lieutenant Governor desires me to acknowledge the courtesy with which the Government of India have discussed the solution which they have presented to his consideration for the future government of Calcutta. The solution is one which had of course been examined by himself in studying the manifold criticisms upon the scheme of the Municipal Bill, and the precedent and authority of the Bombay system assumed, undoubtedly, the greater prominence when the dissenters from the report of the Select Committee had declared their general adherence to it. The Lieutenant Governor has not therefore been surprised that an adaptation of the Bombay system to the circumstances and conditions of Calcutta is commended to him by the Government of India.

4 With the Government of India as it has always been with himself the first consideration is the good government of Calcutta—the prompt and efficient discharge of the multitudinous duties which the administration of so great a city involves. The adaptation of the Bombay system, which the Government of India propose, does not conflict with the arrangements which he considered to be necessary in Calcutta to that end, and he has no objections to offer to the settlement of the issue on the lines they recommend. The reasons which led him personally to prefer the maintenance of the present numbers of the Corporation have been publicly stated and were before the Government of India. They have held that the reasons are outweighed by the danger of friction in a Corporation, where the executive and managing committee is out of harmony with the main body. Sir John Woodburn has never concealed the force of these objections, and he will not press his personal

opinion on this point further against the deliberate conclusion of the Government of India

5 With regard to the suggestions in paragraph 19 of your letter, that provision should be made to secure to the portion of the General Committee, which is to be elected by the Corporation, a proper representation of the constituent elements of the Corporation, he recognizes that such provision is necessary. The necessary amendment will accordingly be introduced into the Bill.

WEATHER AND CROP REPORT

For the week ending the 10th July 1899

Burdwan—Rainfall at Sadar 4 50 Kalna 3 55, Katwa 2 74, Raniganj 3 89 Weather seasonable Transplanting of *aman* paddy going on buskly Standing crops doing well Fodder and water sufficient Cattle-disease in Katwa decreased slightly Common rice selling as follows —

	Srs	
Sadar	16 to 19	} per rupee
Kalna	15	
Katwa	18	
Raniganj	17	

Birbhum—Rainfall at Sadar 3 24, Rampur Hât 3 20 Weather rainy and ho Sowing of seed and tillage going on Price of common rice at Sadar and Rampur Hât 18 seers per rupee Fodder sufficient No cattle disease

Bankura—Rainfall at Bankura 5 55, Vishnupur 88 Weather cloudy and rainy Transplantation going on Sugarcane growing Fodder and water sufficient No cattle disease reported Price of common rice at Bankura 17½ seers and at Vishnupur 17½ seers per rupee

Midnapore—Rainfall at Sadar 1 91, Tamluk 4 02, Ghatal 75 Weather seasonable Transplantation going on Prospects of sugarcane, jute and flax favourable Cattle disease reported from Chandrakona Common rice selling as follows —

	Srs	
Sadar	14 to 20	} per rupee
Tamluk	14½	
Ghatal	14 to 16	

Hooghly—Rainfall at Sadar 7 92, Serampore 6 64 Jahanabad 2 60 Sowing of winter paddy going on Excessive rain damaged jute and paddy Cattle disease in Sadar and Serampore Common rice sells from 13 to 15 seers per rupee

Howrah—Rainfall at Sadar 5 77 Ulubaria 2 54 Weather cloudy with rain almost every day Sowing of *aman* and *aus* still continues Transplantation of *aman* going on Some damage has been done to sugarcane and jute in Shingti outpost by floods Paddy seedlings have also to some extent been damaged in places in Howrah and Ulubaria owing to recent excessive rain Fodder and water sufficient Common rice sells at 12 to 15 seers per rupee

24 Parganas—Rainfall at Sadar 6 92 Barasat 5 18 Basirhat 1 40 Diamond Harbour 6 79 Weather hot and rainy Excessive rain is doing injury to *aus* and jute crops, and has retarded weeding operations Transplantation of *aman* going on slowly Cattle-disease reported from some parts of the Basirhat subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	13½ to 16	} per rupee
Barasat	16½	
Basirhat	18 4½oh	
Diamond Harbour	16	

Nadia—Rain at Sadar 3 96 Kushtia 1 22, Chuadanga 1 60, Ranaghat 4 99 Weather hot and cloudy with occasional rain Prospects of crops promising Fodder and water sufficient Price of common rice stationary

Murshidabad—Rain at Sadar 3 76 Jangipur 2 60, Kandi 2 08 Weather cloudy Transplantation of *aman* still going on *Bhadra* and jute plants doing well Prospects of mulberry and indigo favourable Paddy plants are under water in some parts of the Sadar subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	16	} per rupee
Kandi	18½	

Jessore—Rainfall at Sadar 2 14, Jhenida 7 1, Magura 1 73, Narail 1 76 Bangaon 1 76 Weather cloudy, rainy and occasionally hot Weeding of *aus* and jute going on Prospects of standing crops good except in the Jhenida Magura and Narail subdivisions, where insects are damaging them Cattle disease reported from thana Gaighata Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	16 to 20	} per rupee
Jhenida	16	
Magura	17 to 20	
Narail	20	
Bangaon	18	

Khulna—Rainfall at Sadar 2 3, Bagurhat 1 64 Satkhira 2 94 Weather hot, cloudy and rainy Cultivation for and transplantation of *aman* going on Fodder and water sufficient Cattle disease reported from Rampal thana Common rice sells as follows —

	Srs	
Sadar	19 to 23	} per rupee
Bagurhat	19	
Satkhira	15 and	
	20 (coarse <i>aus</i>)	

Rajshahi—Rainfall at Sadar 3 83 Nator 2 1, Nauangan 3 95 Prospects of crops good No cattle disease Fodder and water supply plentiful Rice sells from 16 to 22 seers per rupee

Dinajpur—Average rainfall 1 91 Weather seasonable Transplantation of *haimanti* paddy has commenced Weeding of *aus* and jute retarded by excessive rain Cattle disease reported from five thanas Rice selling at 18 to 20 seers per rupee Fodder and drinking water sufficient

Jalpaiguri—Rainfall at Sadar 7 0, Alipur Duars 10 46 Weather hot and cloudy *Bhadai* paddy and jute doing well *Haimanti* paddy being transplanted Prospects good Fodder and water sufficient Common rice sells from 10 to 13 seers per rupee

Darjeeling—Rainfall at Darjeeling 6 94 Siliguri 4 93 Weather seasonable Hills—*Bhadai* paddy and *chita marna* promising well Terai—Jute *bladoi* and sugarcane doing well prospects good *haimanti* paddy not yet transplanted Coarse rice sells as follows —

	Srs	
Hills	9 to 13	} per rupee
Terai	16 to 18	

Bhutta sells at Darjeeling 24 seers and at Kalimpong 40 seers per rupee

Rangpur—Rainfall at Sadar 1 64 Gaibandha 3 56 Kurigram 4 00 Nilphamari 8 47 Weather rainy Cutting of *aus* and transplanting of winter rice going on Prospects good Common rice selling from 16 to 22 seers per rupee Fodder and water sufficient Cattle disease reported from some villages in thana Jaldhika

Bogra—Average rainfall 3 70 Prospects good Cultivation of land for *aman* still continues Transplantation has begun Common rice sells from 17 to 23 seers per rupee Fodder and water ample

Pabna—Rainfall at Sadar 2 76 Sirajganj 1 4 Weather cloudy and rainy Crops on low lands damaged in places but otherwise prospects good

Dacca—Rainfall at Sadar 1 41 Manikganj 3 60 Munshiganj 1 01, Narainganj 2 18 Weather seasonable Prospects of crops fair Insects are destroying paddy and jute in the Sadar and Munshiganj subdivisions In Manikganj *aus* paddy has been damaged in low lands by sudden rise of flood water Fodder available No cattle disease Price of common rice 16 to 19 seers per rupee

Mymensingh—Rainfall at Sadar 3 81 Kishorganj 3 72 Tangail 1 87, Netrokona 6 12 Jamalpur 3 0 Weather showery Prospects of crops excellent Condition of cattle good Fodder and water ample Common rice sells as follows —

	Srs	
Sadar	20	} per rupee
Kishorganj	20	
Tangail	18	
Netrokona	24	

FIRST FORECAST OF THE JUTE CROP IN BENGAL FOR SEASON 1899

THE following is published for general information

F A SLACK,

The 5th July, 1899

Offg Secy to the Govt of Bengal

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

First forecast of the Jute crop in Bengal for season 1899

Explanatory — The present forecast furnishes estimates of the area and outturn of the jute crop up to the middle of June, and is compiled from the returns received from the 26 important jute growing districts of these Provinces. The cultivation of jute outside these districts is insignificant and has been left out of consideration.

2 *Character of the season* — The rainfall in January was generally in excess of the normal in all the jute growing districts except Orissa. In February, it was above the normal in East Bengal, Jessore, and Midnapore, and below the normal in all the other districts. In March, again, it was below the normal everywhere except in Jalpaiguri and Rangpur. In April, the rainfall was well distributed, and was generally above the normal. Very heavy rain was received in this month in Khulna and Noakhali. In May, with the exception of Burdwan, and a few districts in North Bengal and Bihar, the rainfall was everywhere above the normal, and was excessive in East Bengal and in the districts of Hughli, the 24 Parganas and Nadia. This excess does not appear to have affected the crop much in East Bengal (Noakhali excepted) but is reported to have prevented the full area from being sown in Hughli and the 24 Parganas, and to have injured the seedlings in Hughli and Nadia. In the first fortnight of June, the weather was, on the whole, seasonable, and weeding operations were carried out successfully in most places, but the rain that has fallen up to date this month may have interfered somewhat with late sowings.

3 *Area cultivated* — In the first forecast of the jute crop for the season 1898, it was explained that the figures of normal area as given in that report were obtained from a consideration of the actual area sown during the past five years. Those figures have been accepted in the present returns as more or less correct in the case of most districts, but they have been revised by the District Officers of Bardwan, Nadia, Rangpur, Dacca, Feni and Backergunge, and with these revised estimates, the normal area under jute now amounts to 2,189,400 acres against 2,224,000 acres shown in the forecast of last year. The total area in Bengal sown with jute during the current year appears from the returns appended to this note to amount to 1,914,000 acres against 1,624,400 acres sown in 1898. The great decrease in 1898 was due to a fall in the price of jute and a simultaneous rise in the price of rice. Since then the price of jute has risen while that of rice has fallen, and the increase in the area sown with jute this year, amounting to 289,900 acres or 17.8 per cent, is undoubtedly due to these fluctuations in prices. It will be noted, however, that the area is still smaller than that which was sown in 1895, 1896

and 1897, the cultivators not having yet forgotten the fall in the price of jute which took place in 1897

4 *Character of the crop*—In spite of the excessive rainfall in May in many important districts the prospects of the crop as reported up to the middle of June are good, and the latest reports received in this Department from the chief jute growing districts confirm this favourable report

In the eleven important jute growing districts marginally* noted, which each have an area over 50,000 acres and contain about 87 per cent of the total jute growing area of Bengal,

* Mymensingh Rangpur Tippera Dacca Labna Faridpur Rajshahi Dinajpur Bogra Lurnea Jalpaiguri

the average outturn estimated for the year amounts to 93·2 per cent. In 10 districts, the present estimates of the crop are returned as 100 per cent or over 100 per cent, in 12 districts they are now estimated at 75 per cent to below 100 per cent, and in 4 districts only, viz, Hughli, Nadia, Darjeeling, and Noakhali, are the returns below 70 per cent. Although rain has been somewhat excessive lately, it does not appear to have injured the crop, but the final outturn is greatly dependent on the weather experienced in July and August and on the height of the rivers in those months

It would appear probable, therefore, that if the present conditions continue, a crop slightly below the average will be reaped in the area sown this year. It must be remembered, however, that this area is still a good deal below the average, and that the total outturn for the whole Province will be accordingly, in all probability, considerably below the normal

5 *Stocks of previous crops in hand*—It is reported by almost all District Officers that very little jute is now left in hand from the stocks of 1897 and 1898

6 *Gross outturn*—Taking into consideration the estimates of area and outturn detailed in the returns, and accepting 3 bales per acre as the outturn of a normal or 100 per cent crop, the gross outturn of jute may be roughly estimated for the present crop at 58 lakhs of bales. The normal outturn for the Province may be taken as about 66 lakhs of bales, so that the present estimated outturn approximates to 87 per cent of the normal outturn. Taking 16 annas to represent this normal outturn, the outturn of the present crop, is thus estimated to amount to 14 annas of the normal. As noted in the forecasts for the year 1898, the above is at best only a rough estimate. The District returns are published in full, and those who are interested in the jute trade are in a position to make such deductions from them as their experience may suggest

CALCUTTA,
The 27th June 1899

First Forecast of the Jute Crop of Bengal, 1899

Division	District	Approximate normal area under jute	Area (1898)	Estimated area now sown (1899)	Take 100 to 1000 (1898)	Take 100 to 1000 (1899)	Remarks by District Officers.	Remarks by the Department of Land Revenue and Agriculture Bengal
1	2	3	4	5	6	7	8	9
Burdwan	Burdwan	11,000	11,000	11,000	00	56	Rain was deficient throughout sowing time. Sowing of Khatwa and other varieties of jute was delayed in the Burdwan district.	
	Midnapore	1,100	11,800	1,300	9	8	The rice area and other crops to season will be ruined.	
	Hooghly	1,000	13,900	13,100	100	61	The rice area, which was sown with the late season, is ruined. The rice area, which was sown with the late season, is ruined.	
	24 Parganas	8,000	30,300	33,600	100	5	Decrease in the output of rice, and the price of rice will be high.	

[illegible]

Rajshahi	Jalpaiguri	66 700	63 800	64 900	60	76	Season being rainfall has helped the growth of the crop. The return of this year may be expected to be better than that of last year.
	Darjeeling (plains)	2,500	1 600	1 600	50	50	Owing to unreasonable rain fall this year no better return is expected than that of last year.
	Rangpur	277 000	153 000	212 200	82	91	Owing to the high price of rice last year the cultivators have sown more lands with this crop this year than in the last year.
	Bogra	95 000	40 000	00		100	The rainfall has been favorable on the whole till now and so a better return is expected.
Dacca	Pabna	144 0	113 0	1,3,000	4	103	After the drought of the last year and the low price of rice the return is expected to be large. The stock of rice is full. The cultivators are waiting for the return of the market. The return of the last year was not so good. The return of this year is expected to be better.
	Dacca	1 1 100	13 400	1 0 200	9	100	The Collector has revised the normal area in column 3.
	Mymensingh	560 500	497 500	0 000	90	92	Owing to the fall in the price of rice the area sown with it has increased during the year.
	Faridpur	104 000	000	90 000	60	100	The normal area has been revised as the figure reported last year by the Subdivisional Officer of Faridpur appeared to be incorrect. The return of last year was not so good. The return of this year is expected to be better.
Chittagong	Chittagong	10 000	7 500	11 000	100	100	The return of this year is expected to be better than that of last year.
	Chittagong						The Collector has revised the normal area in column 3.

CALCUTTA MUNICIPAL BILL

MUNICIPAL DEPARTMENT

THE following correspondence is published for general information

E W COLLIN,

Offg Secy to the Govt of Bengal

The 11th July 1899

No 180T, dated Calcutta the 4th May 1899

From—The Asst Secy to the Government of Bengal Legislative Department,
To—The Secretary to the Government of India, Legislative Department

I AM directed to submit, in pursuance of Rules 3 and 7 (4) of the revised instructions regarding legislation in Local Councils, a copy* of the Calcutta Municipal Bill as amended by the Select Committee, together with a copy* of the Report of the Committee, and to request that the sanction of the Government of India may be accorded to the penal clauses of the Bill, namely, sections 602 to 609. These sections have been modified by the Select Committee, and His Honour the Lieutenant Governor proposes to accept them as they stand in the amended Bill.

* With 25 spare copies

No 93, dated Simla, the 17th June 1899

From—A H L FRASER Esq, C S I, Offg Secy to the Govt of India, Home Dept,
To—The Secretary to the Government of Bengal Legislative Department

I AM directed to acknowledge the receipt of your letter No 180T, dated the 4th ultimo, submitting a copy of the Calcutta Municipal Bill as amended by the Select Committee with a copy of the Committee's report. These papers have been carefully considered by His Excellency in Council, and I am to communicate the following remarks and proposals:

2 The late Lieutenant Governor of Bengal, Sir Alexander Mackenzie, set forth the grounds for the introduction of this Bill in Mr Risley's letter No 383T M, dated the 17th June 1897. He drew attention to certain matters in respect of which the existing system of municipal government in Calcutta had failed, and to certain flagrant abuses which had grown up under it. The principal grounds for the introduction of the present Bill, as summarized by him, were as follows—

- (1) the complete failure of the elective system to secure adequate representation even of the different interests existing in the native city,
- (2) the practical exclusion of European men of business from all share in the municipal government of Calcutta,
- (3) the growth of party spirit and the appearance among the elected Commissioners of a class of professional and in some cases corrupt politicians,
- (4) the abuse of the Committee system, which paralyzed the executive officers and demoralized the subordinate staff, and
- (5) the consequent breakdown of the conservancy and water supply of the town and of every department of municipal administration.

3 The Government of India fully accepted the necessity for the remedy of these abuses, and they assented generally to the principle of the proposed legislation, while in respect of details they relied at that early stage upon the high authority of Sir Alexander Mackenzie. In submitting the Bill to the Secretary of State (Despatch No 1, dated the 6th January 1898), the Government of India said "We desire to give our fullest support to the Lieutenant Governor in his endeavour to improve the system of municipal government and to remove the sanitary defects of Calcutta, and we approve of the introduction

in the Legislative Council of Bengal of a Bill based on the general lines of the Bill under consideration. But we have refrained for the present from any general discussion of the details of the Bill, and we think that the responsibility for them should rest with Sir Alexander Mackenzie." It may be noted also that in this Despatch the Government of India, even at that early stage, indicated a preference, as regards the constitution of the General Committee, for the model of the Bombay City Municipal Act. It was only in deference to Sir Alexander Mackenzie's strongly expressed objections that they did not at that time persist in their views in this respect.

4 The Secretary of State (in His Lordship's Despatch No 25, dated the 10th February 1898), after summarizing the views of the Bengal Government and of the Government of India, communicated in very cautious language his acceptance, not of the Bill itself, but of the principle that the executive should be strengthened, and that the bodies representing the trade of Calcutta should have a voice on the General Committee. He added that he would watch with interest the discussion of the proposed Bill in the Council of the Lieutenant Governor.

5 In these circumstances the Bill was introduced into the Local Council on the 19th March 1898, and it was referred to a Select Committee on the 4th April 1898. Meanwhile Sir Alexander Mackenzie resigned the office of Lieutenant Governor, and Sir John Woodburn succeeded him on the 7th April 1898. In opening the winter session of the Local Council on the 12th November 1898, His Honour made a statement upon the course of business. He dwelt especially on this Bill, the consideration of which by the Select Committee was to be the main work of the session. He accepted fully the decisions of the Council, which had endorsed the proposals of his predecessor. He specially quoted with approval the opinion of Sir Henry Harrison, a distinguished Chairman of the Corporation, that "under its present constitution there is a lack of motive power. The energies of the municipal government expend themselves in criticism and not in action," and His Honour added, "in the administration of a great city there must be provision for prompt, steady, and efficacious action, and there is no room for doubt that reform of some sort is needed."

6 The Select Committee began their sittings on the same date, the 12th November 1898, and have met forty times, discussing the Bill section by section, and devoting to it what appears to have been a very patient and thorough examination. They have carefully considered the Bill itself, the voluminous criticisms referred to in the first paragraph of their report, and the views of the Calcutta Building Commission. They have recognized the limitations imposed by the reference from the Local Council under which they were acting, but they have proposed a large number of alterations, some of which are of considerable importance. And now the amended Bill with their report is submitted for the renewed consideration of the Government of India.

7 The Government of India cannot fail to realize that they have a special responsibility in this case. It would be strange indeed if they did not feel a peculiar interest in a measure affecting the municipal constitution of a city, which is not merely the capital of the Province of Bengal, but also the seat of the Imperial Government and the capital of the Indian Empire. They are deeply persuaded of the importance of a local administration, which shall adequately represent the various great interests that have placed, and still keep, Calcutta in its premier position in India, and which shall be businesslike, efficient, and free from scandal or reproach. At the same time it would be their natural desire, in the interests both of continuity of administration and of public harmony, to see these objects attained, not by any contravention of the broad principles of Local Self Government already conceded, but by a curtailment of the abuses to which in practice they may have become exposed, and by a restriction, within limits suggested by experience, of the range of their future operation. In these opinions the Government of India are convinced that they have the sympathy of the Lieutenant Governor.

8 In the course of the passage of the Bill through its various stages, much criticism has been bestowed upon it from many quarters, and, while a good deal of this criticism has been of only ephemeral value and has rested upon no solid foundation, the Government of India have been led, after a careful

and independent investigation, to think that there are features in Sir Alexander Mackenzie's Bill, which are not in entire accordance with the principles just laid down, and which might not in practice ensure that amicable and patriotic co operation of all parties in the future municipal government of the city, which is essential to its efficient administration

9 The first of these points is the want of correspondence, in constituent proportions, between the Corporation, which is still left under the Bill with its original numbers (75) and constituent elements (50 elected by wards, 10 elected by bodies representing trade, and 15 appointed by the Government) and the new General Committee of 12 members, to be constituted in the opposite proportions of 8 from the 25 members representing trade or appointed by the Government and 4 from the 50 ward members. This proposal, however fairly it may be held to give representation on the General Committee to the leading interest in the city, and however well it may have been expected by Sir Alexander Mackenzie to work in practice, is undoubtedly illogical, inasmuch as it introduces a wholly different basis of representation in the small executive body from that upon which the larger administrative body is constituted. Moreover, it has been anticipated that this lack of proportion, and the divergent interests which it may be expected to some extent to create, will be liable to produce friction between the two bodies, upon whose harmonious co operation the future government of Calcutta must so largely depend. To the success of any scheme of municipal reform the absence of such a spirit of concord would unquestionably be detrimental, if indeed it did not in the long run prove to be disastrous.

10 Such were the opinions which the Government of India had been led to form by attitude of public opinion towards the Bill, and by a careful study of the Bill itself at the time when the Select Committee began their labours. It has now emerged from the Select Committee, and the Government of India are called upon to consider the Bill in its amended shape.

11 In some respects the Bill is now a stronger and a better Bill than when it was introduced into the Local Council. Passing over minor details, in respect of which there has been improvement, there have been inserted, for example, sections 26 D, 26 E and 26 F in place of sections 22 and 63 (b) of the Bill as introduced. These modifications follow the English law, and the powers of inspection and of prompt and effective intervention thus bestowed will enable the Local Government to exercise much more efficient control. And though an appeal will still lie to the Government of India, the provision for the suspension of action pending appeal has been very properly abandoned. Another instance of the improvement of the Bill in important respects is the action taken in the Select Committee to reduce the burden of work and responsibility laid upon the General Committee by the Bill as originally introduced.

12 On the other hand, the fears entertained by the Government of India as regards the institution of co ordinate authorities and as to the possibility of friction resulting therefrom have been confirmed by changes which have been made in the Bill in the Select Committee, and by the opinions recorded by the Honourable Messrs Narendra Nath Sen and Surendra Nath Banerjee in their Minute of Dissent. The powers of the Corporation over its officers and over the work of the General Committee have been very considerably increased by the provisions of sections 28-J, 57 and 66 regarding the appointment and leave of the officers, and by the provisions of sections 79, 95 and 126 regarding contracts, control and finance, as well as by several other provisions of perhaps minor importance. At the same time an unequivocal declaration has been made by the two members of the Local Council, who represent the opinions of the majority of the Corporation as constituted by the present Bill, that "an emasculated Corporation, but lately in possession of supreme power, must view with uneasiness, if not with positive jealousy, the creation of authorities, hitherto subordinate to it, but now rendered independent of it, in respect of the bulk of their powers and functions." The Government of India are not without alarm that the want of homogeneity already complained of may, if uncorrected, prejudicially affect the future success of the measure.

13 In these circumstances, the Government of India have carefully considered whether the Bill should receive their sanction in its present form, or whether it is susceptible (without any such radical reconstruction as would

produce general irritation and throw away the labours of the past year) of modifications either of principle or form which would meet the objections previously stated, and lessen, if not altogether remove, the possibilities of future friction. The Government of India have been struck, in their examination of the grounds advanced both by Sir Alexander Mackenzie and Sir John Woodburn for the measure by the allegation that the existing Corporation has devoted itself to speech and to criticism rather than to action. This charge, while doubtless to some extent due to the temper and spirit in which it has approached its work, is in the main to be attributed to the considerable and, as it would seem excessive, numbers of the municipal body. Their numerical strength, when viewed in regard either to the number of electors by whom the majority are returned, or to the experience of municipal institutions elsewhere, seems to be disproportionately and unnecessarily large. There can be no reason why a number of voters returned is only 13,890 out of a total ward population estimated at about 600,000 or a proportion of little more than 2 per cent, should return as many as 50 members, or why the interests of a city even of over 681,000 inhabitants should require the services of 70 Commissioners for their proper protection. The Government of India are disposed, therefore, to think that a most effective, though hitherto unsuggested, check upon the abuses and anomalies complained of might be found in a reduction of the numerical strength of the Corporation.

14. Such a reduction might further enable the Government of Bengal to secure that more just and adequate representation of the various interests that compose the corporate life and wealth of Calcutta, which has been the avowed object of the promoters and supporters of the existing Bill, without presenting the illogicality of form, or producing the possible friction, associated with the measure now under discussion. It should be found, if possible, in a plan which would recognize, and constitute in some sort, an equality of balance between the two main interests and classes in the population of the city, viz., the European interest, largely preponderating in wealth and influence, and the Native interest, largely preponderating in numbers.

15. It will be remembered that already, at a very early stage in the history of this Bill, the Government of India had indicated a partiality for the Bombay model, as regards the constitution of the General Committee, and the numerical ratio existing between its constituent elements and those of the main body of the Corporation. Their attention has been recalled to this suggestion by a remarkable paragraph in the able Note of Dissent recorded by the two native members of the Select Committee who have most distinguished themselves by their frank and intelligent criticisms of the present Bill. It will be found that they there (paragraph 24 of their Note) throw out the following noteworthy suggestion —

The constitutional part of the Bill, as we have already remarked is largely modelled on the Bombay Act of 1888. But the fact is lost sight of, that while the Bombay Act is the natural outgrowth of the systems of municipal administration, previously in force in Bombay, the principles of that Act are entirely foreign to the spirit which has characterized the municipal legislation of Calcutta since 1863. Besides, the present Bill only partially borrows from the Bombay Act, incorporating some of its objectionable provisions, while all those which tend to popularize that system have been altogether left out. In the course of this Note we have pointed out how in certain important respects the provisions of the Bill differ from those of the Bombay Act, and we now propose to draw attention to some of the most prominent features of the Bombay Act which find no place in the present Bill. In Bombay the Corporation is the superior administrative body. It chooses its own President who is the chief spokesman of the Municipality. The Standing Committee, corresponding to the General Committee under the Bill, is really a Committee of the Corporation and not so merely in name, fully two thirds of its members being elected by the Corporation. There is thus a solidarity of feeling among the majority of the members of the Standing Committee who owe their position, and are responsible to one central authority, whose policy they are obliged to carry out with the utmost loyalty. The Standing Committee too elects its own Chairman and the Municipal Commissioner the Chief Executive Officer is not even a member of either the Corporation or the Standing Committee. The Municipal Commissioner performs all executive work and carries out all orders of the superior administrative body. It is true he is appointed by Government, but the appointment is for a renewable period of three years, and his salary cannot be increased beyond Rs. 2,500 a month except with the approval of the Corporation. Can any one say that this is the constitution that is proposed for Calcutta under the Bill? We are no advocates of the Bombay system but if it is at all to be given a trial in Calcutta, we are certainly of opinion that it will not do to borrow from it here and there, but that the system should be introduced into Calcutta in its entirety.

16 The Government of India are inclined to think that in this suggestion and in a more close adaptation of the Bombay model, might be found the solution for which they are seeking. I am desired, therefore to submit, for the consideration of His Honour the Lieutenant Governor, the following amended plan for the constitution of the reformed Corporation of Calcutta and of its Committees.

17 The Bombay Corporation is composed of two factors equal in numbers, and consisting respectively of members elected by the wards and of members appointed by the Government or elected by representative bodies. These two sections consist of 36 members each, or a total of 72. For the reasons already named, the Government of India are inclined to think that this total, which falls little short of the 75 hitherto allotted to Calcutta, is not required in the latter city in the interests either of adequate representation or of efficiency. They are the more disposed to take this view in the case of Calcutta, because any attempt to raise the strength of what may be described as the European element to the existing level of the Native element would not merely greatly augment total numbers, which are already in their opinion excessive, but would give to European interests a share in the numerical strength of the Corporation to which it is believed that they have no desire to lay claim, whilst if the Native proportion in the Corporation were diminished by 14, and the European proportion were increased by 11, so as to follow exactly the Bombay model, it is conceived that while the objection already stated would apply to the increase of the European section, serious exception would also be taken to a reduction of the Native element, which would either involve a radical reconstruction of the wards, or would call into existence an illogical and ill balanced scheme of representation. I am accordingly to suggest that the future Calcutta Corporation should, like that of Bombay, consist of two equal factors, the strength of which should be determined by that of the moiety now returned by what are in the main European interests. In other words it is advised that the Corporation should be composed of 50 members, 25 being elected as now by the 25 wards into which the city is already divided, and 25 being partially nominated (as now) by the Government and partially elected (as now) by bodies representing commercial interests. The Bombay model would in this way be faithfully reproduced, though with smaller numbers, in Calcutta. There would be created a strict equality and balance of interest between the European and the Native elements. And, owing to the fact that no reconstitution of the existing wards would be required, and that the European element would continue to be constituted as at present, the change could be introduced with the minimum of friction and delay. In speaking, however, of the European element the Government of India must guard themselves against a possible misinterpretation of the phrase. For convenience sake the term may be employed and has here been employed by them. But they are well aware that the section of the Corporation of which they are speaking need not necessarily be exclusively European in its composition, since it is to the Bengal Government and to the power of nomination enjoyed by the latter that certain non-European and Native elements of the population of Calcutta must look for representation, in the event of their being unable to secure it under the existing method of election by wards. The Government of Bengal have never failed in this respect to consider the interests of the sections of the population here alluded to, and it is not unlikely that under the amended scheme which is now suggested, their good offices may be called into action in defence of non-European and Native interests, that might otherwise remain unrepresented in the remodelled Corporation. To this extent must a qualification be admitted in the use of the phrase which has been employed in this paragraph.

18 The Select Committee have already in section 89A followed the Bombay model in giving to the Corporation power to appoint Special Committees to consider matters which are reserved by law for decision by the Corporation, and to delegate such of their duties to such Committees. The Bill also provides in section 88 for the appointment of Sub Committees by the General Committee. But I am desired specially to suggest that that model be more nearly followed in the constitution of the General Committee. They note the special approval with which the Honourable Messrs Narendranath Sen and Surendra Nath Banerjee draw attention to that feature of the Bombay constitution which provides for the formation of what is there known as the Standing Committee. Their words are as follow — "The Standing Committee, corre-

sponding to the General Committee under the Bill, is really a Committee of the Corporation, and not so merely in name, fully two thirds of its members being elected by the Corporation. There is thus a feeling of solidarity among the majority of the members of the Standing Committee, who owe their position and are responsible to one central authority, whose policy they are obliged to carry out with the utmost loyalty." The Government of India, who see much force in this argument, are disposed to recommend to His Honour the Lieutenant Governor a similar procedure at Calcutta. They think that a General Committee, thoroughly representative both of the principal interests involved and of the larger Corporation, and qualified to discharge the important duties which it is proposed to place upon its shoulders, might be constituted by the nomination, as in Bombay, of one third of its total number of 12 members by the Government and by the election of the remaining two thirds by the Corporation itself.

19 The circumstances of Bombay, however, differ materially from those of Calcutta, in one respect, viz, in the numbers and strength of the various communities that compose the total population of the city, and are represented in the Municipal body. The Bengal Government will doubtless, therefore, find it desirable to suggest some plan that will secure to that proportion (two thirds) of the General Committee which is to be elected by the entire Corporation a strictly fair and proportionate representation of the constituent elements of the electoral body. Otherwise it might be possible for either party, in the chances of voting, by a bare numerical majority, to swamp the General Committee, and to secure that the entire two thirds proportion should be of their own political complexion or class. Such a result would be destructive of that fairer representation of interests which the Government of India, equally with Sir Alexander Mackenzie and Sir John Woodburn, desire to secure. And it would be fatal to the harmonious co operation of all parties in the future, which they hope by this suggestion to produce.

20 I am also to suggest that it might be desirable to lay down rules for the appointment of the Special Committees and Sub Committees which would secure their being truly representative, in respect of their constituent elements, of the Corporation or General Committee appointing them. The provisions regarding the making of rules and bye laws for the conduct of the business of Special Committees and Sub Committees under sections 89A and 590, in connection with sections 595 and 597, might be extended to include their constitution in general agreement with the principles already laid down. It might not be necessary or feasible for all such Special Committees and Sub Committees to be homogenous in constitution with the body appointing them, but it is clear that in some cases at least such homogeneity alone would secure efficiency and obviate friction.

21 Such are the outlines of the revision of the existing scheme which, in the interests of the future efficient and orderly administration of Calcutta, the Government of India commend to the consideration of the Government of Bengal. No scheme that can be proposed will secure the unstinted approbation of all parties. The Bill already introduced has excited no small share of criticism. Exception can also doubtless be taken to the provisions of the suggested, or indeed of any other possible, modification of that Bill. The Government of India, however, who in framing these proposals have been actuated by a sincere desire to promote harmony equally with good government in the future, entertain the hope that there may henceforward be a truce to such dissension, and that the Bill as remodelled may be accepted by all classes in the spirit in which its modification has been discussed and put forward by them. For the successful municipal administration of a city like Calcutta, composed of such various and important interests, and with fortunes so momentous at stake, are required both a high standard of public duty on the part of those of its citizens who may be willing to enter its service, and the friendly and disinterested co operation of every section of the community. Such a co operation the Government of India confidently hope that His Honour the Lieutenant Governor may look forward to receiving. That evils and abuses have grown up in the existing municipal system will not be disputed. That they stand in need of correction cannot be denied. It should be the aim of all parties so to apply or to accept this correction as to purge the reputation of the city, of which they are the guardians,

from the least stigma of reproach, and to vindicate the wisdom of the decision that twenty three years ago first accorded the privileges of Local Self Government to the capital of the Indian Empire

No 276T—M, dated Darjeeling the 3rd July 1899

From—F W COLLIN Esq, Offg Secy to the Govt of Bengal, Municipal Dept,

To—The Secretary to the Government of India Home Department

I AM directed to acknowledge the receipt of your letter No 93, dated the 17th June 1898, conveying the views of the Government of India on the subject of the Calcutta Municipal Bill

2 It is pointed out in paragraph 9 of your letter that there is a want of correspondence, in constituent proportions, between the Corporation, which is to consist of 75 members, of whom 50 are to be elected by wards and 25 are to be selected by Government and bodies representing commercial interests, and the new General Committee, which is to consist of 12 members to be constituted in the opposite proportion of 8 from the 25 members selected by Government and commercial associations, and 4 from the 50 members elected by the wards. It is anticipated that this lack of proportion, and the divergent interests which it may be expected to create, will be liable to produce friction between the two bodies upon whose harmonious co-operation the future government of Calcutta must depend. It is also observed that the defects of the existing Corporation have been due to a great extent to the fact that the numbers of the Municipal body were excessive. It is therefore proposed to reduce the number of Commissioners, so that the future Calcutta Corporation should, like that of Bombay, consist of two equal factors. And in order to effect this object, it is suggested that the Corporation should be composed of 50 members, 25 being elected by the 25 wards into which the city is at present divided and 25 being partially (as now) nominated by Government and partially elected by bodies representing commercial interests. With regard to the General Committee it is suggested that the Bombay model should again be followed with certain reservations necessary on account of the special features of Calcutta, and that two thirds of its members should be elected by the Corporation. The object of the reservations suggested above is to secure that the members of the General Committee who are to be so elected, should constitute a strictly fair and proportionate representation of the constituent elements of the electoral body.

3 The Lieutenant Governor desires me to acknowledge the courtesy with which the Government of India have discussed the solution which they have presented to his consideration for the future government of Calcutta. The solution is one which had of course been examined by himself in studying the manifold criticisms upon the scheme of the Municipal Bill, and the precedent and authority of the Bombay system as aimed, undoubtedly, the greater prominence when the dissenters from the report of the Select Committee had declared their general adherence to it. The Lieutenant Governor has not therefore been surprised that in adaptation of the Bombay system to the circumstances and conditions of Calcutta is commended to him by the Government of India.

4 With the Government of India as it has always been with himself the first consideration is the good government of Calcutta—the prompt and efficient discharge of the multifarious duties which the administration of so great a city involves. The adaptation of the Bombay system, which the Government of India propose, does not conflict with the arrangements which he considered to be necessary in Calcutta to that end, and he has no objections to offer to the settlement of the issue on the lines they recommend. The reasons which led him personally to prefer the maintenance of the present numbers of the Corporation have been publicly stated and were before the Government of India. They have held that the reasons are outweighed by the danger of friction in a Corporation, where the executive and managing committee is out of harmony with the main body. Sir John Woodburn has never concealed the force of these objections, and he will not press his personal

opinion on this point further against the deliberate conclusion of the Government of India

5 With regard to the suggestions in paragraph 19 of your letter, that provision should be made to secure to the portion of the General Committee, which is to be elected by the Corporation, a proper representation of the constituent elements of the Corporation, he recognizes that such provision is necessary. The necessary amendment will accordingly be introduced into the Bill.

WEATHER AND CROP REPORT

For the week ending the 10th July 1899

Surdwan — Rainfall at Sadar 4 50 Kalna 3 55, Katwa 2 74, Raniganj 3 89 Weather seasonable Transplanting of *aman* paddy going on briskly Standing crops doing well Fodder and water sufficient Cattle-disease in Katwa decreased slightly Common rice selling as follows —

	Srs	
Sadar	16 to 19	} per rupee
Kalna	15	
Katwa	18	
Raniganj	17	

Birbhum — Rainfall at Sadar 3 24 Rampur Hat 3 20 Weather rainy and hot Sowing of seed and tillage going on Price of common rice at Sadar and Rampur Hat 18 seers per rupee Fodder sufficient No cattle disease

Bankura — Rainfall at Bankura 5 55, Vishnupur 88 Weather cloudy and rainy Transplantation going on Sugarcane growing Fodder and water sufficient No cattle disease reported Price of common rice at Bankura 17½ seers and at Vishnupur 17¼ seers per rupee

Midnapore — Rainfall at Sadar 1 91, Tamluk 4 02, Ghatal 75 Weather seasonable Transplantation going on Prospects of sugarcane, jute and flax favourable Cattle disease reported from Chandrakona Common rice selling as follows —

	Srs	
Sadar	14 to 20	} per rupee
Tamluk	14½	
Ghatal	14 to 16	

Hooghly — Rainfall at Sadar 7 92, Serampore 6 64 Jahanabad 2 60 Sowing of winter paddy going on Excessive rain damaged jute and paddy Cattle disease in Sadar and Serampore Common rice sells from 13 to 15 seers per rupee

Howrah — Rainfall at Sadar 5 77 Ulubaria 2 54 Weather cloudy with rain almost every day Sowing of *aman* and *aus* still continues Transplantation of *aman* going on Some damage has been done to sugarcane and jute in Shingti outpost by floods Paddy seedlings have also to some extent been damaged in places in Howrah and Ulubaria owing to recent excessive rain Fodder and water sufficient Common rice sells at 12 to 15 seers per rupee

24 Parganas — Rainfall at Sadar 6 92 Barasat 5 19 Basirhat 1 40 Diamond Harbour 6 79 Weather hot and rainy Excessive rain is doing injury to *aus* and jute crops and has retarded weeding operations Transplantation of *aman* going on slowly Cattle disease reported from some parts of the Basirhat subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	13½ to 16	} per rupee
Barasat	16½	
Basirhat	18 4½ch	
Diamond Harbour	16	

Nadia — Rain at Sadar 3 96, Kustia 1 22, Chuadanga 1 60, Ranaghat 4 99 Weather hot and cloudy with occasional rain Prospects of crops promising Fodder and water sufficient Price of common rice stationary

Murshidabad — Rain at Sadar 3 76 Jangipur 2 60, Kandi 2 08 Weather cloudy Transplantation of *aman* still going on *Ashato* and jute plants doing well Prospects of mulberry and indigo favourable Paddy plants are under water in some parts of the Sadar subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	16	} per rupee
Kandi	18½	

Jessore—Rainfall at Sadar 2 14, Jhemda 7 0, Magura 1 73 Narail 1 76 Bangaon 1 76 Weather cloudy, rainy and occasionally hot Weeding of *aus* and jute going on Prospects of standing crops good except in the Jhemda Magura and Narail subdivisions, where insects are damaging them Cattle disease reported from thana Gaighata Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	16 to 20	} per rupee
Jhemda	16	
Magura	17 to 20	
Narail	20	
Bangaon	18	

Khulna—Rainfall at Sadar 2 3, Bagirhat 1 64 Satkhira 2 94 Weather hot, cloudy and rainy Cultivation for and transplantation of *aman* going on Fodder and water sufficient Cattle disease reported from Rampal thana Common rice sells as follows —

	Srs	
Sadar	19 to 23	} per rupee
Bagirhat	19	
Satkhira	15 and	
	20 (coarse <i>aus</i>)	

Rajshahi—Rainfall at Sadar 3 83 Nator 2 1, Nangaon 3 95 Prospects of crops good No cattle disease Fodder and water supply plentiful Rice sells from 16 to 22 seers per rupee

Dinajpur—Average rainfall 5 91 Weather seasonable Transplantation of *haizanti* paddy has commenced Weeding of *aus* and jute retarded by excessive rain Cattle disease reported from five thanas Rice selling at 18 to 20 seers per rupee Fodder and drinking water sufficient

Jalpaiguri—Rainfall at Sadar 7 05 Alipur Duars 10 46 Weather hot and cloudy *Bhadol* paddy and jute doing well *Haizanti* paddy being transplanted Prospects good Fodder and water sufficient Common rice sells from 10 to 13 seers per rupee

Darjeeling—Rainfall at Darjeeling 6 94 Siliguri 4 92 Weather seasonable *Hills*—*Bhutia bhaloi* paddy and *cheta muruz* promising well *Teras*—Jute *blain* and sugarcane doing well prospects good *haizanti* paddy not yet transplanted Coarse rice sells as follows —

	Srs	
Hills	9 to 13	} per rupee
Teras	16 to 18	

Bhutia sells at Darjeeling 24 seers and at Kalimpong 40 seers per rupee

Rangpur—Rainfall at Sadar 6 64 Gaibanda 3 56 Kurigram 4 00 Nilphaman 8 47 Weather rainy Cutting of *aus* and transplanting of winter rice going on Prospects good Common rice selling from 16 to 22 seers per rupee Fodder and water sufficient Cattle disease reported from some villages in thana Jaldhaka

Bogra—Average rainfall 3 70 Prospects good Cultivation of land for *aman* still continues Transplantation has begun Common rice sells from 17 to 23 seers per rupee Fodder and water ample

Pabna—Rainfall at Sadar 2 76 Sirajganj 1 45 Weather cloudy and rainy Crops on low lands damaged in places but otherwise prospects good

Dacca—Rainfall at Sadar 1 41 Manikganj 3 60 Munshiganj 1 51 Narainganj 2 18 Weather seasonable Prospects of crops fair Insects are destroying paddy and jute in the Sadar and Munshiganj subdivisions In Manikganj *aus* paddy has been damaged in low lands by sudden rise of flood water Fodder available No cattle disease Price of common rice 16 to 19 seers per rupee

Mymensingh—Rainfall at Sadar 3 81 Kishorganj 3 72 Tangail 1 87 Netrokona 6 12 Janapur 3 60 Weather showery Prospects of crops excellent Condition of cattle good Fodder and water ample Common rice sells as follows —

	Srs	
Sadar	20	} per rupee
Kishorganj	20	
Tangail	18	
Netrokona	24	

Faridpur—Rainfall at Sadar 1 55, Goalundo 3 34, Madaripur 19 Weather seasonable State and prospects of standing crops good Common rice selling at 17 to 18 seers per rupee

Backergunge—Rainfall at Sadar 3 64 Weather seasonable Prospects of crops fair Common *aman* rice sells from 13 to 21 seers per rupee

Tippera—Rainfall at Sadar 5 42, Brahmanbaria 2 53, Chandpur 1 55 Weather seasonable Standing crops doing well *Aus* and jute beginning to be reaped in Brahmanbaria Average price of common rice 19 seers per rupee

Noakhali—Rainfall at Sadar 3 42 Feni 2 14 Prospects of standing crops fair Fodder sufficient Price of rice stationary

Chittagong—1 55 Weather seasonable Cultivation of *aus* in progress Prospects fair Prices stationary Water and fodder sufficient

Patna—Rainfall at Sadar 2 95 Bah 1 11 Bihar 2 74 Dinapore 2 92, Bikram 2 78 Hilsa 4 50 *Makai* still being sown but more rain will be injurious to this crop Transplantation of *marua* almost completed Paddy sowing going on No cattle disease Fodder and water for cattle sufficient Common rice in Patna sells at 19 seers per rupee

Gaya—Rainfall at Sadar 1 89 Jahanabad 73 Aurangabad 1 31 Nawada 4 61 Transplantation of *marua* millet and sowing of paddy going on *Bhados* injured a little by excessive rain Common rice selling at 16 seers per rupee

Shahabad—Rainfall at Sadar 3 22, Buxar 5 12, Bhahua 6 73 Sasaram 3 70 *Bhados* and paddy sowing going on those sown are coming on well Sugarcane in Buxar reported to be damaged by heavy rain Fodder and water sufficient Cattle disease reported from four villages in the Sasaram subdivision

Saran—Rainfall at Sadar 3 94, Siwan 1 80, Gopalganj 3 63 Weather showery General prospects good Weeding of *bhados* going on Transplantation of paddy begun Average price of common rice 14 12 seers and of *malai* 24 12 seers per rupee

Champanar—Rainfall at Mothari 2 25 Bettiah 4 62 Barharwa 3 13, Bagaha 3 35 Ramnagar 1 58 *Bhados* sowings nearly finished and germinating well Paddy transplantation going on Prospects good Weeding retarded by rain *Malai* and indigo suffered somewhat from heavy rainfall Price of common rice 13½ seers and of maize 22½ seers per rupee

Muzaffarpur—Rainfall at Sadar 13 34 Hajipur 2 51, Sitamarhi 4 40 A few days sunshine is urgently required to facilitate the weeding of the *bhados* crop otherwise prospects good Prices are—Common rice 12 to 15 seers wheat 16 to 18 seers barley 23 to 24 seers, *makai* 23 to 24 seers gram 22 to 23 seers, and *rahar* 20 to 21 seers per rupee

Darbhanga—Weather cloudy and rainy Rainfall at Sadar 6 09 Samastipur 3 82 Madhubani 3 98 Sowing of *bhados* almost completed Transplantation of paddy has commenced *Makai* and *marua* doing well Common rice selling at Sadar 13½ seers per rupee Fodder and water sufficient

Monghyr—Rainfall at Monghyr 3 57 Begusarai 17, Jamui 2 36 Weather seasonable Transplantation of *marua* commenced *Bhados* and paddy sowings continue Weeding of *bhados* commenced in places Prospects generally good Common rice sells as follows—

	Srs	
Monghyr	13 to 16	} per rupee
Begusarai	12 to 15	
Jamui	16	

Bhagalpur—Weather wet and cloudy Rainfall at Sadar 2 44, Banka 4 00 Madhupura 3 03, Supaul 2 57 Transplantation of paddy going on briskly Sowings are in full progress except in Banka where they are a little retarded by the heavy rain Common rice sells at 15½ seers per rupee

Purnea—Rainfall at Sadar 6 26, Kishanganj 7 09 Araria 1 54 Weather rainy Excessive rainfall retarded growth of paddy, jute and sugarcane Transplantation of *aghani* on high lands going on Dry weather much needed No cattle disease Fodder and water sufficient Common rice sells as follows—

	Srs	
Sadar	15	} per rupee
Kishanganj	15	
Araria	16	

Malda — Rainfall at Sadar 5 88 Chanohal 7 77 Gajole 5 30 Weather hot and cloudy with frequent showers of rain Transplanting of winter rice commenced in places *Bhadoi* paddy and jute thriving well Common rice sells at 18 seers per rupee

Sonthal Parganas — Average rainfall 3 76 All crops doing well, but Indian corn needs fair weather Indigo being cut in Rajmahal Price of rice 14 to 18 seers, and of maize 20 to 30 seers per rupee Cattle disease in Rajmahal

Cuttack — Rainfall at Sadar 4 05, Jajpur 90 Banki 1 92 Weather seasonable *Sarad* jute and sugarcane growing *Bahi* being weeded and harrowed Condition of cattle generally good Fodder and water sufficient Common rice sells as follows —

	S	ch	
Cuttack	17	1	} per rupee
Jajpur	17	1	
Banki	17	15	

Balasore — Rainfall at Sadar 3 17 Sugarcane thriving well *Bahi* and *sarad* growing well latter being reploughed Rice sells from 16 to 24 seers per rupee in the interior and at 17 seers per rupee at Balasore and Bhadrak Cattle disease prevailing in *chakla Singla* Fodder and water sufficient

Angul — Rainfall at Sadar 1 63 Bispura 1 12 Weather seasonable *Bhadoi* and winter paddy seedlings doing well Common rice selling at 24 seers per rupee in Angul and 16 seers at Bispura Condition of cattle generally good but cattle disease reported from some places

Puri — Rainfall at Sadar 9 4, Khurda 1 44 Young plants of *sarad* and *mandia* growing well *Bahi* being harrowed Sugarcane and other miscellaneous crops promise well Fodder and water sufficient Cattle disease continues Price of common rice stationary

Hazaribagh — Rainfall at Sadar 5 35 Giridih 3 90 Weather seasonable Ploughing and sowing in progress Prospects of sugarcane good Common rice sells from 15 to 20 seers per rupee

Ranchi — Rainfall 3 53 Weather seasonable Sowing of paddy continues Rice sells at Ranchi 16 seers and in the interior from 16 to 21 seers per rupee Fodder and water plentiful

Palamau — Rainfall 4 86 Weather cloudy *Bhadoi* sowing going on Sugarcane doing well Rice selling at 16 seers per rupee

Manbhum — Rainfall at Sadar 3 29, Gobindpur 1 93 Weather seasonable Prospects of crops generally good Cattle disease reported from thana Jhalda Fodder and water sufficient Average price of common rice at Sadar 18½ seers and at Gobindpur 17 seers per rupee Supply sufficient

Singbhum — Rain 2 98 Prospects good Transplantation going on Rice sells from 16 to 20 seers per rupee

General Summary — The rainfall during the week has been general and heavy Cultivation of winter rice is in active progress but a cessation of rain is now generally required Owing to excessive rain the young crops in the ground are reported to be suffering in several places and weeding is retarded In Dacca and Jessore the insects are still damaging the rice and jute plants There is ample supply of fodder in every district, but reports of cattle disease continue to be received from many districts Prices are practically stationary, the variations reported being very slight and confined to a few districts

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secretary to the Govt of Bengal

REVENUE DEPARTMENT,

The 11th July 1899

STOCKS OF RICE IN AND AROUND CALCUTTA

No 474 Statistics —The following is published for general information

F A SLACK,
Offg Secy to the Govt of Bengal

Statement showing the Stocks of Rice in and around Calcutta during July 1899

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JUNE 1899

WEATHER has been unusually settled throughout the month especially over the Bay, where the advancing monsoon almost invariably gives rise to disturbances of more or less severity. During the past month there was not the least sign of cyclonic weather at any time a fact which is the more remarkable, as shallow depressions such as occur during the monsoon season were not unfrequent in May. It is possible that the occurrence of these shallow depressions indicated the commencement of monsoon weather earlier than usual, a surmise which is supported by two noticeable features in the weather of May and the early part of June. The first of these was the typical monsoon weather with general cloud and heavy rainfall which obtained during a large portion of the month of May the second that notwithstanding the low pressure in the east of the province, subsequent to the occurrence of these depressions, the wind circulation retained its usual monsoon directions over the Bay and the province.

The comparatively dry weather which prevailed over the west of the province in the early part of June was more of the nature of a break in the rains and it came to an end in consequence of the formation of a shallow land depression about the 10th such as not unfrequently forms in July and August. Though the depression filled up soon after its first appearance it caused the showery weather which had been continuous in the eastern district from the beginning to extend westward over the whole province and from about the 15th ordinary monsoon weather became established in the central districts, Bihar and Chota Nagpur.

The rainfall which occurred during the third week of the month was due to a very large extent to local thunderstorms and these probably arose from the small variations of pressure and changing winds which in the moist and comparatively quiet condition of the atmosphere are likely to be followed by occasional current formation of cumuli and heavy rainfall.

About the end of the third week pressure rose more over the province than over the Bay and the gradient became not only less steep than was usual for the season but less so than had been previously the case from the beginning of the month. Rainfall in consequence became lighter and more scattered but only for a few days, as a brisk fall of pressure which began on the 23rd and continued on the 24th restored the distribution to a practically normal condition. A slight depression formed over Assam and East Bengal with almost general westerly winds. The depression was too shallow however to cause a regular cyclonic circulation of winds which remained so light that they were affected by the smallest changes of pressure. The changes which followed were always of small amount but as they were of an oscillatory nature upwards in the east and downwards in the west or vice versa on successive days the wind were constantly changing and heavy general rainfall was received in all parts of the province except the south west. The rainfall was similar in character to what had occurred earlier in the month was due to local disturbances, irregular in its distribution and in places much above the normal amounts.

At the beginning of the month pressure was rising in the south east of the Bay and falling over the province where the gradient was moderately steep. Winds were normal in direction south westerly over the Bay and in the south western districts and between south and east at other inland stations. Temperature was above the normal but not by large amounts, except at a few stations in East Bengal and in the extreme west where mean excess was between 5 and 8. Showers were fairly general in East and North Bengal and a few fell in South West Bengal. Weather such as described above continued from day to day during the first ten days of the month with daily rainfall in the eastern districts and occasional showers as on the 6th and 7th further west. A ridge of slightly high pressure developed over the centre of the Bay in consequence of which the pressure distribution was more uniform than usual for the season in that area and weather was quiet and settled. Over the province on the other hand the gradient remained fairly steep.

On the 10th irregular pressure changes occurred over the province. A moderate to brisk rise was a portend from Bihar and East Bengal which with a slow fall in the central districts caused the slight depression referred to above as the only one during the whole month. Readings were above the normal at all stations but most so in East Bengal, and the centre of the low pressure area was in the west of South Bihar with a fairly regular circulation of light cyclonic winds. The heavy rainfall which had been of daily occurrence in the eastern districts for some days extended westward and in the course of the next two or three days reached the extreme west of the province.

This advance of locally rainy weather is shown by the temperature changes. On the 10th the difference from the normal varied from excess of 16° in Chota Nagpur to defect of 4° in Assam on the 11th from excess of 2° in Orissa and Chota Nagpur to defect of 8° in Assam and on the 12th there was a moderated defect in all districts.

A brisk to rapid increase of pressure occurred on the 11th in the depression area of the 10th, and readings were then above the normal at all inland stations by considerable amounts, more so than at coast stations but a fall began on the 12th and continued for

several days, till a uniform distribution was established over the province. The small oscillations of pressure which then followed till about the end of the third week probably caused the continued showery weather which was a feature of those days, especially in the west of the province, where cloudy rainy weather prevailed with unusually low temperature.

Rainfall became less general on the 20th owing to the comparatively high pressure which obtained over the province for a day or two and temperature became practically normal. Pressure fell on the 22nd and showery weather such as occurred during the third week recommenced and continued without interruption till the end of the month. As before, the pressure distribution was uniform and winds light so that the small oscillatory changes of pressure were sufficient to cause the local variations in the winds from east to west with thunderstorms and heavy falls of rain. Temperature remained low, with the largest defect, as in the previous period of showery weather, in the west of the province.

Pressure changes were much smaller than usual during June, owing to the absence of cyclonic disturbances, and the difference from the normal was never large. It was above the normal in the early part of the month for some time and as subsequently the changes generally consisted of small oscillations about the normal the means for the month are generally somewhat in excess. The greatest excess is 0.3 inch in Orissa and part of South West Bengal. Elsewhere the difference from the normal varies from excess of 0.2 inch in East Bengal to a slight defect in the west of Bihar.

Temperature was above the normal during the first ten days the excess being large in the western districts. After the showery weather became general it fell everywhere, and while the general rainfall continued readings, both maximum and minimum, remained in defect, the largest differences being again in the west of the province.

The large excess in Chota Nagpur and Bihar in the early part of the month was largely neutralized by the subsequent defect so that the means for the month differ by only small amounts from the normal. The difference in maximum readings varies from excess of less than 1° in Chota Nagpur to defect of 2° in South West Bengal and Orissa, and in minimum readings from excess of 1° in North Bengal and Bihar to defect of less than 1° in Lower Bengal and Bihar. In South West Bengal Orissa and Assam the mean difference from the normal was on an average for the division from 1 to 1.6 and in North Bengal, Bihar and Chota Nagpur the difference was less than half a degree.

Rainfall was general in the east of the province during the greater part of the month especially in the Bangpur Cooch Behar and Jalpaiguri districts where it was continuous and heavy. In the central districts showers were of occasional occurrence during the first ten days but in the extreme west it was altogether absent. Between the 10th and 13th monsoon weather was established and from the latter date rainfall was daily reported in varying quantity from a large proportion of the measuring stations.

The general weather conditions were of a somewhat exceptional nature during the latter half of the month. No cyclonic storms occurred over the north of the Bay so that the coast districts generally show deficient rainfall. Inland the heavier falls were caused by thunderstorms or small local disturbances and consequently the distribution is less regular than usual. The total fall for the month is below the normal over the greater part of Orissa the Sunderbans and over a tract of country in the neighbourhood of the Assam hills. In South West Bengal and North Bengal there were centres of heavy rain and over considerable areas surrounding these centres excesses ranged up to 10 inches in the former and 15 or 20 inches in the latter. In the western and central districts there has been generally a small excess except in Champaran, which is the only part of Bihar with deficient rainfall though not to any great extent.

The average fall in North Bengal for the month is 21.9 inches in East Bengal 17.4, in South West Bengal and Chota Nagpur nearly 10 in Bihar 11.2 and in Orissa 8.

The following table gives a condensed view of the rainfall of the various divisions of Bengal in June and in each of the previous months of the present year, as compared with the normal values for the same periods. The figures given represent the actual falls expressed as percentages of the normal falls —

METEOROLOGICAL DIVISIONS	January	February	March	April	May	June	Actual rainfall of first six months of 1899 expressed as a percentage of the normal fall for the period
South West Bengal	230	12	17	135	118	123	113
North Bengal	270	4	112	93	85	127	112
East	300	109	51	153	137	104	120
Bihar	224	18	17	283	101	119	136
Orissa	49	38	10	357	144	93	114
Chota Nagpur	164	24	Nil	205	85	104	126

The following table gives full data for the comparison of the actual and normal rainfall of the month of June in all districts in the province. The figures are derived from the average and actual rainfall of the rain recording stations in each district, due allowance being made for the area which each represents. This gives a more accurate average than the arithmetical means given in the monthly meteorological tables. The first column gives the normal district rainfall as determined from the rainfall records of the past 25 years; the second column the district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in the district; the third column expresses the ratio of the actual district rainfall of the past month to the normal as a percentage, while the fourth gives the percentage variation or the difference of column 3 from 100 —

Percentage Table for June 1899

Division	District	Normal district rainfall June	Actual district rainfall June 1899	Percentage actual to normal rainfall	Percentage excess (+) or defect (-)

METEOROLOGICAL OFFICE, BENGAL, •
The 11th July 1899

C. LITTLE,
Meteorological Reporter to the Govt of Bengal

**Abstract of the Results of Meteorological Observations taken at the Alipore
Observatory in the month of June 1899**

	Inches	Date	Hrs
The mean pressure of the month	29.587		
The average pressure of June from 24 years' registers	29.549		
The highest pressure in the month	29.724	11th	10
The lowest pressure in the month	29.455	14th	16
The range of pressure	0.269		
	Hrs		
The total number of hours of bright sunshine during the month	327		
The maximum possible number of hours of sunshine	403.4		
	°		
The mean temperature of the month	81.4		
The average temperature of June from 24 years' registers	85.0		
The highest temperature in the month	97.2	1st	
The lowest temperature in the month	73.2	11th	
The range of temperature during the month	24.0		
The mean daily range of temperature	12.3		
The greatest range of temperature in one day	22.0	11th	
	Per cent		
The mean humidity of the month	81		
The average humidity of June from 24 years' registers	81		
	Inches		
The mean vapour tension of the month	0.995		
The average vapour tension of June from 9 years' registers	0.998		
The mean cloud proportion of the month	7.92		
The average cloud proportion of June from 22 years' registers	7.03		
	Inches		
The total rainfall of the month	16.94		
The total rainfall indicated by a Beckley's self-registering rain gauge (mouth of the gauge about 52 feet above the ground)	16.94		
The average fall of June from 48 years' registers	12.08		
The greatest fall in 24 hours	4.12	28th	
	Days		
The number of rainy days in the month	19		
The average number of rainy days in June from 24 years' registers	19		
	°		
The mean maximum equilibrium temperature of solar radiation during the month	142.5		
The mean difference of sun and air temperatures	52.0		
The greatest sun temperature	133.6	12th	
The greatest excess of sun over air temperature	64.3	13th	
The mean temperature of the nocturnal radiation thermometer on wool in cloth	77.4		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	1.1		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	3.1	5th	
	Miles		
The mean movement of the wind per day	146.1		
The greatest movement of the wind in one day	260.0	9th	
The greatest movement of the wind in one hour	18.0	6th, 11 to noon and 3 to 4 P.M.	
The number of hours with winds from each of the 8 points—			
N 4 N.E. 3 E 12, S.E. 11, S 11 S.W. 22, W 36 N.W. 12 Calm 5			

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore 0.03 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.5 higher, and, finally, the thermometer which furnished the record of temperature at the Surveyor General's Office during 20 years and upwards is found to read 0.6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

G. W. KUCHLER,

METEOROLOGICAL OFFICER GOVT OF INDIA,
Calcutta, the 10th July 1899

For Meteorological Reporter to the Govt of India.

Results of the Meteorological Observations taken at the Alipore Observatory from 2nd to 8th July 1899

The mean pressure temperature &c, are deduced from the traces of the Barograph and Thermograph and from observations made at 4h, 10h, 16h and 22h

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor General's Office.

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office, and based on Reguault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beskley's anemograph.

The mouth of the rain gauge is one foot above the ground.

O W BOLTON,
Chief Secy to the Govt of Bengal

REVENUE DEPARTMENT—(LAND REVENUE)

NOTIFICATION—No 2858

The 18th July 1899—Whereas an application has been made by the recorded proprietor of the 13 annas share of estate Kulutia, tauzi No 2133, in the district of Murshidabad, for issue of an order directing that a survey be made and a record of rights prepared in respect of the entire estate and

Whereas the said proprietor has deposited with the Collector of Murshidabad the necessary cost of the operations

In exercise of the powers conferred by section 101 of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B C) of 1898 the Lieutenant Governor of Bengal is pleased to direct that a survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of the aforesaid estate. The particulars to be recorded in the said survey and record of rights shall be the following, namely—

- (a) The name of each tenant or occupant
- (b) The class to which each tenant belongs, that is to say, whether he is a tenure holder raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non occupancy raiyat or under raiyat, and if he is a tenure holder, whether he is a permanent tenure holder or not, and whether his rent is liable to enhancement during the continuance of his tenure
- (c) The situation, quantity and one or more of the boundaries of the land held by each tenant or occupier
- (d) The name of each tenant's landlord
- (e) The rent payable at the time the record of rights is being prepared
- (f) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise
- (g) If the rent is a gradually increasing rent, the time at which, and the steps by which it increases
- (h) The special conditions and incidents, if any, of the tenancy
- (i) If the land is claimed to be held rent free, whether or not rent is actually paid, and if not paid whether or not the occupant is entitled to the land without payment of rent and, if so entitled, under what authority

MARINE DEPARTMENT

The 17th July 1899

No 135 Marine — The following definitions of the terms "Safety fuze" and "Safety cartridges, sanctioned by the Government of India under Notification No 1417 dated the 24th June 1896 are added to Rule 6 of the Rules for regulating the transport and importation of explosives in the Port of Calcutta sanctioned by this Government under Notification No 227 Marine dated the 3rd September 1890 —

"The term 'Safety fuze' means a fuze for blasting which burns and does not explode and which does not contain its own means of ignition, and which is of such strength and

construction and contains an explosive in such quantity that the burning of such fuze will not communicate laterally with other like fuzes

'The expression 'Safety cartridges means cartridges for small arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges'

NOTIFICATIONS OF THE BOARD OF REVENUE

No 1291B

NOTICE is hereby given that the Eighth Sale of Opium the Provision of 1897-98, will be held at the Government Opium Sale room No. 2 Binkshall Street, on Wednesday, the 2nd August 1899, at 11 A.M. and will comprise 3,400 chests, viz—

Opium manufactured at the Patna Factory	Chests. 1,450
Ditto at the Ghazipur Factory	1,950
Total	3,400

2nd—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 29th November 1898, and published in the *Government and Exchange Gazette*, or on personal application at the Office of the Board of Revenue.

3rd—The latest dates for deposit and clearance will be the 7th and 17th August 1899, respectively that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale room will be received after 3.30 P.M. of Monday, the 7th August 1899 and no Bank of Bengal Receipts in full payment of lots will be accepted after 3.30 P.M. of Thursday, the 17th August 1899.

4th—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next, about the dates specified below. The Board of

Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so —

DATES	Manufactured at the Patna Factory about chests.	Manufactured at the Ghazipur Factory about chests	Total about chests
On or about Monday, 4th September 1899	1,400	1 950	3 400
On or about Monday, 2nd October ,	1,450	1,950	3 400
On or about Wednesday, 1st November ,	1,450	1,950	3,400
On or about Friday, 1st December ,	1,450	1,950	3 400
Total	5,800	7,800	13 600

Orders and Notifications by the Government of India, &c

[Reprinted from the "Gazette of India"]

The following orders, issued by the Government of India, Home Department, are republished for general information

O W BOLTON
Chief Secy to the Govt of Bengal

NOTIFICATIONS

SANITARY Plague

Simla, the 14th July 1899

No 2211 — The following notices of the Board of Trade are published for general information —

(F & H 8952)

Board of Trade (Fisheries and Harbour Department) London, June 16, 1899

The Board of Trade have received, through the Secretary of State for the Colonies, the following copy of a Notice issued by the Governor of Malta, viz

Government Notice — No 167

His Excellency the Governor having heard the opinion of the Board of Health, has been pleased to modify Government Notice No 159 of the 30th May 1899, and to direct that the following Regulations be observed viz —

- 1 Vessels which are not allowed to enter the Harbour, but are allowed to communicate in Quarantine with the Islands of Comino and Cominotto under such restrictions as the Collector of Customs may direct
 - (a) Vessels that have on board, or have had during the voyage, cases of cholera, yellow fever or plague, or cases of a disease with symptoms resembling those of cholera, yellow fever, or plague
 - (b) Vessels with pilgrims from the East
 - (c) Vessels arriving from Arabian ports in the Red Sea and the Persian Gulf which have not been admitted to free pratique at Suez and Port Said
- 2 Vessels which are allowed to enter the Quarantine Harbour to coal and take in provisions under Quarantine restrictions
 - (a) Vessels arriving from Indian ports without a doctor but those that carry a doctor and have passed through the Suez Canal in quarantine shall be admitted to free pratique

- (b) Vessels arriving from any port without a clean bill of health, which do not fall under any of the preceding regulations
- (c) Vessels arriving from Egyptian ports

3 Medical Inspection

All vessels arriving at Malta shall undergo strict medical inspection

4 Passengers

- (a) Passengers arriving from Bombay, Kurrachee, and passengers from Calcutta, on board vessels that do not carry a doctor, shall be landed in one of the quarantine establishments where they will be subjected to strict medical inspection until their clothing and all other articles of personal use, likely to retain infection, shall have been thoroughly disinfected
- (b) Passengers arriving from Indian ports on board vessels that carry a doctor shall be permitted to land but no luggage shall be landed before it is disinfected in one of the quarantine establishments
- (c) Every passenger or other person arriving at Malta shall before being allowed to land, declare on oath before an Inspector of Marine Police or other superior officer that he has not been in Egypt within 21 days whenever such person does not make this declaration on oath he shall undergo 21 days' quarantine on the ship

5 Goods

The importation of coffee, beans or ground, coloured with substances injurious to health is prohibited

The importation of cotton seed from any port subject to quarantine is forbidden

The importation of rags is prohibited

The importation is forbidden before disinfection, of the following articles viz wearing apparel, soiled linen and clothing, bedding materials feathers bones, and jute goods

The importation of hides from any port subject to quarantine, or from any place where cattle disease exists, is prohibited before disinfection

The importation of vines, vine shoots and fruit packed in vine leaves is prohibited
The importation of plants or roots from any port of the Mediterranean is prohibited, unless the same are accompanied by a satisfactory certificate that Phylloxera is not known to exist at the place of origin

By command,
G STRICKLAND
Chief Secretary to Government

Palace, Valletta, June 8, 1899

(F & H 8976)

Board of Trade (Fisheries and Harbour Department) London, June 16, 1899

The Board of Trade have received through the Secretary of State for Foreign Affairs the following copy of a Circular issued by the Bulgarian Government viz

Sofia, le 24 Mai (5 Juin), 1899

Ministère des Affaires Étrangères et des Cultes

No 6411

Circulaire

Le Ministère des Affaires Étrangères a l'honneur d'informer l'Agence Diplomatique de Sa Majesté Britannique que sur l'avis du Conseil Médical Supérieur de la Principauté et par une ordonnance sub No 179 en date du 22 Mai a c, le Département de l'Intérieur ayant eu vue l'apparition de quelques cas de peste dans le port de Bassorah, a édicté les mesures quaranténaires suivantes

- (1) Sont déclarés comme infestés par la peste la ville de Bassorah et tout le littoral du Golfe Persique. Les mesures quaranténaires énumérées dans les ordonnances sub No 5, 74, 130 et 136 de l'a c seront appliquées envers ces localités
- (2) L'ordonnance sub No 113 du 19 Avril a c est modifiée comme suit
 - (a) L'importation en Bulgarie des sacs venant directement des Indes ou d'autres localités contaminées par la peste est interdite
 - (b) Les sacs venant des Indes ou d'autres endroits infestés et qui auraient été transbordés sur un autre navire dans un port européen quelconque, ne peuvent être importés dans la Principauté que par les ports de Varna et le Bourgas et par le point frontière de Hebichtchevo, après avoir subi la désinfection
- (3) Les marchandises venant de localités contaminées par la peste à destination des ports du Danube ne peuvent être importées en Bulgarie, alors même qu'elles auraient reçu libre pratique par Bulina

- (4) Les voyageurs venant de localités infestées et qui présenteront des certificats prouvant qu'ils ont subi la quarantaine établie à Sulina ne peuvent entrer en Bulgarie que par les ports du Danube de Silistra Roustchouk, Sistow et Lom après une désinfection rigoureuse de tous leurs effets et
- (5) Est interdite l'entrée en Bulgarie des colis postaux venant de localités contaminées par la peste

A l'Honorable,

Agence Diplomatique et Consulat Général

de Sa Majesté Britannique, Sofia

NOTE.—For previous rules relating to Malta and Bulgaria see Home Department Notification N 2075 dated 21 30th June 1899 (published in Part I of the *Gazette of India* of the 1st July 1899)

The 14th July 1899

No 314—The Governor General in Council is pleased to direct that the following shall be substituted for the last paragraph of Rule IX of the Rules for regulating grants for the building of churches, etc., published in Home Department Notification No 173 (Ecclesiastical), dated 21st May 1897

The Government grant will be found by multiplying the plinth area of the approved design, plus three times the area of the base of the tower, in cases in which a tower is admissible by a rate 25 per cent in excess of the local rate per unit of plinth area for ordinary single storied buildings

Provided that if any portion of the plinth area of the tower falls within the plinth area of the church the portion included must be deducted from the total plinth area before applying the rate

NOTICES TO MARINERS

GOVERNMENT OF BENGAL—MARINE DEPARTMENT

NOTICE TO MARINERS—No 141

[First Publication]

CHINA—MIN RIVER APPROACH

Inner bar—Sandbank

THE British Admiralty has given Notice (No 331 of 1899) of the existence of a sandbank lying in the fairway over the Inner bar, river Min

This sandbank is of very small extent, and has a least depth on it of 8 feet at low water springs from it sharp peak point bears N $\frac{1}{4}$ E, distant $2\frac{1}{2}$ cables, and south point of Hokiang W $\frac{1}{4}$ N

Approximate position, lat $26^{\circ} 6' 55''$ N, long $119^{\circ} 40' 5''$ E

(Variation 1° Westerly in 1899)

NOTE—As this sandbank is situated on the track usually followed across the Inner bar, that track has been erased from the Charts vessels entering the river are recommended instead to adopt the following route—After passing No 3 buoy bring the south point of West Brother open to the southward of the south point of East Brother bearing N W by W $\frac{1}{4}$ W, steer on that course until High Sharp peak is in line with the extreme of Woga point bearing N W, then alter course and steer with these two objects in line until the bar is crossed No stranger should, however, attempt to cross the bar without a pilot

This Notice affects the following Admiralty Chart—River Min No 2400 Also China Sea Directory, vol III, 1894 page 282 and Supplement 1898, relating to that vol page 23

GOVERNMENT OF BENGAL—MARINE DEPARTMENT

NOTICE TO MARINERS—No 142

[First Publication]

TASMANIA WEST COAST—MACQUARIE HARBOUR

Tidal signals at entrance

WITH reference to Notice to Mariners No 161 dated 23rd July 1898, issued by this office, the British Admiralty has given further Notice (No 336 of 1899) that the under

mentioned tidal signals are now shown from the Bluff flagstaff on the south western side of the entrance to Macquarie harbour in lieu of those previously exhibited —

Day Signal	Meaning or depth on bar	Night Signal
Two balls at masthead denote	Flood tide	White light waved from signal cabin
One ball at masthead denotes	Ebb tide .	Red " " "
	Ft	
Two square flags on eastern yard arm	8½	
Red flag on eastern yard arm	9	Red light shown from signal cabin
Ball over red flag on eastern yard arm	9½	
Blue flag on eastern yard arm	9½	Green " " "
Ball over blue flag on eastern yard arm	9½	
Two balls on eastern yard arm	10	White " " "
Red flag at topmast head	Bar	Red light shown from Pilot's house to
	dangerous	outgoing vessels

The figures signalled are those indicated by the tide gauge inside the heads. Mariners take the bar at their own discretion, as it is impossible that the exact depth signalled should be guaranteed, and those wishing the night tidal signals to be made must give four short blasts with the fog signal, and, after they have been made, one long blast, showing that they are understood.

Pilots will, if the weather permits, board vessels outside the bar, when this is not the case vessels should be steered with the leading lights in line, and they will be directed by signals from the flagstaff, as follows —

(a) A pennant at eastern yard arm indicates alter course to the eastward

(b) A pennant at western yard arm indicates alter course to the westward

The pennant will be kept hoisted until it is observed that a safe course is being steered no signal will otherwise be made.

When unable to go outside, the pilot will, if practicable, come out in a boat and direct the vessel's course by a flag waved on that side of the boat to which the course is to be altered.

Strangers should not attempt to enter at night, and no sailing vessel should cross the bar on an ebb tide without a commanding breeze.

Approximate position, Entrance island, lat $42^{\circ} 11\frac{1}{2}'$ S, long $145^{\circ} 13\frac{1}{2}'$ E

NEW ZEALAND, SOUTH ISLAND—OTAGO HARBOUR

Alteration in leading lights

WITH reference to Notice to Mariners No 40, dated 28th February 1899, issued by this office, the British Admiralty has given further notice (No 357 of 1899) that on and after 15th June 1899, the following alteration would be made in the leading lights in Otago harbour—

A white fixed light (front), elevated about 24 feet above high water would be exhibited from a white beacon, 20 feet high, recently erected on Harrington point

Approximate position, lat $45^{\circ} 47' 20''$ S, long $170^{\circ} 44' 40''$ E

A white fixed light (rear), elevated about 54 feet above high water would be exhibited from a white beacon 30 feet high, recently erected on a site eastward of Maori Kaik jetty, 2,200 yards S by E $\frac{1}{2}$ E from the front light

These lights are visible seaward in clear weather, from a distance of 5 to 6 miles, and in line S by E $\frac{1}{2}$ E lead through the main channel

On the same date, the leading lights (white fixed) through the old channel situated on the sand spit, would be discontinued, but the beacons will remain standing as daymarks

NOTE—The present depth into the harbour with the new beacons in line is about 32 feet, and in the old channel 21½ feet

WEATHER AND CROP REPORT

For the week ending the 17th July 1899

Burdwan—Rainfall at Sadar 4.06, Kalna 8.37, Katwa 6.10, Raniganj 4.23. Weather seasonable. Transplanting of *aman* paddy going on briskly. Sugarcane &c. and jute doing well. Fodder and water sufficient. Cattle disease in Katwa decreasing. Common rice selling as follows—

	Srs	
Sadar	17 to 20	} per rupee
Kalna	15 to 16½	
Katwa	17	
Raniganj	16½	

Birbhum—Rainfall at Sadar 9.38, Rampur Hat 2.82. Weather rainy. Transplantation of paddy going on. Price of common rice at Sadar 18 seers and at Rampur Hat 17½ seers per rupee. Fodder sufficient. No cattle disease.

Bankura—Rainfall at Bankura 8.72, Vishnupur 4.28. Weather rainy. Transplantation rapidly progressing. Fodder and water sufficient. No cattle disease reported. Price of common rice at Bankura 17½ seers and at Vishnupur 17½ seers per rupee.

Midnapore — Rainfall at Sadar 11 63, Tamluk 8 49, Ghatal 5 22 Weather seasonable Transplantation going on Prospects of sugarcane, jute and flax favourable Cattle disease reported from Banapur outpost Common rice sells as follows —

	Srs	
Sadar	12 to 20	} per rupee
Tamluk	14½	
Ghatal	14 to 17	

Hooghly — Rainfall at Sadar 6 06, Serampore 7 92, Jahanabad 3 31 Sowing of winter paddy going on Excessive rainfall damaged jute and paddy seedlings Cattle disease reported from Pursura Common rice sells from 12 to 16 seers per rupee

Howrah — Rainfall at Sadar 5 81 Ulubaria 7 99 Weather cloudy with heavy showers almost every day Transplantation of *aman* retarded on account of heavy rainfall Seedlings damaged in places in Ulubaria Fodder and water sufficient Common rice sells from 12 to 15 seers per rupee

24 Parganas — Rainfall at Sadar 6 76 Barasat 6 58 Basirhat 3 43 Diamond Harbour 10 50 Weather rainy Excessive rainfall has injured the standing crops Weeding and transplanting operations are at a standstill except at Basirhat where transplantation of *aman* is reported to be going on Cattle disease reported from Basirhat subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	13 to 15	} per rupee
Barasat	16½	
Basirhat	13 to 15	
Diamond Harbour	15	

Nadia — Rainfall at Sadar 4 24 Kushtia 2 97, Meherpur 2 14, Chuadanga 2 40, Ranaghat 3 41 Weather cloudy and rainy Prospects of standing crops promising Paddy and jute are being damaged by insects in parts of Chuadanga and Ranaghat subdivisions Fodder and water sufficient Price of common rice stationary

Murshidabad — Rainfall at Sadar 3 70 Kandi 9 10 Jangipur 4 16 Weather cloudy Transplantation of *aman* is still going on *Bhadra* in ear in some places State of indigo and mulberry favourable Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	16	} per rupee
Kandi	18½	
Jangipur	18	

Jessore — Rainfall at Sadar 3 84 Jhenida 3 26 Magura 1 79, Narail 1 74 Bangaon 4 55 Weather cloudy and rainy Weeding of paddy and jute going on Insects damaging the paddy Early *aus* paddy is being harvested in Narail Fodder and water sufficient Cattle disease reported from thana Gaighata Common rice sells as follows —

	Srs	
Sadar	16 to 19	} per rupee
Jhenida	16	
Magura	17 to 20	
Narail	20	
Bangaon	17 to 18	

Khulna — Rainfall at Sadar 1 47 Bagurhat 2 57, Satkhira 2 78 Weather hot, cloudy and rainy Cultivation and transplantation of *aman* going on Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	19 to 23	} per rupee
Bagurhat	19	
Satkhira	15 and	
	20 (coarse <i>aus</i>)	

Rajshahi — Rainfall at Sadar 1 03, Nator 1 5 Prospects of crops good No cattle disease Fodder and water ample Price of rice ranges from 16 to 22 seers per rupee

Dinajpur — Average rainfall 4 22 Weather seasonable Transplantation of *haizmani* paddy has commenced Cattle disease reported from five thanas Fodder and drinking water plentiful Rice selling at 18 to 20 seers per rupee

Jalpaiguri—Rainfall at Sadar 4 48, Alipur Duars 2 59 Weather hot and cloudy State and prospects of standing crops good Transplantation of *haimanti* paddy rapidly going on Fodder and water sufficient Common rice sells from 10 to 13 seers per rupee

Darjeeling—Rainfall at Darjeeling 9 90, Siliguri 3 61 Weather seasonable *Hills*—*Haimanti* paddy being transplanted, *bhutta bhadoi* paddy, and *chota marua* doing well *Teras*—Jute, *bhadoi* and *jamara* paddy doing well Coarse rice sells as follows —

Srs

Hills
Teras

9 to 12 }
16 to 17 } per rupee

Bhutta sells at Darjeeling 24 seers and at Kalimpong 40 seers per rupee

Rangpur—Rainfall at Sadar 2 08 Gaibanda 1 20 Kurigram 3 26 Nilphamari 3 24 Weather hot and rainy Cutting of *aus* and jute going on Prospects good Common rice selling from 16½ to 20 seers per rupee Fodder and water sufficient Cattle disease prevailing in some villages in thana Jaldhaka

Bogra—Average rainfall 3 54 Harvesting of early *aus* and jute begun in some places Preparation of land for and transplantation of *aman* going on Prospects good Fodder and water ample Common rice sells from 16 to 23 seers per rupee

Pabna—Rainfall at Sadar 1 84 Sirajganj 6 17 Weather cloudy and rainy Prospects of crops good in spite of some damage to low land paddy

Dacca—Rainfall at Sadar 4 95 Manikganj 2 77 Munshiganj 3 99, Narainganj 5 57 Weather seasonable Prospects of crops fair Insects are destroying jute and paddy in Sadar and Munshiganj subdivisions *Aus* paddy in low lands in Manikganj damaged by sudden rise of water to certain extent Fodder available No cattle disease Common rice 16 to 20 seers per rupee

Mymensingh—Rainfall at Sadar 3 73, Kishorganj 9 7 Tangail 7 81 Jamalpur 1 45 Weather dull and showery Prospects of crops excellent Condition of cattle good Fodder and water supply ample Common rice selling at 20 seers per rupee

Faridpur—Rainfall at Sadar 2 67, Goalundo 3 24, Madaripur 3 53 Weather rainy and seasonable State and prospects of standing crops generally good Common rice selling at 17 to 19 seers per rupee

Backergunge—Rainfall at Sadar 5 39 Weather seasonable Prospects of crops fair Common rice sells from 13 to 21 seers per rupee

Tippera—Rainfall at Sadar 1 60, Brahmanbaria 1 62, Chandpur 5 40 Weather seasonable Jute being out *Aus* paddy doing well No damage to crops by insects reported from the Brahmanbaria subdivision Average price of common rice 19 seers per rupee

Noakhali—Rainfall at Sadar 9 17, Feni 5 98 Transplantation of *aman* commenced Prospects fair No cattle disease Fodder and water sufficient Price of common rice 14 to 21 seers per rupee

Chittagong—Rainfall 7 25 Weather seasonable Cultivation of *aus* progressing In places it is being reaped Lands being prepared for *aman* Prospects good Prices stationary Water and fodder sufficient

Patna—Rainfall at Sadar 7 40, Barh 13 34, Bihar 9 08, Dinapore 7 74, Hilsa 7 32, Bikram 3 41 The rain will do much damage to the *bhaddi* crops Transplantation of *marua* continues in some places Fodder and water for cattle sufficient No cattle disease Common rice in Patna sells at 19 seers per rupee

Gaya—Rainfall at Sadar 8 15, Jahanabad 5 45, Aurangabad 2 20 Nawada 5 02 Paddy being sown *Bhadoi* suffered much from excessive rain Common rice selling at 16 seers per rupee

Shahabad—Rainfall at Sadar 7 67 Buxar 3 04, Bhabua 2 90, Sasaram 5 25 Sugarcane and *marua* good *Bhadoi* reported to be damaged in Buxar and Sasaram owing to excessive rain Twenty deaths out of 47 cases of cattle disease reported from the Sasaram subdivision Fodder and water abundant

Saran—Rainfall at Sadar 11 21, Siwan 4 35, Gopalganj 4 54 Weather rainy and cloudy Prospects good Weeding of *bhadoi* crops and transplanting of *aghoni* paddy going on Incessant rain not beneficial to the *bhadoi* crops Clear and sunny weather very much wanted Cattle-disease reported from Chatra police station Average price of common rice 14 11 seers and of *mahat* 25 2 seers per rupee

Champanan—Rainfall at Motihari 7 00 Bettiah 2 77 Barharwa 6 06, Bagaha 6 62, Ramnagar 2 58. Pro crops good. Paddy transplantation continues. *Bhadon* sowings almost over. Weeding till retarded. *Makai* somewhat damaged by heavy rain. Price of common rice 1 ½ seers and of maize 22½ seers per rupee.

Muzaffarpur—Rainfall at Sadar 9 05, Hajipur 7 59, Sitamarhi 6 63. *Bhadon* crops damaged to some extent by excessive and continued rain. A few days fair weather urgently needed to improve the *bhadon* crops. Rice being transplanted where practicable. Prices are—Common rice 12 to 15 seers, wheat 16 to 18 seers, barley 23 to 24 seers, *makai* 23 to 24 seers, gram 22 to 23 seers, and *rahar* 20 to 21 seers per rupee.

Darbhanga—Weather cloudy and rainy throughout the week. Rainfall at Sadar 3 66, Madhubani 8 92, Samastipur 11 52. Weeding of *bhadon* crops is retarded owing to continued and heavy rainfall which has done damage to the *bhadon* crops. Cessation of rain for a week is badly wanted. Transplantation of paddy is in progress. Common rice selling at Sadar 13 seers per rupee. Fodder and water sufficient.

Monghyr—Rainfall at Sadar 10 62, Begusarai 4 87, Jamui 2 62. Weather very rainy. Weeding retarded by rain. Transplantation of paddy and *mirua* going on. *Bhadon* sowing continues but somewhat damaged by excessive rainfall. Rice sells as follows—

	Srs	
Monghyr	13 to 15	} per rupee
Begusarai	12 to 15	
Jamui	15½	

Bhagalpur—Weather rainy and cloudy. Rainfall at Sadar 11 03, Banka 5 07, Madhupura 4 81, Supaul 4 02. Heavy rain damaging the *bhadon* seedlings. Stray cases of cattle disease reported from the three subdivisions. Common rice sells at 15½ seers per rupee.

Purnea—Rainfall at Sadar 6 56, Kishanganj 1 71, Araria 3 28. Weather rainy. Standing crops not down, well owing to incessant rain. Early sown *bhadon* in ear. Transplantation of *agham* continues. No cattle disease. Fodder and water sufficient. Common rice sells as follows—

	Srs	
Sadar	15	} per rupee
Kishanganj	15	
Araria	16	

Malda—Rainfall at Sadar 3 52, Shibganj 3 16, Gajol 4 18. Weather hot and cloudy with frequent showers of rain. Transplanting of winter rice going on. Prospects good. Common rice sells at 18 seers per rupee.

Sonthal Parganas—Heavy rain especially in Dumka (10 inches) and Deoghur (13 inches) damaging the Indian corn crop. Prospects otherwise good. Price of common rice 13 to 18 seers, and of maize 17 to 32 seers per rupee. Cattle disease in Rajmahal.

Cuttack—Rainfall at Sadar 2 08, Jajpur 3 05, Kendrapara 2 02, Banki 1 41. Weather seasonable. *Sarad* pinto and sugarcane growing. *Beah* being weeded. Condition of cattle generally good. Fodder and water sufficient. Common rice sells as follows—

	S	ch	
Cuttack	17	1	} per rupee
Jajpur	17	1	
Kendrapara	19	11	
Banki	17	15	

Balasore—Rainfall at Sadar 7 63. Sugarcane thriving well. Re ploughing of *sarad* going on. Rice sells from 16 to 24 seers per rupee in the interior and at 17 seers at Balasore and Bhadrak. Cattle disease prevailing in Chakras Singla, Dhamnagar, and Chandbali. Fodder and water sufficient.

Angul—Rainfall at Sadar 2 64, Bisipara 8 21. *Bhadon*, winter rice and sugarcane crops thriving. Broadcasting and puddling of winter rice and transplanting of *mandia* in progress. Common rice sells at 24 seers per rupee at Angul and 15 seers at Khondmals.

Puri—Rainfall at Sadar 2 14, Khurda 3 8. Young plants of *sarad*, *beah* and *mandia* growing well. Puddling commenced in places. Sugarcane and other miscellaneous crops from in. Fodder and water sufficient. Cattle disease continues. Price of common rice stationary.

Hazaribagh—Rainfall at Sadar 1 94, Giridih 4 86. Weather cloudy and rainy. Rain excessive for *rahar* crops. Ploughing and sowing in progress. Common rice sells from 15 to 20 seers per rupee.

Ranchi —Rainfall 4 32 Weather seasonable Agricultural prospects favourable
Rice sells at Ranchi 16 seers per rupee and in the interior from 16 to 23 seers per rupee
Health of cattle good Fodder and water sufficient

Palamanu —Rainfall 6 43 Weather seasonable *Marua* being planted *Makas* injured
to some extent by excessive rain Sugarcane doing well Rice sells at 16 seers per rupee

Manbhum —Rainfall at Sadar 5 74 Gobindpur 4 94 Weather seasonable Prospects
of crops generally good Cattle disease reported from thanas Jaldah, Raghunathpur, and
Tundi Fodder and water sufficient Average price of common rice at Sadar 17½ seers
and at Gobindpur 17 seers per rupee Supply sufficient

Singbhum —Rain 2 97 Prospects of crops good Rice sells from 16 to 20 seers per
rupee

General Summary —There was general and heavy rain during the week A break
is now required The autumn rice and jute crops in parts of South West Bengal and the
bhados crops in the Patna and Bhagalpur Divisions are reported to have been damaged to
some extent, and transplantation of winter rice is retarded in some parts Damage to
crops by insects is reported from parts of Nadia, Jessore Dacca, and Tippera There is
cattle disease in several districts, but the fodder supply is everywhere sufficient Prices
continue practically stationary

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secretary to the Govt of Bengal

The mean pressure of the seven days

The average pressure of the corresponding period for 24 years, Surveyor General's Office

The total number of hours of bright sunshine

The maximum possible number of hours of sunshine

The mean temperature of the seven days

The average temperature of the corresponding period for 24 years, Surveyor General's Office

The extreme variation of temperature

The maximum temperature

The highest velocity of the wind in one hour

The mean relative humidity

The average relative humidity of the corresponding period for 24 years, Surveyor General's Office

The total fall of rain from 9th to 15th July 1899

The average fall of the corresponding period for 24 years, Surveyor General's Office

The total fall from 1st January to 15th July 1899

The average fall of the corresponding period for 24 years, Surveyor General's Office

The mean pressure, temperature &c, are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86 form, at the Surveyor General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

c, overcast, g, gloomy, d, drizzling rain, p, passing temporary showers, t, thunder, l, lightning.

NOTIFICATION—No 2215

The 25th July 1899 —The following revised rule is published for general information

F A SLACK

Offg Secy to the Govt of Bengal

No 275, dated Simla the 30th June 1899

NOTIFICATION—By the Government of India Home Department

THE following rule is to be substituted for Rule XX Part I of the rules for the care and use of Government cemeteries published in Home Department Notification No 178 dated the 21st May 1897 —

Rule XX—When a monument needs repairing the officer in charge of the cemetery should communicate with the friends of the deceased or when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province* and if it falls into a ruinous condition and no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved

Not (1) This rule does not apply to monuments of historical or archaeological interest to be kept by the Government or monuments and altars, and as many of them may be in the full possession of the Government by the local bodies.

(2) The Government may, if it is found that the monument is in a ruinous condition, and no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved.

E (3) The Government may, if it is found that the monument is in a ruinous condition, and no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved.

No 1403, dated Simla, the 30th June 1899

NOTIFICATION—By the Government of India Home Department

In accordance with the provisions of section 18 sub section (1) of the Indian Explosives Act 1884 (IV of 1884) and with the directions contained in the Notification of the Government of India in the Home Department No 1964, dated the 2nd September 1887 the Governor General in Council is pleased to publish for general information the following draft of a proviso which it is proposed to add to rule 2—III (e) of the rules to regulate the transport and importation of explosives published with the Notification of the Government of India in the Home Department No 1393, dated the 8th July 1897

The draft will be taken into consideration after the 15th of August 1899

DRAFT

“Provided that, in the case of detonators the following further rules shall also be observed, namely —

- (a) The detonators, and the spaces between the same and between the same and the sides of the inner package shall all be filled as far as practicable, with fine sawdust or other similar material. A layer of cotton wool or other soft elastic material shall be placed between both ends of all the detonators and the interior of the inner package in which the same are placed in such manner and so secured that both ends of the detonators will rest upon the said cotton wool or other material. Every inner package if of metal shall be lined throughout with paper or other soft material
- (b) Where the number of detonators packed for conveyance exceeds in all one thousand (1,000), or such greater number as may from time to time be assigned with the consent of and under conditions approved by an Inspector of Explosives, all the inner packages as aforesaid shall be placed inside a substantial case of wood or metal made and closed so as to prevent any of the inner packages escaping the cover and the case shall be placed inside such outer package as is required by the above general rule relating to the packing for conveyance of explosives of the 3rd division of the 6th (ammunition) class in such manner and so secured as to leave a clear space of not less than three inches between every part of the interior of the said outer package, notwithstanding that such clear space may, if preferred, be filled with sawdust, straw, or other similar material, or may contain a light framework or battens of wood to keep the case aforesaid in position in the outer package.

Offg Secy to the Govt of Bengal

NOTIFICATION

No 3841M—The 25th July 1899—Whereas a notification No 1213M dated the 23rd February 1899, was published at pages 40 and 41, Part IB of the *Calcutta Gazette* of the 1st March 1899, declaring the intention of the Lieutenant Governor to make certain rules and impose certain conditions, subject to which the Commissioners of the Calcutta Corporation Municipality may allow the owners and occupiers of holdings paying a water rate to lay down communication pipes from the service pipes of the Commissioners for the purposes of leading water to their premises for domestic purposes and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 290 of the Bengal Municipal Act III of 1884 as modified up to 1st November 1896 the Lieutenant Governor sanctions the following rules and conditions, which will take effect within the said Municipality from the date of this notification—

(1) The owner or occupier of any house or land requiring water to be laid on for domestic purposes, or requiring any addition or alteration to the existing water supply must apply for the same in a printed form, to be supplied to him free of cost at the Commissioners' office. A specimen of the printed form is given in the Schedule annexed hereto.

(2) Each holding shall have a separate connection, and extensions from the communication pipe of one holding to another will not be allowed.

(3) A house connection shall comprise the following parts—

- (a) The brass or gun metal ferrule inserted in the main supply pipe
- (b) The galvanized iron communication pipe from the ferrule to the meter
- (c) The stop cock and its surface box
- (d) The meter
- (e) The service pipes from the stop cock to the taps
- (f) The taps

(4) All the fittings enumerated in the preceding paragraph shall be stamped duplicates of standard samples kept in the office of the Commissioners and approved by them in meeting. All fittings shall be tested and stamped by an officer of the Corporation before being fixed.

(5) The size of the ferrule will be decided by the Commissioners but its diameter shall not differ from that of the communication pipe by more than $\frac{1}{4}$ inch.

(6) The diameter of the communication pipe will be determined with regard to the average pressure in the main supply pipe at the stand post nearest the house for which a connection is required and to the quantity of water to be supplied according to the provision of section 290 the diameter of the pipe shall be such that it will be competent to deliver half the daily supply in six hours.

(7) The stop cock and its surface box shall be placed as near as practicable to the points where the service pipes enter the house or premises to be supplied but must not be within any private premises. The surface box shall rest on brick work foundations and shall be so designed that it can be locked, and the key of it shall remain under the control of the Commissioners.

(8) The meter shall be placed as near to the stop cock as possible and in a position where it can be conveniently examined at all times. No meter shall be fixed underground except in a brick well or chamber. No meter shall be disconnected or in any way interfered with except with the permission of the Commissioners.

(9) The Commissioners shall depute some authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least 24 hours before the reading is recorded. If the quantity of water consumed in any quarter exceeds that to which the occupier is entitled written notice to that effect shall be served upon him.

(10) The number of taps in a house or holding shall be fixed according to the annual valuation of the premises as follows—

Annual valuation	Number of taps
Under Rs 300	1
From " 300 to Rs 499	2
" 500 to " 1,500	3
Above " 1,500	4

(11) The house connection when fitted in position must be capable of standing a pressure of 100 feet and no water shall be supplied until this test has been applied by the Commissioners.

(12) No ferrule shall be inserted in the main supply pipe except in the presence of an officer appointed for the purpose.

(13) The repair, alteration, removal or extension of all communication pipes and fittings shall be undertaken with the permission of the Commissioners and under the inspection and direction of the officer authorised by them in that behalf, and not otherwise.

SCHEDULE

Form of application for house connection

- I Name of the Municipality
 II Name of the applicant and his parentage
 III ^{own}_p — of holding No , situate at street
 IV (a) Annual valuation of the holding
 (b) Number of persons living permanently in the holding

V I declare that Part VII of the Bengal Municipal Act and the rules and conditions imposed by the Local Government under section 290 of the said Act, and the resolution of the Municipal Commissioners passed at a meeting held on , relating to house connections have been read ^{to}_{me} me, and that I understand their contents, and that I agree to take the connection for domestic purposes in my said holding under the rules, &c referred to above or which may be made subsequently, and that these will be binding upon me my heirs and successors generally that I will have all works, connection, repair, extension and removal executed either by an authorised plumber or by the municipal servants, as the Chairman may direct and that if the valuation of the holding be hereafter altered, I will cause the number of the taps &c to be regulated and all alterations to the other parts of the house connection to be carried out at my own expense according to the new valuation

PART VI

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 23

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th July 1899

NO. 10 OF 1899

A Bill to provide for the Incorporation of Kirk Sessions of the Church of Scotland in British India

WHEREAS there are in British India Kirk Sessions of the Church of Scotland which have been duly constituted to be Church Courts for ecclesiastical purposes in pursuance of Acts of the General Assembly of the Church of Scotland

And whereas it is expedient that such Kirk Sessions and any others which may hereafter be so constituted should be incorporated with the powers hereinafter provided It is hereby enacted as follows

1 (1) This Act may be called the Church of Scotland Kirk Sessions Act 1899
Short title extent and commencement

() It extends to the whole of British India and

() It shall come into force at once

2 Every Kirk Session which has been or may hereafter be duly constituted to be a Church Court for ecclesiastical purposes in pursuance of an Act of the General Assembly of the Church of Scotland is hereby declared to be and the same shall be a body corporate having perpetual succession and a common seal

3 (1) Every Kirk Session constituted as aforesaid shall as a body corporate have power to purchase acquire and hold any property which has been or may hereafter be vested in it for the purposes of the Corporation for which it has been or may hereafter be constituted or of any trust which may have been or may hereafter be accepted by it to transfer the same to contract and to do all other things necessary for or incidental to the purposes of its constitution or of any such trust as aforesaid

() The signature of the Moderator and Treasurer for the time being of a Kirk Session constituted as aforesaid shall if affixed on behalf and by order of the Kirk Session be sufficient for all purposes for which the signature of the Kirk Session is required

STATEMENT OF OBJECTS AND REASONS

In 1897 the Government of India were approached, through the Government of Bombay, by the members of the local Kirk Session with a memorial praying (1) that every duly constituted Kirk Session of the Church of Scotland in India should be declared (by legislation if necessary) to be a corporate body with full powers as trustees to deal with

all funds and other property vested in them and (2) that an Act should be passed constituting the Senior Minister for the time being of the Presidency Church in each of the Presidency towns a corporation sole for the purposes of the Church of Scotland in India

2 The Government of India are advised that legislation is required to incorporate Kirk Sessions of the Church of Scotland and they agree with the various Local Governments concerned and the Presbytery of Edinburgh and the Committee on Indian Churches, which have been consulted in the matter in thinking that such legislation should be undertaken. There does not, however, seem to be sufficient reason for declaring Senior Chaplains of the Church of Scotland to be corporations sole. The Anglican Bishops in India are such no doubt by their Letters Patent but the position of the Senior Chaplains of the Church of Scotland is essentially different, and neither Roman Catholic Bishops nor the dignitaries of other denominations are corporations sole. The present Bill therefore is confined to giving effect to the first part only of the memorial above referred to.

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th July 1899

NO 11 OF 1899

A Bill to make better provision for the Registration of British Ships in British India

The marginal references are to the Indian Merchant Shipping Bill 1898, 57 & 58 Vict c 60

WHEREAS it is enacted in section 735 of the Merchant Shipping Act 1894, that the legislature of any British possession may, by any Act or Ordinance, confirmed by Her Majesty in Council, repeal, wholly or in part any provisions of this Act (other than those of the Third Part thereof which relate to emigrant ships) relating to ships registered in that possession but any such Act or Ordinance shall not take effect until the approval of Her Majesty has been proclaimed in the possession or until such time thereafter as may be fixed by the Act or Ordinance for the purpose

And whereas it is expedient that certain provisions of the said Merchant Shipping Act, 1894, should be repealed in so far as they relate to the registration of British ships in British India and that other provisions should be enacted in place thereof

It is hereby enacted as follows

[6] 1 (1) This Act may be called the Indian Short title extent Registration of Ships Act, and commencement 1899

(2) It extends to the whole of British India and

(3) It shall come into force on the day on which Her Majesty's approval thereof is proclaimed by notification in the Gazette of India

2 In this Act unless there is anything repugnant in the subject or context — [3]

Definitions

(a) the expression British ship has the meaning assigned to it by section 1 of the Merchant Shipping Act 1894 57 & 58 V

(b) the expression home trade ship means a ship employed in trading between any ports in British India or between any port in British India and any port or place on the Continent of India or in the Maldives and Laccadive Islands or in the Straits Settlements or in the Island of Ceylon [3 (3)]

(c) the expression 'native coasting ship' means a home trade ship, being a sailing ship of not more than two hundred tons burden which is owned by one or more native Indian subjects of Her Majesty and [3 (6)]

(d) the expression seaman includes every person (except masters pilots harbour masters and duly indentured apprentices) employed or engaged in any capacity on board any ship [3 (7)]

3 (1) Any British ship registered under Act XIX of 1838, or under the ships registered under certain Indian Acts Indian Registration of Ships Act 1841, and the Indian Registration of Ships Act, (1841) Amendment Act, 1850, may,— [8] X of 1841 XI of 1850

(a) within a period of twelve months after the commencement of this Act or

(b) if the ship is not within a port of registry in British India at any time before the expiration of the said period then within one month after her next return to a port of registry in British India

be re-registered under the Merchant Shipping Act 1894 as amended by this Act

(2) No fee shall be payable for the measurement of the tonnage of any ship for the purposes of re-registration under sub section (1) 57 & 58 V c 60.

(3) If any such ship as aforesaid is not re-registered as provided by sub section (1), she shall not be recognised as a British ship

Provided that this sub section shall not apply in the case of any ship referred to in section 4

(b) at any other port which has been approved under section 89 of the Merchant Shipping Act 1894 for the registry of ships any person appointed by the Local Government in this behalf by a like notification

[9] 4 (1) Notwithstanding anything in section 2 of the Merchant Shipping Act 1894, it shall not be obligatory on any person to register under that Act any native coasting ship which is for the time being registered under Act XIX of 1838 or any British ship which is for the time being registered under Bombay Act I of 1863 (*an Act for the registry of vessels and levy of pilotage fees on the river Indus*) or any other British ship which plies solely on inland water

(-) The expression inland water means any canal river lake or navigable water in British India

(3) The Local Government may by notification in the local official Gazette define how much of any tidal water shall be deemed to be inland water for the purposes of this section

7 In the application of the Merchant Shipping Act 1894, to British India—
Substitution of Local Government or Board of Trade and Government of a British Possession

(a) sections 7 47 77 (2) 78 80 85 86 and 724 (1) and clause 5 of rule 1 of the second schedule shall be read and construed as if the Local Government were therein named instead of the Board of Trade and

(b) section 89 shall be read and construed as if the Local Government were therein named instead of the Governor of a British Possession

8 (1) The following portions of the Merchant Shipping Act 1894 namely sections 64 (1) and 17 (2) c 60 so far as they relate to fees and section 83 and 210 (1) and clauses (6) (7) and (8) of the sixth schedule shall hereby be repealed

(2) The fees payable in British India in respect of the matters mentioned in the first schedule to this Act shall be such sums not exceeding those specified in that schedule as the Local Government with the previous sanction of the Governor General in Council may by notification in the local official Gazette appoint

9 Sections 31 to 46 (both inclusive) of the Merchant Shipping Act 1894 are hereby repealed c 60 so far as regards native coasting ships

10 (1) Clauses (2) (3) (4) and (5) of the sixth schedule to the Merchant Shipping Act 1894, are hereby repealed c 60

(-) No place in any British ship registered in British India which is occupied by seamen or apprentice engaged under any law for the time being in force and appropriated to their use shall authorize a deduction from register tonnage unless there is in the ship one or more properly constructed privy or privies for the use of the crew such privy or privies to be of such number and of such construction as may be approved by a surveyor appointed under section 727 of the Merchant Shipping Act 1894

(3) Every place so occupied and appropriated as aforesaid shall whenever the ship is registered or re-registered in British India be inspected by a surveyor appointed as aforesaid who shall if satisfied that the same is in all respects such as is required by any law for the time being in force give to the registrar a certificate to that effect and if such certificate is obtained but not otherwise such space shall be deducted from the register tonnage

(4) No such deduction shall be authorized unless there is permanently cut in a beam and cut in or painted on or over the doorway or

[10] 5 (1) So far as regards any ship the tonnage of which is measured, marked or intended to be marked in accordance with rules made under sub section (2) the rules in force on the same subjects prescribed by or under the Merchant Shipping Act 1894 or under any other Act repealed by that Act shall hereby be repealed

(2) The Local Government may make rules to provide for measuring and ascertaining whether for the purpose of registry or otherwise the tonnage of native coasting ships and for marking the tonnage on such ships and it shall be optional to the owner of any such ship to have his tonnage measured ascertained and marked in accordance either with rules made under this sub section or with the rules and order referred to in sub section (1)

(3) Rules made under sub section (2) may provide among other matters that if any alteration be made in a native coasting ship after it has been registered in pursuance of the statute the certificate of registry shall be cancelled and the ship re-measured in accordance with the said rule

(4) The word alteration in sub section (3) means any change whether temporary or permanent either in the structure of a native coasting ship or in the use to which any part of a native coasting ship is put by which the capacity of the ship for carrying cargo either directly or indirectly increased

[11] 6 (1) Clauses (d) and (e) of section 4 of the Merchant Shipping Act 1894 are hereby repealed

(2) The following persons shall be registrars of British ships in British India namely

(a) at the ports of Calcutta Madras Bombay Karachi Aden and Kangoon, the Port Officer or any other person appointed by the Local Government in this behalf by notification in the official Gazette and

hatchway of every place so occupied and appropriated, the number of men which it is constructed to accommodate, with the words 'Certified to accommodate seamen'

(5) Upon any complaint concerning any place so occupied and appropriated as aforesaid any surveyor appointed as aforesaid may inspect the same, and, if he finds that any of the provisions of any law for the time being in force with respect thereto are not complied with he shall report the fact to the registrar at the port where the ship is registered and thereupon the register tonnage shall be altered, and the deduction aforesaid disallowed, unless and until it is certified by the same surveyor or by some other surveyor appointed as aforesaid, that the provisions of such law as aforesaid with respect to such place are fully complied with

II The enactments mentioned in the second schedule are repealed to the extent specified in the fourth column thereof

THE FIRST SCHEDULE

MAXIMUM FEES FOR PURPOSES CONNECTED WITH THE REGISTRY OF BRITISH SHIPS

1850	XI	The Indian Registration of Ships Act (1841) Amendment Act 1850	
1883	V	The Indian Merchant Shipping Act 1883	
1891	VII	The Indian Registration of Ships Act (1841) Amendment Act 1891	
	XII	The Repealing and Amending Act 1891	

STATEMENT OF OBJECTS AND REASONS

The Indian Registration of Ships Act, 1841 (V of 1841) and the amending Act XI of 1850 were passed in pursuance of the Statute 3 & 4 Vict c 56. The provisions of that Statute were expressly saved by section 108 of the Merchant Shipping Act 1854 (17 & 18 Vict c 104), but the saving was not repeated when the latter Act was recently repealed by Parliament and replaced by the Merchant Shipping Act, 1894 (57 & 58 Vict c 60). Section 2 of the Statute of 1894 provides that every British ship shall unless exempted be registered thereunder and that, if a ship so required to be registered is not duly registered she shall not be recognized as a British ship and shall not be entitled to any of the benefits privileges advantages or protection enjoyed by a British ship. Section 745 sub section (1) clause (e), then declares that ships registered under the Merchant Shipping Act 1854 or duly registered before the passing of that Act shall be deemed to have been registered under the new Act. The result apparently is that, as the law now stands registration under the Indian Acts of 1841 and 1850 effected after the passing of the Statute of 1854 is not sufficient to give a ship the status of a British ship and that that status can be acquired only by registration in accordance with the provisions of the Statute of 1894. But by virtue of section 735 of the latter statute the legislature of any British possession may by an Act confirmed by Her Majesty in Council repeal, wholly or in part, any of its provisions and enact others in the place thereof. The necessity for legislation in exercise of the power so conferred has been brought to the notice of the Government of India and it has been decided that it should be undertaken without further delay. The present Bill originally formed Part II of the general Merchant Shipping Bill which though introduced in the Governor General's Council in 1892 is still pending before the Council. In connection with that Bill various legal and technical difficulties have been raised and it has been found impossible to proceed with it as a whole at present but no such difficulties appear to exist in connection with the Part above referred to, and it has, therefore, been extracted and thrown into the form of a separate Bill with a view to its early introduction and passage into law.

The 28th June 1899

F KALEIGH

J M MACPIERSON,

Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th July 1899

NO 12 OF 1899

A Bill to provide for the conversion into British Indian currency of sums expressed in British currency in the Army Act

WHEREAS it is provided by section 169 of the Army Act that the Governor General in Council may declare the amount of the local currency which is to be deemed, for the purposes of the said Act to be equivalent to any sum of British currency mentioned therein

And whereas it is expedient in exercise of the power so conferred, to provide for the con

version into British Indian currency of sums expressed in British currency in the said Act

It is hereby enacted as follows

1 (1) This Act may be called the Currency
Short title extent Conversion (Army Annual)
and commencement Act, 1899

(2) It extends to the whole of British India and

(3) It shall come into force at once

2 For the purposes of the Army Act, fifteen
Rate of exchange rupees of British Indian
for difference in British
value of British
Indian currency of
sums of British cur
rency mentioned in the
Army Act
said Act shall be deemed to be the equi
valent of a sum of British Indian currency
calculated at that rate of exchange

3 This Act shall continue in force until the
Duration of Act thirty first day of March
1900

STATEMENT OF OBJECTS AND REASONS

In several sections of the Army Act (44 & 45 Vict, c 58) relating to fines, etc, reference is made to sums stated in British currency but by section 169 power is taken for the Governor General in Council to declare the amount of the local currency which is to be deemed for the purposes of the said Act, to be equivalent to any sum of British currency mentioned therein By G G O No 198 of 1880 which was expressed as being issued in exercise of the authority given by the corresponding section 162 of the Army Discipline and Regulation Act, 1879 (42 & 43 Vict, c 33), it was directed that

finer for drunkenness should be levied at the exchange rate of eight pies to the penny or, in other words at the exchange rate of two shillings to the rupee. It appears, however, that what is probably contemplated by the Statute is not an order of the Executive Government, but one emanating from the legislature, *i.e.*, an Act of the Governor General in Council, and it has been decided to take action in accordance with this view of the law. Further it is in the opinion of the Government of India reasonable that recoveries under the Statute should be made at the rate at which the sterling pay of the British soldier serving in India is converted into the local currency, and as the rate is fixed anew for each financial year, it is proposed to deal with the matter regularly hereafter by means of an Annual Act. For the present and up to the 31st March next the rate has been fixed at one shilling and four pence to the rupee and this Bill has, therefore been drawn so as to continue in force up to that date and to legalize till then the conversion for the purposes of the Statute, of sterling sums of money at that rate.

The 11th July 1899

EDWIN H H COLLEN

J M MACHERSON,

Secretary to the Government of India

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th July 1899

No 13 OF 1899

A Bill to provide for the protection of certain telegraphic press messages

WHEREAS it is expedient to provide for the protection of certain telegraphic press messages It is hereby enacted as follows

I (1) This Act may be called the Telegraphic Press Messages Act

Short title extent and commencement 1899

(2) It extends to the whole of British India and

(3) It shall come into force on the first day of , 1899

2 Subject to the provisions of section 5 where any person lawfully receives in British India a telegraphic press message despatched to him from any place outside India and publishes the same or permits the same to be published in any newspaper or other printed paper published and circulated in British India, no other person shall, without the consent, express or implied of such first mentioned person or his agent duly authorized in this behalf publish or cause to be published in any newspaper or other printed paper such message or the substance thereof or any extract therefrom, until after a period of thirty six hours from the time of first publication in British India

Provided that nothing in this section shall be deemed to prohibit the publication of any such message after the expiration of sixty hours (exclusive of public holidays within the meaning of the Negotiable Instruments Act 1881) from the time of the receipt thereof as aforesaid

XXVI of 1881

Explanation 1—The publication of any part of a telegraphic press message or of the substance thereof or (excepting the publication of any similar message in like manner sent) of the intelligence therein contained or any comment upon or any reference to such intelligence shall be deemed to be a publication for the purposes of this Act

Explanation 2—A telegraphic press message despatched and received as aforesaid which is transmitted by the person receiving the same to any newspaper published and circulated in British India is a telegraphic press message within the meaning of this Act although it is also transmitted to persons who pay or subscribe for the same

3 (1) Whoever in contravention of section 2 publishes any matter or causes any matter to be published shall be punishable with fine which may extend to one hundred rupees

(2) Whoever having been convicted of an offence under this section is again so convicted shall be punishable with fine which may extend to five hundred rupees

4 In any prosecution under this Act the production of any document which purports to be a telegraphic message from some place outside India received either directly or through some other person who has received the same directly and which has been delivered to some person entitled to receive the same by a telegraph officer as defined by the Indian Telegraph Act 1885, shall be *prima facie* evidence that the message published is hereinbefore prescribed is a telegraphic press message within

XIII of 1885

the meaning of this Act and proof that any person is the owner or is or is acting or appears to be acting as the editor or manager of a newspaper or other printed paper in which there has been any publication in contravention of the provisions of this Act shall be *prima facie* evidence that such person has caused such unlawful publication

5 (1) The provisions of this Act shall not apply to any telegraphic press message unless the same is printed and published under the heading By Foreign Telegraph and states the day and hour of its receipt

Conditions as to publication of telegraphic press messages

(2) Every such statement as aforesaid shall be *prima facie* evidence of the time of receipt of the telegraphic press message to which it relates

6 For the purposes of this Act, all references to time shall be construed as referring to 'Madras Time'

7 Nothing in this Act shall apply to any document published by, or under the authority of, the Government

Saving as to publication by the Government

STATEMENT OF OBJECTS AND REASONS

ON several occasions in the course of the last twenty seven years the Government of India have received representations as to the expediency of securing some measure of protection for foreign telegraphic press messages received in British India. In 1885 it was decided to provide for the matter in a bill to amend the law of copyright the introduction of which was at that time contemplated but it was eventually decided that general legislation should not be initiated in India until the subject of copyright had been dealt with comprehensively for the whole of Her Majesty's dominions by Parliament

Attention has again been drawn to the particular question of the protection of telegraphic news and it seems to the Government of India that legislation regarding it is called for and that there is no necessity to postpone it any longer. The great importance to the Indian public of a first rate service of telegraphic news cannot be denied it is undoubted that enterprise in that direction is being checked because the existing law recognizes no right of property in published telegram and the systematic piracy of expensive foreign press messages has been the result and the need for legislation has lately been recognized and acted upon by the colonial legislatures of New Zealand Australia the Cape of Good Hope Hong Kong and Ceylon. In these circumstances it has been decided to introduce the present Bill which has been framed somewhat on the model of the most recent of the colonial enactments alluded to namely that passed into law in Ceylon last year and entitled The Telegram Copyright Ordinance, 1898

The 5th July 1899

C M KIVAZ

J M MACPHERSON,

Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th July 1899

NO 14 OF 1899

[NOTE—The italic indicate the alteration suggested in the existing Chapter VIII of the Transfer of Property Act 1882]

A Bill to amend the Transfer of Property Act 1882

WHEREAS it is expedient to amend the Transfer of Property Act, 1882 It is hereby enacted as follows

1 (1) This Act may be called the Transfer of Property Act 1899 and Short title and commencement

(2) It shall come into force at once

2 For Chapter VIII of the Transfer of Property Act 1882 the following Chapter for Chapter VIII Act IV 1882 shall be substituted, namely

"CHAPTER VIII

' OF TRANSFERS OF ACTIONABLE CLAIMS

' General

' 130 (1) A claim which the Civil Courts recognize as affording grounds for relief is actionable whether a suit for its enforcement is or is not actually pending or likely to become necessary

(2) Every actionable claim may be transferred subject to the restrictions and conditions imposed by Chapter II and by this Chapter

131 No transfer of any debt or any beneficial interest in moveable property shall have any operation against the debtor or against the person in whom the property is vested unless the transfer is in writing and unless and until express notice of the transfer is given to him save where he is a party to the transfer and every dealing by such debtor or person (not being a party to or not having received express notice of the transfer) with the debtor property shall be valid against such transfer

Exception—Nothing in this section applies to the transfer of a marine insurance policy or to a mortgage effected by deposit of deeds or securities

Explanation—In this section the expression any debt or any beneficial interest includes any account constituted or contingent debt or interest

Illustration

(i) A owes money to B who transfers the debt to C B then demands the debt from A who having no notice of the transfer pays B The payment is valid and C cannot sue A for the debt

(ii) It effects a policy on his or her life with an Insurance Company and assigns it by endorsement to a Bank in payment of a debt The Bank gives notice to the Insurance Company If A dies the Bank is entitled to receive the amount of the policy and to sue on it without the concurrence of A's executor

132 Every such notice shall be in writing, signed by the transferor or transferee, or by his agent in this behalf

' 133 On receipt of such notice the transferor shall take effect and all rights and remedies of the transferor shall vest in the transferee

134 The person to whom an actionable claim is transferred shall take it subject to all the liabilities, defences and priorities to which the transferor was subject in respect thereof at the date of the transfer

Illustration

(i) A debenture is issued in fraud of a public company to A A sells and transfers the debenture to B who

has no notice of the fraud The debenture is invalid in the hands of B

(11) A the holder of a policy of insurance assigns it to B for value Before notice of the assignment is received A has contracted a debt of Rs 300 with the Insurance Company The Company can set off this debt against the transferee

[174] 135 Where the transferor of a debt warrants the solvency of the debtor, the warranty, in the absence of a contract to the contrary applies only to his solvency at the time of the transfer and is limited where the transfer is made for consideration, to the amount or value of such consideration

[138] 136 Where a debt is transferred for the purpose of securing an existing or future debt the debt so transferred if recovered by either the transferor or transferee, is applicable, first in payment of the costs of such recovery secondly in or towards satisfaction of the amount for the time being secured by the transfer and the residue if any belongs to the transferor

[V of 1866
15] 137 Every assignee by endorsement or other *writing* of a policy of marine insurance or of a policy of insurance against fire in whom the property in the subject insured shall be absolutely vested at the date of the assignment shall have transferred and vested in him all rights of suit as if the contract contained in the policy had been made with himself

[132] 138 Nothing in the foregoing sections of this Chapter applies to stocks or shares or to instruments which are for the time being by law or custom negotiable or to any mercantile document of title to goods

[Cf 5 & 53
Vict c 45
1 (4) 56 &
57 Vict c
71 62] Explanation—The expression mercantile document of title to goods includes a bill of lading document warehouse receipt

ficate and delivery order and any other document used in the ordinary course of business as proof of the possession or control of goods or authorizing or purporting to authorise either by endorsement or by delivery the possessor of the document to transfer or receive goods thereby represented

Restrictions on sale of actionable claims which are in controversy

"139 (1) Where an actionable claim *which is in controversy* is sold he, against whom it is made is wholly discharged by paying to the buyer the price and incidental expenses of the sale, with interest on the price from the day that the buyer paid it

(2) Nothing in sub section (1) applies—

(a) where the sale is made to the co heir to or the co proprietor of, the claim sold,

(b) where it is made to a creditor in payment of what is due to him

(c) where it is made to the possessor of a property subject to the actionable claim

(d) where the judgment of a competent Court has been delivered affirming the claim or where the claim has been made clear by evidence and is ready for judgment

140 No Judge *or legal practitioner* clerk bailiff or other officer connected with Courts of Justice can buy any actionable claim *which is in controversy* and could be enforced by suit in the Court where he exercises his functions

3 So much of the Policies of Insurance (Marine and Fire) Assignment Act 1866 as is unreppealed and so much of the Indian Short Titles Act 1897 as relates thereto are hereby repealed

STATEMENT OF OBJECTS AND REASONS

Chapter VIII of the Transfer of Property Act 1882 (IV of 1882), aims at dealing comprehensively with the difficult question of the assignment of choses in action and includes an excursion into the law of champerty and maintenance The attempt has not been altogether successful Many difficulties in the construction and practical application of the Chapter have arisen its provisions have been the subject of numerous and conflicting rulings of the various High Courts and the necessity for legislation has been made clear The present Bill has been drawn with the object of removing the defects which have from time to time been detected and its details will be found fully explained in the annexed NOTES ON CLAUSES

2 It has been suggested that a special provision on the subject of champerty and maintenance should be included in the Bill, but, if such legislation is to be undertaken it

is thought that it should take the form of an amendment of the Indian Contract Act 1872 (IX of 1872)—the addition possibly of an *Explanation* to section 23 which avoids contracts opposed to public policy

The 12th July, 1899

T RALEIGH

NOTES ON CLAUSES

Clause 2 of Bill

Proposed new section 130 Act IV of 188 —Probably section 130, as it stands in the present Act may be taken as a fair working definition of the term *choses in action* as used in English law. The obvious intention of the Act was to make all choses in action transferable as property that is to say, transferable subject to the conditions and restrictions imposed by Chapter II, and particularly by sections 6, 7, 9 and 10. But regard being had to recent differences of opinion it is proposed to make the point clear by the addition of a second sub-section.

Proposed new sections 131 and 132 —Sections 131 and 132 of the existing Act are obviously founded upon section 25 clause (6) of the Supreme Court of Judicature Act 1873 (36 & 37 Vict., c. 66) but successive amendments of the Bill while under consideration seem to have led to the reversal of each rule of the English law.

In the first place the Indian section is negative in its terms, while the English section is positive. The result is that the former prescribes a compulsory form of transfer for the specific class of actionable claims to which it relates, whereas the latter merely provides that certain consequences shall follow if this form of transfer be adopted.

In the second place, the English section applies to all debts and other legal choses in action but the Indian section applies only to debts and beneficial interests in moveable property. It is not clear what rule would apply in India to an actionable claim relating to both moveable and immoveable property nor is there any specific provision as to actionable claims in respect of immoveable property. Further it is not apparent why written notice to the debtor should not be required in the latter case. And again, it is uncertain on the construction of the section whether the term 'beneficial interest' is to cover a charge. The English section is confined to absolute assignments.

In the third place, the English enactment requires the transfer itself to be in writing but the Indian Act is silent on the point and, therefore, by virtue of section 9, the transfer need not be in writing.

In the fourth place, the English Act requires express notice in writing to be given to the debtor. The Indian Act provides for three alternatives—express notice of the fact that the debtor is aware of the transfer or the fact that he is a party to the transfer. The Indian Act then curiously goes on to provide that where express notice is given, it must be given by the transferor whereas in practice of course notice is given by the transferee in order to complete his title. As to the last point see *Kagho v Narayan* (1895), 1 L. R., 21 Bom., at p. 62.

It is thought best to legislate on the lines of the English Act so as to restore uniformity in the law of the two countries in so far as the same subject matter is dealt with and these new sections have been drafted with that object.

Proposed new section 133 —It is difficult to understand section 133 in its present form. The intention apparently was to adapt the English provision above referred to, which is to the effect that, on notice to the transferee the transfer is effective "to pass and transfer the legal right to such debt or chose in action from the date of such notice and all legal and other remedies for the same and the power to give a good discharge for the same without the concurrence of the assignor." The reference to international law seems out of place in its present context as municipal law is always construed subject to the provisions of international law and the latter if it is to be dealt with at all should be dealt with separately as in Chapter XVI of the Negotiable Instruments Act 1881 (XXVI of 1881). The provision as now drafted will perhaps sufficiently reproduce the English law on the point, while avoiding any reference to the distinction between legal and equitable remedies.

Proposed new section 134 —The provisions of section 137 of the existing Act have been made general so as to apply to all actionable claims. The phrase "subject to all the liabilities" appears to have been adopted as the equivalent of the English phrase "subject to all equities entitled to priority over the right of the assignee" and as it may be thought desirable to avoid the technical term "equities," the words "all the liabilities, defences and priorities" have now been used instead.

Proposed new section 136 —Section 138 of the present Act is here reproduced unaltered. It is of doubtful accuracy, but does not seem to have given rise to any difficulty.

Proposed new section 137—This reproduces the only unrepealed section of the policies of Insurance (Marine and Fire) Assignment Act 1866 (V of 1866). Inasmuch as the provisions of that enactment constitute an exception to the rule laid down in section 131 they ought to find a place in this Chapter. The original section provided for the transfer of marine and fire policies 'by endorsement or otherwise', which probably means "by endorsement or other like means", i.e. "by endorsement or other writing."

Proposed new section 138—The present section 139 simply excepts negotiable instruments from the provisions of the Chapter. If the restrictions on the sale of actionable claims be confined to controverted claims the only provisions that need be excepted are those of the proposed new sections 130 to 137. But, as regards those new sections, the exceptions contained in the present section 139 require considerable extension. In section 13 of the Negotiable Instruments Act 1881 the definition of negotiable instrument includes only bills, notes and cheque and does not include the ever increasing class of negotiable instruments which the usage of the money market recognizes as such—see *Chalmers on Bills of Exchange*, Ed 5 pp 312-327. So again, a saving is required for mere title documents of title to goods such as bills of lading etc. which form a class of quasi negotiable instruments. The definition embodied in the *Explanation* is taken from the English Factors Act, 1889 and is adopted also in the English Sale of Goods Act, 1893.

Proposed new sections 139 and 140—These provisions, which correspond with sections 135 and 136 of the present Act and owe their origin to the French and Canadian Codes, have given rise to much difficulty. It is indeed almost impossible to give effect to them without construing the expression 'actionable claim' in a restricted sense. For example, where a business is transferred or converted into a company, the book debts are sold in a lump and these must consist of good but and doubtful debts a lump sum has to be fixed, and it is impossible to say what has been paid in respect of each. It has been suggested that the provision should be confined—

- (1) to actionable claims, where the cause of action has matured (which would cover the case of all book debts), or
- (2) to disputed actionable claims.

The latter seems to be the right suggestion and it has been adopted in the Bill. The object is to prevent trafficking in actual or impending litigation and probably the words "which is in controversy" will meet the object as far as it can be met.

If the restriction be confined to the sale of actionable claims which are in controversy there appears to be no reason why their transfer to a creditor should be allowed. Possibly the assignee of a bankrupt might be allowed to sell such a claim but the policy of this is very doubtful. It is for consideration whether clause (b) of the present section 135 should not be omitted. The latter words of clause (d) of that section are not easily understood for how can it be said that a claim has been made clear by evidence when judgment on it has not been given? This is a question which only the Court about to give judgment could answer, and these words should perhaps also be omitted.

In reproducing the present section 136 the words 'legal practitioner' have been substituted for the words 'pleader mukhtar'. The provision ought clearly to apply to all legal practitioners alike.

Clause 3 of Bill

This repealing clause is consequential on the reproduction in the proposed new section 137 as explained above, of so much of Act V of 1866 as is extant in the Statute book.

J M MACPHERSON,
Secretary to the Government of India

CHINA—MIN RIVER APPROACH

Inner bar—Sandbank

THE British Admiralty has given Notice (No 331 of 1899) of the existence of a sandbank lying in the fairway over the Inner bar, river Min

This sandbank is of very small extent, and has a least depth on it of 8 feet at low water springs, from it Sharp peak point bears N $\frac{1}{2}$ E, distant $2\frac{1}{2}$ cables, and south point of Hokiang W $\frac{1}{2}$ N

Approximate position, lat $26^{\circ} 6' 55''$ N, long $119^{\circ} 40' 5''$ E

(Variation 1° Westerly in 1899)

NOTE—As this sandbank is situated on the track usually followed across the Inner bar that track has been erased from the Charts vessels entering the river are recommended instead to adopt the following route—After passing No 3 buoy bring the south point of West Brother open to the southward of the south point of East Brother bearing N W by W $\frac{3}{4}$ W, steer on that course until High Sharp peak is in line with the extreme of Woga point bearing N W, then alter course and steer with these two objects in line until the bar is crossed No stranger should, however, attempt to cross the bar without a pilot

This Notice affects the following Admiralty Chart—River Min No 2400 Also China Sea Directory, vol III, 1894, page 282 and Supplement 1898, relating to that work, page 23

TASMANIA WEST COAT—MACQUARIE HARBOUR

Tidal signals at entrance

WITH reference to Notice to Mariners No 161 dated 23rd July 1898, issued by this office, the British Admiralty has given further Notice (No 336 of 1899) that the under mentioned tidal signals are now shown from the Bluff flagstaff on the south western side of the entrance to Macquarie harbour in lieu of those previously exhibited—

Day Signal	Meaning or depth on bar	Night Signal
Two balls at masthead denote	Flood tide	White light waved from signal cabin
One ball at masthead denotes	Ebb tide	Red " " "
	1 ft	
Two square flags on eastern yard arm	$8\frac{1}{2}$	
Red flag on eastern yard arm	9	Red light shown from signal cabin
Ball over red flag on eastern yard arm	$9\frac{1}{2}$	
Blue flag on eastern yard arm	$9\frac{1}{2}$	Green " " "
Ball over blue flag on eastern yard arm	$9\frac{1}{2}$	
Two balls on eastern yard arm	10	White " " "
Red flag at topmast head	Bar	Red light shown from Pilot's house to
	dangerous	outgoing vessels

The figures signalled are those indicated by the tide gauge inside the heads. Mariners take the bar at their own discretion, as it is impossible that the exact depth signalled should be guaranteed, and those wishing the night tidal signals to be made must give four short blasts with the fog signal, and, after they have been made, one long blast, showing that they are understood.

Pilots will, if the weather permits, board vessels outside the bar, when this is not the case vessels should be steered with the leading lights in line, and they will be directed by signals from the flagstaff, as follows—

- A pennant at eastern yard arm indicates alter course to the eastward
- A pennant at western yard arm indicates alter course to the westward.

The pennant will be kept hoisted until it is observed that a safe course is being steered no signal will otherwise be made

When unable to go outside, the pilot will, if practicable, come out in a boat and direct the vessel's course by a flag waved on that side of the boat to which the course is to be altered

Strangers should not attempt to enter at night, and no sailing vessel should cross the bar on an ebb tide without a commanding breeze

Approximate position, Entrance island, lat $42^{\circ} 11\frac{1}{2}$ S, long $145^{\circ} 13\frac{1}{2}$ E

NEW ZEALAND, SOUTH ISLAND—OTAGO HARBOUR

Alteration in leading lights

WITH reference to Notice to Mariners No 40, dated 28th February 1899, issued by this office, the British Admiralty has given further notice (No 357 of 1899) that on and after 15th June 1899, the following alteration would be made in the leading lights in Otago harbour —

A white fixed light (front), elevated about 24 feet above high water would be exhibited from a white beacon, 20 feet high, recently erected on Harrington point

Approximate position, lat $45^{\circ} 47' 20'' S$, long $170^{\circ} 44' 40'' E$

A white fixed light (rear) elevated about 54 feet above high water would be exhibited from a white beacon 30 feet high, recently erected on a site eastward of Maori Kaik jetty, 2,200 yards S by E $\frac{1}{2}$ E from the front light

These lights are visible seaward, in clear weather, from a distance of 5 to 6 miles, and in line S by E $\frac{1}{2}$ E lead through the main channel

On the same date, the leading lights (white fixed) through the old channel situated on the sand spit, would be discontinued, but the beacons will remain standing as daymarks

NOTE —The present depth into the harbour with the new beacons in line is about 32 feet, and in the old channel $21\frac{1}{2}$ feet

(Variation 16° Easterly in 1899)

CHINA SEA—BASHI CHANNEL

Gadd rock—Overfalls southward of—

THE British Admiralty has given notice (No 320 of 1899), that information has been received from Mr George Scott Master of the ship *Buckingham*, that his vessel, on May 22nd 1898, when about 11 miles to the southward of Gadd rock, Bashi channel, passed through heavy overfalls and discoloured water, no soundings were obtained, and bottom could not be seen from the masthead

The following bearings were taken at the time Botel Tobago, west point, N 10° W summit of Little Botel Tobago, N 2° E. and North island of the Batan group, S 36° E

Approximate position, lat. 21° 33 N, long 121° 34 E

Overfalls has been engraved on the Charts in this position

NOTE —At page 233 of the China Sea Directory, vol III, 1894, it is stated that violent tide ripples and smooth whirls exist between Gadd rock and Vele Rete rocks, it would seem not improbable that these ripples may extend southward of Gadd rock also

(Variation Nil in 1899)

The Reports for the two previous years and the orders of Government recorded thereon

Mr James held the office of Commissioner of Police throughout the year

2 The following table shows the total number of cognizable and non cognizable offences reported in the town and suburbs of Calcutta during each of the last five years —

	1894	1895	1896	1897	1898
1	2	3	4	5	6
Town	41,512	42,291	51,855	52,866	65,058
Suburbs	13,014	13,589	15,064	13,761	17,428
Total	54,526	55,880	66,919	66,627	78,486

The abnormal rise in the town in 1898 is entirely due to an enormous increase in the number of applications for summonses under the Municipal Act, 33,101 having been received in the year under report against 17,617 in 1897. Of these applications, no less than 20,106 related to failure to take out licenses for professions, callings and trades, and 1,252 to similar failure in regard to carriages and animals. The increase is explained to have been due to a large number of people having left Calcutta or changed their shops during the scare caused by the plague. It has not been stated that it was wholly due to this cause and, from the inquiries made at the time, the Lieutenant Governor was greatly disappointed to find that the main cause was nothing less than the laxity of the Municipal subordinates. Had they insisted on the punctual taking out of licenses, and applied for summonses against defaulters in due time, the Magistrates' Courts would not have been swamped with 11,416 applications in the month of June 1898. This matter formed the subject of correspondence with the Corporation, measures were taken to assist the Magistrates in the disposal of the work as quickly as possible and, after much delay, a system was introduced, which ought to have been adopted long before, for ensuring that neglect in taking out licenses shall have reasonably prompt notice and action. But it is altogether wrong that the Criminal Courts should be used as the ordinary method for enforcing the payment of taxes, and the Select Committee on the Calcutta Municipal Bill have most properly introduced a procedure for the recovery of arrears of these taxes, which will very greatly reduce the necessity for proceeding against defaulters in the Courts and prevent the Lieutenant Governor hopes, the possibility of the recurrence of a state of affairs, which justly excited very strong comment.

The table below compares the crime reported during the past five years in the town and suburbs together, showing separately cognizable and non cognizable crime, and offences under the Indian Penal Code and under the Municipal and other laws —

	1894	1895	1896	1897	1898
1	2	3	4	5	6
Cognizable —					
Penal Code	7,492	6,836	8,116	9,109	8,786
Miscellaneous	23,316	24,392	26,714	28,019	26,708
Non cognizable —					
Penal Code	6,277	6,760	6,608	6,259	5,479
Miscellaneous	17,441	20,892	25,181	23,240	37,513
Total	54,526	55,880	66,919	66,627	78,486

The figures of cognizable crime for 1897 and 1898 given in the report have been found incorrect on investigation. The errors show much carelessness, which must be avoided in future.

3 In the following statement are shown the cognizable and non cognizable cases which were sent up by the Police or taken up direct by the Magistrates during the last two years and the number tried and their results, and also the division of work between the Courts of the Presidency and Suburban Magistrates —

COURT	CRIMINAL INSTITUTION				COURTS				NUMBER OF CASES ENDING IN			TOTAL
	Cases sent up by Police	Cases taken up direct by Magistrate	Non cognizable cases	Cases tried	Cases sent up by Police	Cases taken up direct by Magistrate	Non cognizable cases	Cases tried	Convicted	Dismissed	Not tried

M. g. s. f. o. l. l. g.	7	7										

The total number of cases tried in the town and suburbs during the year was 42,000, of which 8,902, or 21.22 per cent ended in convictions. Of these the police sent up 29,990 cognizable cases and obtained convictions in 28,113, or 93.74 per cent. The Magistrates took up direct 2,138 cases and convicted in 798 or 37.32 per cent. Of 36,814 non cognizable cases instituted in the town, only 8,810 were actually tried. The bulk of the cases which did not come on for trial were, no doubt, those under the Municipal Act, for omission to take out licenses, of which the Chief Presidency Magistrate explains that a very large number was struck off because service of processes could not be effected, while many more were dismissed owing to the licenses being subsequently taken out.

4 The cases declared false in the town and suburbs during the year were 152 in number the percentage of false to true cases being 19. Out of 111 false cases in the town, prosecutions under the Penal Code were instituted in 15. In 10 of these convictions were obtained, and fines were imposed, aggregating Rs. 77, in 4 cases the accused were discharged, and 1 case was withdrawn. Out of 41 false cases in the suburbs prosecutions were instituted in 8, in 7 of which convictions were obtained, fines aggregating Rs. 100 being imposed in 5 cases and the accused in the remaining 2 being sentenced to two and three months' imprisonment respectively. It is not shown whether any use was made of the provisions of sections 200 and 503, Criminal Procedure Code, in the Courts of the Stipendiary Magistrates. Information on this subject should be given in future reports. The number of prosecutions for false charges is again small, and the punishments awarded in the cases tried appear to be generally quite inadequate for so serious an offence.

5 *Property stolen and recovered*—The value of property stolen in the town and suburbs was Rs. 2,76,460 against Rs. 3,06,963 in 1897, and the recoveries amounted to Rs. 1,82,350 against Rs. 1,72,629, the percentage on the property stolen being 65.97 against 56.23.

6 *Cognizable offences in the Town*—The total number of cognizable offences in the town was 25,796 against 26,592 in the preceding year. A decrease occurred in offences, both serious and minor, against the person and property under the Indian Penal Code, and also in offences under special and local laws. There were 10 cases relating to coinage and forgery of currency notes against 7 in 1897, two important convictions being obtained in respect of forged notes. Two riots were committed in connection with plague measures, in both of which convictions were obtained. In 2 cases of murder capital sentence was passed, in 1 the accused is still at large, and in the fourth the murderer was found to be insane. There was one case of murder by robbers, in which no clue could be obtained. Cases of grievous hurt decreased from 47 to 39, and cases of kidnapping also showed a reduction from 6 to 1. The number of robberies was 3—the same as in 1897. Burglaries were fewer than in the preceding four years, being 124 against 152 in 1897, 185 in 1896, 134 in 1895 and 141 in 1894. Detection followed in 73 cases, and 77 persons were convicted. Thefts also show a large decrease, the total being 1,060 against 1,700 in 1897. Of these, 857 cases were detected, 855 persons being convicted. There was a further decrease in the number of cases of criminal breach of trust, the total for the year being 153 against 187 in 1897 and 476 in 1896. Many cases of a civil nature appear to have been formerly brought before the Magistrates. Action was taken against vagrants and bad characters under Chapter VIII, Criminal Procedure Code, in 242 cases against 80 in 1897, and 235 persons were required to furnish security for good behaviour against 85. The increase shows greater energy on the part of the police in a direction in which it was needed. The larger number of cases and of persons bound down possibly accounts in part for the decrease in burglaries and thefts. Offences against the Police and other Acts numbered 12,312 against 10,717 in 1897, and there were 108 prosecutions under the Shipping Act against 70 in 1897. The cases under the Port Act were 784 in number, being approximately the same as in the preceding year. Prosecutions for cruelty to animals showed a decrease from 7,323 in 1897 to 6,636 in the year under review.

7 *Non cognizable crime in the Town*—Three important cases of forgery were successfully prosecuted during the year. In one of them an attempt was made fraudulently to obtain possession of a large sum of money lying to the credit of a suit pending before the High Court. Several of these cases are under enquiry, and it appears that a number of persons have been engaged for some time in putting forward false claimants for money in deposit in the High Court. The number of cases under the Calcutta Municipal Act was nearly double that in the preceding year, as already shown. Bogus firms carrying on fraudulent business, details of which have been given in previous reports continue to decrease, the number at the end of the year being 42 against 57 at the end of 1897.

8 *Cognizable crime in the Suburbs*—There was a decrease in cognizable offences in the suburbs from 7,301 in 1897 to 6,419 in 1898. It was common to all classes of crime, except class 1 (offences against the State, public tranquillity, safety, and justice). There were 7 cases of counterfeiting coin against 6 in the previous year. A serious riot occurred, in which two medical officers on plague duty were attacked by a mob. On their being followed into the second storey of a house where they had been given shelter by the owner, one of the officers fired and wounded two men, both of whom died subsequently. Seven of the rioters were convicted and sentenced to various terms of imprisonment. There were 3 murders against 4 and 29 cases of grievous hurt against 34 in 1897. Cases of hurt by a dangerous weapon fell from 38 in 1897 to 21 in the year under review. A dacoity occurred in the outlying Tollyganj section. Arrests were made, but no conviction was obtained. Burglaries and thefts showed a decrease from 127 and 631 cases respectively in 1897 to 71 and 330 cases in 1898. In the suburbs, as in the town, proceedings were taken against a larger number of vagrants and bad characters, under the preventive sections of the Criminal Procedure Code. Forty one persons were sent up, and order to furnish security for good behaviour was passed against 26, 3 being still under trial at the end of the year.

9 *Non cognizable crime* --The total number of non cognizable cases was 6,178 against 6,777 in the previous year. There was a decrease in the number of municipal cases from 5,270 in 1897 to 4,439 in 1898.

10 *Suicides and accidental deaths* --There were 89 suicides during the year against 101 in 1897. The number of accidental deaths was 329 against 331 in 1897. The Police appear to have exercised greater vigilance in checking rash driving, 130 drivers having been prosecuted for this offence against 100 in 1897. The number of fatal accidents in the Port of Calcutta was 87, of which 73 were by drowning.

11 *Working of the Arms Act* --At the beginning of the year 3,240 fire arms were in the hands of licensed dealers. The number imported was 3,715, and 1,319 weapons were purchased in the country. In all 5,039 weapons were sold against 5,568 in 1897. The balance in hand at the end of the year consisted of 3,610 pieces. Importations of guns and rifles were smaller than in the previous year. The figures show that revolvers and pistols are imported in steadily increasing numbers year by year. Twelve prosecutions were instituted under the Arms Act during the year. The most important case was a prosecution of an officer of a German steamer for importing a number of revolvers and offering them for sale without a license.

12 *European Vagrancy Act* --At the close of 1897 there were 17 European vagrants in the Work house, and 48 were admitted during the year. Twenty seven were released on obtaining employment. Altogether 11 persons were deported, after entering into agreements under the Vagrancy Act. Twenty two seamen had resort to the Alms house, and passages were arranged for them by the Superintendent.

13 *Fire Brigade Act* --The Brigade was employed at 40 fires during the year, 13 in the town and on the river, 13 in the suburbs, and 14 in Howrah. The number of fires attended in 1897 was 32. The manual engines at out stations rendered assistance in 10 fires. Eighty nine other fires occurred in which the loss was trifling, being under Rs 7 in each case. The estimated loss of property by fire during the year was Rs 4,92,220 against Rs 2,43,760 in 1897.

14 *Strength and discipline of the Police Force* --The sanctioned strength of the Force at the end of the year was 3,004 against 3,007 on the last day of 1897. This number includes police permanently supplied to the Port Commissioners and other public bodies and private individuals. Sixteen members of the force were punished judicially during the year against 5 in 1897. Fifty nine men were dismissed against 60 in 1897. The total of minor punishments was 501. There were 20 desertions against 6 in the preceding year. Proposals were submitted to the Government of India during the year for sanction to a considerable increase to the strength of the Force, and final orders are awaited. The necessity for a body of armed police was again felt in the past year, during the excitement which arose on the occurrence of plague and the adoption of precautionary and preventive measures. A large force of Military and Reserve Police was brought down from the districts, and their presence in the city proved of great value to the Commissioner of Police in preserving order.

15 *Old offenders and Anthropometry* --The police kept surveillance over 744 released offenders. Out of 1,093 persons convicted of offences against property, and whose antecedents were unknown to the police, previous convictions were proved against 164—by means of anthropometry in the case of 27, and by finger prints in the other cases. Previous convictions were proved against 480 offenders in all, against 517 in the previous year.

16 *Judicial Work* --Mr Pearson was on leave from the beginning of the year until the 2nd April, from which date until the end of the year he held the office of Chief Presidency Magistrate. Mr Bonnaud officiated during his absence. The Hon'ble Nawab Bahadur Syed Amir Hussain, C.I.E., was Magistrate of the Northern Division during the year, except from the 14th October to the 28th November 1898, when Mr Bonnaud acted.

17 *Court of the Chief Presidency Magistrate* --The total number of cases instituted during the year and pending from the previous year was 10,930 against 11,986 in the previous year. A total of 11,963 persons was concerned in these cases, of whom 10,659 were convicted and 1,292 discharged.

Appeals were preferred against the order of the Court in 27 cases. In 21 cases the appeals were summarily rejected and in 6 they were dismissed. Motions were made to the High Court in 8 cases, of which 1 only was successful.

18 *Court of the Northern Division Magistrate* — The total number of cases instituted was 16,812 against 16,966 in the year preceding. Of 18,749 persons appearing before the Court, 17,989 were convicted and 696 were acquitted or discharged. Appeals were preferred in 42 cases, and the order of the Lower Court was upheld in all except 1, which was remanded for re-trial. Motions were made to the High Court in 22 cases, and of these 1 was partially successful, the case being remanded for further evidence.

19 The following statement compares the number of persons against whom process issued in non cognizable cases, with the numbers actually appearing before the Court in each of the past two years —

NAME OF COURT	Number of persons against whom process issued		Number of persons actually appearing		Percentage of persons appearing to persons against whom process issued		REMARKS
	1897	1898	1897	1898	1897	1898	
1	2	3	4	5	6	7	8
Chief Magistrate	2,837	2,511	857	886	30.2	35.2	
Police Magistrate	4,904	8,636	1,311	4,114	27.5	51.5	
Honorary Police Magistrate	10,480	32,687	12,174	17,320	61.2	53	
Total	27,121	55,694	14,482	19,964	52	50	

20 *Work of Honorary Magistrates* — A total of 2,070 cases was transferred for trial to the Bench of Honorary Magistrates against 2,493 in the previous year, and 2,599 cases to Honorary Magistrates sitting singly as compared with 2,914 in 1897. Of the 4,669 cases thus transferred, 3,264 were from the Southern and 1,405 from the Northern Division. Of 6,175 persons who appeared before the Courts in these cases, 4,659 were convicted and 1,788 acquitted or discharged. Appeals were preferred in 14 of the cases, but the conviction was upheld in all. The High Court was moved in 6 cases, in 2 of which the order was set aside. The number of Municipal cases which came before the Honorary Magistrates was 32,702. Of these, 16,890 were struck off, and of the 15,812 cases which came on for trial, 10,271 resulted in acquittal or discharge and 5,227 in conviction. The amount of fines imposed in Municipal cases was Rs 30,989 14 against Rs 23,280 14 in the previous year. Out of this amount a sum of Rs 22,207 8 was realised. Practically the whole of the cases instituted by the Corporation under Act II (B.C.) of 1888 is disposed of by the Honorary Magistrates. The very large number of cases struck off indicates much waste of labour in issuing processes, which could have been avoided if the Municipal establishment had been more energetic in compelling the taking out of licenses. An extra clerical staff had to be employed. Since the commencement of the present year three additional clerks have been sanctioned for the Bench for one year. If it be found necessary to retain this establishment permanently, the matter should be separately submitted for the orders of Government. The Lieutenant Governor desires to thank the Honorary Magistrates who have assisted in disposing of the large amount of work done by the Bench, and especially those whom Mr Pearson mentions as having frequently attended out of their regular turn to take the place of absentees.

21 Since the close of the year the Government has received representations from public bodies urging the necessity for the appointment of a third Stipendiary Magistrate. The matter will be settled on the Lieutenant Governor's return to Calcutta.

22 The efficiency of the Calcutta Police Administration has been maintained under Mr James' control, and he again acknowledges the assistance rendered by Mr Paget, the Deputy Commissioner. Several of the Superintendents and Inspectors are commended for their good work.

ORDER — Ordered that a copy of this Resolution be forwarded to the Commissioner of Police, Calcutta, for information and for communication to the Presidency Magistrates

Ordered that a copy of the Resolution be forwarded to the Commissioner of the Presidency Division, the Chairman of the Corporation of Calcutta, and the Municipal Department of this Government, for information

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*

By order of the Lieutenant Governor of Bengal,

C W BOLTON,

Chief Secretary to the Govt of Bengal

RESOLUTION ON INLAND EMIGRATION REPORT FOR 1898

GENERAL DEPARTMENT—EMIGRATION

Calcutta, the 20th July 1899

RESOLUTION—No 2135

READ—

The Report of the Superintendent of Emigration, Calcutta, on Inland Emigration for the year 1898

DR C BANKS held the appointment of Superintendent of Emigration throughout the year

2 In accordance with the orders of Government contained in paragraph 3 of the Resolution on the Inland Emigration Report for 1897, the Superintendent of Emigration has in section I of his Report summarized the more important questions connected with Inland Emigration which engaged the attention of Government during the year. These were—

- (1) the precautionary measures adopted by Government to protect the tea industry from the spread of the plague,
- (2) the arrangements for the segregation of emigrants infected with cholera, small pox, and other contagious diseases at Sara, Naihati, and the various halting places along the emigration routes to the labour districts in Assam,
- (3) the revision of the rules issued under the Assam Labour and Emigration Act, I of 1882, and the Inland Emigrants' Health Act, I (B.C.) of 1889, in order to improve the transit of emigrants to Assam, Sylhet and Cachar, and
- (4) the opening of an alternative route for emigrants proceeding to Cachar and Sylhet via Chandpur

The arrangements under items (2) and (3) in the above list are now being carried out, the orders of the Government of India as to the establishments proposed for the various halting places having been recently received

Besides these administrative measures, the amendment of the Assam Labour and Emigration Act, I of 1882, with the object of removing abuses in connection with the recruitment and despatch of coolies to Assam, was under consideration, and since the close of the year the opinion of this Government on the subject has been submitted to the Government of India

3 *Contractors' emigrants*—There were three licensed contractors with depots in the suburbs of Calcutta during 1898, of whom one closed his business on the 9th July 1898. They had 14 recruiters working under them as against 13 in the preceding year, and they registered 2,867 coolies as against 1,27 in 1897. This large decrease of 2,360 in the number of emigrants recruited on behalf of licensed contractors during the year was no doubt due to the greater prosperity of the agricultural population and the abundance and cheapness of food supplies. Of the 2,867 coolies, all but 30 were registered in the 24 Parganas, which corroborates the conclusion drawn in last year's Resolution that contractors depend largely on the numerous free emigration depots in Calcutta for their supply of labour. Of the coolies registered, 45 per cent were natives of Bengal, 13 came from Bihar, nearly 5 per cent were natives of Orissa, hardly any came from the North Western Provinces and Oudh, 21 per cent were natives of the Central Provinces, 7 per cent of Central India, and 19 per cent were natives of Madras. These details are based on the statements of the emigrants themselves and cannot be regarded as absolutely correct. Out of the 2,867 emigrants, 5 were discharged and 6 deserted from sub depots, reducing the total number to 2,856. To this number must be added 99 coolies who were already in the depots on the first day of the year, and one infant born in a depot, raising the total number of persons accommodated in the depots to 2,956. Of these, 41 were discharged, 78 deserted, 3 died, 1 was rejected, 52 remained over in the depots at the close of the year, and 9 were unaccounted for. These last belonged to the depot which was closed during the year. The percentage of sickness during 1898 amounted to 0.27 as against 1.82 in the previous year, and the death rate per mille was 1.01 as against 6.87. These figures show that the health

of the emigrants was good, and no case of cholera, small pox, chicken pox or measles occurred during the year. The percentage of contracts for four years on the total number of contracts registered rose to 90.9 as against 81.4 in the previous year. The emigrants despatched to Goalundo numbered 2,817, including 49 despatched from Calcutta on the 31st December 1897. Of these, 1,957 emigrants were landed in Assam, and 839 went to Cachar and Sylhet.

4 *Special Local Agents*—During the year under report 11 special local agents were licensed as against 8 in the previous year. Their recruiting operations, which were confined to the districts of Manbhum, Ranchi, the Sonthal Parganas, and Singhbhum, resulted in the enlistment of 7,447 emigrants as against 15,471 in 1897. This considerable falling off in the number registered, notwithstanding the employment of a larger number of special local agents, must also be attributed to the return of prosperity locally. The proportion of labourers to dependents was approximately 3 to 1. Of the entire number, Manbhum contributed nearly 73 per cent, Ranchi 26.5 per cent, and the Sonthal Parganas 0.5 per cent. Of the total number of emigrants, 7,261 were registered for Assam, 81 for Cachar and 105 for Sylhet. Of these, 5,586 were despatched to Goalundo, where they arrived without casualty, while at Goalundo there were 34 releases and 7 desertions, the number of emigrants being thus reduced to 5,345, of whom 5,207 were embarked for Assam, 80 for Cachar and 58 for Sylhet. Of the number despatched to Assam, 1 deserted and 9 died, 8 of the deaths being due to cholera, the percentage of the total number of casualties amounting to 0.46 and of deaths to 0.17 as against 0.84 and 0.69, respectively, in the previous year. No casualties occurred among the emigrants embarked for Cachar and Sylhet. One hundred and eighteen emigrants left for Assam *via* Dhubri, and duly arrived at their destination.

5 *Certificated garden sardars*—There were 4,306 certificated garden sardars and 31 sardarnis as against 4,439 sardars and 65 sardarnis in 1897.

YEAR.	Number of—		Local agents
	Sardars	Sardarnis	
1894	5,274	158	138
1895	5,317	164	172
1896	4,748	73	164
1897	4,439	65	119
1898	4,306	31	144

The marginal table gives the number for each of the last five years, and shows that the number of sardars and sardarnis has been gradually on the decrease since 1895. No licenses of

local agents were cancelled or certificates of garden sardars withdrawn during the year. The number of coolies registered by garden sardars and sardarnis amounted to 13,624 and 71, respectively, as against 18,770 and 184 in the previous year—a decrease, for which the prosperity of the agricultural population and the abundance and cheapness of food grains is again responsible. Of the 13,695 emigrants, 12,522 were registered for Assam, 361 for Cachar, and 812 for Sylhet. The total number of emigrants who left the districts of recruitment during the year for embarkation at Goalundo was 19,280, of whom 10 were released, 2 deserted, and 2 died at Goalundo. Of the remaining 19,266, 17,052 were embarked for Assam, 870 for Cachar and 1,339 for Sylhet. Out of the 918 sardari emigrants who were despatched to Assam *via* Dhubri, 4 died of cholera at that place, and the remaining 914 were landed at their destination as there was no casualty on the passage by steamer.

6 *Free emigrants*—The figures as to free emigration, which are only approximately accurate, are derived from information received from the Emigration Agents at Goalundo and Dhubri as to the number passing through these stations. Their reports show that 21,054 free emigrants left the recruiting districts for Goalundo, and 1,463 for Dhubri, giving a total of 22,517 as against 54,934 in 1897. Of the coolies who travelled *via* Goalundo, 3 deserted, 2 died, and 31 were released at that place, the total casualties thus amounting to 36. Of the remaining 21,018 emigrants, 8,314 were bound for Assam, among whom 2 desertions and 8 deaths subsequently occurred, but no casualty of any description occurred *en route* among the 4,460 and 8,239 free emigrants who embarked for Cachar and Sylhet, respectively. Out of the 1,463 free emigrants who were despatched to Dhubri, 1,431 eventually arrived, the casualties numbering 32 as against 187 in the previous year. In addition to this number, 6,950 free emigrants who embarked at Goalundo were landed at Dhubri for the purpose of executing contracts, bringing the actual number of arrivals at Dhubri to 8,381. This number was increased

by the 5 emigrants that remained at Dhubri at the close of the previous year to 8,386. Among these there were 218 casualties, viz., 208 released, 6 desertions, and 4 deaths. Eventually 8,155 were re-embarked and 18 left behind at Dhubri. Of the number embarked, 7,952 executed labour contracts, and 203 proceeded as free emigrants.

7 *Execution of contracts*—The following statement gives the figures connected with the execution of contracts under the Assam Labour and Emigration Act I of 1892—

PLACE	THREE YEARS				FOUR YEARS				GRAND TOTAL
	Contract coolies	Special Agents coolies	General Agents coolies	Total	Contract coolies	Special Agents coolies	General Agents coolies	Total	
1	2	3	4	5	6	7	8	9	10
Assam			225	25	1,574	5,282	6,580	13,441	13,470
Chittagong	22	14	147	180	384	40	50	474	634
			31	528	6	42	158	262	790
Total for 1898	22	27	684	913	2,020	5,364	6,797	14,181	15,004
1897	604	643	8,408	9,655	3,041	9,645	1,354	14,040	23,873

Fifteen thousand and ninety four contracts were executed during 1898, of which 6 per cent were for three years, and 94 per cent for four years. In 1897 the number of contracts executed was 23,873, of which 41 per cent were for three years, and 59 for four years.

8 *Offences connected with emigration and inspection of depôts*—The quarterly returns of offences connected with emigration submitted by district officers and their annual reports of inspection of coolie depôts are dealt with separately, and need not be noticed here.

9 *Summary*—The following table summarizes the statistics of emigrants registered to proceed during the year from the recruiting districts to the labour districts in Assam *via* Calcutta, Goalundo, and Dhubri—

	1897				1898			
	Via Calcutta	Via Goalundo	Via Dhubri	Total	Via Calcutta	Via Goalundo	Via Dhubri	Total
1	2	3	4	5	6	7	8	9
Not registered through the contract	5,227			5,227	2,863		4	2,867
Not registered through the general		11,861	3,590	15,451	—	5,511	1,936	7,447
Not registered through the contract and general		15,519	3,440	18,959		8,482	5,215	13,697
Free emigrants		40,940	7,984	54,934		21,054	1,463	22,517
Total	5,227	74,340	15,024	94,591	2,863	35,047	8,610	46,520

These figures include the free migrants who were landed at Dhubri for execution of contracts.

Taking all classes of emigrants together, the results of the year's operations show that during 1898 there was a decrease of 48,065 in the number of coolies embarked for the labour districts in Assam, an obvious consequence of the abundant harvests and improved comfort of the later year.

10 *Transport*—Emigrants were conveyed from Goalundo to the labour districts by steamers and these vessels were inspected at certain places *en route* by officers specially appointed for the work. The average length of the river journey to Assam was during 1898 from six to eight days, and to Cachar and Sylhet from one to six days. Of the 3,934 batch way bills of emigrants proceeding *via* Goalundo, issued in 1898, 3,443, or 87 per cent, were eventually returned to the Superintendent of Emigration. In 1897 out of a total of 4,199 batch way bills issued, 3,634, or 86 per cent, were returned to that officer. In regard to the despatches from Dhubri, out of a total of 261 batch way bills issued, 209, or 80 per cent, were returned in 1898 as against 817, or 77 per cent, in the preceding year.

11 *Casualties*—As compared with the decrease in the number of emigrants despatched to the labour districts, there has been more than a corresponding

decrease in the total number of casualties, the total of which fell from 2,507, or 2.53 per cent, in 1897 to 609, or 1.19, during the year under report. Deaths from cholera amounted to 0.11 per cent as against 0.99 per cent in the preceding year, while the mortality from other causes fell from 0.12 per cent during 1897 to 0.03 per cent in 1898. The number of casualties among free emigrants also decreased from 2.53 per cent in 1897 to 1.43 per cent during 1898. There has been also a considerable decrease in the number of deaths among this class of emigrants, which was only 24, or 0.1 per cent, during 1898, as against 541, or 0.98 per cent, during 1897.

12 The thanks of Government are due to Dr Banks for the active and careful discharge of his duties as Superintendent of Emigration. There was a marked improvement in all the circumstances and arrangements relating to coolie emigration to Assam.

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secy to the Govt of Bengal

RESOLUTION ON THE REPORT ON THE LEGAL AFFAIRS OF THE GOVERNMENT OF BENGAL FOR THE YEAR 1898 99

No 37J R T

RESOLUTION

JUDICIAL

Dated Yacht Rhotas, the 20th July 1899

READ—

The Report on the Legal Affairs of the Government of Bengal for the year 1898 99

Read also—

The Reports of the two previous years, and the orders of Government recorded thereon

The report is submitted by Mr Pratt, who was Legal Remembrancer at the close of the year. There were several changes in the appointment during the year, due to the temporary promotion to the High Court of Mr Wilkins, the substantive incumbent, and Messrs Pratt and Gupta, officiating incumbents.

2 Only one appeal in which the Government is interested was pending before the Privy Council. It relates to a claim to lands against the Syedpore Trust Estate, which is managed by the Collector of Khulna. The appeal is against a decision of the High Court, on appeal, rejecting the claim.

3 The table below compares the results of Government litigation in all the Civil Courts of Bengal during 1898 99 with those of the two preceding years —

	ORIGINAL SUITS.			APPEALS—			APPEALS—			T tal			REMARKS
				B f o Lower Courts			B f r High Court						
	1898-97	1897-98	1898-99	1898-97	1897-98	1898-99	1898-97	1897-98	1898-99	1898-97	1897-98	1898-99	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1 Decided in favour of Government	118	143	142 ()	85	1	30 (b)	14	33	20 ()	107	227	168	() 17 were decided by 8 judges
2 Decided against Government	54	36	5 (e)		10	16 (d)	7	3	5	67	40	96	(b) appeals by 2 judges
3 Compromised or withdrawn	24	9	48	2	1	6	2	4	33	24	34	87	() 29 suits by 7 judges
4 Percentage in favour of Government	72.8	82.1	71	83.5	91.1	69.2	73.6	91.6	74.3	74.5	92.2	71.7	(d) 7 appeals by 3 judges
													() 7 suits by 1 judge

Excluding cases under the Land Acquisition Act, the figures are as follow —

	ORIGINAL SUITS			APPEALS—			APPEALS—			T tal			REMARKS
				Bef re L Co t			Bef re Higl C ut						
	1898-97	1897-98	1898-99	1898-97	1897-98	1898-99	1898-97	1897-98	1898-99	1898-97	1897-98	1898-99	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1 Decided in favour of Government	103	111	88	35	51	30 (f)	14	21	12	194	193	190	(a) 20 suits were decided by 3 judges
2 Decided against Government	37	28	40 ()	7	13	10 ()	5		4	40	38	60	(b) 7 appeals by 2 judges
3 Compromised or withdrawn	19		11	2	1	6	2	3	33	23	31	70	() 7 appeals by 3 judges
4 Percentage in favour of Government.	79.8	82.3	73.5	83.3	91.1	69.2	73.6	91.3	75	77.4	83.3	72.5	

There was an increase under all heads of litigation except that of appeals in the Lower Courts, the total of all cases being 381, against 310 and 262 respectively in the two preceding years. Excluding suits compromised, remanded or withdrawn, the percentage of successful cases was lower than in either of the two preceding years, being 71·7 against 82·2 and 74·5 in 1897 and 1896 respectively.

4 Out of 64 appeals before the High Court, 33 are shown as having been compromised, remanded or withdrawn. It would be convenient if in future years the cases remanded are shown separately from those compromised or withdrawn. Five cases were decided against Government and of each of these the Legal Remembrancer gives a brief account. In three the Government was defendant respondent, and in two defendant appellant. In the Lower Appellate Courts the percentage of successful cases was 69·2, twelve cases being decided against Government. In five of these a second appeal has been preferred to the High Court. In the Courts of first instance there were 265 cases, out of which 48 were compromised or withdrawn, while of the remainder 71·5 were decided in favour of Government, two or more cases governed by one judgment being counted as one. No special interest appears to attach to any of the litigation in which the Government was concerned during the year, and no irregularities on the part of officers giving rise to litigation are brought to notice.

5 The following statement shows the result of Court of Wards' litigation during the last three years —

	1896 97	1897 98	1898 99
Decided in favour of the Court of Wards	2,206	3,041	2,439
Ditto against the Court of Wards	162	183	186
Compromised, remanded or withdrawn	159	249	184
Percentage decided in favour of the Court of Wards	93·1	94·3	86·8

The percentage of successful appeals before the High Court was 80·7, against 60 in the previous year and 75 in 1896 97. This result is satisfactory. That in the Lower Appellate Courts was less so, only 56·6 per cent of the cases having been successful, against 76·5 in the preceding year. In the Courts of first instance the number of cases was large, 2,625 suits having been instituted. Of these, excluding cases compromised or withdrawn, 90·3 per cent were successful.

6 The following table shows the amounts realised under decrees in favour of Government during the year 1898 99 compared with the two preceding years —

	1896 97	1897 98	1898 99
Brought forward from last year	41,435	43,057	55,284
Decreed during the year	22,196	33,311	18,769
Total amount due	63,631	76,368	74,053
Amount realised	20,574	21,084	20,630
Percentage of amount recovered to total amount due	32·3	27·6	27·8

The percentage of realisations was practically the same as in the preceding year. The heaviest outstanding balances were in the districts of the 24-Parganas, Ranchi, Midnapore, Tippera, Darbhanga, Gaya, Faridpur, Chittagong and Backergunge. The explanations given of the short realisations show that in Midnapore, Gaya, Faridpur and Chittagong the success attained in realising amounts which were recoverable during the year was very small. A sum of Rs. 450 5 6 was distributed in rewards to officers in three districts whose special exertions led to the recovery of sums aggregating Rs. 3,800 6 9, which could not be realised in the ordinary way.

7 In Court of Wards' cases the realisations under decrees were worse than in either of the two preceding years, being only 26·3 per cent against 30·2 and 28·8. The attention of the Commissioners concerned will be drawn to the failure of the District Officers to submit returns for the estates mentioned in paragraph 72 of the Report.

8 The revised Civil Suit Rules, the issue of which has been delayed owing to the necessity of making certain references to the Accountant General on matters of account, will shortly be published.

9 The Lieutenant Governor regrets to observe that in almost every section of the work of the Legal Remembrancer's office there has been a distinct decline during the past year

ORDER—Ordered that a copy of this Resolution be forwarded to the Superintendent and Remembrancer of Legal Affairs and to the Solicitor to Government for information

Ordered also that a copy of this Resolution be forwarded to the Board of Revenue and to the Revenue Department of this Government for information

Ordered also that a copy of the Report and of the Resolution be submitted to the Government of India in the Home Department for information

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*

By order of the Lieutenant Governor of Bengal,

C W BOLTON,

Chief Secretary to the Govt of Bengal

RESOLUTION ON THE FINAL REPORT OF THE SETTLEMENT OF THE PALAMAU GOVERNMENT ESTATE

REVENUE DEPARTMENT—J AND REVENUE

Calcutta, the 20th July 1899

RESOLUTION—No 2423

READ—

The Final Report on the settlement of the Palamau Government Estate in the district of Palamau

Read also—

Letters No 288A, dated the 30th March 1899 from the Board of Revenue, No 329S dated the 21st February 1899, from the Director of Land Records, and No 746I R, dated the 16th November 1898, from the Commissioner of the Chota Nagpur Division, reviewing the Settlement Officer's Final Report

Letter No 569A dated the 15th June 1899, from the Board of Revenue, on the subject of the grant of pattas to the raiyats

The new settlement of the Palamau Government estate began to take effect from September 1896, but the report of the Settlement Officer, which bears date the 24th October 1897, reached Government on the 7th April 1899. It appears that the correction of the proofs was much delayed owing to the want of time on the part of the officer engaged on the work so that the final copies were not issued until August 1898. Considerable delay also occurred in the submission of the remarks of the Divisional Commissioner. The Lieutenant Governor, agreeing with the Board, is unable to regard the explanation offered as wholly satisfactory.

Notwithstanding certain inaccuracies noticed by the Commissioner of the Division, the Report with its appendices contains much interesting information relating to the physical features of the country, its agriculture, the habits and customs of the people, and other matters. But the accounts given in it of the traverse and cadastral survey, the preparation of the records, and the determination of the rates of rent are meagre, and much too little has been said of the valuable work done by the Deputy Commissioner, Mr W R Bright, who fully discussed every important question which came before Government in connection with the settlement, and by whom the proceedings were organised from the beginning, and practically the whole of the survey and record writing and some part of the attestation supervised.

2 The Government estate, the settlement of which forms the subject of the present report, lies in pargana Palamau, part of the district of the same name. This tract, a hilly and wild region, was conquered from its Chero rulers in 1773 A D. After several successive settlements made with the descendants of the old Rajas, the estate was purchased by Government in 1812 at an auction sale for arrears of revenue. In 1816 it was granted to the Raja of Deo, in the district of Gaya, as a reward for loyal services rendered, but was resumed in 1818 in consequence of oppression on the part of the Raja's agents, a remission of Rs 3,000 a year from the revenue of his Bihar estates being allowed to the Raja by way of compensation.

3 The native rulers of Palamau had alienated a large part of the pargana as *jagirs* and other tenures granted at quit rents, subject to a right of re-entry

in default of heirs male Government on acquiring the rights of the old Rajas did not resume these tenures After a searching enquiry made in 1893 94, they have been recognised as estates, permanent, heritable, and transferable and the right of Government to resume on failure of male heirs has been abandoned once for all The villages not so given away, known as *khalsa* or personal villages, constitute the Government estate, which has been settled raiyatwari from time to time, with thikadars to collect the rents from the raiyats

4 The last regular settlement was commenced in 1864 and completed in 1872 The total number of villages settled was 401 with a total area of 273,635 81 acres (or 427 55 square miles), out of which 30 villages were subsequently included in the Palamau Reserved Forests, while 12 were added to the roll by resumption or jungle clearing The terms of settlement of the several villages were so fixed as to expire simultaneously on the 31st March 1894, but, when the resettlement operations were in progress the existing settlement was extended to the 31st March 1896 in order to admit of the completion of the proceedings

5 Proposals for a resettlement of the estate were submitted to Government in September 1892, but the survey was not commenced until July 1893 The traverse survey was practically completed in the survey year 1893 94 Cadastral survey was commenced in November 1893, but, owing in great part to the slowness of the local *Kol* amins, was protracted till the end of the survey year 1894 95 In August 1895 Government decided that, in order to set back encroachments made by jagirdars or other tenure holders and to protect the Government estate from further encroachments, the external boundaries of all the *khalsa* villages should be surveyed and demarcated in accordance with the revenue survey of 1860, except where this had already been done in the course of the survey of the cultivated blocks This work was commenced on the 10th November 1895 and completed on the 12th June, 1896 The initial record writing was done by the survey amins under the supervision of Babu Rameshwar Prashad, and this officer also did some amount of attestation under the guidance of the Deputy Commissioner, Mr Bright, who had drawn up detailed rules for both *khanapuri* (initial record writing) and attestation The Settlement Officer, Mr D H E Sunder, joined on the 17th November 1894 The attestation work was completed in the survey year 1894 95, except for one village, which was dealt with in the following year Assessments were completed and announced to the raiyats by the end of April 1896 *Jumabandis* or rent rolls were published in August 1896 in accordance with the provisions of Act VIII (B C) of 1879, and extracts showing the details of the lands in each holding and the rent payable were distributed to the raiyats The submission of the final report was delayed till October 1897, in consequence mainly of the deputation of the Settlement Officer to famine—relief

By a notification of the 17th July 1894, all waste lands the property of Government in the *khalsa* villages, with the exception of lands used by the villagers for cultivation or habitation, had been declared "Protected Forests" Accordingly the Settlement Officer was required to mark off, in consultation with the local Forest officers, the village areas in blocks of a convenient shape, adding to the cultivated lands such quantity of waste land as would be sufficient for the needs of the villagers The blocks of waste land left out of these village areas, if of suitable size, were to form Protected Forests It seems, however, that the Settlement Officer failed to grasp the intention of Government, and his final report contains no mention of what he did in this matter After the close of the settlement operations, this work was entrusted to the Sub Deputy Collector Babu Rameswar Prashad, in charge of the Government Estate, who has completed it, and his report on the proceedings is being separately considered by Government

6 The Palamau Government estate as now settled comprises 399 villages The total area traversed, including jungle and waste, is 272,000 acres, or 425 22 square miles, of which 137,520 acres, or 203 93 square miles, from the occupied area, and have been cadastrally surveyed

The aggregate area, cultivated and culturable, including homestead, held by tenants is 65,546 acres, of which 56,278 51 acres are reported to have been found actually under cultivation. The Settlement Officer calculates the increase in cultivation since the last settlement at 221 per cent, taking the total cultivated area at that time to have been 17,511 44 acres. The cultivated area shown in Table III appended to Mr L R Forbes' Report of the last settlement is, however, 43,426 25 acres, and on this basis the increase in cultivation amounts to only 29 6 per cent. The discrepancy has been noticed by the Commissioner of the Division, and a copy of the explanation called for by him should be submitted to Government.

Of the total cultivated area 10,428 20 acres are double cropped. Rice occupies 23 84 per cent of the cropped area, while 54 39 per cent is covered by other food crops. The total irrigated area reported by the Settlement Officer is 8,558 58 acres. *Ahars*, or reservoirs made by throwing embankments across drainage hollows or across the natural slope of fields, constitute the principal source of irrigation. Mr Sunder has recommended the construction or improvement of certain *ahars*. The matter is receiving the attention of the Board and the local officers, and the Lieutenant Governor will be glad to have a report on the action taken to give effect to the Settlement Officer's recommendations.

7 A great part of the population of Palamau consists of aboriginal tribes who were not accustomed to the ordinary system of assessing each *bigha* of land at a certain rate of rent, known in Palamau as the *uttakar* system, which was, therefore, at the last settlement adopted only in the case of villages where cultivation was more permanent and the raiyats were of the more advanced castes. In the more jungly villages lying chiefly to the south, the system adopted was the *pariadar* system, which was the only one the aboriginal raiyats understood, and under which certain of the village lands, generally the lowlands fit for paddy, were divided into a number of *parias* or shares, each of which carried with it the right to cultivate a certain extent of *bhita* or upland free of rent. The *parias* were classified as first, second and third class, according to the soil contained in each, and a rent was fixed for the whole area according to the class in which the *paria* was placed.

For the new settlement it was at first decided that the *uttakar* system should be introduced wherever possible, it being left to the discretion of the Settlement Officer to continue the crude *pariadar* system where he failed to induce the raiyats to accept the other method. Subsequently, in the course of his proceedings, the Settlement Officer found that the general development of the country had been such that there was no need to settle the estate partly on the *uttakar* and partly on the *pariadar* system, and in accordance with a recommendation made in his Rate Report, Government decided that throughout the estate the settlement should be made on the *uttakar* system.

8 After considerable discussion it was finally decided that for purposes of assessment the two broad divisions of cultivated land, *dhankhet* and *bhita*, should each be divided into three classes. First class *dhankhet* is the lowest land on which most water remains, and which is therefore best suited to winter rice, the other two classes possess the same character but in lower degrees. First class *bhita* is the land on which *bhador* or autumn paddy, wheat, barley, maize and sugar cane are grown, lands yielding *marua* (*eleusine corocana*), linseed and gram have been classed as second class *bhita*, and those producing til or junjili (*sesamum indicum*), cotton and pulses have been classed as third class *bhita*. This classification is the same as that current in the adjoining districts of Hazaribagh and Lohardaga, but the Settlement Officer observes that while it appears to be understood by the more intelligent raiyats of the higher castes, the bulk of the people cannot grasp the distinction between the several classes.

Whilst the above classification of soils was retained unaltered from the last settlement, the similar triple division of villages was abandoned, and in its place a more complicated division, based on a variety of factors, was introduced.

In fixing the rates, Government was influenced by the consideration that Palamau is still in a backward condition, partly owing to the absence of rail ways, and the vicissitudes of the rainfall. Therefore it was decided for the most part to keep to the rates of the previous settlement, and in some cases those rates were even reduced.

9 The following table shows the class of tenants, the areas held by them and the rents assessed —

CLASS OF TENANTS	Number of tenants	Aggregate cultivated and aurable area held by each class	Aggregate area of aurable lands per holding	RENT—		Average rent per acre as now settled	REMARKS
				Actually paid by tenants at attestation	According to settlement.		
1	2	3	4	5	6	7	8
Settled raiyats	3 875	2, 65 84	Acres 7 23	Rs. 23 914 6 11	Rs. 91 702 11 0	Rs. 1 2 3	
Occupancy	1 134	11 703 90	9 80	10 988 6 5	15 245 0 0	1 4 10

The classification of raiyats into settled, occupancy and non occupancy raiyats has been made in accordance with the principles of the Tenancy Act, although that Act is not in force in the Chota Nagpur Division, and although occupancy rights are unknown in the *jaqirdari* villages. The large percentage of non occupancy raiyats shown above is due to the unstable disposition of the people. Besides the concession of occupancy rights, all the raiyats, whether rent paying or not, have for the first time been given *mahua* trees free of rent at the rate of two trees per raiyat in the northern and four in the southern villages. The flower of these trees, dried and preserved, forms a valuable article of food for the lower classes. The resident raiyats have also been allowed to hold their homestead lands rent free, the total area of land thus left unassessed being 991 51 acres, or an average of 0 19 acre per raiyat. Of the rent free holdings, the service tenures, which are resumable, are held on the distinct understanding that they will be retained in their tenures only so long as the raiyats are satisfied with them. The Lieutenant Governor agrees with the Commissioner and the Board in thinking that the lands comprised in the *chaukidari* tenures, amounting only to 29 acres, need not be resumed, and that the service tenures referred to in paragraph 97 of the final report need not be specially sanctioned since they are all resumable save those called *khairat*, which appear to be petty maintenance grants given by the former Chero Rajas to *jahirs*, Brahmans and others.

10 The total raiyat rental fixed at the last settlement was Rs 40,843. This by various means the *thikadars* or farmers increased to Rs 57,693, which was the rent actually paid as ascertained at attestation. The new rental being Rs 74,433, the increase on the attested rental amounts to 29 per cent. The Lieutenant Governor agrees with the Board in thinking that (paragraph 5, Board's report,) the incidence of the rent per acre, viz Re 1 2 3, is moderate. The increase in the rental is due chiefly to extension of cultivation and has been accepted by the tenants.

The cost incurred was as follows —

	Total cost.	Cost per acre of the area cadastrally surveyed			Cost per acre of the total area surveyed		
	Rs	Rs	A	P	Rs	A	P
Survey	79,165	0	6	9	0	4	8
Settlement	40,387	0	3	5	0	2	4
Total	1 19,552	0	10	2	0	7	0

The actual expenditure incurred, and the time occupied were, however, more than double those originally contemplated, this being due to the fact that the original estimates were based on the assumption that only 110 square miles would have to be cadastrally surveyed, whereas in reality the area was 294 square miles

11 To the rental of the estate should be added the revenue derived from the following species of trees —

(1) *Mahua trees* — Those in excess of the number allowed to the raiyats free of rent have been settled for the period of the settlement (15 years at 4 annas per tree in the northern villages and at 2 annas in the southern villages

(2) *Asan trees*, used for rearing silk cocoons, sold by auction annually by the Deputy Commissioner either for the whole estate or for groups of villages

(3) *Khair trees* used for the manufacture of *kath* or catechu and in growing lac The Deputy Commissioner has been left free to settle these trees from year to year to the best advantage The manufacture of *kath* involves the destruction of the trees It was therefore decided in 1896 that in villages where *khair* trees are numerous some of them might be allowed to be felled, but that in others it might not be advisable to allow such destruction, specially where the trees are used for lac cultivation *Khair* trees are used also for house posts and ploughs, and for making charcoal, and the Settlement Officer recommends that the destruction of these trees in the Government estate should be stopped altogether The Deputy Commissioner does not agree in this recommendation The Conservator of Forests will be requested to have the trees in question inspected, and to submit a report as to whether, looking to the rules relating to these trees in the reserved and protected forests, it would be inadvisable to give effect to the decision already arrived at by Government

(4) *Palas and Kusum trees* used in growing lac It was decided in 1896 that such of the trees as had already been entered in the raiyats' names in the khatians as being in their possession should be settled with them separately at the rates noted on the margin for one year, on the distinct understanding that they would be re settled with them or not as Government might determine on receipt of fuller information On this question and that of other lac bearing trees, the Lieutenant Governor awaits the report called for in paragraph 3 (e) of Government Order No 3292L R, dated the 17th August 1896

The excess *mahua* trees have been settled for a period of 15 years with the raiyats for Rs 3,270 per annum, the *palas* and *kusum* trees were settled for 1896 97 at Rs 10,087, and the revenue obtained from *kath* in that year was Rs 265 No revenue was obtained from silk cocoons in 1896 97

12 The term of settlement of the land revenue has been fixed at 15 years, commencing from the beginning of the Fasli year in September 1896 The kists fixed at the last settlement were 4 annas, due on the 28th October, 8 annas on the 28th January, and 4 annas on the 28th March, paid respectively from the sale proceeds of the *bhados* crops, of the paddy and other *khair* crops, and of the *rabi* crops Rents for *mahua* and lac bearing trees were payable on the 28th March along with the last kist of land revenue These kists have been continued, but it appears that a large balance generally remains uncollected at

the end of the financial year, owing presumably to the *rabi* crops not being ready for the market till the end of April, and *mahua* and lac till May. The Lieutenant Governor therefore accepts the recommendation of the Board and the local officers that the 4 anna instalment of land revenue paid from the sale proceeds of *rabi* crops should be fixed for the 28th of April, and that rents for *mahua* and lac bearing trees should be made payable in one instalment on the 28th of May. In view of the circumstances referred to a report is desired as to whether there is any need to make a similar change in the dates at present prescribed for the collection of land revenue in the district of Palamau.

13 The rents were formerly collected through *thikadars* or farmers who were paid a commission of 10 to 15 per cent. on the actual collections made by them, and were allowed certain privileges which were a source of considerable gain. In some villages, the *thikadar* also held the *munjhas*, or *nijole* lands, at village rates, but as he was entitled to hold these lands only so long as he might manage the village properly and treat the *rayats* well, he was precluded from acquiring any right of occupancy over them. It came to light that the *thikadars* generally had made no improvements in the estate, and had to a great extent violated the conditions of their leases. The system was therefore abolished and *khas management* introduced on the 1st April 1896, but the local officers have permission to settle with such individual *thikadars* as may have special claims to consideration on account of long ancestral connection with the village or of extensive improvements effected by them or by their predecessors.

14 No *pattas* have yet been issued, and the Settlement Officer is apparently not in favour of the grant of formal leases, seeing that the *rayats* are content with the extracts from the *jamabandi* already given to them. But under section 3 of the Chota Nagpur Landlord and Tenant Procedure Act I (B.C.) of 1879, every *rayat* is entitled on demand to receive a *patta* showing (1) the quantity and boundaries of the land, (2) the amount of annual rent, (3) the instalments in which it is to be paid, and (4) any special conditions of the lease, and the *fishrists* distributed do not appear to contain anything as to items (3) and (4). The Lieutenant Governor therefore accepts the recommendation of the Board and the Commissioner of the Division, that a *patta* should be given to every *rayat* who may demand it, and that should any village be hereafter let to a *thikadar*, a *patta* should be given to each *rayat* before possession is given to the farmer. He also approves the revised form of *patta* submitted with the Board's letter No. 569A, dated the 15th June 1899, subject to the following corrections, viz., the dates given in the preamble should be made to conform with the actual facts—the settlement having taken effect only from September 1896—and a column giving boundaries should be added to the statement at the end of the form, as the law requires this. If there is to be no general distribution of *pattas*, the Board are requested to consider what steps should be taken to make known to the *rayats* the *kists*, and the special conditions of the lease, such as those on the restriction of transfers, the term of sub leases, the supply of *rasad* and coolies, and the reservation of mineral rights and of the right to take up lands for public purposes, &c., which every *rayat* ought to be aware of.

15 As to the question of the maintenance of the settlement records, Government awaits the Board's opinion on the special report which the Director of Land Records is to submit on the question. It will be obvious to them that this question requires very early attention and decision.

16 In paragraph 29 of his final report and in the appendices, the Settlement Officer has recommended the construction or improvement of certain roads. The attention of the District Road Committee should be drawn to these proposals.

17 As suggested in paragraph 370 of the Report, arrangements should be made for the Sub Deputy Collector in charge of the estate and his *tahsildars* to annually inspect the permanent survey marks and submit a report thereon, and the Lieutenant Governor agrees with the Board and the Commissioner that the improvement of the markets should be made out of allotments from the management grant.

18 The Lieutenant Governor will await a report from the Commissioner of the Division showing what, if any, action it is proposed to take on the Settlement Officer's suggestions in Appendices XX and XXI to the final report as to the sale of skins of wild animals, the transfer of cubs, &c, to the Calcutta Zoological Gardens, and the preservation of certain species of birds. The report called for by the Commissioner concerning the manufacture and sale of country guns in Palamau should be submitted with his own remarks to the Judicial Department of this Government.

19 The Lieutenant Governor's thanks are due to Mr W R Bright for the excellent work done by him, as Deputy Commissioner, in organizing the proceedings and carrying them through the earlier and more difficult stages, to Mr L E Berkeley, who as officer in charge of the survey did excellent work, and to the Settlement Officer Mr Sunder, who by indefatigable industry, tact in dealing with the people, and mastery of detail, has carried out the settlement with marked success. The acknowledgments of Government are also due to Babu Rameswar Prashad for the good work done by him as Assistant Settlement Officer.

ORDER—Ordered that this Resolution be published in the *Calcutta Gazette* and that a copy of it be sent to the Board of Revenue and to the Conservator of Forests, Bengal.

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg Secy to the Govt of Bengal

**REPORT ON THE WORKING OF THE LICENSED WAREHOUSE
AND FIRE BRIGADE ACT 1893 IN CALCUTTA
DURING THE YEAR 1898 99**

No 3822M—The 22nd July 1899—The following report is published for general information

F A SLACK,
Offg Secy to the Govt of Bengal

No 527J, dated Calcutta, the 22nd June 1899

From—W R BRIGHT, Esq, c s, Chairman of the Corporation of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department

I HAVE the honour to submit the following report under section 41 of Act I of 1893 (B C) of the Warehouses in Calcutta for the year ended 31st March 1899

2 During the year under report the fees under section 10 of the afore said Act continue to be levied at $7\frac{1}{2}$ per cent on the annual valuation of the Warehouses

3 The following statement describes the result of applications for licenses —

APPLICATIONS		Total	Nature of applications	No sanctioned	No refused	No pending
Pending since last year	Received during the year					
1	2	3	4	5	6	7
61	314	375	Wood & Jute	312	4	23
7	35	42		33	4	5

4 During the year under review 40 licenses were issued for 1897 98 and 570 for 1898 99 The following is a statement of the aggregate amount of receipts during the year —

	Rs	A
License fees for 1897 98	1 053	8
Ditto for 1898 99	24,92	0
Mutation fees and fines	249	0
Total	26,227	8

5 Of 593 licenses for Warehouses in 1897 98, 450 were renewed, 29 cancelled as vacant or unoccupied or not assessable under the Act, while the license fees of 24 remained unutilised at the close of the year

6 The following statement shows the receipts and disbursements of the Warehouse Fund during the year 1898 99 —

RECEIPTS	Amount	Total	DISBURSEMENTS	Amount	Total
1	2	3	4	5	6
Tax on license plates	Rs A P 5 79 3 213 0 0	Rs A P 26 007 8 0	Balance brought in from the fire brigade (Rs 23 407 8 paid from General Fund)	Rs A P 2 706 0 0	Rs A P 22 706 0 0
Balance at commencement of the year			Balance at close of the year—		
Cash in the Bank of Bengal with Treasurer	23 43 8 0 0 0		Cash in the Bank of Bengal with Treasurer	24 495 0 9 38 0 0	
	23 43 8			24 531 0 9	
Due to General Fund	2 765 0 0	23 170 8 9	Due to General Fund	101 0 0	24 632 0 9
Total		4 338 0 9	Total		47 338 0 9

7 Appended is a list of Warehouses licensed in 1898 99

List of Warehouses other than Jute licensed in 1898-99

	11	55		13	80	82	41		91	0.90	50	11	WSW and SSW by S	111	0.76	Cloudy
	114			1	81	81	81	74	9	97.3	78.4	80	SW by S and SSW	81	0.2	Cloudy

The mean pressure of the seven days

21.544

The average pressure of the corresponding period for 24 years, Surveyor General's Office

29.509

The total number of hours of bright sunshine

39

The maximum possible number of hours of sunshine

93.1

The mean temperature of the seven days

82.4

The average temperature of the corresponding period for 24 years, Surveyor General's Office

83.4

The extreme variation of temperature

12.4

The maximum temperature

89.6

The highest velocity of the wind in one hour

13

The mean relative humidity

90

The average relative humidity of the corresponding period for 24 years, Surveyor General's Office

86

The total fall of rain from 16th to 22nd July 1899

2.2

The average fall of the corresponding period for 24 years, Surveyor General's Office

2.60

The total fall from 1st January to 22nd July 1899

49.37

The average fall of the corresponding period for 24 years, Surveyor General's Office

30.11

The mean pressure temperature &c are deduced from the traces of the Barograph and Thermograph, and from observations made at 10h 16h and 22h

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office.

The hygrometric readings are obtained from Tables III IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

o, overcast, g, gloomy, d, drizzling rain, p, passing temporary showers

METEOROLOGICAL OFFICE GOVT OF INDIA,

Calcutta, the 24th July 1899

GENERAL DEPARTMENT—(ECCLIASTICAL)

NOTIFICATION—No 2351

The 1st August 1899—The following notification of the Government of India in the Home Department is published for general information

F A SLACK,
Offg Secy to the Govt of Bengal

No 314, dated Simla, the 14th July 1899

NOTIFICATION—By the Government of India, Home Department

THE Governor General in Council is pleased to direct that the following shall be substituted for the last paragraph of Rule IX of the Rules for regulating grants for the building of churches, etc, published in Home Department Notification No 178(Ecclesiastical), dated the 21st May 1897 —

The Government grant will be found by multiplying the plinth area of the approved design, plus three times the area of the base of the tower, in cases in which a tower is admissible by a rate 25 per cent in excess of the local rate per unit of plinth area for ordinary single storied buildings

Provided that if any portion of the plinth area of the tower falls within the plinth area of the church, the portion included must be deducted from the total plinth area before applying the rate
